2010 First International Workshop on Requirements@Run.Time

(RE@RunTime 2010)

Sydney, Australia
28 September 2010
# TABLE OF CONTENTS

Goal-Oriented Requirements Modelling for Running Systems ................................................................. 1  
   Y. Jian, T. Li, L. Liu, E. Yu  
Towards a Continuous Requirements Engineering Framework for Self-Adaptive Systems .......................... 9  
   N.A. Qureshi, A. Perini, N.A. Ernst, J. Mylopoulos  
Continuous Adaptive Requirements Engineering: An Architecture for Self-Adaptive Service-Based Applications ............................................................... 17  
   N.A. Qureshi, A. Perini  
Using Requirements Traceability Links At Runtime – A Position Paper ................................................. 25  
   A. Delater, B. Puech  
Run-Time Monitoring of System Performance: A Goal-Oriented and System Architecture Simulation Approach .................................................................................................................. 31  
   T. Hill, S. Supakkul, L. Chung  
Adaptive Monitoring of Software Requirements ......................................................................................... 41  
   A.J. Ramirez, B.H.C. Cheng, P.K. McKinley
