SPECTROSCOPY AND DYNAMICS OF ATOMIC CLUSTERS

012023 Dynamics of Na Clusters In/On Insulating Substrates ................................................................. 133
M. Bär, B. Faber, P-G. Reinhard, P. M. Dinh, E. Suraud, P. Wopperer

012024 The Self-Interaction Correction in the Time Domain ........................................................................ 141
P. M. Dinh, J. Messud, P-G. Reinhard, E. Suraud

012025 Nanoparticles Dynamics on a Surface: Fractal Pattern Formation and Fragmentation ................. 149
Veronika V. Dick, Ilia A. Solov'yov, Andrey V. Solov'yov

012026 20-nanogold $\text{Au}_{20}(\text{Td})$ Cluster and Its Hollow Cage Isomers: Structural and Energetic Properties ........................................................................................................... 160
E. S. Kryachko, F. Remacle

012027 Dynamics of Magnetic Nano-Particle Assembly ............................................................................... 168
V. N. Kondratyev

QUANTUM TRANSPORT

012028 Magnetic Flux Structures in Various Shaped Composite Structures with D- and S-wave Superconductors (d-dots) .................................................................................................................... 173
Masaru Kato, T. Koyama, M. Machida, Shuichi Kawamata, Takekazu Ishida

012029 Current Noise and Coulomb Effects in Superconducting Contacts .................................................. 181
Arte M. V. Galaktionov, Andrei D. Zaikin

012030 Intermediate Vortex States in Nanoscale Anti-Dots and Mesoscopic Superconductors .................. 189
K. Hirata, A. Thakur, S. Ooi, T. Mochiku

012031 Anomalous Non-Equilibrium Electron Transport in One-Dimensional Quantum Nano Wire at Half-Filling: Time Dependent Density Renormalization Group Study ........................................... 197
M. Okumura, H. Onishi, S. Yamada, M. Machida

012032 $\text{Mo}_6\text{S}_3\text{I}_6$ Molecular Wires: From One-Dimensional Electron Fluids to a Self-Organised Critical Self-Assembled Network ........................................................................................................... 204
C. Gadermaier, J. Srle, M. Uplaznik, D. Vengust, B. Bercic, D. Mihailovic

012033 Tunneling and Transport Dynamics of Trapped Bose-Einstein Condensates ................................... 210
V. O. Nesterenko, A. N. Novikov, E. Suraud, J. Kvastil

012034 Persistent Current Noise .................................................................................................................... 218
Andrew G. Semenov, Andrei D. Zaikin

012035 Field-Emission Current from Quantum System .................................................................................. 222
G. V. Shpatakovskaya

JOSEPHSON JUNCTIONS

012036 Electrodynamics and Intrinsic Josephson Effects in Multi-Gap Superconductors ............................ 226
T. Koyama, Yukihiro Ota, M. Machida

012037 Theory and Simulation of Electromagnetic Wave Emission from Intrinsic Josephson Junctions .......................................................................................................................................................... 232
M. Machida, Y. Ota, N. Sasa, T. Koyama, H. Matsumoto

012038 Experimental and Theoretical Investigation on High-Tc Superconducting Intrinsic Josephson Junctions .............................................................................................................................................. 240

012039 A Tunneling Hamiltonian Theory of $\pi$-$\sigma$ Transition in $d$-wave Superconductor/Ferromagnetic-Insulator Heterostructures ...................................................................................................................... 248
Shiro Kawabata, Satoshi Kashiwaya, Yukio Tanaka, Alexander A. Golubov, Yasuhiro Asano

012040 Theory of Josephson Effects in Iron-Based Multi-Gap Superconductor Junctions ............................ 255
Y. Ota, M. Machida, T. Koyama

012041 Sheet Current Model for Inductances Extraction and Josephson Junctions Devices Simulation ........ 263
M. M. Khapaev, M. Yu Kupriyanov

012042 Study of Charge-Phase Diagrams for Coupled System of Josephson Junctions ............................ 271
M. Hamdipour, Y. Shukrinov

012043 Peculiarities of Phase Dynamics of Coupled Josephson Junctions in CCJJ and CCJJ+DC Models ...................................................................................................................................................... 275
Y. U. M. Shukrinov, I. R. Rahmonov, M. E. L. Demery
