# TABLE OF CONTENTS

SPE 135808 Three Dimensional FEM Simulation and Parameter Study on Laden Torque of Interference Friction of PCP  
Liu He, X. D. He, H. A. Wu, X. X. Wang, G. Cao .......................... 1

SPE 135994 A Saskatchewan Field Trial to Better Understand Downhole Dynamics of PCP Systems  
S. G. Noonan, D. Studer, P. Skoczylas .............................. 8

SPE 136546 Case History of a Successful Progressing Cavity Pump Application in an Extremely Low Pressure Environment  
Blain Lewis, Dusty Daves, Gregg Skelton .......................... 21

SPE 136690 Improving Progressing Cavity Pump Performance Through Automation and Surveillance  
K. A. Woolsey ................................................................. 26

SPE 136738 An Innovative PCP Logging Technique for the Separated Layer Production Wells  
Liu He, Wang Fengshan, Shi Guochen, Cao Gang, Jiang Tao, Zhang Tianli .... 35

SPE 136816 The Application of ESPCP in China Offshore Oilfield  
Bao Feng, Weihin Meng, Anxia Li, Xiaocheng Zhang, Liangchuan Li, Bingchang Wu, Xin Li .... 44

SPE 136817 The Special Successful PCP Applications in Heavy Oilfield  
Bingchang Wu, Xin Li ....................................................... 51

SPE 137168 Multiphase Progressing Cavity Pumps Operated in Harsh Conditions  
L. Seince, D. Caballero, N. Chacín ...................................... 61

SPE 137184 Statistical Approach for PCP Standardizing  
Jose Gambosa ................................................................. 72

SPE 137208 Monitoring PCPs in 500F Steam Flood Applications  
Julian Cudmore, Khalid Al-Araimi ...................................... 82

SPE 137232 First Surface Driven PCP Application on Alaska’s North Slope  
James P. Young, William L. Mathews .................................... 86

SPE 137251 A Numerical Study on the Deformation of Even Thickness PCP’s Stator  
Jin Zhang, Wei Li, Shicheng Zhang, Tingwen Wu, Yuguang Zhang, Wanfu Zhou, Baojun Bai ...... 91

SPE 137264 Inherent Dangers in PCP Run-Life Field Data Analysis  
John Sheldon, Paul Skoczylas, Francisco Alhanati .......................... 101

SPE 137271 Reliability Improvement of Progressive Cavity Pump in a Deep Heavy Oil Reservoir  
Haiwen Wang, Daoyong Yang ............................................ 106

INFORMAL PRESENTATIONS

Lessons Learned and Best Practices in Colombia Oil Fields  
Daniel Ortega, Lina Salinas, Leonardo Granados .................................. 113

Progressive Cavity Pumps With Long Runtimes  
Ryan Payne ................................................................. 134

Understanding Factors Affecting Reliability of the All Metal PCP  
S. G. Noonan, W. Klaczek, K. Piers, L. Seince, M. Mitrakouloz ........... 157

Application of PCP Driven by Downhole Permanent Magnet Motor (PMM) – Experience in Harsh Well Conditions in Russian Fields  
Miso Solesa, Stanislav Shablyuk, Kelly Sikora, Andrey Morozov ........... 170
