2010 Sixth International Conference on Signal-Image Technology and Internet Based Systems

(SITIS 2010)

Kuala Lumpur, Malaysia
15 – 18 December 2010
## Table of Contents

### Foreword
- x

### Objectives
- xi

### Conference Committees
- xii

### Additional Reviewers
- xiv

### Message from the SIT Track Chairs
- xv

### Message from the IBCS Track Chairs
- xvi

### SIT Track Committees
- xviii

### IBCS Track Committees
- xxi

### Message from the KARE Workshop Chair
- xxiii

### KARE Workshop Committees
- xxiv

---

### Track: Signal Image Technologies (SIT)

<tbody>
<tr>
<td>Thermal Physiological Moment Invariants for Face Identification</td>
<td>1</td>
</tr>
<tr>
<td><em>Khairul Hamimah Abas and Osamu Ono</em></td>
<td></td>
</tr>
<tr>
<td>A Thin-Plate Spline Based Multimodal Prostate Registration with Optimal</td>
<td>7</td>
</tr>
<tr>
<td>Correspondences</td>
<td></td>
</tr>
<tr>
<td>*Jhimli Mitra, Arnau Oliver, Robert Martí, Xavier Lladó, Joan C. Vilanova,</td>
<td></td>
</tr>
<tr>
<td>and Fabrice Meriaudeau*</td>
<td></td>
</tr>
<tr>
<td>Image Registration UsingOpponentSIFT Descriptor: Application</td>
<td>12</td>
</tr>
<tr>
<td>to Colposcopic Images with Specular Reflections</td>
<td></td>
</tr>
<tr>
<td>*Othmane El Meslouhi, Hakim Allali, Taoufiq Gadi, Yassir Ait Benksddour,</td>
<td></td>
</tr>
<tr>
<td>and Mustapha Kardouchi*</td>
<td></td>
</tr>
<tr>
<td>Prostate Segmentation with Texture Enhanced Active Appearance Model</td>
<td>18</td>
</tr>
<tr>
<td>*Soumya Ghose, Arnau Oliver, Robert Martí, Xavier Lladó, Jordi Freixenet,</td>
<td></td>
</tr>
<tr>
<td>Joan C. Vilanova, and Fabrice Meriaudeau*</td>
<td></td>
</tr>
<tr>
<td>A Comparative Study of Feature Extraction Methods for Wood Texture</td>
<td>23</td>
</tr>
<tr>
<td>Classification</td>
<td></td>
</tr>
<tr>
<td><em>Prasetyo, Marzuki Khalid, Rubiyah Yusof, and Fabrice Meriaudeau</em></td>
<td></td>
</tr>
</tbody>
</table>
Car Plate Character Extraction and Recognition Using Stroke Analysis ..........................................................30
S. Setumin, U.U. Sheikh, and S.A.R Abu-Bakar

Multiple Birth and Cut Algorithm for Point Process Optimization ...........................................................35
Ahmed Gamal-Eldin, Xavier Descombes, and Josiane Zerubia

Stylization of Lighting Effects for Images .........................................................................................................43
Catherine Sauvaget and Vincent Boyer

A Region-Based Progressive Coding of Semi-Regular 3-D Meshes for View-Dependent Transmission ................51
Céline Roudet

Fractal-based Impressionist Style Rendering .................................................................................................60
Farès Belhadj and Vincent Boyer

Combining Multiple Image Features to Guide Automatic Portrait Cropping for Rendering Different Aspect Ratios ..........................................................66
Claudio S.V.C. Cavalcanti, Herman Martins Gomes, and José Eustáquio Rangel de Queiroz

A Method to Control Parameters of Evolutionary Algorithms by Using Reinforcement Learning ..........................................................74
Yoshitaka Sakurai, Kouhei Takada, Takashi Kawabe, and Setsuo Tsuruta

Effective Feature Selection for Face Recognition Based on Correspondence Analysis and Trained Artificial Neural Network ..........................................................80
Zohreh Pazoki and Fardad Farokhi

Backtrack and Restart Genetic Algorithm to Optimize Delivery Schedule ...................................................85
Yoshitaka Sakurai, Kouhei Takada, Natsuki Tsukamoto, Takashi Onoyama, Rainer Knauf, and Setsuo Tsuruta

Starfruit Color Maturity Classification Using Cr as Feature .........................................................................93
R. Amirulah, M.M. Mokji, and Z. Ibrahim

Can Mean Shift Trackers Perform Better? ......................................................................................................98
Huiyu Zhou, Gerald Schaefer, Yuan Yuan, and M. Emre Celebi

Measuring Anthropometric Data for HRTF Personalization .........................................................................102
Martin Rothbucher, Tim Habigt, Julian Habigt, Thomas Riedmaier, and Klaus Diepold

Biological Sensor Fusion Using Sensor Reliability Evaluation for Situation Assessment ................................107
Yoshitaka Sakurai, Kouhei Takada, Takashi Kawabe, and Setsuo Tsuruta

A Perceptually Adaptive Scheme for Image Bit-Inversion-Based Watermarks .............................................114
Tadahiko Kimoto and Fumihiko Kosaka

Missing Features Restoration Using Clustering Methods ...........................................................................123
H.T. Rassem and P.N. Girija
Rasterization by Multiresolution Integration ................................................................. 127
    Raphael Lemoine and Vincent Boyer

Processor-efficient FFT Implementation Scheme for Active Noise Control Applications ............................................................. 134
    P. Vikram Kumar, K.M.M. Prabhu, and Debi Prasad Das

A Preliminary Study to Reduce the Missing Wedge Effect by Using a Noise Robust Mojette Reconstruction ............................................................. 141
    B. Recur, P. Desbarats, and J.P. Domenger

Reduced Size Harmonic Suppressed Fractal Dipole Antenna with Integrated Reconfigurable Feature ................................................................. 149
    Shipun Anuar Hamzah, Mazlina Esa, Nik Noordini Nik Abd Malilk, and Mohd Khaiful Hisham Ismail

Segmented Images Colorization Using Harmony ............................................................. 153
    Catherine Sauvaget, Stephane Manuel, Jean-Noel Vittaut, Jordane Suarez, and Vincent Boyer

Starfruit Image Segmentation Based on YCbCr Color Space ............................................................. 161

An Energy-based Algorithm for Automatic Prostate in TRUS Images ............................................................. 165
    Ahad Salimi, Omid Mahdiyar, Hassan Masoumi, and Dena Vakili

Automatic Segmentation of Abdominal Aortic Aneurysm in Computed Tomography Images Using Spatial Fuzzy C-Means ............................................................. 170

The Comparison of Different Classifiers for Precision Improvement in Image Retrieval ............................................................. 176
    Maryam Shahabi Lotfabadi and Rezvan Mahmoudie

Track: Internet Based Computing and Systems (IBCS)

Interactive Analysis of Relational Information ............................................................. 179
    B. Dousset, E. Loubier, and J. Mothe

Detecting Worms Using Data Mining Techniques: Learning in the Presence of Class Noise ............................................................. 187
    Ismahani Ismail, Muhammad Nadzir Marsono, and Sulaiman Mohd Nor

Classifying Web Pages Using Information Extraction Patterns Preliminary Results and Findings ............................................................. 195
    Lay-Ki Soon and Sang Ho Lee

A Knowledge Engineering Method to Represent and Optimize Learning Processes and its Empirical Validation ............................................................. 203
    Rainer Knauf, Yoshitaka Sakurai, Kohei Takada, and Setsuo Tsuruta
A Cross-disciplinary Collaborative Research Platform - Study on Qinghai Lake Joint Research Environment ................................................................. Juan Zhao, Shuren Li, Jianjun Yu, Kejun Dong, Kai Nan, and Baoping Yan

Knowledge Cartography and Social Network Representation: Application to Collaborative Platforms in Scientific Area ........................................ Michel Plantié and Pierre-Michel Riccio

Evaluation of Enriched Cyberspace for Adaptive Support of Remote Collaboration ............................................................ Yoshitaka Sakurai, Kinshuk, Kouhei Takada, Takashi Kawabe, Rainer Knauf, and Setsuo Tsuruta

Native XML Document Fragmentation Model .................................................................................................................. Leykun Birhanu, Solomon Atnafu, and Fekade Getahun

A New Trust Management Model in P2P Systems ................................................................................................................. Samir Moalla, Sana Hamdi, and Bruno Defude

A Temporal Spatial Access Method ................................................................................................................................. Ameur Touir, Hassan Mathkour, and Manan AlMusallam

Watermarking to Enforce Medical Image Access and Usage Control Policy ................................................................. Wei Pan, Gouenou Coatrieux, Nora Cuppens-Boulahia, Frédéric Cuppens, and Christian Roux

Event Based Modeling for Context-Reactive Information Systems .................................................................................. Ansem Ben Cheikh, Agnès Front, Stéphane Coulondre, and Jean-Pierre Giraudin

Integrating Ontologies in Database Scheme: Ontology-Based Views Conceptual Modeling ........................................................................ Oumar Sy, Moussa Lo, and Denio Duarte

A Formal Approach for Interoperability Testing of Security Rules ................................................................................ Mazen El Maarabani, Iksoon Hwang, and Ana Cavalli

A Sale-oriented Online-shop Management Support Method for E-commerce ........................................................ Yoshitaka Sakurai, Takashi Kawabe, Takahiko Sakai, Kouhei Takada, Setsuo Tsuruta, and Yoshiyuki Mizuno

Semantic Queries on Service-Oriented Information Systems ........................................................................................ Sylvain Rakotomalala, Elie Abi-Lahoud, and Kokou Yetongnon

A Performance Evaluation Framework for Library Search Engines ........................................................................... Maria Soledad Pera and Yiu-Kai Ng

Protein Structure Modeling in Two-Level Topology Strings for Structure Comparison .......................................................... Jafar Razmara, Safaai B. Deris, and Sepideh Parvizpour

A Flexible Approach for Visualization Development ......................................................................................... Xiaoyan Bai, David White, and David Sundaram
