International Symposium on Room Acoustics 2010

(ISRA 2010)

A Satellite of the International Congress on Acoustics

Melbourne, Australia
29 – 31 August 2010

Some format issues inherent in the e-media version may also appear in this print version.
TABLE OF CONTENTS

**KEYNOTE 1**

Acoustics For Symphony Orchestras; Status After Three Decades Of Experimental Research ........................................... 1
   Anders Christian Gade

**SPECIAL SESSION ON STAGE ACOUSTICS**

Objective Assessment Of Acoustic Conditions On Concert Hall Stages – Limitations And New Strategies ................................................................. 13
   Jens Jørgen Dammerud, Michael Barron, Eckhard Kahle

A Consideration On Acoustic Properties On Concert-Hall Stages ................................................................. 19
   Kanako Ueno, Hideki Tachibana

Reflection Density And Attenuation On Stages And Rehearsal Halls ................................................................. 26
   John O'Keefe

Stage Acoustics For Vineyard Concert Hall ................................................................. 31
   Wei-Hwa Chiang, Yi-Run Chen, Chia-Chun Chen, Yen-Kun Hsu

Virtual Stage Acoustics ........................................................................... 35
   Wieslaw Woszczyk, Brett Leonard, Doyuen Ko

**GENERAL PAPERS 1**

A Note On The Acoustics Of Orchestra Rehearsal Rooms ........................................................................... 43
   Roberto Pompoli, Rea Farnetani, Nicola Prodi

Absorption Of Orchestra Platform Measured For The Acoustical Design Of Concert Halls ........................................... 48
   Hyung Suk Jang, Yong Hee Kim, Jin Yong Jeon

Stage Acoustics: Renovation Of The Concert Hall De Doelen, Rotterdam And Other Stages ........................................... 52
   Margriet R. Lautenbach, Martijn L. S. Vercammen

Acoustical Behaviour Of Colonial Churches In Peruvian Andean Plateau (Puno, Peru) ........................................... 58
   Carlos Jimenez-Dianderas

Scaled-Model Measurements For Coupled Volumes Using An Automated High Spatial-Resolution Scanning System ........................................................................... 62
   Joonhee Lee, Craig Schaefer, Hans-Elias De Bree, Ning Xiang

Characterising The Variation In Oral-Binaural Room Impulse Responses For Horizontal Rotations Of A Head And Torso Simulator ........................................................................... 66
   Densil Cabrera, Doheon Lee, Ralph Collins, Bastian Hartmann, William L. Martens, Hayato Sato

Prediction Of Chinese Speech Intelligibility Using Useful To Detrimental Sound Ratios Based On Auralization ........................................................................... 76
   Peng Jianxin, Bei Chengxun

Good Speech Intelligibility Through Novel Acoustics Material Of Geometric Pattern Perforated Wall In Medium Size Mosques ........................................................................... 81
   Mohamad Ngasri Dinnon, Siti Dhaila Adzim Muhamad Adzim, Hasnizom Hassan, Mohd Zamri Jasoh

Classroom Acoustics And Green Schools ........................................................................... 87
   Kenneth Roy, Sean Browne

The Relationship Between Sound Insulation Performance Of Walls And Word Intelligibility Scores ........................................................................... 92
   Yassushi Hoskino, Hayato Sato, Masayuki Morimoto, Yasuhiko Odagawa

Natural Speech Intelligibility In Theatres In Relation To Its Acoustics ........................................................................... 98
   Maarten Layks, Martijn Vercammen

A Global Index To Evaluate The Acoustical And Thermal Behavior Of Buildings ........................................................................... 106
   Anna Magrini, Lucia Cattani, Lorentza Magnani

Assessment Of Speech Privacy In Open Plan Offices ........................................................................... 112
   Joo Young Hong, Pyoung Jik Lee, Byung Kwon Lee, Jiu Yong Jeon

Secret Room Acoustics ........................................................................... 116
   David Borgeraud
SPECIAL SESSION ON RECORDINGS FOR AURALIZATION

Multi-Channel Orchestral Anechoic Recordings For Auralizations
Michelle C. Vigeant, Lily M. Wang, Jens Holger Rindel, Claus Lynge Christensen, Ers Christian Gade

Creating An Anechoic Choral Recording
Ron Freiheit

Directional Database For Musical Instruments To Be Used For Acoustical Vr
Martin Pollow, Gottfried Behler

Evaluation Of Concert Hall Auralization With Virtual Symphony Orchestra
Jukka Päätynen, Tapio Lokki

GENERAL PAPERS 2

Loudspeaker Simulation Of A String Quartet For In Situ Listening Evaluation
Timothy Gulsrud

Effect Of Sample Size On Measurement Of The Absorption By Seats
Young-Ji Choi, Jin-Hak Lee, Hyun-Kyung Joo, Daeup Jeong

Study Of Evaluating Indoor Noisiness In Hospitals Under Temporal Varieties Using Autocorrelation Analysis
Chiung Yao Chen, Kuo Feng Hung, Jui Ling Chen

Improving The Accuracy Of Sound Absorption Measurement According To Iso 354
Martijn Vercammen

Estimation Of Reflections From Impulse Responses
Sakari Tervo, Teemu Korhonen, Tapio Lokki

The Acoustic Design Proposed For A Church’S Transformation Into Auditoria
Lamberto Tronchin, Milo Coralli

Effects Of Absorption Elements And Stage Set On The Stage House Acoustics In A Proscenium Hall
Jin You, Jeong Jun Kim, Jin Yong Jeon

Uncertainty Of Room Acoustical Measurements – How Many Measurement Positions Are Necessary To Describe The Conditions In Auditoria?
Ingo Witew, Pascal Dietrich, Michael Vorländer, Diemer De Vries

Variations On Acoustical Measurement Procedures And Their Influence On Acoustical Parameters
Fabio Figueiredo, Jean-Dominique Polack

GENERAL PAPERS 3

Review Of Objective Room Acoustics Measures And Future Needs
John Bradley

New Acoustical Parameters And Visualization Techniques To Analyze The Spatial Distribution Of Sound In Music Spaces
Alban Bassuet

Auditorium Acoustics Assessment With Sensory Evaluation Methods
Tapio Lokki, Heikki Vertanen, Antti Kausinen, Jukka Päätynen, Sakari Tervo

Whole Stage Imaging For The Control Of Sound Strength In Concert Halls
Harold Marshall, Thomas Scelo, Peter Exton

Auditorium Acoustic Design: 30 Years, 15 Projects
Rob Harris

The Reconstruction Of The Teatro Galli In Rimini: The Acoustic Design
Lamberto Tronchin

Room Acoustics Investigations In Hamer Hall At The Arts Centre, Melbourne
Timothy Gulsrud, Peter Exton, Arthur Van Der Harten, Larry Kirkegaard

Acoustical Considerations In The Design Of Heydar Aliyev Center Auditorium
Zuher Su Gul, Mehmet Caliskan

Acoustical Design Of New Danish Radio Concert Hall”
Motoo Komoda, Ayako Hakozaki, Yasuhsa Toyota

A Mid-Size Concert Hall With Staggered Terraced Seating”
Wei-Hwa Chiang, Wei Lin, I-Te Yeh, Yen-Kun Hsu

Acoustical Renovation Of Large Auditorium To Enhance Sound Strength And Iacc”
Hyo Joo Yoo, Chun Ki Seo, Jae Ho Kim, Jin Yong Jeon

The Effect Of Reflectors On Sound Strength (G) And Iacc In A Fan-Shape Hall
Jae Ho Kim, Chun Ki Seo, Hyo Joo Yoo, Jin Yong Jeon
The Case For Widely Variable Acoustics .......................................................... 260
Steve Ellison, Roger Schwenke

SELECTED PAPERS IN AUDITORIUM DESIGN

The Acoustical Design Of The New National Opera House Of Greece ..................... 264
Alban Bassuet

The Acoustical Design Of The New Yamaha Hall .................................................. 271
Hideo Miyazaki, Shinjirō Yamashita, Yasushi Shimizu, Yoshihide Shiba, Ami Tanaka

GENERAL PAPERS 4

Equal Reverberance Contours For Synthetic Room Impulse Responses Listened To Directly: Evaluation Of Reverberance In Terms Of Loudness Decay Parameters ........................................... 279
Doheon Lee, Densil Cabrera, William L. Martens

An Artificial Listener For Assessing Content-Specific Objective Parameters Related To Room Acoustical Quality .............................................................. 286
Jasper Van Dorp Schuitman, Diemer De Vries

A Quasi-Binaural Approach To Head-Movement-Aware Evaluation Of Spatial Acoustics, And An Overview Of A Related Subjective Study ........................................... 292
Chungeun Kim, Russell Mason, Tim Brookes

Investigation Of The Correlation Between Late Lateral Sound Level And Total Acoustic Absorption, Perception Of Scattered Sounds In Rectangular Concert Halls .......................... 301
Michelle C Vigean, Robert D Celmer, David A Dick

Application Of Auditory Filter For Evaluation Of Sound And Sound Field ............. 306
Yuki Matsuzato, Masahiro Suzuki, Hisako Ogashi, Akira Omoto

Investigation Of The Correlation Between Late Lateral Sound Level And Total Acoustic Absorption, And An Overview Of A Related Subjective Study ....................... 311
Michelle C Vigean, Robert D Celmer, David A Dick

Application Of Analytic Sweep Segments In Room Acoustic Measurements ........... 316
Csaba Huszty, Sakae Yokoyama, Shinichi Sakamoto

Room Acoustics Simulation For Multichannel Microphone Arrays ......................... 322
Andrew Wabnitz, Nicolas Epain, Craig Jin, Ré Van Schaik

Objective Assessment Of Active Acoustic System Performance .......................... 326
Roger Schwenke, Steve Ellison

Identification Of Admittance Parameters In Arbitrarily Shaped Interiors Based On Sound Pressure Measurements Using A 3d-Fem-Based Inverse Algorithm .................. 334
Robert, Erssohn, Steffen Marburg, Hans-Juergen Hardtke

The Effect Of An Edge On The Measured Scattering Coefficients In A Reverberation Chamber Based On Iso 17497-1 ................................................................. 340
Jung Su Kim, Jin Hak Lee, Young Ji Choi, Daeup Jeong

Room Acoustics Modeling With Acoustic Radiance Transfer .................................. 346
Samuel Siltanen, Tapio Lokki, Lauri Savioja
SPECIAL SESSION ON COMPUTATIONAL ROOM ACOUSTICS

Rays Or Waves? Understanding The Strengths And Weaknesses Of Computational Room Acoustics Modeling Techniques
Samuel Siltanen, Tapio Lokki, Lauri Savioja
382

Introducing Higher Order Diffraction Into Beam Tracing Based On The Uncertainty Relation
Uwe M. Stephenson
388

A Combination Of The Sound Particle Simulation And The Radiosity Method
Alexander Pohl, Uwe M. Stephenson
396

Fast And Accurate Geometric Sound Propagation Using Visibility Computations
Anish Chandak, Lakulish Antani, Micah Taylor, Dinesh Manocha
407

Use Of Gpus In Room Acoustic Modeling And Auralization
Lauri Savioja, Dinesh Manocha, Ming C. Lin
417

Room Acoustic Modelling Techniques: A Comparison Of A Scale Model And A Computer Model For A New Opera Theatre
Jens Holger Rindel
424

DEMONSTRATION

The Relationship Between Audience Engagement And The Ability To Perceive Pitch, Timbre, Azimuth And Envelopment Of Multiple Sources
David Griesinger
432

KEYNOTE 3

A Framework For Characterizing Sound Field Diffusion Based On Scattering Coefficient And Absorption Coefficient Of Walls
Toshiki Hanyu
444

GENERAL PAPERS 6

Open Measurements Of Edge Diffraction From A Noise Barrier Scale Model
Dirk Schröder, U. Peter Svensson, Michael Vorländer
452

The Role Of Sound Diffusing Surfaces In The Quality Of The Architectural Space
Fausto E. Rodriguez-Manzo, Elisa Garay-Vargas
459

Real-Valued Amplitude Reflection Grating Designs For Sound Diffusion
James Heddle
465

Architectural And Acoustic Features Of The Caisson Ceiling In Traditional Chinese Theatres
Jie He, Jian Kang
470

Acoustical Renovation Of Small Auditoria Using Sound Diffusers
Chun Ki Seo, Yong Hee Kim, Pyoung Jik Lee, Jin Yong Jeon
481

The Acoustic Design Of The Teatro Eschilo, Gela (Italy)
Lamberto Tronchin, Valerio Tarabusi
485

SPECIAL SESSION ON DIFFUSERS AND DIFFUSION

In Situ Measurement Methods For Characterising Sound Diffusion
Isabelle Schmich, Nathalie Brousse
489

The Potential For Phononic Sound Diffusers (Psd)
Javier Redondo, Rubén Picó, Víctor Sánchez-Morcillo
496

Diffuser Design In Concert Halls Using Scale Models
Jin Yong Jeon, Yong Hee Kim, Hyung Suk Jang
500

SPECIAL SESSION ON HOW ACOUSTICIANS LISTEN

How Acousticians Listen
Leo Beranek, J. Christopher Jaffe, Tateo Nakajima, Eckhard Kähle, R. Lawrence Kirkegaard, Pamela Clements
504
