## TABLE OF CONTENTS

### VOLUME 1

<table>
<thead>
<tr>
<th>Conference ID</th>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>2010-9000</td>
<td>Service Provider Feedback to Support Increased User Traffic Flow Management Responsibility</td>
<td>J. Henderson, H. Idris, S. Ferguson, J. Krozel, R. Kicinger</td>
<td>1</td>
</tr>
<tr>
<td>2010-9001</td>
<td>Benefits from Collaborative Flow Planning of Alternative Route Options</td>
<td>R. Kicinger, J. Krozel, H. Idris, Pierrick Burguign</td>
<td>19</td>
</tr>
<tr>
<td>2010-9003</td>
<td>Airport-Centered Flow Management</td>
<td>Eike Rehwald, Peter Hecker</td>
<td>48</td>
</tr>
<tr>
<td>2010-9004</td>
<td>Controller Workload Models for Generic High-Altitude Airspace</td>
<td>Michael Bloem, P. Gupta, Chok-Fung Lai</td>
<td>54</td>
</tr>
<tr>
<td>2010-9005</td>
<td>Aircraft-Based Complexity Assessment for Radar Controllers in the Multi-Sector Planner Experiment</td>
<td>L. Li, HongSeok Cho, R. John Hansman, Rafael Palacios</td>
<td>66</td>
</tr>
<tr>
<td>2010-9006</td>
<td>Combining ATC Subjective Cognitive Complexity Evaluation Metrics in a Single Indicator</td>
<td>E. de Albuquerque Filho, L. Trabasso, R. Scarpe, R. John Hansman, L. Li</td>
<td>75</td>
</tr>
<tr>
<td>2010-9007</td>
<td>Investigation of Strategies Used by Air Traffic Controllers to Reduce Cognitive Workload</td>
<td>Keshava Sharma, R. Pant</td>
<td>84</td>
</tr>
<tr>
<td>2010-9008</td>
<td>User-Centric Evaluation of Voice over Internet Protocol Codecs for Use in Air Traffic Control Communications</td>
<td>Atul Deshmukh, Ferne Friedman-Berg, Kenneth Allendorfer</td>
<td>100</td>
</tr>
<tr>
<td>2010-9009</td>
<td>Fundamental Surface Trajectory Models for Air Traffic Automation</td>
<td>Di Wu, Yiyan J. Zhao, Brian Capouzi</td>
<td>108</td>
</tr>
<tr>
<td>2010-9010</td>
<td>The Effects of Speed Uncertainty on a Separation Assurance Algorithm</td>
<td>T. Landerdale</td>
<td>142</td>
</tr>
<tr>
<td>2010-9011</td>
<td>Improving Separation Assurance Stability Through Trajectory Flexibility Preservation</td>
<td>H. Idris, Ni Shen, David Wing</td>
<td>153</td>
</tr>
<tr>
<td>2010-9012</td>
<td>Flight Option Generation for Traffic Management Decision Support</td>
<td>Craig Wanke, James DeArmon, Christine Taylor, Daniel Greenbaum</td>
<td>164</td>
</tr>
<tr>
<td>2010-9013</td>
<td>One Engine Out Takeoff Trajectory Optimization</td>
<td>Bastien Talgorn, Serge Laporte, Christian Bes, Stephane Segonds</td>
<td>182</td>
</tr>
<tr>
<td>2010-9014</td>
<td>What Would Industry Like to See Covered in the Capstone Design Course?</td>
<td>Leland Nicolai, Eric Schrock</td>
<td>186</td>
</tr>
<tr>
<td>2010-9015</td>
<td>An Industry Perspective on Future Needs for Aircraft Design Education</td>
<td>Paul Does</td>
<td>193</td>
</tr>
<tr>
<td>2010-9016</td>
<td>Issues in Aerospace System Engineering Design Education – An Outside View from Within</td>
<td>Armand Chaput</td>
<td>202</td>
</tr>
<tr>
<td>2010-9017</td>
<td>Generating Operationally-Acceptable Reroutes Using Simulated Annealing</td>
<td>Christine Taylor, Craig Wanke</td>
<td>214</td>
</tr>
<tr>
<td>2010-9019</td>
<td>Effectiveness of Dynamic Airspace Configuration to Manage Airspace Capacity in Response to Highly Dynamic Changes in Traffic Demand and Weather Events</td>
<td>Arash Yousefi, Babak Khorrami, Girishkumar Sabhnni, Robert Hoffman, Bert Hackney</td>
<td>236</td>
</tr>
<tr>
<td>2010-9020</td>
<td>Survey of Weather Impact Models used in Air Traffic Management</td>
<td>J. Krozel</td>
<td>246</td>
</tr>
<tr>
<td>2010-9021</td>
<td>An Experimental Study of Terrain-Induced Airflow at the LPPI Airport</td>
<td>Jorge Barata, Rui Medeiros, Andre Silva</td>
<td>270</td>
</tr>
<tr>
<td>2010-9051</td>
<td>Dynamic Allocation and Benefit Assessment of Next Gen Flow Corridors</td>
<td>Arash Yousefi, Ali Zadeh</td>
<td>278</td>
</tr>
<tr>
<td>2010-9052</td>
<td>Estimating the En Route Efficiency Impacts of ADS-B Surveillance in Regions Without Radar</td>
<td>Daniel Howell, Gary Paull, Jennifer King</td>
<td>293</td>
</tr>
<tr>
<td>2010-9053</td>
<td>Benefits Assessment Methodology for an Air Traffic Control Tower Advanced Automation System</td>
<td>Tom Reynolds, Richard Jordan, Mariya Ishutkina, Robert Seater, James Kuchar</td>
<td>315</td>
</tr>
</tbody>
</table>
2010-9054 Enhancing the Value of Data through Effective Aggregate Analytical Techniques ........................................... 325
   E. Silberg, D. Haas, J. Walker, L. Kough
2010-9055 Two Men in a Cockpit: Probabilistic Assessment of the Likelihood of a Casualty if One of the Two Navigators Becomes Incapacitated ................................................................................................. 339
   E. Sahir, R. Mogford
2010-9056 Assessment of the Risk to Ground Population Due to an Unmanned Aircraft In-Flight Failure .............................................................................................................................................. 350
2010-9057 Modeling the Contribution of Accident Investigation to Aircraft Safety ......................................................................................... 362
   Taiki Matsumura, Chanyoung Park, Daniel Doyon, Raphael Hajfka, Nam-Ho Kim
2010-9058 Application of Value-Driven Design to Commercial Aero-Engine Systems ......................................................................................... 374
   Julie Cheung, James Scanlan, James Wong, Jennifer Forrester, Hakki Eres, Paul Collop, Peter Hollingsworth
2010-9059 Development of an Airline Revenue Capability Model for Aircraft Design ................................................................................................. 395
   Peter Sutcliffe, Peter Hollingsworth
2010-9061 Aircraft Valuation: A Network Approach to the Evaluation of Aircraft for Fleet Planning and Strategic Decision Making ........................................................................................................... 409
   Cecde Justin, Elena Garcia, Dimitri Mavris
2010-9062 A Hybrid Optimization Approach to Air Traffic Management for Metroplex Operations ......................................................................................... 434
   Brian Capozzi, Stephen Atkins
2010-9063 Analysis of Factors for Incorporating users Preferences in Air Traffic Management: A Users' Perspective ........................................................................................................... 447
   Sebastian Gutierrez-Nolasco, Kapil Sheth
2010-9064 Evaluation of User Gaming Strategies in the Future National Airspace System ......................................................................................... 460
   H. Gao, George Hunter
2010-9065 Reflections on Over 20 Years of Aircraft Design Class ........................................................................................................... 473
   William Mason
2010-9066 Aerospace Design Education at RMIT University ........................................................................................................... 499
   Cees Bil, Lachlan Thompson
2010-9067 Cranfield Graduate Aircraft Design Education ........................................................................................................... 507
   John Fielding, Howard Smith, Phillip Stocking
2010-9068 Integrating Digital Manufacturing, Processing, and Design of Composite Structures ......................................................................................... 518
   M. Price, A. Murphy
2010-9069 Prediction of Composite Component Part Shapes in Support of Manufacturing Simulation ......................................................................................... 529
   P. Han, J. Butterfield, S. Buchanan, R. McCool, Z. Jiang, M. Price, A. Murphy
2010-9070 Development of a Digital Methodology for Composite Process & Manufacture in Aerospace Assemblies ......................................................................................... 545
   W. McEwan, J. Butterfield, M. Price, A. Murphy
2010-9071 A Virtual Test System Integrating Materials and Manufacturing to Aid Design Choices ......................................................................................... 557
   M. Price, C. Gonzalez-Marilto, J. Butterfield, A. Murphy, R. McCool
2010-9072 Technology Assessment on Aircraft-Level: Modeling of Innovative Aircraft Systems in Conceptual Aircraft Design ........................................................................................................................................... 571
   Tim Lammering, Eckhard Anton, Rolf Henke
2010-9074 Designing Redundant Metering Valves for Hydraulic Actuators Under Mixability and Low Cost-Constraints ........................................................................................................... 588
   Thibaut Marger, Valerie Badingier, Jean-Charles Mare
2010-9106 A Study of Civil Tiltrotor Aircraft in NextGen Airspace ........................................................................................................... 595
   L. Young, W. Chung, A. Paris, D. Salvano, R. Young, H. Guo, K. Wright, D. Miller, V. Cheng
2010-9107 Meeting Air Transportation Demand in 2025 by Using Larger Aircraft and Alternative Routing to Complement NextGen Operational Improvements ........................................................................................................... 613
   J. Smith, N. Guerreiro, J. Viken, S. Dollyhigh, J. Fenbert
2010-9108 Safety Aspects of Automotive Child Restraint Systems in Aircraft ........................................................................................................... 626
   Adam Shrimpton, Graham Clark, Cees Bil
2010-9109 Nested Modeling for Evaluating Hazards Associated with Off-Nominal Scenarios in the National Airspace System ........................................................................................................... 633
   G. Calamari Fraconno, V. Volovoi, R. Valenzuela Vega, S. Siddique
2010-9110 Setting up a Company Performance Measurement Methodology for the Aerospace Industry: Deduction from the Automotive Industry ........................................................................................................... 646
   Nicolaas Elferink, F. Van Der Zwan
2010-9111 Effects of the Design Mismatch Between Aircraft Capabilities and Actual Aircraft Utilization ........................................................................................................... 661
   Rodrigo Martinez-Val, Javier Roa, Emilio Perez, Cristina Cuerno
2010-9140 Cruise Optimization Using Trajectory Patterns ..................................................... 839
   Alfonso Valenzuela, Damian Rivas, Antonio Franco

2010-9141 Characterization of Flight Management System (FMS) Intent from Operational Flights ..................................................... 850
   G. Liu, M. Kodama, M. Balakrishna, G. McNeill

2010-9143 Optimization of Aircraft Utilization by Reducing Scheduled Maintenance Downtime ..................................................... 861
   C. Senturk, M. Kavasoglu, M. Nikbay

2010-9144 Trade-Off Between Facility Utilization and Service Level of an Airline MRO ..................................................... 886
   T. Sanyal, N. Rangaraj, R. Pant

2010-9145 Value Analysis of Engine Maintenance Scheduling Relative to Fuel Burn and Minimal Operating Costs ..................................................... 895
   R. Currin, F. van der Zwan, A. Owelhund

2010-9146 Engine Management: A Decision Support Tool for Strategic Engine Maintenance Planning ..................................................... 902
   A. Figueroa Mayordomo, A. Ghobhar, S. Ghijis, E. Cator

2010-9147 Aircraft Taxi Times at U.S. Domestic Airports ..................................................... 914
   Derek Robinson, Daniel Murphy

2010-9148 An Analytical Queuing Model of Airport Departure Processes for Taxi Out Time Prediction ..................................................... 930
   Ioannis Simaiakis, Nikolas Pyrgiotis

2010-9149 Optimization Models for Strategic Runway Configuration Management Under Weather Uncertainty ..................................................... 949
   Chris Provan, Stephen Atkins

2010-9150 Analysis of DFW Perimeter Taxiway Operations ..................................................... 965
   Shawn Engelland, Louise Morgan Ruskowski

2010-9151 Optimization of Airport Taxiway Operations at Detroit Metropolitan Airport (DTW) ..................................................... 979
   Hanhong Lee, Hamza Balakrishnan

2010-9152 A Global Aircraft Design Course Experience ..................................................... 995
   John Rutherford, Ignacio Dapic
2010-9153 The Flight Vehicle Design and Fabrication Course: Two Decades of Project-Based Learning at Penn State ................................................................. 1001
Julia Cole, Mark Maughmer, Kathy Schmidt

2010-9154 The Philosophy of Design Education at the University of Manchester .................................................. 1009
Peter Hollingsworth, William Crowther

2010-9155 Aircraft Design Education at Queen's University Belfast: Philosophy, Framework, and Implementation .................................................. 1019
M. Price, A. Murphy, Juliana Early, Theresa Robinson, Danielle Soban

2010-9156 Closed-Form Takeoff Weight Estimation Model for Air Transportation Simulation .................................. 1028
Hak-tae Lee, Gano Chatterji

2010-9157 Enhancing Location Privacy of Future Aircraft Wireless Communications .................................. 1041
K. Sampigethaya

2010-9159 Generic Airspace Concepts and Research ........................................................................ 1054
R. Mogford

2010-9160 Assessment and Interpretation of On Route Weather Avoidance Fields from the Convective Weather Avoidance Model ................................................................. 1067
Michael Matthews, Rich DeLaura

2010-9161 Dynamically Evolving Sectors for Convective Weather Impact .................................................. 1086
Michael Drew

2010-9163 Predicting Airspace Capacity Impacts Using the Consolidated Storm Prediction for Aviation ................................................................. 1095
C. Russell

2010-9164 An Algorithm to Identify Robust Convective Weather Avoidance Polygons in En Route Airspace ................................................................. 1106
Mikhail Rubinchik, Rich DeLaura

2010-9166 National Air Traffic Rule Change 7110.308 ........................................................................ 1116
Megan James, J'on Brown

2010-9167 Lateral-Directional Stability Investigation of a Blended-Wing Body .................................................. 1127
Paul Roysdon, Mahmood Khalid

2010-9168 Multi-Objective Optimization of Turbofan Design Parameters for an Advanced, Single-Aisle Transport ........................................................................ 1137
Jeffrey Berton, Mark Guynn

2010-9202 Investigation of the Impacts of Effective Fuel Cost Increase on the U.S. Air Transportation Network and Fleet ........................................................................ 1154
James Morrison, Philippe Bonnefoy, R. John Hansman, Sgouris Sgouridis

2010-9203 An Approximate Dynamic Programming Approach to Aircraft Allocation Incorporating Passenger Demand Models ................................................................. 1169
Navindran Davendraingam, William Crossley, Antonius Nusawardhana

2010-9204 An Integrated Framework To Study The Interaction Between On-Demand Air Service And Existing Regional Intermodal Transportation System ................................................................. 1180
Aditya Joshi, Daniel DeLaurentis, Srinivas Peeta

2010-9205 Impact of Future Generation Aircraft on Fleet-Level Environmental Emission Metrics ........................................................................ 1196
Isaac Tetzloff, William Crossley

2010-9206 System-wide Environmental Impact Analysis for Advanced Vehicle Concepts in the Next Generation Air Transportation System ........................................................................ 1212
Holger Pfaender, Dimitri Mavris

2010-9207 Fleet-Wide Environmental Impact of Future Aircraft Technologies ........................................................................ 1224
Muharem Mane, Dutu Aguadinata, William Crossley, Daniel DeLaurentis

2010-9208 MEDA Case Study for an MRO ........................................................................ 1238
Yuskel Bozkurt, M. Kavsaoglu

2010-9209 Feasibility Study of OBIGGS for Water Contamination Control in Aircraft Fuel Tanks ........................................................................ 1258
Marc Wetterwald, Craig Lawson, Joseph Lam

2010-9210 A Methodology for Development of Aircraft Base Maintenance Just in Time Tool and Material Support ........................................................................ 1269
Yuskel Bozkurt, M. Kavsaoglu, Fuat Okuyu

2010-9211 Generation of Optimized Routes and Schedules for Surface Movement of Aircraft on Taxiways ........................................................................ 1281
P. Gupta, H. Subramanian, R. Pant

2010-9212 Optimization of Taxiway Traversal at Congested Airports ........................................................................ 1290
Ross Anderson, Dejan Milutinovic
2010-9213 A Concept and Implementation of Optimized Operations of Airport Surface Traffic
Yoon Jung, Ty Hoang, Justin Montoya, Gautam Gupta, Wagaur Malik, Leonard Tobias

2010-9214 Aviation Archeology of the Horten 229 v3 Aircraft
Thomas Dobrenz, Aldo Spadoni, Michael Jorgensen

L. Sherry, A. Samant, G. Calderon-Mesa

2010-9218 A Bayesian Analysis (Gaussian Process Model) for Air Traffic Demand Forecast at a Commercial Airport
SeungYeob Han, Daniel DeLaurentis

2010-9219 The Relationship Between Rationalized Schedules and Reduced Arrival Variability
John Shortle, L. Sherry

2010-9220 Fast Estimation of Top-Level Aircraft Requirement Impact on Conceptual Aircraft Designs
Eckhard Anton, Tim Lammering, Rolf Henke

2010-9221 Mission Performance as Point Performance
Robert McDonald

2010-9222 An Intelligent Multi-Criteria Decision Support System for Systems Design
Xiaogian Sun, Yongchao Li

2010-9223 Design System for Managing Complexity in Aerospace Systems
S. Bez, A. Pinto, L. Zeidner, R. Khire, H. Reeve, A. Banaszuk

2010-9224 Design Issues for a Bottom-Up Complexity Metric Applied to Hierarchical Systems
L. Zeidner, H. Reeve, R. Khire, S. Bez

2010-9225 Assessing Performance Uncertainty in Complex Hybrid Systems
R. Khire, Sander Bez, H. Reeve, Larry Zaidner

2010-9246 Development and Evaluation of Market-Based Traffic Flow Management Concepts
H. Gao, George Hunter, Frank Bernardo, Karla Hoffman

2010-9247 A Surrogate Model for NextGen Portfolio Analysis
Yuri Gavdiak, Gregory Carr, Stojan Trajkov, George Hunter, A. Huang, Kris Ramamoorthy, M. Graham, Terence Thompson, C. Murphy, Jeremiah Pepper

2010-9248 Identification and Evaluation of Technology Transfer Benefits: Definition of a Registry in Support of the Strategic Development of NextGen Architecture
Olivia Pinon, Simon Briceno, Dimitri Mavris, Yuri Gavdiak

2010-9249 Evaluating Concepts for Metropolex Operations
John-Paul Clarke, Liling Ren, Evan McClain, David Schleicher, Sebastian Timar, A. Saraf, Donald Crisp, Richard Gutterud, Ryan Laroza, Terence Thompson, Carolyn Cross, Taryn Lewis, Michael D. Madson

2010-9250 The Impact of Economic Mitigation Measures on Global Aircraft Emissions
L. Dray, A. Evans, A. Schafer

2010-9251 Environmental Impact Analysis of Fleet and Policy Options of Aircraft Operators using System Dynamics
Hernando Jimenez, Holger Pfaender, Dimitri Mavris

2010-9252 Runway Operations Optimization in the Presence of Uncertainties
G. Solveling, J. Clarke, E. Johnson, S. Solak

2010-9253 A Two-Level Scheme for Network Selection and Schedule Optimization of Cargo Airlines
M. Agarwal, F. Maud, R. Pant

2010-9255 The Effects of Airline Adaptive Route Selection in NAS-Wide Performance
G. Calderon-Meza, L. Sherry

2010-9256 The Application of an Agent-Based Impact Analysis to a Complex Air Traffic Management System
Gary Davies, M. Price, Juliana Early, Patrick Connolly

2010-9257 Developing a Model to Determine Called Rates at Airports
Stephanie Chung, Daniel Murphy

2010-9258 Discussion and Comparison of Metropolex-Wide Arrival Scheduling Algorithms
A. Saraf, John-Paul Clarke, Evan McClain

2010-9259 Generic Metropolex Airspace Comparison for Shared Resource Configurations
Evan McClain, John-Paul Clarke

2010-9260 Conceptual Design and Optimization of a UAV Using Simulated Annealing
R. Shasthi, R. Pant

2010-9261 Methodology for Flying Qualities Prediction and Assessment in Preliminary Aircraft Design
Kristof Risse, Eckhard Anton, Rolf Henke
2010-9262 Development of Airworthiness-Design Integration System for FAR 23 Class Aircraft
H. Lee, J. Kim, J. Yoon, T. Lwin, J. Lee, S. Kim
2010-9263 Correct-by-Construction Design of Aircraft Electric Power Systems
A. Pinto, Sandor Becz, H. Reeve
2010-9264 Architectural Enumeration and Evaluation for Identification of Low-Complexity Systems
L. Zeidner, H. Reeve, R. Khire, S. Becz
2010-9265 System Complexity Reduction via Spectral Graph Partitioning to Identify Hierarchical Modular Clusters
Lawrence Zeidner, A. Banaszuk, Sandor Becz
2010-9282 A Decision Support Tool for High Density Area Departure Traffic Management
Christina Taylor, Lixia Song
D. Zondervan, A. Smith, W. Cooper Jr., A. Mundra, D. Domino, H. Bateman
2010-9284 Reinventing High Density Area Departure Traffic Management
Lixia Song, H. Bateman, Sheng Liu, Gaea Payton, Emily Stelzer, Norma Taber
2010-9285 Capacity Improvement Potential for the New York Metroplex System
Alexander Donaldson, R. John Hansman
2010-9286 Evaluating Surface Optimization Techniques Using a Fast-time Airport Surface Simulation
K. Griffin, P. Yu, D. Rappaport, J. Clarke
2010-9288 Arrival Trajectory Optimization on Noise Impact Using Interval Analysis
H. Yu, J. Mulder
2010-9289 Investigating the Potential of Using Quota Count as a Design Metric
Peter Hollingsworth, D. Salitzer
2010-9290 Design Considerations for a New Terminal Area Arrival Scheduler
Jane Thiophavong, Daniel Muflinger, Alexander Sadovsky
2010-9291 Quantitative Characterization of Strategic Solutions Impact on Terminal Area Operational-Environmental Performance
Hernando Jimenez, Dimitri Mavris
2010-9292 A Concept for Robust, High Density Terminal Air Traffic Operations
D. Isaacson, J. Robinson, H. Swenson, D. Denery
2010-9293 Comparison of Ground-Based and Airborne Function Allocation Concepts for NextGen
Using Human-In-The-Loop Simulations
David Wing, T. Prevot, Jennifer Murdoch
2010-9294 Tactical Conflict Detection in Terminal Airspace
Huabin Tang, J. Robinson, D. Denery
2010-9295 Interaction of Airspace Partitions and Traffic Flow Management Delay
Kee Palopo, Gano Chatterji, Hak-Tae Lee
2010-9296 An Algorithm for Adaptable Dynamic Airspace Configuration
Mehernaz Savai, Jinhua Li, Tong Wang, Inseok Hwang
2010-9298 Multilevel Graph Partitioning Algorithm for Dynamic Airspace Configuration
Mehernaz Savai, Jian Wei, Jinhua Li, Tong Wang, Inseok Hwang
2010-9299 Dynamic Airspace Configuration Analysis for the Current and Future Traffic Scenarios
Tong Wang, Jian Wei, Mehernaz Savai, Inseok Hwang
2010-9300 Hang Glider Design and Performance
Paul Dees
2010-9301 Rapid Air System Concept Exploration – A Parametric Physics Based System Engineering Design Model
Armand Chaput
2010-9302 A Systems Engineering Approach to Unmanned Aerial Vehicle Design
Mohammad Sadraey
2010-9304 Multidisciplinary General Aviation Aircraft Design Optimizations Incorporating Airworthiness Constraints
J. Yoon, Nha Nguyen, Seok-Min Choi, Jae-Woo Lee, Sangho Kim, Yung-Hwan Byun
2010-9306 Conceptual Design Studies of an Unmanned Combat Aerial Vehicle
A. Sathe, R. Pant
2010-9331 Investigation of the Fuel Efficiency of the U.S. Air Transportation Network Structure
Mark Azzam, Philippe Bonnefoy, R. John Hansman
