2010 9th Annual Workshop on Network and Systems Support for Games

(NetGames 2010)

Taipei, Taiwan
16 – 17 November 2010
# TABLE OF CONTENTS

A Measurement Study regarding Quality of Service and its Impact on Multiplayer Online Games ........................................ 1
   Michael Bredel, Markus Fidler
Interactivity Improvement of Group Synchronization Control in Collaborative Haptic Play with Building Blocks ........................................ 7
   Pingguo Huang, Yutaka Ishibashi, Norishige Fukushima, Shinji Sugawara
ARIVU: Power-Aware Middleware for Multiplayer Mobile Games ............................................................................. 13
   Bhojan Anand, Karthik Thirugnanam, Le Thanh Long, Duc-Dung Pham, Akhihebbal L. Ananda, Rajesh Krishna Balan, Mun Choon Chan
Energy-Efficient Gaming on Mobile Devices using Dead Reckoning-based Power Management ........................................ 19
   R. Cameron Harvey, Ahmed Hanza, Cong Ly, Mohamed Hefeeda
The Near-term Feasibility of p2p mmog’s .................................................................................................................. 25
   John L. Miller, Jon Crowcroft
A Protocol for distributed collision detection .................................................................................................................. 31
   Tom Ching Ling Chen, Clark Verbrugge
CAMEO: Enabling Social Networks for Massively Multiplayer Online Games through Continuous Analytics and Cloud Computing ............................................................................. 37
   Alexandru Iosup, Adrian Lascateu, Nicolae Tapus
Cheat Detection Processing: A GPU versus CPU Comparison ..................................................................................... 43
   Håkon Kvale Stensland, Martin Oinas Myrset, Carsten Griwodz, Pål Halvorsen
Sealing Online Games with Adaptive Interest Management in the Cloud ........................................................................... 49
   Mahdi Tayarani Najaran, Charles Krasic
QoE Assessment of Interactivity and Fairness in First Person Shooting with Group Synchronization Control ................................................................................................................................. 55
   Yoshiaki Ida, Yutaka Ishibashi, Norishige Fukushima, Shinji Sugawara
QoE Assessment in Networked Air Hockey Game with Haptic Media .................................................................................. 57
   Yuji Kusunose, Yutaka Ishibashi, Norishige Fukushima, Shinji Sugawara
Improving Online Game Performance over IEEE 802.11n Networks ........................................................................... 59
   Hsiang-Ho Lin, Chih-Yu Wang, Hung-Yu Wei
User Behavior, Social Networking, and Playing Style in Online and Face to Face Bridge Communities ........................................ 61
   Mihaela Balint, Vlad Posea, Alexandru Dimitriu, Alexandru Iosup
A Real-World Achievement System ............................................................................................................................... 63
   Tonio Triebel, Sascha Schnaufer, Benjamin Guthier, Hendrik Lemelson, Wolfgang Effelsberg
Unsynchronized Multiplayer Networked Games: Feasibility with Time Rewind ........................................................................ 65
   Hesam Rahimi, Saurabh Ratti, Ali Asghar Nazari Shirehjini, Shervin Shirmohammadi
Artificial Neural Network for Bot Detection System in MMOGs ...................................................................................... 67
   Kusno Prasetya, Wu Zheng da
Integration of P2P and Clouds to Support Massively Multiuser Virtual Environments ............................................... 69
   Emanuele Carlini, Massimo Coppola, Laura Ricci
Time Management for Virtual Worlds based on Constrained Communication Model .............................................. 75
   Omar Farooq, John Glauert
Distributed Scene Graph to Enable Thousands of Interacting Users in a Virtual Environment ........................................ 81
   Dan Lake, Mic Bowman, Huaiyu Liu
Progressive Cache Replacement for Massive Peer-to-Peer WebVR Worlds ........................................................................ 87
   Wei Wang, Jin-Yuan Jia, Yang Yu, Shun-Yun Hu
Author Index
