27th Annual International Bridge Conference 2010

(IBC 2010)

Pittsburgh, Pennsylvania, USA
6 - 9 June 2010

# IBC 2010 Technical Program by Session

## Keynote/Plenary

**Monday, June 7, 2010**

**Chair:** Jeffrey J. Campbell, P.E., International Bridge Conference® 2010 General Chair

<table>
<thead>
<tr>
<th>Event</th>
<th>Description</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Cable Stayed Bridges: The way forward</strong></td>
<td>Peter R. Taylor, Ph.D., P.Eng., P.E., Buckland and Taylor, Ltd., North Vancouver, BC, Canada</td>
<td></td>
</tr>
<tr>
<td><strong>Infrastructure Challenge</strong></td>
<td>Jim J. Moynihan, Balfour Beatty Infrastructure, Inc., Atlanta, GA</td>
<td></td>
</tr>
<tr>
<td><strong>Overview of the Maryland State Highway Administration</strong></td>
<td>Neil J. Pedersen, Administrator, Maryland State Highway Administration, Baltimore, MD</td>
<td></td>
</tr>
</tbody>
</table>
StateStat: The State of the State of Maryland Bridges
Robert Healy, Deputy Director, Office of Structures, Maryland State Highway Administration, Baltimore, MD

Woodrow Wilson Bridge Project: “Water in the Ducts”
James Ruddell, PE, CCM, PB Americas, Inc., Portland, OR

Concrete Arch Bridge over Rock Creek
Paul J. Alterini, P.E., Parsons Transportation Group, Baltimore, MD

I-95 Express Toll Lanes
Dave LaBella, P.E., Maryland Transportation Authority, Baltimore, MD

Research Efforts to Test and Detect Chlorides in Concrete and their Effects on Durability and Strength
Jeff Robert, Maryland State Highway Administration, Baltimore, MD

Smart Aggregate - A Chloride Detection System
Rengaswamy (Srini) Srinivasan, The Johns Hopkins University, Applied Physics Laboratory, Laurel, MD

Accelerated Bridge Construction: The Replacement of MD 362 over Monie Creek
William N. Pines, P.E., Maryland State Highway Administration, Baltimore, MD

Preserving the Bay Bridge
Geoffrey V. Kolberg, P.E., Former Maryland Transportation Authority Chief Engineer, STV, Inc., Baltimore, MD

The American Legion Bridge, MD No. 1510000, I-495 over Potomac River
Cecil W. Kincaid, P.E., Maryland State Highway Administration, Baltimore, MD

Curtis Creek Bascule Span Rehabilitation
Dan Williams, P.E., Maryland Transportation Authority, Baltimore, MD; Scott Reynolds, P.E., Hardesty & Hanover, LLP, Annapolis, MD

Four Span Bridge on MD 32 over Liberty Reservoir
Mark Glass and Rod Thornton, Maryland State Highway Administration, Baltimore, MD

Span Replacement of MD 90 over Assawoman Bay
William N. Pines, P.E., Maryland State Highway Administration Structures, Baltimore, MD

The 4th Street Bridge - Crossing the Pueblo Rail Yard with Colorado's Longest Highway Span
John Dvorak, P.E., FIGG, Pueblo, CO; Karen Rowe, P.E., Colorado Department of Transportation, Region 2, Pueblo, CO; Steve Fultz, P.E., FIGG, Denver, CO

Fantasy Harbour Bridge

Design and Construction Check of the Astana Arch Bridge
(Not Available at Time of Publication)
Alexandre Chaperon, Advitam, Vélizy Cedex, FRANCE

The George Street Bridge Over Route 18 and Boyd Park

Analysis and Design of the New St. Croix River Extradosed Bridge
Preston D. Vineyard and Darren Vian, Ph.D., P.E., Parsons Brinckerhoff, New York, NY

Replacement of the Hillery Street Bridge over the Passaic River, Passaic County, NJ
Bruce Karalius, P.E., Greenman-Pederson, Inc., Lebanon, NJ; Aurelia Mayer, Passaic County Engineer, Paterson, NJ

Seismic Performance of Precast Bridge Columns with Energy Dissipating Joints
Sarira Motaref, PhD student of Earthquake and Structural Engineering Research Assistant, University of Nevada, Reno, NV
Design, Construction and Organization of a Major Sea Crossing in Korea
Andrew Yeoward and Don Fraser, Halcrow Group Ltd, Swindon, Wilts, UK; Koo Im Sig, Daewoo E & C Ltd, Busan, Korea

US62/641 Tennessee River Bridge - Innovative Long-Span Design
C. Tony Hunley, P.E., S.E. and Don Mills, P.E., S.E., ENTRAN, PLC, Lexington, KY

Design of Indian River Inlet Bridge
Benjamin Soule, International Bridge Technologies, San Diego, CA; Eric Nelson, AECOM Transportation, Nashville, TN

Comparison of Characteristics of Some Unique Cable-Stayed Bridges under Construction in Korea
Young-Jae Seo, Kyoung-Jae Lee, Jae-Hong Kim, Daelim Industrial Company, Seoul, South Korea

The Amelia Earhart Tied Network Arch Bridge
Natalie McCombs, P.E., S.E. and Frank Blakemore, P.E., HNTB, Kansas City, MO; Mark Hurt, P.E., S.E., Kansas Department of Transportation, Topeka, KS

The Geometry Control of Sepoong Bridge: A Curved Cable-Stayed Bridge
(Not Available at Time of Publication)
Jung-Min Nam, Joong-San Ahn, Jung-Nam Lee, and Jae-Hong Kim, Daelim Industrial Company, Ltd., Seoul, South Korea

Main Bridge Design and Construction Innovations of the Autoroute A-25 Project
Thomas Spoth, P.E., Joseph Viola, P.E., Augusto Molina, P.E., and Seth Condell, P.E., Parsons, New York, NY
Rehabilitating the Shippingport Bridge for the Present and Future
John Cravotta, P.E., HDR Engineering, Pittsburgh, PA; Shawn Tunstall, P.E., H.W. Lochner, Inc., Cranberry Township, PA; Ian Hodgson, P.E., SE, ATLSS Center, Lehigh University, Bethlehem, PA; Douglas Thompson, P.E., Pennsylvania Department of Transportation - District 11-0, Bridgeville, PA..............................571

Rankin Bridge Rehabilitation - Challenges & Innovations
Glenn D. Stickel, P.E. and Robert Michalko, P.E., SAI Consulting Engineers, Inc, Pittsburgh, PA.................................................................579

Corpus Christi Harbor Bridge Rehabilitation

"Floating" Jointless Steel Grid Deck for Walt Whitman Bridge

Fatigue Investigation and Retrofit of Girard Point Bridge in Philadelphia
(Not Available at Time of Publication)
Y. Edward Zhou, URS Corporation, Hunt Valley, MD; John Lang, Jason Beecher, Rob Cunningham, and Mark Guzda, URS Corporation, Fort Washington, PA.................................610

An Auxiliary Support System for Corroded Steel Girder Hinges
(Not Available at Time of Publication)
Craig Snively, P.E. and Travis Butz, P.E., Burgess & Niple, Inc., Columbus, OH.................................611

Westfield Great River Bridge
Mark Ennis, P.E., P.M.P. and Kara Crawford, P.E., STV Incorporated, Boston, MA.................................................................612
**Design Part 2**

Tuesday, June 8, 2010

*Chair: Carl Angeloff, P.E., Bayer Material Science, LLC, Pittsburgh, PA*

Elastomeric Bearings: Effects of Specification Changes on Design and Construction  
*John Stanton, University of Washington, Seattle, WA* .................................................................626

The Point Marion Bridge: Structural Aspects of a New Truss Design  

Replacement of the Northbound Whitestone Expressway Bridge over Flushing River  
*James A. Bager, P.E. and Daniel Wan, P.E., Hardesty & Hanover, LLP, New York, NY; Michael Bergmann, P.E., John Elias, P.E., John Kwok, P.E., New York State Department of Transportation, Long Island City, NY* .................................................................646

Design and Construction of the Curved and Severely Skewed Steel I-Girder East-West Connector Flyover Ramp over I-88  
*Brandon Chavel, Ph.D., P.E. and Lance Peterman, P.E., S.E., HDR Engineering, Inc., Chicago, IL; Caahlen McAtee, P.E., Illinois State Toll Highway Authority, Downers Grove, IL* .................................................................654
Integrated Bridge Inspection and Management System for State of West Virginia
(Not Available at Time of Publication)
Jeff Gula, West Virginia DOT/DOH - Maintenance Division - Bridge Management Section, Charleston, WV

United States Fish & Wildlife Service Bridge Safety Program
Ronald R. Begin, P.E., U.S. Fish & Wildlife Service, Arlington, VA

Bridge Information Modeling of Quincy Avenue Bridge: A Case Study of BrIM for Project Delivery throughout the Bridge Life-Cycle
Stuart Chen, Hanjin Hu, Qiang Gao and Il-Sang Ahn, University at Buffalo, Buffalo, NY; Arun Shirole’, S & A Shirole’ P.C., Minneapolis, MN

AREVA Transportation Project
(Not Available at Time of Publication)
Bryan Spangler, P.E. and Ronald Ladyka, Michael Baker Jr, Inc, Harrisburg, PA

Introduction to the Maintenance Specification for Long Span Cable-Supported Bridges in Jiangsu China
Congming Zhu and Yufeng Zhang, Ph.D., Jiangsu Transportation Research Institute, Co. Ltd, Nanjing, Jiangsu Province P.R. China
Bridge Rehabilitation 2

Tuesday, June 8, 2010

Chair: Calvin Boring Jr., Trumbull Corporation, Greensburg, PA

Tendon Investigation and Grout Injection Repairs for the Jamestown-Verrazzano Bridge
(Not Available at Time of Publication)
Michael Abrahams, P.E. and Steven Kaufman, P.E., Parsons Brinckerhoff, New York, NY; Ahmad El-Beik, Parsons Brinckerhoff, Boston, MA; Paul Fisk, NDT Corporation, Worcester, MA.................................................................689

Shear Capacity Testing and Assessment of Corrosion Damaged Reinforced Concrete Beams
William Farrow, III, P.E., Gannett Fleming, New York, NY ; Christopher Higgins, Ph.D., P.E. and O. Tugrul Turan, Oregon State University, Corvallis, OR.................................................................690

Grand Concourse Bridge over Metro-North Railroad
(Not Available at Time of Publication)
Christopher Mele, P.E., P.M.P and Porfirio Lantigna, P.E., Michael Baker Engineering, Inc., White Plains, NY.................................................................697

Existing Simple Steel Spans Made Continuous, a Retrofit Scheme for the I-476 Bridge over the Schuylkill River
John Milius, P.E. and Daniel Griffith, P.E AECOM, Philadelphia, PA.................................................................698

Fatigue Evaluation and Enhancement of a Modular Steel Orthotropic Deck
(Not Available at Time of Publication)
Sougata Roy, Ph.D. and Yeun Chul Park, Lehigh University, ATLSS Engineering Research Center, Bethlehem, PA.................................................................706

Critical Member Removal and Load Redistribution of a Deteriorated Truss Bridge
Lynsey D. Reese, Virginia Polytechnic Institute and State University, Blacksburg, VA; Daniel G. Linzell, The Pennsylvania State University, University Park, PA ....................................707
Analysis on Longitudinal Cracks of Prestressed Concrete Hollow Slab Beam Bridge
Zhu Xiaowen, Zhang Yufeng and Peng Yousong, Jiangsu Transportation Research Institute Co., Ltd, Nanjing, Jiangsu, China; Yuan Aiming, Hohai University, Nanjing, China

Stability Analyses and Determination of Limiting Load Capacity of Washington Avenue Bridge Girders
(Not Available at Time of Publication)
Sougata Roy, Lehigh University, ATLSS Engineering Research Center, Bethlehem, PA; John Milius, AECOM, Philadelphia, PA

Investigation of Cracks in the Web of a Horizontally Curved Twin Box Girder Bridge
Jian Huang, Ph.D., P.E. and R. Wayne McLennon, P.E., TranSystems Corporation, Fort Lauderdale, FL; Anthony Koloze, E.I., TranSystems Corporation, Cleveland, OH

Barge Impact Design of Highway Bridges Over Inland Waterways
Joseph J. Romano, P.E., Ling Zhao, P.E., Yong-Xian Chen, P.E., Michael Baker Jr., Inc., Hamilton, NJ; Terrence Tiberio, P.E., Michael Baker Jr., Inc., Moon Township, PA; Aaron Stover, P.E. S.E., Michael Baker Jr. Inc., Louisville, KY

Use and Performance of Epoxy-Coated Reinforcing Steel over 37 years
David McDonald, Epoxy Interest Group of CRSI, Schaumburg, IL
Launch of Structural Steel for the Athabasca River Bridge
Matthias Schueller, Matthew Bowser, and Prabhjeet (Raj) Singh, Infinity Engineering Group Ltd., North Vancouver, Canada, and Brad Gunnlaugson, Surespan Construction Ltd., North Vancouver, Canada

I-76 Allegheny River Bridge - Preserving the Environment with Pennsylvania's Longest Concrete Segmental Span
Garrett Hoffman, P.E., FIGG, Exton, PA; Gary Graham, P.E., Pennsylvania Turnpike Commission, Harrisburg, PA

Design and Construction of Segmental Bridge in Algeria East-West Corridor

Innovative Applications of Precast Concrete to Complex Bridge Projects in Colorado
Gregg A. Reese, P.E., Summit Engineering Group, Inc., Littleton, CO

Roll-out of the Clifton Avenue and Nesbitt Street Bridges over New Jersey Transit
(WNot Available at Time of Publication)
Wendy Haugeto, Michael Baker Jr., Inc., Hamilton, NJ

The Successful Implementation of Florida's First Post-Tensioned Duct Couplers
Timothy Barry, P.E., Reynolds Smith & Hills CS, Inc, Rockledge, FL; Robert Bennett, LEED AP, Reynolds Smith and Hills CS, Inc, Jacksonville, FL

Temporary Works In Large Construction Projects - Responsibilities and Liabilities
Martin Kendall, P.E., STV Incorporated, New York, NY
Roll-in/Float-in Combination Truss Bridge (NY Rte 270 over the Erie Canal)
Robert A. Cisneros, Robert G. Urban, and Ronald D. Medlock, High Steel Structures, Inc., Lancaster, PA .................................................................792

Four Bridges Completely Replaced and Opened in an Average Closure Time of Seven Hours
Jason Klophaus, S.E., Michael Baker Jr., Inc., Salt Lake City, UT ; Josh Sletten, S.E., Utah Department of Transportation, Salt Lake City, UT .................................................................802

Rail Bridge Replacement using Temporary Track Supports and Precast Concrete
Michael J. McAtee, P.E. and James E. Maccariella, Ph.D., P.E., Urban Engineers, Inc., Cherry Hill, NJ; Robert J. Lund, Jr., P.E., Southeastern Pennsylvania Transportation Authority (SEPTA), Philadelphia, PA .................................................................808

Laboratory Testing of Transverse Connections for Use in Accelerated Bridge Construction
J. Logan Julander and Hugh Boyle, Michael Baker Jr., Inc., Midvale, UT ;
Marvin W. Halling, Paul J. Barr, and Scott D. Porter, Utah State University,
Logan, UT ..........................................................................................................................814

Development and Effects of Accelerated Construction Method for Overpasses Using Steel Bridges with Steel Spread Foundations
Yuji Mishima, Kazuhiro Fukumoto, and Yasumi Wakabayashi Hitachi Zosen Corporation, Osaka, Japan ........................................................................................................821

Rehabilitation of the Northbound and Southbound Bruckner Expressway Bridges as Easy as A, B, C (Accelerated Bridge Construction)
Marco Buyson, P.E. and Mohammad Shams, Ph.D., HDR Engineering, Inc., New York, NY ................................................................................................................829

Short Span Innovative Bridge Design Choices
Sevak Demirdjian, P.E. and Olivier Joly, P.E., SNC Lavalin Inc., Montreal,
Quebec, Canada ...............................................................................................................838
Bridge Maintenance
Wednesday, June 9, 2010
Chair: Louis J. Ruzzi, P.E., Pennsylvania Dept. of Transportation, Bridgeville, PA

Testing of Very Old Cathodic Protection Systems on Ohio Bridge Decks
Jack Bennett, J.E. Bennett Consultants, Inc., Chardon, OH; Thomas Turk and Matt Sexton, De Nora Tech, Chardon, OH .................................................................844

An International Approach to Detailing for Safety, Serviceability, and Sustainability in Bridge Design
Meghann Valeo and Harry A. Capers, Jr., P.E., Arora and Associates, P.C., Lawrenceville, NJ.................................................................849

A Vehicle mounted Bridge Deck Scanner for Internal Condition Assessment of Concrete Bridge Decks
(Not Available at Time of Publication)
Yajai Tinkey, Ph.D., P.E., Pat Miller, and Larry Olson, Olson Engineering, Inc, Wheat Ridge, CO ........................................................................................................857

Market Street Bridge and Chestnut Street Bridge Rehabilitation
Leon Lung-Yang Lai, Ph.D., P.E., S.E. and Wan-Shu Chang, Ph.D., P.E, Specialty Engineering, Inc., Bristol, PA.........................................................................................858
Walkway over the Hudson: A Century Old Marvel, Derelict for Decades, Returned to Glory in 18 Months

(Not Available at Time of Publication)

Conceptual Design and Cold Weather Challenges of The Fort Edmonton Footbridge Over The North Saskatchewan River
Alex Harrison, P.E., CH2M HILL, Sacramento, CA; Brendan Gill, P.E., S.E. and Joe Showers, P.E., CH2M Hill, Denver, CO; Gary Kriviak, P. Eng. CH2M HILL, Edmonton, Alberta, Canada

Restoration of a Historic Phoenix Column Truss Bridge
Nathan W. Buttorff, P.E., Pennoni Associates Inc., Wilmington, DE
Simplified Methods for Triage Evaluation of Gusset Plate Connections
Jeffrey W. Berman, Aaron Olson, Bo-Shiuan Wang, Charles W. Roeder, Dawn E. Lehman, University of Washington, Seattle, WA .................................................................882

Effect of Pile Orientation in Skewed Integral Abutment Bridges
Rabih Najib, Ph.D., P.E., Alpha Corporation, Baltimore, MD ; Amde M. Amde, Ph.D., P.E., University of Maryland, College Park, MD .................................................................891

Advanced Underwater Acoustic Imaging on Mississippi River Bridges: A Case Study in How to Inspect Bridges Underwater when Diving cannot be Performed Safely
David R. Reser, P.E., Infrastructure Engineers, Inc., Saint Cloud, FL.................................897

Design of Concrete Filled Tubular Flange Girders
Richard Schoedel, P.E., Michael Baker Jr. Inc, Moon Township, PA ; Richard Sause, Ph.D., P.E., Lehigh University, Bethlehem, PA .................................................................902

Noise Localization via Acoustic Emission Monitoring on a Rolling Bascule Bridge
David E. Kosnik, Daniel R. Marron, David J. Corr, and Mathew P. Kotowsky, Northwestern University, Evanston, IL .................................................................910
Poster Session

Tuesday, June 8 and Wednesday, June 9, 2010

Multi-Span Precast Arch Bridge Backfilled with Light Weight Cellular Concrete
Sherif Aziz, P.E., Kim Truong, P.E., John Sankey, P.E., and Hieu Tran, The Reinforced Earth Company, Vienna, VA .................................................................918

Arrigoni Bridge Inspection and Testing Program
Basil Bantimba, P.E., AI Engineers, Inc., Boston, MA ; Aslam Siddiqui, P.E., AI Engineers, Inc., Middletown, CT .................................................................919

Innovative System of FRP Bridge Deck Panels with Crash-Worthy Guardrail
Moni G. El-Aasar, Ph.D., P.E., F. ASCE, BG Consultants, Inc., Manhattan, KS ; Hani Melhem, Ph.D., P.E., F.ASCE, Kansas State University, Manhattan, KS .................................................................925

An In-Depth Analysis of I35W Bridge Collapse
Su Hao, Ph.D., ACII, INC., Wilmette, IL ........................................................................926

Development and Installation of Foam Sealant for Small Movement Bridge Expansion Joints
Ramesh Malla, Ph.D., Brian Swanson, and Montgomery Shaw, Ph.D., University of Connecticut, Storrs, CT .................................................................944

Replacement of SEPTA Bridge 20.25
Justin McCarthy, P.E., HNTB Corporation, Harrisburg, PA; Robert Bistline, P.E., HNTB Corporation, Harrisburg, PA; Robert L. Lund, Jr., P.E., SEPTA, Philadelphia, PA .................................................................945

Roosevelt Island Bridge
Christopher McMillan, International Paint LLC, Houston, TX; Ronald Rauch, New York City Department of Transportation, New York, NY .................................................................946

Numerical Simulations on The Effect of Edge Details on Aerodynamic Characteristics of Long Span Bridge Deck Sections
Richard Obisanya, Ph.D., Moffatt & Nichol, Long Beach, CA .................................................................949

Bridge Information Modeling - Benefit and Challenges
Abdul Rauf, P.E., URS Corporation, Tampa, FL ........................................................................964

Execution of the Bureau of Indian Affairs Bridge Inspection Program
David Reser, P.E., Infrastructure Engineers, Inc., Spartanburg, SC .................................................................965

Elevated Structures - An Elegant Solution to Reduce Urban Congestion
Brice Urquhart, P.E., FIGG, Exton, PA ........................................................................966
