Schedule risk management method of construction project based on critical chain................................................2561
Liu Hong-bo

Seismic Response Analysis of Simply Supported Skew Hollow Slab Bridge and the Research of Aseismatic Construction.................................................................2564
ZHANG Wen-xian, HUANG Jin-fen, MU Ya-nan

Seismic Response Analysis of Single-column Pier Based on Water Level Change......................................................2568
LI Furong, CHEN Guoxing, WANG Zhihua

Seismic Techniques of Fabricated Constructional Column and Ring Beam for Villages and Small Towns..................2572
Hao Sheng-nan, Zhang Yu-min
Radiation Technology ........................................................................................................... 2660
Xiaofei LIU, Enyuan WANG, Xianbin ZHU

STUDY ON THE ANTI-PULLING BEHAVIOR OF SQUEEZED BRANCH PILE .......................................................... 2664
ZHOU Yundong, JIANG Zhenhua, LI Feng, SONG Huanbao

Study on the BOTDR-based Distributed Detection of the Pile Foundation Bearing Capacity .................................................. 2668
Chunde Piao, Guangqing Wei, Yong Chen

Study on the Central Diaphragm Setting of YSection Sinking Pipe ........................................................................... 2672
WANG Xin-quan, ZHANG Shi-min

Study on the dynamic Response of concrete filled steel tubular short columns under Axial Impact Load .................................. 2676
Jianying Xue, Yucun Liu

Study on the Synchronous-asynchronous Encounter Probability of Annual Runoff Series in Luanhe River Basin .......................................................... 2680
He Cui, Yuchuan Bai, Junyi Niu

Study on undercrossing existing metro station and bridge with extending footings construction scheme of metro ........................................................................... 2684
Liang Yun, Tan Zhongsheng, Li Jian, Wang Yunlong

Successive Approximation Graphical Method for Negative Skin Friction in Piles Taking the Working Load into Account ........................................................................... 2689
Xia Li-nong, Miao Yun-dong

Systematic Reliability Analysis of high Rock-Fill Dam Slope Stability ........................................................................... 2694
Pei Liang, Wu Zhen-yu, Chen Jian-kang

Taiping Xi high slope deformation monitoring and stability evaluation ........................................................................... 2699
Wu Dinghong

The Calculating Models and Methods for the Stability Analysis of Expansive Geotechnical Slope .................................................. 2702
Lin Yuliang

The Analysis Model of Interaction of Piles-soilbridge for Elevated Pile Foundation ........................................................................... 2706
Zhou Mi, Zhang Yue, Yuan Wancheng

The Analysis of Composite Foundation with Compound Pile to Resist Soil Liquefaction ........................................................................... 2710
Feng Yuqin, Wang Yinghao

The application of the porous eco-concrete and the techno-method in the flooded siol slope engineering ..........................................................
Rongjin Xu, Ronggui Liu

The comparision research of landslide prediction methods by chaotic time series ........................................................................... 2718
Lin Yuliang, Chen Xiaoliang

The Defects of Reflecting Stiffness Contribution of Infill Wall by Period Reduction ........................................................................... 2722
Cheng Yumei

The Determination of Prestressed Concrete Covering Layer System Depth under Atmosphere Condition .................................................. 2725
Feng Chen, Dalin Hu, Yili Sun

The Effect Analysis about Creep and Shrinkage for Long-Term Deflection of Long-Span Continuous Rigid Frame Bridge ........................................................................... 2730
Wu Xun, Yao Kang

The effect of fire conditions on behaviors of steel framed structure ........................................................................... 2734
Xiaoping Yang, Gang Jin

The Evaluation of Structural Performance of the Simple-supported Beam Bridge Base on the Midas ..................................................
Hai Zhang, Jing Ma, Li Jiao

The Experimental Research On the Influence of Cellulose Fiber to Different types of Asphalt Mixture .................................................. 2741
Gao Danying, Huang Chunshui

The Experimental Study on the Dynamic Behavior of Reinforced Silty ........................................................................... 2745
YANG Shuai-dong, YU Xiang-juan
The External Connectors Effects on the Bond Strength of Concrete Filled Square Steel Tube........................2751
Huang YiJie,Xue JianYang,Zhao HongTie,Wu JianBin

The Impact of Double-O-Tube (DOT) Shield Tunnel Construction on Surrounding Environment.....................2756
WEI Xin-Jiang, HONG Jie, WEI Gang

The improved node virtual method for the seepage problem with free surface..............................................2760
Yan Jun,Liu Sihong

The iterative layerwise summation method of embankment-toe for settlement calculation of soft ground.........2766
WU Xue-ting, YAN Tian-jun

The mechanism and experimental study on fracture of thick-bedded backfill roof under high stress.................2770
Xiao-jun WANG

The optimization model of the foundation pit retaining programmes based on AHP and fuzzy mathematics........2775
ZHANG Shi-min,YU Kai

The peak acceleration attenuation relations based on side classified criterion in current seismic design code......2779
Geng Shuwei

The Predicting of Cracks on Concrete Arch Dam under Temperature Load..................................................2783
Yu Xuefang

The Research of Different Convergence Models by Shallow Tunneling..........................................................2787
WEI Xinjiang, WEI Gang, CHEN Weijun,ZHOU Yang

The Study about Prediction Model of Concrete Carbonation depth...............................................................2792
Hu Yun-shi,Liao Xiao-hui

The Study on Design and Calculation Methods of Internal Forces of the Facing in Soil–nailing Wall Supporting Structure................................................................................................................2798
ZHOU Yanpeng,HE Jiangfei,YE Shuaibin

Theoretical and Experimental Study on Equivalent Nonlinear Burgers Model for Soften Rockmass..............2802
Jianghong Zhu,Hongguang Ji

Theory and Case Analysis of PC Cable-Beam Structure..................................................................................2806
Kun Qian,Xin-ying Xie

Three-dimensional nonlinear analysis on complex hybrid structure...............................................................2811
Zhao Nan, Ma Kai, Tang Shaoxue, Chen Binlei, Li Ting, Li Kangning

Unsteady Flows' Water Depth in Open-channel..............................................................................................2817
Hu Jiang,Yang Shengfa

Using GA-BP neural networks to analyze vertical bearing capacity of single rock-socketed pile......................2821
Hongsheng Jiang,Quan’an Ma

Wind induced vibration of Rongjiang super-bridge during construction.........................................................2825
Jiansheng Zhang, Yue Wu, Yuyin Wang

Wrinkling Simulation and Analysis of Membrane Structures........................................................................2829
San Bingbing,Wu Yue

WANG Changyong, ZHANG Shizhong, ZHANG Shihai

Dynamic tests on coagulating sedimentation process to treat mine water containing Zn2+
Guozhong Huang, Huichao Su, Weizhong Yang, Fangjing Wei, Yangxian Yu

Effect of Chlorine Dioxide Stress on Antioxidative Enzymes in Tubifex Found in Tap Water
Xinbo Zhang, Xu Chen, Wenbao Gao, Lin Zhu

Effect of Compaction Grouting Reinforce on Deformation of Deep Foundation Pit in Metro Station in active Zone
Hou Xin-yu, Liu Song-yu, Wang Zhan-Sheng, Tong Li-yuan, Fang Lei

Effect of Mineral Oil on in Situ Treatment of Sewage at Riverside Discharging Point by Enhanced Biofilm Process with Enzyme
Gaimei Guo

Effect of O3 Pre-oxidation on AOC
Tao Liang, Jun MA, Huiying LIU, Xinxin XI

Effect of operation conditions on fouling of immersed ultrafiltration membrane for Drinking water treatment of surface water
Lu Qi, Hong-chen Wang, Rong Cheng, Gui-bai Li, Guang-ming Zhang, Heng Liang

Effect of Phenol on Sewage Disposal by Enhanced Biofilm Process
Gaimei Guo

Effect of Polymer Ferric Sulfate on EPS in A2/O System
LIU Ai-cui, WEN Qiu-xue, CHEN Zhi-qiang, LI Yu-fei

Effect of Potassium Permanganate Pre-oxidation on AOC
Tao Liang, Jun MA, Huiying LIU, Xinxin XI

Effect of Ultrasonic on the Oil-containing Wastewater's Flocculation Treatment
WEI Hong, LI Juan, SHI Hai-xia, LI Ke-bin

Effects of anions on the photoelectrocatalytic degradation of TiO2 coatings Using MAO
Su Huidong, Shi Zhonghua

Effects of Reclaimed Water Irrigation on Mineral Elements Content of Turf
Hou Guohua, Fan Zhiyun, Wang Qiong, Man Da, Song GuiLong, Chang Zhihui, Han Liebao

Effects of Sediment-dredging on the phosphorus Release from sediments in Nansi Lake
Zhibin Zhang, Leilei Wei, Xiaobo Tan, Xueyang Zhang

Effects of Suspended Bacteria on Biofouling in Recirculating Water at Different Nutrient Levels
Ma Tao, Liu Fang, Zhao Chaochong, Zhang Pei, Xia Lu, Xue Song

Effects of terrace on the distribution of soil available trace elements in loess region
Xiao-xia ZHANG, Zhan-bin LI, Peng LI
Empirical research on protection and regeneration of Historic District in Hankou old settlement the Case of Li Huangpi Road Historic District in Hankou, Wuhan
Li Yunsong, Xu Congcong

Enhanced Coagulation for Low-turbidity and Micro-pollution Reservoir Water
Guangming Zhang, Wensong Shi, Xu Kang, Lihui Jiang, Guangqi Liu

Environment Conservation and Restoration of Mountain-Type Academy of Classic Learning
Ming Luo, Su liu

Environmental Assessment and Treatment Solution to An Old Garbage Disposal Site Near Jinan
Wang Zhaohai

Environmental Impact Prediction and Assessment of the Precast Concrete Composite Thermal Insulation System Construction
Chen-xi YUE, Ying ZHANG, Ding-cheng YU, Jiang-dong CAI

Experiment on Electrokinetic Remediation of Cadmium Contaminated Soil under Different Voltages
huhongtao

Experimental Study of Acid Leaching Slurry of Laterite-nickel Ore by Flocculating and Solid-liquid Separation
Gang Wang, Xiaojun Xu, Jinjin Yang, Pan Wang, Lingdong Fan, Zhenyu Han

Experimental study on different modified zeolite's absorption of NH4 +
Luo Xian-ping, Lai Hua, Li Jian-chang, Yan Qun

Experimental Study On Pool Boiling Heat Transfer of CO2 On Smooth Horizontal Cooper Tube
Tianzhen Ye, Yitai Ma, Bo Li

Exploration and Innovation of the Construction for Transportation Public Elective Courses at Universities
Enli Lü, Huazhong Lu, Zhou Yang, Yanhua Liu

Form of gymnasium impacts on natural ventilation and thermal comfort
Jin Li, Zhechao Chen

Hazards, Prediction, Response and Control of Marine Oil Spill
Luning Xue, Jianchun Fan

Health Risk Assessment of Heavy Metals in Soil of Urban Road, Quanzhou City
Hu Gong-ren, Lin Xiao-feng, Yu Rui-lian, Zhang Guang-ying

Hydraulic conductivity of clay liners under wet-dry cycling: state of the art
HE Jun, SONG Guihong

Improved green manufacturing of thermo-chemical mechanical pulp by crude enzymes secreted from white-rot fungi
Zhiqiang Pang, Cuixia Dong, Jiahuan Chen, Guihua Yang, Yu Liu, Quan Wang, Zhu Long

Influence of Reclaimed Water Irrigation on Turf Growth and Soil
Hou Guohua, Fan Zhiyuan, Man Da, Wang Qiong, Chang Zhihui, Song Guiling, Han Liebao

Investigation of Heavy Metals Pollution in the Huashan's Gold Mine Tailing Area
Xue Xicheng, Zhang Rui, Wang Pan, Bi Jisong

Ion Transport Properties of Cation-exchange Membranes Modified by Nano-sized SiO2 Nanoparticles
Xingtao Zuo, Shuihui Yu

Isolation and Purification of an Unicellular alga and
HAIYU - WANG, PEISHI - SUN, PING ZOULINQIAN - DONG

Kinetics and Isotherms of Glyphosate Removal from Effluents Using Ion Exchange Resin
Jia Dongmei, Zhou Chao, Li Jing, Li Changhai

Kinetics of Adsorption and Desorption of Imazethapyr on Black Soil and Planosol Soil
Li Shu-qin, Shan Ai-na, Xu Jing-gang, Yan Lei

Laboratory Experiments of Cyclic Electro-osmosis method on Saline Soil Remediation
CHEN Bo, XU Hang, ZHANG Zhi-tie
Land Use /Cover Change and Their Driving Forces in Nanchang.................................................................4209
Xifeng YAN,Zumin QIU,Lusheng GUO

Migration of Moisture Under Temperature Gradient in Unsaturated Soil........................................................4213
ZHÚ Qian-lin,LI Xiao-chun

Mineralogical Characterization of Chromium Ore Processing Residue.............................................................4217
Xiao Kai,Li Guocheng

Model Establishment and Case Study of Comprehensive Performance Evaluation on Rural Sewage Treatment Facilities........................................................................................................4222
Yaping ZHANG,Yun KONG,Guangcan ZHU,Lei Wu

Modeling and active vibration control of rigidflexible coupled system on vehicle.............................................4226
Qing Liang,Xinfeng Wu,Yong Wang

Modeling the Wash-off of Pollutants on Urban Different Land Use Types..........................................................4230
Bo Bian,Xiao juan Cheng

Neutralizing-Sedimentation with Flocculation Process for Acid Mine Drainage Treatment................................4234
HU Haixiang

Nonlinear Analysis of Cable-deck Coupled Vibration of Cable-stayed Bridge.....................................................4237
Shi Li-jun,Jiang Li-zhong,Cen Zi-li,Shi Li-qun

Observational Analysis on the Mitigating effects of different greenings on Thermal Environment in Nanjing........4241
Zhao Xiao-yan, Li Yong-xiu, Yang Shen-bin,Miao Mai

Obstacles and Countermeasures for Public Participation in Environment Decision-making in China...................4245
Hong-you Guan;Yu-cheng Chen

On the Agricultural Non-Point Source Pollution Using List and Set Pair Analysis in Huangshi, Hubei Province.....4249
Yan Suding,Wang Daizhi,Luo Daihua

Optimization Research for Horizontal Spacing of Noduct Inducing Fan System...............................................4253
Jincheng Xing,Yaqin Wang,Jihong Ling,Jianxing Li,Guozhen Lin

Phospholipid Fatty Acid Technology Applied Research on the Urban Environment Water Repair.........................4257
CHU Ru-hua,ZHU Liang,WU Yun-hai,ZHAO Lin-duo

Photocatalytic activity of Al-doped Bi2MoO6 in decomposition of organic dye under visible-light irradiation........4261
Jinhong Bi, Bingqin Chen, Minghua Liu

Physical closed action for heavy metal in sludge by solidified disposal............................................................4264
LI Lei

Place and Experience ---Interpretation of Xi'an Tang King Market by Phenomenology of Architecture..................4268
Jing-long Bi

Preliminary Research on the Composition of the Functional Pattern of the County-level Cities in Ming and Qing Dynasty.................................................................4272
Wang Yansong,Chen Yanting,Chen Mu

Preliminary study on the photocatalytic degradation of PCDDs in alpha propylene glycol solution.....................4275
Yan HUANG,Shiwei JIN,Tao LIAO

Pretreatment of dyestuff wastewater by internal microelectrolysis..............................................................4279
Li Jizhou,Niu Cheng,Yuan Xuyin,Tian Ming,Ji Haoran

Productive experiment on tannery wastewater treatment..................................................................................4283
Junguo He,Zhiguang Shi,Bo Li,Baoping Han,Bowei Zhao

Progress of Research and Application on Separation and Capture of CO2 in Flue Gas from Fossil Energy System........................................................................................................4286
Yanhong Hao,Lixia Qiu,Lingmei Wang

Progress on Sample Pretreatment Techniques for Polycyclic Aromatic Hydrocarbons in Water System............4290
Shao Yixian,Xu Xiaoping
Research on Puzuo made of brick of tower in Liao Dynasty
Zhao bingbing, Chen bochao

Re-examining the Historical Photos of Chinese Architecture Taken by Tokiwa Daijo in the early 20th century
Mei-fang He, Su-bin Xu

Reflections on the Environment Conservation and Social Economic Development of China
HU Chengbo

Relationship between deviator stress and axial strain of unsaturated loess under coupling of stress and moisture
Cunli Chen, Yuzhu Dong, Chengming Cao, Xue Jiang, Lianying Liu

Release of product inhibition in fermentation process
Jing TANG, Nanqi REN

Research in Soil Nutrient Content of Sloping Field of Typical Watershed in Three Gorges Reservoir Area
LIU Jing, GUO Jin Song, FANG Fang, LIU peng, XIAO min

Research of Adsorption on Cr (VI) with the Nanjing Qixiashan Pn-Zn Mine Tailings in China
Shuncai Wang, Xueyong Yu, Chaojie MAO, Rongzhuo Yuan, Weiqin Cao, Jianchen Miao, Jun Zhu

Research of the Determination for Trace Elements in Folic Artemisia
Zhang Shuqina, Zhang Peng

Research on Accelerating Excess Sludge Hydrolysis by Adding Lysozyme and Removing Nitrogen and Phosphorous in Sludge Hydrolysis Liquid
CHEN Zhi-qiang, DOU Ke-zhong, WEN Qin-xue, XUE Lian, ZHENG Fei

Research on Adsorption of Cationic Dyes by Waste Brewer’s Yeast
Yunhai WU, Xiaokun Yu, Yue Hu, Qi Dai, Liang Zhu, Yong Li, Lixiao Ni

Research on artificial slope deformation monitoring technologies based on GIS
Junlan Zhao, Hongyan Zh

Research on calculation method of the Scope of Groundwater Environmental Impact Assessment for Mountain Tunnels
ZHOU Mi, LIU Guo-dong

Research on cultivation of Acidithiobacillus ferrooxidans by microwave mutation for bioleaching of low-grade copper tailings
Dong Yingbo, Lin Hai, Mo Xiaolan, Fu Kaibin, Wang Han, Wen Hongwei

Research on direct red dye degradation kinetics by spraying discharge non-thermal plasma in Solution
Zhanhua WANG, Yan GAO

Research on Earthquake Damage to Urban Water Supply Network Based on ABAQUS
NIU Zhi-guang, YUAN Yan-bin, PENG Wan-jiang, ZHANG Ying

Research on Effects of Photovoltaic Powered Water Purification Device on Chemical Features of Water
Xiao Jinyi, Xing Yi, Qiao Geng, Qi Feng

Research on Linear Space-Time Conception for Lingnan Waterside Village
Zhou Yixin

Research on Path Coordination Model of Energy Saving and Emission Reduction for Government and Enterprise
lin wang, xu xiao, fei xiong

Research on Planning and Designing of the Residential Space in Inner Mongolian Grassland Herdsmen Settlement No.2
Ming Ma, Jing Kong

Research on Post Environmental Impact Assessment System for Highway Construction
HUANG Yufie, SHEN Yi

Research on Prediction of Water Quality of Water Reservoir with Combined Multiple Neural Networks Model
Wang Lin, Li Ran, Tuo Youcai, Li Kefeng
Research on reclaimed water reuse in northwest ecological economic zone of changchun city
Zhigang Zhao, Yongxiang Zhang, Pengfang Zhao, Zhiyuan Li, Weiyao Li

Research on Strategy of Integration and Transformation of Post-industrial Cultural Landscape Resources
SHAO Long, ZHAO Xiaolong

Research on test and analysis for frost damage of base layer of reservoir slope in seasonal permafrost regions
Liu Xiao-zhou, Liu Peng

Research on the ability to pump sediment through pipe
YAN Shuwang, WEI Qiuchen, LEI Changshun

Research on the Axially Compressed Behavior of RC Columns Strengthened by High Performance Ferrocement Laminates
Longmin Jiang, Fangcheng Liu

Research on the Effect of Water Content and Particle Size on Degradation of Organic Matter in Municipal Solid Waste
Fengguojian

Research on the Operation Characteristic of CASS Process under Long Influent and Short Aerobic Phase
CHEN Zhi-qiang, ZHENG Fei, WEN Qin-xue, DOU Ke-zhong

Research on the treatment of electroplating effluent
CHEN Yun-nen, NIE Jin-xia, LIU Jin

Research on the Water Environment Capacity of Chanba River Downstream
Meng-jing Guo, Xiao-de Zhou

Research on the water environmental features and environmental capacity of Enshi river reach of Qingjiang river
Zhu Junlin, Cai Chongfa, Deng Kun

Research on UPVC Honeycomb Structure Rainwater Tanks
ZHANG Hong-yu, WU Chang-cheng, LIU Xing

Research Progress on Historical Model of Flood Induced by Dammed Lakes in Sichuan
CAO Shuyou, LIU Xingnian, HUANG Er, YANG Fengguojian

Response surface methodological analysis on the optimization of polysilicate preparation
Runjuan ZHOU, Jianping XU

Resuspension and Release of Hg from Taihu Lake Sediment under Different Hydrodynamic Disturbances
Peifang Wang, Shasha Zheng, Chao Wang, Xiaoyu Ai

Risk Assessment of Organic Pollution of Artificial Recharge to Groundwater Environment takes an experimental site at Eastern region of China as an example
Haiyang He, Wenjing Zhang

Screening of efficient degrading strains and its application in paper-making wastewater
Xiuli Yang, Guihua Yang, Jiachuan Chen, Ye Tian, Peng Liu, Shunming Liu

Seismic Analysis of Double-layer Spherical Lattice Shells with FPS bearings
Zhuang Peng, Xue Su-Duo

Sewage Treatment of SBBR-BAF 2/3 Volume Running
