SPE International Conference on Health, Safety & Environment in Oil and Gas Exploration and Production 2011

Vienna, Austria
22 - 24 February 2011

# TABLE OF CONTENTS:

First Correlation of NORM with a Specific Geological Hypothesis  
*Andrew L Smith, SPE, Risk Management Systems Ltd.* .......................................................... 1

Integrity in Drilling and Wireline Operations in Offshore Assets:  
A Case on the Potential Error Causation Paradigms  
*Birgit Vignes, SPE, Petroleum Safety Authority, Norway; Jayantha P. Liyanage* .......................................................... 18

Qualification of Well Barrier Elements - Test Medium, Test Temperatures And Long-term Integrity  
*Birgit Vignes* ........................................................................................................................................ 31

Reducing Safety Incidents by Lifting Single Joints of Drill Pipe with a New Design of Elevator  
*Alan Law and Jon Turnbull, SPE, BP (UK) Ltd; Thomas Redlinger, Melissa Frilot, Gary Brady* ......................................................... 46

Leadership in Health & Safety Phase Two & Three: Leading to Workforce Engagement  
*Darren B Matkin and Davide Scotti* ........................................................................................................ 56

Complete Loss, Blowout and Explosion of Shallow Gas, Infelicitous Horoscope in Middle East  
*Mohammad Nabaei, Ali Reza Moazzeni, Rahman Ashena, Islamic Azad University-Omidieh Branch, Abbas Roohi* .................................................. 59

Produced Water Treatment Using Wetlands - Reducing The Environmental Impact of Oilfields Operations  
*Roman Breuer, Ernst Grissemann* ........................................................................................................ 70

How to Design and Implement a Cardiovascular Disease Prevention Program in Oil And Gas Company - Saipem's Experience  
*Catalin Vasile, Mika Frano, Eristavi Giorgi, Saipem* .................................................................................. 78

Investigation of Process Safety Incidents & Implementing Effective Corrective & Preventive Actions  
*Roland Martland, Head of Technical Safety* ........................................................................................... 84

Successful Installation and Operation of Downhole Isolation Valve Combined with Pressurized Mud Cap Drilling to Safely Develop Sour Gas, Fractured-limestone Reservoir in Gundih Field, Indonesia  
*Ganesha Rinku Darmawan, Surjanto Djoko Susilo, Julmar Shaun S. Toralde* ................................................................. 100

Integrated Analysis of Fire Exposed Structures Introducing Probabilistic Analysis into Fire Modeling and Structural Analysis  
*Jan Reier Huse, Ulf Danielsen and Joar Dalheim* ......................................................................................... 110

Step By Step Developing And Implementing A HSE Culture Project  
*K.M. Vikland, and G. Gjasund, NTNU Samfunnsforsking AS, and E. Fagernes* .................................................. 116

Advantages and Challenges of Worldwide Standardization of Rig and Equipment Audits  
*S.A. Wirth, SPE, H.F. Spoerker, SPE, and M.K. Ali* ............................................................................................... 123

Major Accident Indicators for Monitoring and Predicting Risk Levels  
*S. Haugen, NTNU; J. Seljelid, K. Mo, and O.M. Nyheim* ............................................................................. 128
The Work of the UK Helicopter Task Group
Jessica Burton

Innovative Fluid Storage and Blending Applications of Solvents, Acids, and Emulsified Acids Lead to Three-Year Spill-Free Operations in an Environmentally Sensitive Area
Robert Maier, Danilo Appicciutoli, and Panfilo Tedeschi, Halliburton

Analysis of Causes of Hydrocarbon Leaks from Process Plants
S. Haugen, NTNU, J. E. Vinnem, Preventor AS, J. Seljelid

A Biodegradable Chelating Agent Designed to be an Environmentally Friendly Filter-cake Breaker
Natalia Collins, Kingsley Nzeadibe, and Stephen W Almond

Environmental Sensitivity In An Insensitive Environment
Madiha Mahmood and Nasir Zaman Khan

From Basic Regulatory Compliance ESIA to Full Project Sustainability
P.W. Kirk, SPE, A.P. Quijano, M. Quintana, C. Ortuño

1.500m³ LNAPL Remediation Project – Antwerp/Belgium
Marco van den Brand

Remediation: An Evolution to Sustainable Environmental Practices
Michael Martinson and Marco van den Brand

Using Business Continuity to Protect Operations and Reputation through the Proactive Management of Significant Risks
David Teed and Charlotte Smith

HSEQ Development in OMV Petrom
Bogdan Banghea

Development of an Electronic Safety Case for Offshore Operations - From a Paper Version to an Operational Tool
Monica Durbac

Safety Leadership that Engages the Workforce to Create Sustainable HSE Performance
B. R. Read, SPE, Safety Leaders Group; A. Zart-Klik, OMV NZ; J.D. Winter, SPE, Safety Leaders Group; C. Veit, SPE; OMV Austria; R. Samhaber

Developing Online Fatigue Awareness and Countermeasures Training for a Distributed Workforce
P.G. Jackson and J.M. Reglar

Strong Reporting Culture as Stepping Stone To Continuously Drive Safety Performance Improvement
J. Stough

Research Progress and Applications of the Joint Industry Programme on Exploration and Production Sound and Marine Life
Jürgen Weissenberger, Statoil ASA; John Campbell, OGP; Lori Notor, ConocoPhillips; David Hedgeland, IAGC; Mike Jenkerson, ExxonMobil, Rodger Melton, ExxonMobil; Caryn L. Rea, ConocoPhillips; Russell D. Tait, ExxonMobil; Sarah L. Tsolfias, IAGC; Chisa K. Brockes, ExxonMobil; Jennifer Liebeler Michael, Chevron
