2010 5th International Symposium on Telecommunications

(IST 2010)

Tehran, Iran
4-6 December 2010

Pages 1-501
Table of Contents

Wireless & Mobile Communications

Cognitive Radio (1)

♦ Optimum Number of Secondary Users and Optimum Fusion Rule in Cooperative Spectrum Sensing to Maximize Channel Throughput
Mehran Mashreghi, Bahman Abolhassani

♦ Performance Analysis of Opportunistic Frequency Diversity Strategy in Cognitive Radio Systems
Mahsa Ghaznavi, Azizollah Jamshidi

♦ An Improved Blind Spectrum Sensing Technique for Cognitive Radio Systems
Navid Tafaghodi Khajavi, Siavash Sadeghi, Seyed Mohammad-Sajad Sadough

♦ Power Minimization in Uni-directional Relay Networks with Cognitive Radio Capabilities
Ardalan Alizadeh, Seyed Mohammad-Sajad Sadough

Cognitive Radio (2)

♦ SSDF Protection in Cooperative Spectrum Sensing Employing a Computational Trust Evaluation Algorithm
Mohammad Akbari, Abolfazl Falahati

♦ An Upper Bound on the Throughput for Myopic Policy in Multi-channel Opportunistic Access
Saber Salehkaleybar, Seyyed Arash Majd, Mohammad Reza Pakravan

♦ Joint Transmit Beamforming and Antenna Selection in Cognitive Radio Networks
Mehdi Ghamari Adian, Hasan Aghaeinia

♦ Cooperative Beamforming in MIMO-OFDMA Cognitive Radio Systems
M. Abbasi Jannat-Abad, H. Zamiri-Jafarian

Wireless (1)

♦ Physically Secure Wireless Transmission Using Deliberate Symbol Convolution
M. S. Mohammadi, G. R. Mohammadhani

♦ Sensitivity analysis of the multiuser offset QAM multicarrier systems to carrier frequency and timing offset
Hamid Saeedi, Saeed Sadi, Behrouz Farhang-Boroujeny

♦ DS-CDMA Blind Detection for Frequency-Selective Multipath Channels by Neural Networks
Majid Shahsiah Dastgahian, Hossein Khoshbin, Saeed Sheerabaf, Alireza Seyedin

♦ Experimental Investigation of the Performance of Different Modulation Techniques under Controlled FSO Turbulence Channel
M. Ijaz, Z. Ghassemlooy, S. Ansari, O. Adebanjo, H. Le Minh, S. Rajbhandari, A. Gholami

♦ A New Solution for the Permutation Problem in the Frequency-Domain BSS Using Power-Ratio Correlation
Masoumeh Hesami, Masoud Geravanchizadeh
Antenna (1)

- Appropriate CCM-based Algorithm for Adaptive Antenna Array Beamforming ................................................. 69
  Hajar Sadeghi, Shahriar Shirvani Moghaddam, Vahid Tabataba Vakili
- MUSIC and MVDR DOA Estimation Algorithms with Higher Resolution and Accuracy ........................................... 76
  Farida Akbari, Shahriar Shirvani Moghaddam, Vahid Tabataba Vakili
- Uneven Dielectric Reflect-Array ....................................................................................................................... 82
  M. Moeini-Fard, M. Khalaj-Amirhosseini

Wireless (2)

- Multiple Query Optimization based on Data Prediction in Wireless Sensor Networks ............................................. 87
  Hanieh Bagheri, Majid NourHosseini
- Geometrically-enhanced group-based mobile queries with uncertainty ................................................................. 95
  Nasser Ghadiri, Ahmad Baraani-Dastjerdi, Nasser Ghasem-Aghaei, Mohammad A. Nematbakhsh

Antenna (2)

- A Compact MIM Zeroth Order Resonator Antenna ............................................................................................. 101
  Seyed Mohammad Saeed Majedi, Amir Reza Attari
- A compact dual-band Triangular slot antenna with three imported slits for WLAN applications ............................ 106
  Mohamad Vatankhah, Mohammad Naghi Azarmanesh, Farzad Yazdani
- A Compact Microstrip Slot Antenna With Novel E-shaped Coupling Aperture ..................................................... 110
  Omid Hoseini Izadi, Mandana Mehrparvar
- Using a Genetic Algorithm to Optimize UWB Microstrip Monopole Antenna with FEM and HFSS ...................... 115
  Javad Pourahmadazar, Hamed Shirzad, Changiz Ghobadi, Javad Nourinia

Propagation/UWB systems

- Performance Enhancement of Kurtosis Detector Using Time Reversal Technique ............................................ 120
  Ali Mohebbi, Shahriar Shirvani Moghaddam, Dariush Abbasi-Moghadam, Vahid Tabataba Vakili
- MICS band indoor channel modeling using ray tracing method ........................................................................ 126
  Somayeh Chamaani, S. Abdullah Mirtaheri, Yuriy I. Nechayev, Peter S. Hall
- A Street canyon approximation model for the 60 GHz propagation channel in an urban environment with rough surfaces ........................................................................................................... 132
  Maryam Eslami Rasekh, Forouhar Farzaneh, Amir Ahmad Shishegar

Access Networks
Optical Networks (1)

♦ NFS: A New DBA to Alleviate Channel IdleTime in Heterogeneous WDM-EPONs
Ali Razmkhah, Akbar Ghaffarpour Rahbar

♦ Effect of a phasor group delay ripple on the performance of phase-modulator based microwavephotonic Filter
Arash Mokhtari, Mahmood Akbari

♦ Mitigating the Impact of Group Velocity Dispersion in a Time-Spreading Optical CDMA System
Mohammad Reza Salehi, Ebrahim Abiri, Mehran Dezfooli, Keyvan Kazemi

♦ Least-Congested Distributed Lightpath Allocation
Saeed Barkabi Zanjani, Akbar Ghaffarpour Rahbar

Optical Networks (2)

♦ QARWA: A Novel Distributed QoT-Aware RWA to Improve QoS in Transparent Optical Networks
Amir Kakekhani, Akbar Ghaffarpour Rahbar

♦ Multi Group Dynamic Bandwidth Allocation Scheme in Long Reach PONs
Mustafa Vahabzadeh Dolama, Akbar Ghaffarpour Rahbar

Network Theory

Distributed Systems

♦ Analyzing Program Dynamic Graphs for Software Fault Localization
Saeed Parsa, Zaynab Mousavian, Mojtaba Vahidi-Asl

♦ A New Method for Data Redundancy Reduction in RFID Middleware
Farahnaz Vahdati, Reza Javidan, Ahmad Farrahi

♦ Location Privacy in Processing Location Dependent Queries in Mobile Database Systems
Mehroon Tarafdar, Mostafa S. Haghighi

♦ A Grid Resource Allocation Method Based on Analytic Hierarchy Process
Rouhollah Golmohammadi, Hadi Shahrir Shahhoseini

♦ Improving on HEED protocol of Wireless Sensor Network using Non Probabilistic approach and Fuzzy Logic (HEED-NPF)
Hoda Taheri, Peyman Neamatollahi, Mahmoud Naghibzadeh, Hossein Yaghmaee

Security (1)

♦ Adaptive and Quantitative Comparison of J2EE vs .NET Based on Attack Surface Metric
Sarviej Nasiri, Reza Azmi, Reza Khalaj
♦ SECURITY ENHANCEMENT FOR TPVD STEGANOGRAPHIC METHOD

Nazanin Zaker, Ali Hamzeh

Mojtaba Akbarzadeh, Mohammad Abdollahi Azgomi

♦ Adaptive Random puncturing based Secure block Turbo Coding

Mohammad Sadegh Daghighi, Ali Payandeh, Mohammad Reza Aref

♦ Using Identity-Based Secret Public Keys Cryptography for Heuristic Security Analysis in Grid Computing

Maysam Hedayati, Seyed Hossein Kamali, Reza Shakerian

Sensor Networks

♦ MCW: A New Weighting Method for Linear Combination of Regressors in WSNs

Hadi Shakibian, Nasrollah Moghadam Charkari

♦ Improvements in Support Vector Machine Based Localization in Wireless Sensor Networks

Reza Samadian, Majid Noorhosseini

♦ An Energy-Efficient Anomaly Detection Approach for Wireless Sensor Networks

Mohammad Ahmadi Livani, Mahdi Abadi

Traffic Management

♦ Design and Simulation of OSPF Routing Protocol Fuzzy Model By Two Costraint: Bandwidth and Queue Size of Router

Hossein Kari, Hossein Yaghmaee moghadam, Reza Monsefi

♦ An Efficient and Class based Active Queue Management for Next Generation Networks

Amir Hossein Mohajerzadeh, Reza Monsefi, Mohammad Hossein Yaghmaee, Nazbano Farzaneh

♦ A Fair Active Queue Management Approach Based on Supply and Demand Mode

Hamid Saadatfar, Mohammad Hossein Yaghmaee, Habib Rajabi Mashhadi

♦ Congestion Modeling and Synthesis for Multiple Bottlenecked Nodes in Packet-Switched Networks

R. Barzamini, M. Shafiee

♦ FADyAD- Fault and congestion Aware Routing Algorithm Based on DyAD Algorithm

Armin Mehranzadeh, Ahmad Khademzadeh, Armin Mehran

Cooperative Networks

♦ Performance Study of a New Cooperative Protocol in Rician Fading Channels

Sara Efazati, Paeiz Azmi

♦ Beamforming in Multiuser MIMO Downlink Systems: Non-cooperative and cooperative approaches

H. Zamiri-Jafarian, S.M.J. Asgari Tabatabaei
♦ Throughput Analysis of Multiple-Access-Relay Channel Based on Rateless Coding
Parisa Mansourifard, Masoumeh Nasiri-kenari
♦ Power Allocation for Zero Forcing Scheme in Multi-Antenna Multiple Relays Networks
A. Falahati, Y. Attar Izi

MIMO
♦ Outage Analysis of Equal-Gain Combiner over Shadowed-Rice Fading Channels
Hossein Samimi
♦ Cross Layer Transmit Antenna Selection in MQAM Modulation MIMO Systems
Mohammad Lari, Abbas Mohammadi, Abdolali Abdipour
♦ Relay Design for SNR Maximation in MIMO Communication Systems
Mohammad Hassan Shariat, Mehrzad Biguesh, Saeed Gazor
♦ Cross Layer Design Based on Adaptive Modulation and Truncated ARQ in MIMO Rician Channels
Mohammad Lari, Abbas Mohammadi, Abdolali Abdipour

Components and Circuitry
♦ Investigation of Coupling based on Liquid Crystal in two End-Coupled Microstrip Resonators
Mani Yazdanpanahi, Dariush Mirshekar-Syahkal
♦ Wideband Double Layer Substrate Integrated Waveguide Directional Coupler
Zohre Pourgholamhossein, Reza Safian, Hossein Pourghassem
♦ Experimental Investigation of a Dual Band-Reject Filter Using C-Shaped DGS with Improved Q-Factor
Mostafa Attaran Kakhi, Mohammad H. Neshati
♦ An Ultra Low Power Digitally Controlled Oscillator with low jitter and high resolution
Nasser Erfani Majd, Mojtaba Lotfizad, Arash Abadian, Mohammad Bagher Ghaznavi Ghoushchi
♦ Temperature Insensitive Compact Electro-Optic Photonic Crystal Switch
H. Aghababaeian, M. H. V. Sariei

Coding
♦ Iterative Soft Decoding of Reed-Solomon Codes using Information Correction
Farnaz Shayegh, M. Reza Soleymani
♦ Cross-Layer Rateless Coding over Wireless Relay Channel
Mahyar Shirvani Moghaddam, Babak Hossein Khalaj
♦ Modification of Short length LT Block Coding Technique in Erasure Channel
Saeid Mohammad Hosseini, Mohammad Akbari, A. Falahati
♦ Performance Evaluation of Serial Concatenated Convolutional Codes Over Aeronautical Channels
Farhad Mehran
Resource Allocation

♦ Distributed Power Allocation based on Coalitional and Noncooperative Games for Wireless Networks
   H. Khayatian, R. Saadat, G. Mirjalily ................................................................. 367

♦ A Novel Practical Utility-Based Algorithm for Adaptive Radio Resource Allocation in OFDMA Wireless Networks
   Hamzeh Shamsi Koushki, Keivan Navaie .......................................................... 373

♦ Slot Allocation Algorithm in Combined Distributed and Centralized Scheduling Scheme for IEEE 802.16 Based Wireless Mesh Networks
   Ali Behfarnia, Vahid Tabataba Vakili ................................................................. 379

♦ Intelligent Cross-Layer Adaptation Scheme for Wireless Links with QoS-Guaranteed Traffic
   Younes Abdi, Paeiz Azmi ...................................................................................... 385

Sensor/WMC

♦ Dynamic Balanced Spanning Tree (DBST) for Data Aggregation in Wireless Sensor Networks
   Avid Avokh, Ghasem Mirjalily ............................................................................ 391

♦ An Energy Efficient Algorithm for Cluster-Head Selection in WSNs
   Mohammad Javad Hajjkhani, Bahman Abolhasani ............................................. 397

♦ A Distributed Data-centric Storage Method for Hot Spot Mitigation In Wireless Sensor Networks
   Maryam Tahani, Masoud Sabaei ......................................................................... 401

♦ Improving threshold assignment for cluster head selection in hierarchical wireless sensor networks
   M. Saadat, R. Saadat, G. Mirjalily ........................................................................ 409

♦ A Novel Intelligent Energy-Efficient Delay-Aware Routing in WSN, based on Compressive Sensing
   Saeed Mehrjoo, Jamshid Shanbehzadeh, Mir Mohsen Pedram ............................ 415

OFDM

♦ An Improved Blind Channel Estimation Algorithm for OFDM Systems
   S. Ghadrdan, M. Ahmadian, S. Salari, M. Heydarzadeh ...................................... 421

♦ Reduction in Peak to Average Power Ratio of OFDM Signals Using a New Continuous Linear Comping Transform
   Vahid Tabatabavakili, Adel Zahedi .................................................................... 426

♦ Frequency-Domain Equalization for MIMO-OFDM over Doubly Selective Channels
   Mojtaba Beheshti, Mohammad Javad Omidi, Ali Mohammad Doost-Hoseini ....... 431

♦ A New Fast Algorithm for Carrier Frequency Offset Estimation in SISO-OFDM Systems
   Saeed Balaneshin Kordan, Vahid Tabataba Vakili, Bahman Abolhasani ............. 437

Networks Requirements

♦ Ruby: Application-Specific Networks-on-Chips Design Procedure based on Bandwidth Requirement and Fault-Tolerance
   Atena Roshan Fekr, Ahmad Khademzadeh, Vahhab Samadi Bokharaei, Majid Janidarmian ................................................................. 443

Security (2)

♦ Content-Based Concept Drift Detection for Email Spam Filtering ................................................................. 531
Morteza Z. Hayat, Javad Basiri, Leila Seyedhosseini, Azadeh Shakery

♦ A Discriminative Approach to Filter out Noisy Sentence Pairs from Bilingual Corpora ........................................ 537
Kaveh Taghipour, Nasim Afhami, Shahram Khadivi, Saeed Shiry

♦ Web Spam Detection Based on Discriminative Content and Link Features .............................................................. 542
Maryam Mahmoudi, Alireza Yari, Shahram Khadivi

♦ Modification of The Relative Distance for Free Text Keystroke Authentication ...................................................... 547
Homa Davoudi, Ehsanollah Kabir

♦ A Fuzzy Description Logic model for Intrusion Detection Systems ................................................................... 552
Zohreh Baniasadi, Arghavan Sanei, Mohammad Reza Omidi

Cyber Linguistics

♦ Farsi – German Statistical Machine Translation Through Bridge Language ......................................................... 557
Somayeh Bakhshaei, Shahram Khadivi, Noushin Riahi

♦ Creating a Wikipedia-based Persian-English Word Association Dictionary .............................................................. 562
Zahra Rahimi, Azadeh Shakery

♦ On Evaluation of Interactive-Predictive Machine Translation: Practical Problems and Suggestions ...................................... 568
Ani Megerdoumian, Shahram Khadivi

♦ A Structural Rule-based Stemmer for Persian ........................................................................................................ 574
Elaheh Rahimtoroghi, Hesham Faili, Azadeh Shakery

♦ A New Approach for Text Feature Selection based on OWA Operator .................................................................... 579
Mohammad Ali Ghaderi, Nasser Yazdani, Behzad Moshirit, Maryam Tayefeh Mahmoudi

♦ Improving the Performance of Proposed Multi-Agent Domain Specific Search Engine Using Query Refinement Component .............................................................................................................. 584
Elmira Hajimani, Eslam Nazemi

Speech Analysis

♦ Niusha, the first Persian speech-enabled IVR platform ........................................................................................... 591

♦ Using Phase Space based processing to extract proper features for ASR systems .................................................. 596
ysser Shekoffteh, Farshad AlmasGanj

♦ Two Novel FDL based Feature Extraction Methods for Improvement of Speech Recognition .................................. 600
Yasser Shekoffteh, Farshad AlmasGanj, Ahmadreza Rezaei, Mohammad Mohsen Goodarzi

♦ Determination of Pitch Range Based on Onset and Offset Analysis in Modulation Frequency Domain .................. 604
A. Mahmoodzadeh, H. R. Abutalebi, H. Soltanian-Zadeh, H. Sheikhzadeh

♦ Single Channel Speech Separation with a Frame-based Pitch Range Estimation Method in Modulation Frequency ......................................................................................................................... 609
A. Mahmoodzadeh, H. R. Abutalebi, H. Soltanian-Zadeh, H. Sheikhzadeh
♦ Improved Codebook Constrained Wiener filter Speech Enhancement

Sarang Chehresa, Mohammad H. Savoji

IT Applications

♦ Mining Information from Credit Card Time Series for Timelier Fraud Detection

Leila Seyedhossein, Mahmoud Reza Hashemi
♦ A Unified Architecture to Establish Knowledge Network

Maryam S. Mirian, Leila Beig, Mahmood Kharrat
♦ A New Mathematical Method to Estimate Resources for E-commerce Application

Leili Pourjavaheri, Abbas Asosheh
♦ Performance Evaluation of Server Virtualization in Data Center Applications

Mohammad Reza Ahmadi, Davood Maleki
♦ Location Based Targeted Advertising Using Bayesian Network And Fuzzy TOPSIS

Arya Mazaheri, Nima Rafiee, Pejman Khadivi
♦ Improving the current risk analysis techniques by study of their process and using the human body’s Immune System TOPSIS

Azadeh Sarkheyli, Norafida Binti Ithnin

Multimedia Networks

♦ On the effect of random network coding in GIA-based P2P live video streaming systems

Hoda S. Ayatollahi Tabatabaii, Mohammad Khansari, Hamid R. Rabiee
♦ LayeredCast - A Hybrid Peer-to-Peer Live Layered Video Streaming Protocol

Masoud Moshref, Reza Mohtamedi, Hamid R. Rabiiee, Mohammad Khansari
♦ Proxy Topology Building and Routing in P2P SIP Architectures

Pelagie Houngue, Ernesto Damiani, Fatna Belqasmi, Roch Glitho

Signal Processing

♦ A New Least-Squares Based Method for Selection of Spectral Peaks from the Spectrum Estimated by Sparse Representation

Adel Zahedi, Mohammad Hossein Khaeie
♦ Stability and Convergence Analysis of the YAST Subspace Tracking Algorithm

M. Arjomandi-Lari, M. Karimi
♦ Performance Analysis of Nonuniform Sampling Based Iterative Equalizer for OFDM Signals

Ali Reza Rahmati, Paeiz Azmi
♦ Wavelet-OFDM versus Filtered-OFDM in Power Line Communication Systems

Arman Farhang, Mohammad Molavi Kakhki, Behrouz Farhang-Boroujeny
Video Coding/Streaming

♦ Exploring the Distributed Video Coding in a Quality Assessment Context.......................................................................................................................... 695
Amin Banitalebi, Said Nader-Esfahani
♦ Deblocking Filter Based on Complex Diffusion and Bilateral Filter for Video Coding.......................................................................................................................... 701
Hossein Khodabakhshi Rafsanjani, Mohammadhossein Zeinali, Siamak Talebi
♦ A hybrid mesh-tree peer-to-peer overlay structure for layered video streaming.......................................................................................................................... 706
N. Tahghigh Jahromi, B. Akbari, A. Movaghar
♦ Compressed Video Sensing Using Adaptive Sampling Rate.......................................................................................................................... 710
Masomeh Azghani, Ali Aghagolzadeh, Mohammad Aghagolzadeh
♦ An Incentive Mechanism for Peer-to-Peer Video Streaming.......................................................................................................................... 715
Alireza Montazeri, Behzad Akabri

Web Services (2)

♦ Ontology-based Fuzzy Web Services Clustering.......................................................................................................................... 721
Nayereh Gholamzadeh, Fattaneh Taghiyareh
♦ Application of Ensemble Models in Web Ranking.......................................................................................................................... 726
Homa Baradaran Hashemi, Nasser Yazdani, Azadeh Shakery, Mahdi Pakdaran Naeini
♦ Publishing Persian Linked Data; Challenges and Lessons Learned.......................................................................................................................... 732
Behshid Behkamal, Mohsen Kahani, Samadi Paydar, Mahboobeh Dadkhah, Elaheh Sekhavaty
♦ A Novel Web Recommender System Considering Users' Need Evolution.......................................................................................................................... 738
Rozita Tavakolian, Nasrollah Moghadam Charkari
♦ A Social Network-based Meta Search Engine.......................................................................................................................... 744
Mohammad Ali Ghaderi, Nasser Yazdani, Behzad Moshiri

Speech Recognition

♦ Using Probabilistic Characteristic Vector Based on Both Phonetic and Prosodic Features for Language Identification.......................................................................................................................... 750
S. A. Hosseini Amereei, M. M. Homayounpour
♦ Robust Phoneme Recognition Using MLP Neural Networks in Various Domains of MFCC Features.......................................................................................................................... 755
Saeed Dabbaghi, Hossein Sameti, Masoumeh P. Ghaemmaghami, Bagher BabaAli
♦ Robust speech recognition using compression of Mel sub-band energies and temporal filtering.......................................................................................................................... 760
Naghmeh Moradi, Babak Nasersharif, Ahmad Akbari
♦ Blind Separation of Speech Target Sources Using ICA In The Frequency Domain.......................................................................................................................... 765
Marjan Gholamrezaii, Massoud Reza Aghabozorgi, Hamid Reza Abutalebi
♦ Implementing PCA-based speaker adaptation methods in a Persian ASR system.......................................................................................................................... 769
Zohreh Ansari, Farshad Almasganj
Biometrics/Image Understanding

♦ MPCA+MDA: A Novel Approach for Face Recognition Based on Tensor Objects ................................................................. 775
Ali Akbar Shams Baboli, Gholamali Rezai-rad

♦ A Low Complexity and Efficient Face Recognition Approach in JPEG Compressed Domain Using Quantized Coefficients .......................................................................................................................... 781
Ali Reza Sepas Moghadam, M. Shahram Moin, Hamidreza Rashidy Kanan

♦ Log-Spectrum Based RSTB Invariant Template Matching with Modified ICA ........................................................................... 787
Mehrnaz Fani, Narej Pourjaflarian, Elahe Taherianfard, Mehran Yazdi

♦ Color Image Retrieval Technique Based On EM Segmentation Algorithm .................................................................................. 793
Majid Fakheri, Tohid Sedghi

♦ Learning Novel Object Parts Model for Object Categorization .................................................................................................. 796
Sima Soltanpour, Hossein Ebrahimnezhad

♦ Comparison of different PCA based Face Recognition Algorithms using Genetic Programming ...................................................... 801
Behzad Bozorgtabar, Farzad Noorian, Gholam Ali Rezai Rad

Video Tracking/Motion Modeling

♦ Intelligent Modified Mean Shift Tracking Using Genetic Algorithm .......................................................................................... 806
Masomeh Aghani, Ali Aghagolzadeh, Sehraneh Ghaemi, Maryam Kouzehgar

♦ Mean-shift Video Tracking Using Color-LSN Histogram .............................................................................................................. 812
Hamed Rezazadegan Tavakoli, M. Shahram Moin

♦ Robust Facial 2D Motion Model Estimation for 3D Head Pose Extraction and Automatic Camera Mouse Implementation .................. 817
Masoomeh Nabati, Alireza Behrad

♦ Camera Mouse Implementation Using 3D Head Pose Estimation by Monocular Video Camera and 2D to 3D Point and Line Correspondences .............................................................................................. 825
Masoomeh Nabati, Alireza Behrad

♦ A Reduced Reference Video Quality Assessment Method based on the Human Motion Perception ............................................. 831
Mohsen Rohani, Alireza Nasiri Avanaki, Saeed Nader-Esfahani, Meysam Bashirpour

Image/Video Security

♦ An Imperceptible Steganographic method based on Genetic Algorithm ...................................................................................... 836
Elham Ghasemi, Jamshid Shanbehzadeh

♦ Reversible Watermarking Based on Interpolation Error Histogram Shifting ............................................................................ 840
Mohammad Arabzadeh, Mohammad Abadi, Habibollah Danyali, Mohammad Sadegh Helfroush

♦ Object Detection with Novel Shape Representation Using Bounding Edge Fragments ................................................................. 846
Mohammad Arvari Pour, Hossein Ebrahimnezhad

♦ Evolution of Mapping Functions for Image Encryption using Evolvable Hardware ..................................................................... 852
M. Bagheri, M. Taheri, K. Mohammadi, M. R. Mosavi
Robust Image Watermarking Based on Multiwavelet Parent-child Relation and Adaptive Support Vector Regression

Hamed Ghodrati, Habibolah Danyali

858

Speech Enhancement

Speech Enhancement Using a Perceptually Constrained TQSVD-Based Approach Incorporating PSO Techniques
Sanaz Ghaemi Sardaroudi, Masoud Geravanchizadeh

863

Speech Enhancement Using Convex Combination of Fractional Least-Mean-Squares Algorithm
Sina Ghalami Osgouei, Masoud Geravanchizadeh

869

Dual-channel Speech Enhancement based on a Hybrid Particle Swarm Optimization Algorithm
Sina Ghalami Osgouei, Masoud Geravanchizadeh

873

A Perceptual Subspace Approach for Speech Enhancement
Sanaz Ghaemi Sardaroudi, Masoud Geravanchizadeh

878

Design and Simulation of a New Model for Shallow Water Multipath Acoustic Channel in the Persian Gulf
Abdollah Doosti Aref, Bijan Abbasi Arand

882

Speech Enhancement using an Improved MMSE Estimator with Laplacian Prior
M. Rashidi-nejad, H. R. Abutalebi, A. A. Tadaion

889

New Approaches to Speech Enhancement Using Phase Correction in Wiener Filtering
P. Fardkhaleghi, M. H. Savoji

895

Computation & Decision Aspects

Computation & Decision Making Aspects (1)

Performance Improvement in Automatic Gender Identification Using Hierarchical Clustering
Mohammad Ali Keyvanrad, Mohammad Mehdi Homayounpour

900

New Hierarchical-Clustering Combination scheme Based on Scatter Matrices and Nearest Neighbor Criterion
Morteza Jalalat-evakilkandi, Abdolreza Mirzaei

904

Hierarchical Fuzzy Rule-Based Classification System by Evolutionary Boosting Algorithm
Azam Amouzadi, Abdolreza Mirzaei

909

A New Hybrid Approach for Data Clustering

914

Mining rules from crisp attributes by rough sets on the fuzzy class sets
D. R. Rezaee, A. S. Mohammadi

920

Scheduling Earth Observation Activities In LEO Satellites Using Graph Coloring Problem
Arezoo Sarkheyli, Reza Askari Moghadam, Bahman Ghorbani Vaghei, Alireza Bagheri

928

Computation & Decision Making Aspects (2)

A New Hybrid Algorithm for Optimization Based on Artificial Fish Swarm Algorithm and Cellular Learning Automata
Danial Yazdani, Sara Golyari, Mohammad Reza Meybodi

932
A New Approach for Finding Minimum Delay Control Centers of Control Networks
Mohammad Shahraeini, M. Hossein Javidi

Spiking Neural Network Learning Algorithms
using Learning Rates Adaptation of Gradiet and Momentum Steps
Ehsan Delshad, Payman Moallem, S. A. Hasan Monadjemi

A Modified Fast Marriage in Honey Bee Optimization Algorithm
M.T. Vakili-Baghmisheh, Mina Salim

Modeling & Simulation of Educational Multi-Agent Systems in DEVS-Suite
Fatemeh Orooji, Hessam Sarjoughian, Fattaneh Taghiyareh

Alleviating the Cold-Start Problem of Recommender Systems Using a New Hybrid Approach
Javad Basiri, Azadeh Shakerly, Behzad Moshiri, Morteza Z. Hayat

AAPNES: A Petri Net Expert System Realization of Adaptive Autonomy in Smart Grid
M. A. Zamani, A. Fereidunian, M. A. Sharif K., H. Lesani, C. Lucas

A Fuzzy Approach to T3SD-Based IT Infrastructure Selection Method in Smart Grid
M.A. Zamani, A. Fereidunian, S. Sharif Mansouri, H. Lesani, C. Lucas

Using Pattern Detection Techniques and Refactoring to Improve the Performance of ASMOV
Bahareh Behkamal, Mahmoud Naghibzadeh, Reza Askari Moghadam

A Study to find Influencial Parameters On A Farsi-English Statistical Machine Translation System
Somayeh Bakhshaei, Shahram Khadivi, Noushin Riahi, Hossein Sameti

A Technology Selection method: Hospital Location Detection System
Abbas Asosheh, Hayedeh Khanifar

A Novel Method for Data Segmentation to Covariance Stationary Regions
N. Faraji, S. M. Ahadi, H. Sheikhzadeh, A. Moghaddamjoo

A New Sequential Classification to Assist Ad Action Agent in making decisions
Sara Mesbah, Fattaneh Taghiyareh

Overlapped Ontology Partitioning Based on Semantic Similarity Measures
Kobra Etminani, Amin Rezaeian Delui, Mahmoud Naghibzadeh

Using WordNet to determine semantic similarity of words
Mostafa Ghazizadeh Ahsae, Mahmoud Naghibzadeh, S. Ehsan Yasrebi

Author Index
