2010 8th International Conference on Supply Chain Management and Information

(SCMIS 2010)

Hong Kong
6 – 9 October 2010
# TABLE OF CONTENTS

## SUPPLY CHAIN AND LOGISTICS PERFORMANCE MEASURES AND METRICS

- A Cross-Border Workflow Management Framework for Measuring the Performance of Warehouse Operations .......................................................... 1
  H. Lam, K. Choy, S. Chung, T. Poon

- A Decision Model to Enhance Space Utilization of a Distribution Center based on a Performance-evaluated Architecture ................................................. 9
  C. Tang, H. Lau

- Contextual Factors for Supplier and Customer Integration on Product Performance ........................................................ 15
  R. Yam, A. Lau, E. Tang

- Entropy Theory based Analysis of Supply Chain Coordination Efficiency .............................................................................................................. 25
  Q. Xu, T. Cui, L. Miao

- Evaluating Operational Quality of a Supply Chain: Outsourcing Decisions ............................................................................................................. 33
  J. Chan

- Logistics and Supply Chain Strategies in Difficult Times ................................................................................................................................. 38
  Y. Bentley, Q. He, J. Boluarte

- Moving Freight Inside Cross Docking Terminals ................................................................................................................................. 46
  M. Maknoon, P. Baptiste

- Research on Supply Chain Performance Assessment Based on Least Squares Support Vector Machines .............................................................................. 52
  J. Chen, S. Zhao

- Session-Based Performance Test Case Generation for Web Applications ............................................................................................................. 57
  X. Quan, L. Ku

- Supply Chain Performance in the case of Decentralized Planning ................................................................................................................ 64
  M. Ogier, V. Cung, F. Mangione, J. Boissiere

- Sustainable Business Cycles: Some Findings from Sweden and the UK .................................................................................................................. 72
  B. Wagner, G. Svensson

- Systematic Innovation: A Successful Case to Create Innovative Idea for Power Transformer Overhaul ............................................................................. 79
  M. Li

- The Relationship Between Supplier Management and Firm's Performance: A Multidimensional Perspective ...................................................................... 82
  D. Prajogo, M. Chowdhury

## LOGISTICS INFORMATION SYSTEMS

- A Co-design Model for An Information System Project In PakYuenTong Traditional Medicine Fty Ltd ............................................................................. 89
  K. Yuen, M. Tam, K. Chu

- A Fuzzy Logic-based and Hybrid Dispatching Policy for Interbay Material Handling System in 300mm Semiconductor Manufacturing System ......................................................................................................................... 96
  L. Wu, G. Zhang, Y. Sun, J. Zhang

- A RFID-based Decision Support System for Food Receiving Operations Assignment .................................................................................................... 102
  S. Lao, K. Choy, Y. Tsim, T. Poon

- A Simulation Study of a Two-echelon Apparel Supply Chain with Forecasting Error .................................................................................................. 109
  A. Dong, L. Yu, T. Liu, Q. Miao

- A Study on The Structure of Information Platform for Virtual Logistics Based on Agent ................................................................................................ 115
  Y. Guan, K. Wang, D. Jiang, L. Zhang

- Acceptance of E-cash and Usage Implications of Associated System: The Case of Mobile-Online Gaming Services ...................................................................... 124
  E. See-To, J. Westland

- Agent Based Production Planning and Scheduling System for Networked Manufacturing System .................................................................................. 133
  Q. Zhu, L. Wu, J. Zhang

- An Agent-Based Simulation Application on a Multi-Agent Firefighting and Rescue System ................................................................................... 138
  Y. Lu, X. Yang, X. Cui
Analysis of Information Flow Control in Military Supply Chain Management................................................................. 143
K. Wang, D. Jiang, Y. Guan, P. Yao

Customer Order Scheduling in Parallel Batch Processing with Splitting-Merging Procedure .................................................. 147
G. Huang, M. Zhang

Design of a Simulation Package to Enhance Student Learning in Managing Warehouse Resources............................................ 152
E. Yiu, E. Choy, K. Choy

Design of an Inventory Order Management (IOM) System........................................................................................................ 158
S. Yung, M. Tam, K. Chu

Design on Method of Statistical Process Control (SPC) Based on RFID Technology ................................................................. 167
J. Li, Q. Zhang, B. Li

Effect of Self-Service Technologies of the Low-cost Airlines on Customer Loyalty................................................................. 172
M. Chuang, H. Chan, S. Chung, W. Wang

Efficacy of IT/IS Deployment in Small- and Medium Enterprise in China................................................................................ 177
S. Tam, T. Barnes, K. Choy

Enhancing the Information Transmission for Pharmaceutical Supply Chain Based on Radio Frequency Identification (RFID) and Internet of Things...................................................................................................................... 184
S. Ting, S. Kwok, A. Tsang, W. Lee

How Much Does It Cost to Make It?: Product Costing in a Chinese Small Manufacturing Company........................................... 189
N. Tu, D. Zhang

Impact of Service-Oriented Architecture on Service Supply Chains............................................................................................ 198
K. Nantaburom, H. Chan, S. Chung, F. Chan

Negative User Adoption Behaviors of Mobile Commerce: An Empirical Study from Chinese College Students................................. 203
I. Lai, D. Lai

Providing Decision Support Functionality in Warehouse Management Using the RFID-based Fuzzy Association Rule Mining Approach.................................................... 209
G. Ho, K. Choy, T. Poon

Quality Assurance Inspection in Supply Chain Production Systems.................................................................................................. 216
L. Chen, X. Pang

Realization of RFID Resolution Service Using “EPCIS Directory + PML” Mode with Structured Cache........................................... 221
H. Deng, Y. Chen

Research on Test Data Generation Based on Modified Genetic and Simulated Annealing Algorithm.......................... 225
L. Yu, L. Lu

Supply Chain Integration, Information Sharing and Supply Chain Visibility-The remedy for Supply Chain Uncertainty in Australian Organisations ................................................................. 228
K. Mahadevan, P. Samaranayake, K. Matawie

System Dynamics Application in Analyzing the Schedule Risk Influence on Project Portfolio .................................................... 237
R. Liu, Z. Ye

The Application of Gray Comprehensive Evaluation in the Evaluation of Logistics Service Supply Chain Performance........................................... 243
J. Li, J. Ye, B. Li

The Trend of Green Supply Chain Management Research(2000-2010) - A Text Mining Analysis...................................................... 248
S. Wu, J. Guo

Using Cluster Analysis in Persona Development......................................................................................................................... 254
N. Tu, X. Dong, P. Rau, T. Zhang

Using Outdoor Public WiFi and GPS Integrated Method for Position Updating of Knowledge-based Logistics System in Dense High Rise Urban Environments................................................. 259
E. Mok

Warranty Failure Analysis in Service Supply Chain: A Multi-agent Framework............................................................................. 263
V. Kumar, N. Mishra, V. Kumar, F. Chan, B. Gnanasekar

SYSTEMS APPROACH TO SUPPLY CHAIN MODELING

A Filter-and-fan Based Heuristic for the Scheduling Problem of Parallel Batch-processing Machines with Deterioration Consideration and Non-identical Job Release Times.............................................................. 269
Y. Meng, L. Tang

A Heuristic Approach for the Open Capacitated Arc Routing Problem..................................................................................... 275
R. Liu, Z. Jiang, N. Geng, T. Liu

A Multi-Commodity Production and Distribution Model in Supply Chain.................................................................................. 281
B. Zhang, L. Qi, E. Yao
A New “Slotting-Fee-Based” Contract to Coordinate a Retailer-Dominant Newsvendor-Product Channel with Sales Effort Effects
Y. Wang, H. Lau

A Novel Clustering-based Approach for the Location of Multi-logistics Centers
Q. Ruan, L. Miao, Z. Zheng, Q. Ruan

A Stock Modulation System for Managing and Fulfilling New Demand Chain Deployment
C. Lu, K. Choy, S. Tam, S. Lao

A Study of Short Term Forecasting of the Railway Freight Volume in China using ARIMA and Holt-Winters Models
Y. Guo, X. Shi, X. Zhang

An Improved Ant Colony Optimization Algorithm for the Vehicle Routing Problems with Time Windows
B. Wang, H. Yu

Analysis on the Costs of Railway Freight Linkage Price
Y. Lei, S. Qin

Application of BP Neutral Network Based on Real-coded Accelerating Genetic Algorithm in the Selection of Distributor
S. Yang, X. Wang

Applying Fuzzy AHP to Select an Automatic Container Number Identification System in Port Terminals
S. Chao, Y. Lin

Co-ordination in a Single-vendor Multi-buyer Supply Chain by Synchronizing Delivery and Production Cycles with Trade Credit Policy
C. Chan, Y. Lee

Design and Organization of Railway Freight Transportation Products under the Separation of Passenger and Freight Traffic
H. Li, S. He

Design of Logistics Costs Analyzer to Formulate Distribution Routes for Freight Forwarders
T. Poon, K. Choy

Developing Green Intellectual Capital in companies by AHP
C. Liu

Dynamic Vendor Selection based on Fuzzy AHP
S. Koul, R. Verma

Evolution of Global Container Operator Efficiency: A DEA Approach
T. Yip, X. Sun, J. Liu

Factors and Barriers Affecting the Implementation of CRM-Taiwan Banking Industry
N. Malhotra, C. Ho

Frequent Itemset Mining to Generate Initial Solutions for Simulation-Based Optimization of Warehouse Product Placement
C. Dudas, T. Aslam, A. Ng

Geometric Approach for Logistics Outsourcing Contracting
Y. Mai, L. Miao, C. Teo, Q. Xu

Hybrid Transportation in a Coordinated Single-vector Multi-buyers Supply Chain
H. Yeung, C. Chan, Y. Lee

Impact of Environmental Factors in Logistics Location Decisions: The Case of CO2-emitting Companies
Y. Ma, C. Fredouet

Improvement of Particle Swarm Optimization: Application of the Mutation Concept for the Escape from Local Minima
H. Choi, S. Ohmori, K. Yoshimoto, H. Ohtake

Key Performance Indicators for the Assessment of Suppliers in the Retail of Pharmaceutical Products - Comparative Research in the Region of Western Balkans (Albania, Macedonia and Kosovo)
G. Tenchov, F. Missopoulos

Location Preference of Egyptian Firms for Logistics Hub in Southeast Africa
I. El-Nakib

Logistics Service Innovation Based on the Service Innovation Model for ILSP
Y. Shi, C. Hu, Z. Zhang, G. Shu

Meeting Response Time Requirement in Spare Part Support Operation from Inventory Management Perspective
D. Mo, M. Tseng, R. Cheung

Multi-Objective Optimization for Supply Chain Management: A Literature Review and New Development
T. Aslam, A. Ng
