   Kun Liao, Ke Ke, Eldon Johnson, Yan Wang

TRACK: CROSS-FUNCTIONAL INTERFACES (MRK/OM/FIN/IS/ACCT)

A Process-based Taxonomy of Customer Knowledge Management and its Impact on Organizational Performance:
A Perspective of Dynamic Capabilities ................................................................................... 68
   Eldon Y. Li, Cheng-Chieh Hsiao, Chun-Sheng Chung, Hsiu Ju, Rebecca Ten
Aligning Information Security Program Objectives and Deployment with Organizational Culture for Increased
   Success ................................................................................................................................. 74
   Donald Arlo Bex, Guruvender P. Tejay
An Empirical Investigation of the Relationships between Market Segmentation and Supply Chain Strategy ......................................................... 80
   Janet Godsell, Mark Johnson
An Exploratory Research on the Gap of FDI Index for BRICM Countries ......................................................... 86
   Yundong Huang, Jun Huang, Nacasius Ujah
An Optimal Joint Pricing and Capacity Planning Strategy for Multiple Products with Shortage Penalty and
   Budget Constraint .......................................................................................................... 92
   Syed Asif Raza
Do Interactive Online Role-Play Games Teach Economics? ........................................................................ 98
   Robert Orwig, John L. Scott
General System Theory and Information Integration in Supply Chain Management ......................................................... 104
   Xiaofeng Zhao, Hui Zhao
Identifying Consumer Buying Patterns .................................................................................. 110
   Kasiakone Athappilly, Muhammad A. Razi, J. Michael Tarm
Impact of Online Shopping Enjoyment and Satisfaction on Online Repurchase Intention ......................................................... 116
   Chao Wen, Victor R. Prybutok
Ordering, Pricing, and Lead-time Quotation under Lead-Time and Demand Uncertainty ......................................................... 122
   Zhengping Wu, Burak Kazaz, Scott Webster, Kum-Khiom Yang
Performance of Private and Public Sector Banks in India: A Comparative Analysis ......................................................... 128
   Ravi Kumar Jain, Nat Natarajan
Pricing Strategy and Corporate Bond Market: Evidence from the Airline Industry ......................................................... 134
   Min Shi, Wei Yu
Saleforce Incentives, Market Selection, and Production/Inventory Planning ......................................................... 140
   Ying Zhang, Samar K. Mukhopadhyay
The Effect of Website Session Stickiness and Decisional Guidance on Customer Purchase Intention ......................................................... 144
   Samuel Otim
TRACK: HEALTHCARE DECISION-MAKING AND POLICY SPECIAL INTEREST GROUP

An Empirical Study of Physicians’ Acceptance of Hospital Information Systems in Taiwan .......................................................... 339
Ju-Ling Hsiao, Rui-Fu Chen, Kuang-Ming Kuo

Application of Queueing Theory in Improving Hospital Emergency Department Models and Practices ........................................... 345
Ardesteh Lohrasti, Charles D. Callahan

Decision Support Design Considerations for Nursing Diagnosis Decision-Making Tasks .......................................................... 351
Maranda McBride, Celestine A. Nauen

Decision Support System for Healthcare Risk Management in Developing Countries: Case Study of Cardiac Patients in Egypt ................................................................................................................. 357
Arvid C. Johnson, Mohamed Askar, Nevine Makram, Edward Wadid

Charles S. Brust, Suresrendra Sarnikar, Omar F. El-Gayar

Impact of Leadership, Organizational Systems and Employee Satisfaction with Management Support on Medical Error Reduction ................................................................................................................. 372
Donhee Lee, Sang M. Lee, Seseong Yoon

Lessons Learned from Running a Workshop to Disseminate a Telemedicine Application ............................................................................. 378
Sruti Sridhar, Chetan S. Sankar, J. S. Bhatia, Sanjay Sood

Mass-Casualty Triage: Distribution of Victims to Multiple Hospitals ............................................................................................................. 384
Matthew D. Dean, Suresh Nair

On Healthcare Reform – A Systems Engineering Approach .................................................................................................................. 390
Gary Waissi

Quality of Online Health Information: A Cross-Country Comparison in China, India, and USA ............................................................................................................. 400
Jing Li, Atul Agarwal

Supply Management: Cost Reduction Versus Quality-Of-Care In A Hospital ................................................................................. 406
Terry Y. Morris, Pamela Rogers, Divesh Ojha, Richard E. White

Applying the Tasi Technology Fit and Technology Acceptance Model to a Medical Decision Support System ......................................... 412
James Rodger

The Ten Most Common Myths About Implementing Continuous Improvement Efforts in Health Care Organizations .................................................................................................................. 418
Stewart L., Tabb, Brock Husby, Laurie Jensen

TRACK: INFORMATION SYSTEMS STRATEGY AND DESIGN

A Comparison of Offshore Vendors and University Students: An Exploratory Analysis ............................................................................. 433
Michael G. Wells, John R. Olson

A Queuing Analysis for Customer Service in Online Support Forums ............................................................................................................. 439
Wael Jabr, Radha Mookherjee, Yong Tan, Vijay Mookerjee

A Study of Outsourcing Partnership in Banking Industry .................................................................................................................. 445
Hsin-Ginn Hwang, Kuang-Ming Kuo, Ju-Ling Hsiao

A Study of the Effectiveness of ERP Implementation in China .................................................................................................................. 451
Jing Li, Lillian Y. Fok, Sandra J. Hartman, Wing M. Fok

Analysis of the Role of Quality of Partnership on the Intention to Continue IT Outsourcing Relationship ................................................. 457
Sergio Picozzi-Vela, Kay M. Nelson

Comparison of Dashboard-Based And Balanced Scorecard-Based Corporate Performance Management System in an Enterprise Resource Planning Environment .................................................................................................. 463
Bih-Ra Lea

Consumer-To-Consumer E-Commerce: Seller Perspective versus Buyer Perspective .................................................................................................................. 469
Lori N. K. Leonard

Continuance Intention with Social Networking Sites: Effect of Playfulness and Change in Use .................................................................................. 475
Gina Harden, Alias Al Beayezz

Defining Factors Affecting User’s Satisfaction for Information Systems by Using Conjoint Analysis .......................................................................................... 481
Eunsu Lee, Hosun Rhim

E-government Utilization: Understanding the Impact of Reputation and Risk .................................................................................. 487
Levent Da Carter, Ludwig Christian Schnapp, Jeffrey Hobbs

Impact of Color on Computer-Mediated Communication .................................................................................................................. 493
Richard Kumi, Moz Limayem, Christopher M. Conway, Sandeep Goyal

Impacts of Motivating Language Use on Leader Feedback Behavior in Virtual Decision Teams .......................................................... 499
Ching-Wen Wang, Chung-Tseng Hsieh

Knowledge Workers’ Personal Knowledge Management Practices as Buffered by Absorptive Capacity .................................................................................. 505
Mary B. Lind, Paul T. Neiswander

Mediating the Effects of Personal Innovativeness on User Acceptance of Technology: A Test of Three Alternative Models .................................................................................................................. 511
Joyce D. Jackson, Min Yi, Jie S. Park

Multitasking While Chatting With Friends: A Social Translucence Perspective .......................................................................................... 517
Nainiku Patnayakuni, Ravi Patnayakuni, Jatinder N. D. Gupta

Reducing the Opportunities for Human Error: A Case Study of a Vessel Traffic Service System ............................................................................. 523
Tuncay Bayrak
Structural Impacts of New Generation Content Management Systems ................................................................. 529
Anil Singh, George A. Mangalaraj, Aakash Taneja
Testing an e-Store Service Quality Model .............................................................................................................. 535
Kee-Sook Lim, Jeen-Su Lim
The Drivers of Contribution in Technical Support Forums ...................................................................................... 541
Wael Jabr, Radha Mookerjee, Yong Tan, Vijay Mookerjee
The Future of Enterprise Management Applications: An Examination of the History and Trends in Practice and Research ...................................................................................................................... 547
Graysen E. Collignon, Tabitha L. James, Deborah P. Cook
The Impact of ERP Implementation on Organizational Capabilities and Firm performance .................................. 553
Woosang Hwang, Mark A. Vandermerwe, Hasan R. Hassabelnaby
The Interaction Effects of Familiarity, Breath and Media Usage on Web Browsing Experience ......................... 559
Kyaw Phyo Linn, Chinho Lin, Cheng-Chung Chen
The Role of Managerial Key Success Factors in ERP Implementations ................................................................. 565
Arun Madapusi
What Factors Differentiate Attitude Towards Technology Among Technology-Averse and Technology-Oriented People? ...................................................................................................................... 571
Kallol K. Bagchi, Zaiyong Tang, Somnath Mukhopadhyay

TRACK: INNOVATIVE EDUCATION

A Review of Quantitative Research Methods in Online and Blended Business Education ............................... 577
J. B. Arbaugh, Michael R. Godfrey, Alvin Hwang, Birgit Leisen Pollack, Bruce Niendorf
An Examination of Factors Affecting Perceived Quality and Satisfaction in Online MBA Courses .................. 583
Rose Sebastianelli, Nabil Tamimi, Kingsley Gnanendrun, Randy J. Stark
An Experimental Study: Investigating the Effect of Animations on Users’ Information Recall ......................... 589
Sotolom O. Ogara, Yougin Pan
An Objective Assessment of a Quality Management Field Exercise ................................................................. 595
Steven P. Coy, Jeff Adams
Application of Market Orientation to Pedagogy: Instrumentation for Construction of Teams in the Classroom ................................................................................................................................. 601
James S. Keebler, Craig A. Hill
Common Misunderstandings Regarding Statistical Process Control: A Classroom Discussion Exercise .......... 607
Shane J. Schwaneveldt
Course Management System Usage and Students’ Academic Performance ......................................................... 613
Amy Y. Chou, David C. Chou
Does Online Participation Mediate the Effect of Learning Style on Learning Performance ............................ 619
Eugenia T. Huang, Sheng Wei Lin, Travis K. Huang
Enhancing Student Learning Through Online Content and Collaboration Management .............................. 625
Satish Nargundkar, Alok Srivastava
Enhancing Students’ Skills for Decision Making and Analysis in Global Environment .................................... 631
Amy Zeng
Extending TAM to Assess Faculty Acceptance of the IS 2010 Model Curriculum ........................................... 637
Yan Li, A. James Wynne
Hitting the Books Again: A Study of Antecedent Factors Influencing the Likelihood of Young Adults to Reenroll in College .................................................................................................................. 643
Kim Schatzel, Thomas Callahan, Timothy Davis
Measuring and Motivating Student Effort in an Online Version of the Core Class in Operations Management ......................................................................................................................... 649
Robert Bregman
Measuring E-Textbook User’s Intention to Continue Usage: An Empirical Study ............................................. 655
Sooil Shin, Casey G. Cegielski
Preparing Students for Enterprise 2.0: A Study of College Social Network Initiatives ..................................... 661
Abbas Foroughi, Jennifer Williams
Product Concept to Complete Business Plan in Three Months in UG Course for Business + Engineering Students ................................................................. 667
Paul Swamidass, Nels Madsen, P. K. Raju, Jackie Dipofi

VOLUME 2

Putting Students Heads in the Clouds While Keeping Their Feet on the Ground ................................................. 673
Real-time Expected Value versus Expected Utility In-class Group Exercise for Decision Trees ..................... 679
Rick Hesse, James Majidjan, Andy Kappes
Student Assessment of Participation in Online Education – An Investigation into Virtual Meetings Using Adobe Connect .......................................................................................................................... 685
Paul J. A. Van Vliet
Technology for Distance Learning System and the Needs of Cloud Computing for Online Management Information Systems Curriculum ........................................................................................................... 691
Chang-Tesh Hsieh, Binshan Lin
The Association Between Students’ Evaluation of Teaching and Grades ......................................................... 697
Peter Hoofer, Jack Yurkiewicz, John Byrne
John B. Drake
The Relationship between Learning Style and Self-efficacy: The Impact of Race .......................................................... 709
Justin L. Bond, Chetan S. Sankar
To Team or Not to Team: Do Students Learn Teaming Skills by Working in Teams? .......................................................... 715
Samia M. Siha, Stacy Campbell, Victor B. Marshall
Videowiki as a Tool in an Information Systems Science Course .......................................................... 721
Pekka Makkonen

TRACK: INSTRUCTIONAL INNOVATION AWARD COMPETITION

Puzzle-Based Learning: An Introduction to Critical Thinking and Problem Solving .......................................................... 727
Zbigniew Michalewicz, Nickolas Falkner, Raja Soosamurthi
The Case of Adult Education: Effectively Training Business Professionals .......................................................... 733
Kelley R. Johnston, Manej Vanajakumari, Barry F. Lawrence, Senthil Gunasekaran, Pradip Krishnadevarajan, Maharajan Chidambaram
Use of an Online, Educational Novel in an Introductory Small-Business Management Class .......................................................... 739
Anne Maggs, Timothy M. Bergquist

TRACK: INNOVATION AND ENTREPRENEURSHIP SPECIAL INTEREST GROUP

An Empirical Analysis of Regional Patenting and Technology Markets in China .......................................................... 745
William H. A. Johnson, Qing Liu
Different Autistic Minds: Autism Spectrum Cognitive Diversity in Small Business Groups .......................................................... 751
Rohny G. Saylor, Jillian R. Wessling
Entrepreneurial Action and the Role of Intention in the Entrepreneurial process: A Conceptual View .......................................................... 757
Madison N. Ngafeeson
Impact of Gender on the Relationship between Entrepreneurial Orientation and Web 2.0 Service Adoption .......................................................... 763
Seong Bae Lim
Investigating Value Creation from an Intellectual Capital Perspective .......................................................... 769
