2011 International Conference on Collaboration Technologies and Systems

(CTS 2011)

Philadelphia, Pennsylvania, USA
23 – 27 May 2011
# Table of Contents

Scroll to the title and select a Blue link to open a paper. After viewing the paper, use the bookmarks to the left to return to the beginning of the Table of Contents.

## CTS 2011 TECHNICAL PAPERS

### Invited Papers

**Supporting Activity Awareness in Computer-Mediated Collaboration** ................................................................. 1  
*John M. Carroll, Hao Jiang, Mary Beth Rosson, Shin-I Shih, Jing Wang, Lu Xiao, and Dejin Zhao*  
(The Pennsylvania State University, Pennsylvania, USA)

**Trust Networks: Interpersonal, Sensor, and Social** ........................................................................................ 13  
*Krishnaprasad Thirunarayan and Pramod Anantharam*  
(Wright State University, Ohio, USA)

**Developing a Common Analytical Framework for Models, Simulations, and Data** ................................. 22  
*Nabil R. Adam*  
(Science & Technology Directorate, Department of Homeland Security, Washington, DC, USA)

### Full Papers

**Mail2Tag: Augmenting Email for Sharing with Implicit Tag-based Categorization** ................................. 23  
*Les Nelson, Rowan Nairn, Ed H. Chi, Gregorio Convertino*  
(Palo Alto Research Center, California, USA)

**Microblogging’s Impact on Collaboration Awareness: A Field Study of Microblogging Within and Between Project Teams** ..................................................................................................................................... 31  
*Dejin Zhao, Mary Beth Rosson, Tara Matthews, Thomas Moran*  
(The Pennsylvania State University, Pennsylvania; IBM Research – Almaden, California, USA)

**The Climate CoLab: Large Scale Model-based Collaborative Planning** ..................................................... 40  
*Joshua Introne, Robert Laubacher, Gary Olson, Thomas Malone*  
(Center for Collective Intelligence, Massachusetts Institute of Technology, Massachusetts; University of California at Irvine, California, USA)

**MoSS: Mobile Smart Services for Ubiquitous Network Management** ......................................................... 48  
*Sheng-Ying Pao, Alexander J. Reben, and Ammar Rayes*  
(Media Lab, Massachusetts Institute of Technology, Massachusetts; Cisco Systems, California, USA)

**Map-like Wikipedia Overview Visualization** .................................................................................................. 53  
*Cheong-Iao Pang, Robert P. Biuk-Aghai*  
(University of Macau, Macau)

**The Snoopy Concept: Fighting Heterogeneity in Semistructured and Collaborative Information Systems by using Recommendations** ........................................................................................................... 61  
*Wolfgang Gassler, Eva Zangerle, and Günther Specht*  
(University of Innsbruck, Austria)
Semantics-based Collaborative Systems: Combining the Advantages of Unstructured and Structure-based Systems (Invited) ................................................................. 162
Prasun Dewan
(University of North Carolina at Chapel Hill, North Carolina, USA)

S y m p o s i a , W o r k s h o p s a n d S p e c i a l S e s s i o n s

The Intersection between Cognitive Robotics and Human Robot Interaction (Invited) ......................... 164
J. Gregory Trafton
(Intelligent Systems Section, Naval Research Laboratory, Washington, DC, USA)

User Adaptable Robot Behavior ..................................................................................................................... 165
Adriana Tapus and Amir Aly
(ENSTA - ParisTech, France)

Task Coordination and Assistive Opportunity Detection via Social Interaction in Collaborative Human-Robot Tasks .................................................................................. 168
Aaron St. Clair and Maja Mataric
(University of Southern California, California, USA)

Exploring Human-Robot Cooperation Possibilities for Semiconductor Manufacturing ......................... 173
Astrid Weiss, Roland Buchner, Manfred Tscheligi, and Hanspeter Fischer
(University of Salzburg, Austria; Infineon Technologies - Austria AG, Austria)

Driver Interference and Risk in Semiautonomous Braking Under Uncertainty ....................................... 178
Yajia Zhang and Kris Hauser
(Indiana University – Bloomington, Indiana, USA)

Visual Robot Choreography for Clinicians ................................................................................................... 186
J. Alan Atherton and Michael A. Goodrich
(Brigham Young University, Utah, USA)

Selective Visual Attention Occurred in Change Detection Derived by Animacy of Robot’s Appearance .................................................................................................................. 190
Jae-eul Bae and Myung-suk Kim
(Korea Advanced Institute of Science and Technology (KAIST), Republic of Korea)

Responses to Robot Social Roles and Social Role Framing ........................................................................ 194
Victoria Groom, Vasant Srinivasan, Cindy L. Bethel, Robin Murphy, Lorin Dole and Clifford Nass
(Stanford University, California; Texas A&M, Texas; Yale University, Connecticut, USA)

A Deceptive Robot Referee in a Multiplayer Gaming Environment .......................................................... 204
Marynel Vazquez, Alexander May, Aaron Steinfeld, and Wei-Hsuan Chen
(Carnegie Mellon University, Pennsylvania, USA)

Enabling Humanoid Musical Interaction and Performance ........................................................................ 212
Youngmoo E. Kim, David K. Grunberg, Alyssa M. Batula, Daniel M. Lofaro, JunHo Oh, Paul Y. Oh
(Drexel University, Pennsylvania, USA; Korea Advanced Institute of Science and Technology (KAIST), Korea)

Iconic Categorization with Knowledge-Based “Icon Systems” Can Improve Collaborative KM ........... 216
Xiaoyue Ma, Jean-Pierre Cahier
(ICD/Tech-CICO - Université de Technologie de Troyes, France)

</table>
An EHR Interface for Viewing and Accessing Patient Health Events from Collaborative Sources ........ 319
Donald Craig
(Memorial University of Newfoundland - St. John’s, Newfoundland and Labrador, Canada)

A View of Computer-Supported Collaborative Learning Research Today (Invited) ......................... 325
Gerry Stahl
(Drexel University, Pennsylvania, USA)

Modeling Collaborative Learning Services - A Case Study ............................................................. 326
Surya Bahadur Kathayat and Rolv Bræk
(Norwegian University of Science and Technology, Norway)

Assessing the Performance of e-Facilitators ..................................................................................... 334
Aida Azadegan and Linda Macaulay
(University of Manchester, U.K.)

The DARPA COORDINATORS Program: A Retrospective (Invited) .............................................. 342
Robert Kohout
(Defense Advanced Research Projects Agency - DARPA/I2O, Virginia, USA)

Learning and Coordination: An Overview ....................................................................................... 343
Myriam Abramson and Ranjeev Mittu
US Naval Research Laboratory, California, USA

Comparing Techniques for the Semi-Autonomous Formation of Expert Teams .............................. 351
Edmund H. Durfee, James C. Boerkoel, Jr., and Jason Sleight
(University of Michigan – Ann Arbor, Michigan, USA)

Scalable and Efficient Negotiation Protocol: Decomposing the Contract Space based on Idea of
Issue-Grouping ........................................................................................................................................ 359
Katsuhide Fujita, Takayuki Ito, and Mark Klein
(Nagoya Institute of Technology Japan; Massachusetts Institute of Technology, Massachusetts, USA)

Integration of Secure Agents with a Secure Communication Infrastructure for
Crisis Management ................................................................................................................................. 367
Z. Balogh, E. Gatial, L. Hluchý, V. Hudek and M. Konečný
(Institute of Informatics, Slovak Academy of Sciences - Bratislava, Slovakia; Ardaco, a.s., Bratislava, Slovakia)

In Designing an End-User Tailorable Synchronous Groupware ........................................................ 373
Angela Hirlehei and Axel Hunger
(University of Duisburg-Essen, Germany)

Interactions in Space Systems Design within a Concurrent Engineering Facility ............................ 381
A. Braukhane and D. Quantius
(German Aerospace Center (DLR), Bremen, Germany)

Using Touch Gestures to Adjust Context Parameters in Mobile Recommender and
Search Applications ............................................................................................................................... 389
Florian Schulze and Wolfgang Woerndl
(Technische Universitaet Muenchen, Germany)
A Survey of Crowdsourcing as a Means of Collaboration and the Implications of Crowdsourcing for Interaction Design ................................................................. 397
Yue Pan and Eli Blevis
(Indiana University – Bloomington, Indiana, USA)

Collaboration in Sustainability Vision ................................................................. 404
Samuel Mann and Lesley Smith
(Otago Polytechnic, Dunedin, New Zealand)

International Workshop on Semantic Technologies for Information-Integrated Collaboration (STIIIC 2011) ................................................................. 413
Elena Simperl, Katharina Siorpaes, Frank Dengler and Tania Tudorache
(Karlsruhe Institute of Technology (KIT), Germany; University of Innsbruck, Austria; Stanford University, California, USA)

Executable Behavior Delegation in Web Services and Ontology Exchange Systems ................................................. 415
Igor Toujilov and Paul Taylor
(University College London, England)

Semantic Infrastructure to Enable Collaboration in Ontology Development ................................................. 423
Paul R. Alexander, Csongor Nyulas, Tania Tudorache, Patricia L. Whetzel, Natalya F. Noy, and Mark A. Musen
(Stanford University, California, USA)

Detecting Abnormal Data for Ontology Based Information Integration ................................................. 431
Yang Yu and Jeff Heflin
(Lehigh University, Pennsylvania, USA)

Semantics Standardization for Financial Industry Integration ................................................................. 439
Mike Bennett
(Enterprise Data Management Council, Inc., U.K.)

Secured Histories for Presence Systems ................................................................. 446
Eleanor Rieffel, Jacob Biehl, Bill van Melle and Adam J. Lee
(FX Palo Alto Laboratory, California; University of Pittsburgh, Pennsylvania, USA)

A Fair Multi-Party Non-Repudiation Scheme for Storage Clouds ................................................................. 457
Jun Feng, Yu Chen, and Douglas H. Summerville
(State University of New York - Binghamton, New York, USA)

Access Control Infrastructure for On-Demand Provisioned Virtualised Infrastructure Services .......... 466
Yuri Demchenko, Canh Ngo and Cees de Laat
(University of Amsterdam, The Netherlands)

A Breakthrough for Prepaid Payment: End to End Token Exchange and Management Using Secure SSL Channels Created by EAP-TLS Smart Cards ................................................................. 476
Pascal Urien, Marc Pasquet, and Christophe Kiennert
(Telecom ParisTech; GREYC CNRS UMR 6072 Laboratory, Higher Education National Engineering School of Caen; EtherTrust, Paris, France)

Integration of New Electronic Payment Systems into B2C Internet Commerce ................................................................. 484
Refka Abdellaoui, Marc Pasquet, and Olivier Berthelier
(Laboratoire GREYC, ENSICAEN – University of Caen - CNRS; Limonetik, Paris, France)
Agents for Enriched Services (AES): A Generic Agent-Based Adaptation Framework ................................................. 492
Luis Guillermo Torres-Ribero, Juan Pablo Garzón, Maria Paula Arias-Báez, Angela Carrillo-Ramos, and Enrique González
(Cra. 7 No. 40-62, Bogotá, Colombia)

Enabling Dynamic Roles for Agents ......................................................................................................................... 500
Luca Ferrari, Haibin Zhu
(Independent Consultant, Italy; Nipissing University, Ontario, Canada)

Towards a Taxonomy of Adaptive Agent-based Collaboration Patterns for Autonomic Service Ensembles ................................................................................................................................. 508
Giacomo Cabri, Mariachiara Puviani, and Franco Zambonelli
(University of Modena and Reggio Emilia, Italy)

Group Role Assignment with Conflicting Agent Constraints .......................................................................................... 516
Haibin Zhu
(Nipissing University, Ontario, Canada)

Establishing Requirements of Ubiquitous Services for Extreme Multisport Competitions ............................................. 524
Steinar Kristoffersen
(Østfold University College, Halden, Norway)

Optimal Rate Allocation in Peer-to-Peer Streaming over Wireless Networks ................................................................. 532
Fan Qiu, Jia Bai, Yi Cui and Yuan Xue
(Vanderbilt University, Tennessee, USA)

Flash-Based Logging for Database Updates .................................................................................................................. 540
Amol Khedkar and Vijay Kumar
(University of Missouri - Kansas City, Missouri, USA)

Tailoring Group Membership Consistency for Mobile Networks .................................................................................. 548
Sebastian Gutierrez-Nolasco, Nalini Venkatasubramanian, Carolyn Talcott, and Mark-Oliver Stehr
(University of California – Irvine; SRI International, California, USA)

ROMAN: Routing and Opportunistic Management of Airborne Networks ..................................................................... 555
Hemanth Meka, Lekshmi Manian Chidambaram, Sanjay K. Madria, Mark Linderman, Mohan Kumar, and Sharma Chakravarthy
(Missouri University of Science and Technology - Rolla, Missouri; Air Force Research Laboratory - Rome, New York; University of Texas-Arlington, Texas, USA)

Poster Papers

Erica Edelman, John McIntire
(Wright State University; Air Force Research Laboratory, Ohio, USA)

Integrating Online and Offline Community through Facebook .................................................................................. 569
Shaoke Zhang, Hao Jiang, and John M. Carroll
(The Pennsylvania State University, Pennsylvania, USA)
Dependency Based Collaboration: Ontology Based Information Management ........................................... 579
Brian Drabble
(On Target Technologies, Inc., Virginia, USA)

Cultural Aspects in Groupware Application as an Intercultural Collaboration Technology ..................... 587
Rein Suadamara, Stefan Werner, and Axel Hunger
(University of Duisburg-Essen, Duisburg, Germany)

Development of Visualizations for Social Network Analysis of Chatroom Text ......................................... 593
John McIntire, O. Isaac Osesina, and Michael Craft
(Air Force Research Laboratory, Ohio; University of Arkansas at Little Rock, Arkansas; Middletown High School –Middletown, Ohio, USA)

Use of Multi-Context Systems for Crossing Boundaries .............................................................................. 598
Hilda Tellioğlu
(Vienna University of Technology, Austria)

Change Management: Developing a Tool to Foster Adaptive Collaboration ............................................ 606
Anne Offner, Stephanie Swindler, Greg Padula, Arlene King, Joseph Fedora, and LaToya Malone
(Offner and Associates, LLC, Missouri; Air Force Research Laboratory, Ohio; C5T Corporation, Illinois, USA)

Green Daily Guide: Easier Environmentally Friendly Transportation with the Help of Mobile Technologies ................................................................. 612
Andrey Bliznyuk
(Østfold University College, Halden, Norway)

Collaborative Systems for NASA Science, Engineering, and Mission Operations .................................... 618
Richard M. Keller, William J. Clancey, Matthew C. Deans, Joan C. Differding, K. Estelle Dodson, Francis Y. Enomoto, Jay P. Trimble, and Michael H. Sims
(NASA Ames Research Center, California, USA)

Doctoral Dissertation Colloquium Abstracts

Ethical Concerns of Twitter Use for Collective Crisis Response ................................................................. 625
Thomas Heverin
Advisor: Lisl Zach
(College of Information Science & Technology, Drexel University, Pennsylvania, USA)

Deconstructing Information Flow in Student Groups .................................................................................. 627
Sandra Toze
Advisor: Elaine Toms
(iLab, Faculty of Management, Dalhousie University - Halifax, Nova Scotia, Canada)

Interpersonal Boundary Regulation within Online Social Networks ............................................................ 630
Pamela Wisniewski
Advisors: Heather Richter-Lipford and David C. Wilson
(University of North Carolina at Charlotte, North Carolina, USA)
Posters Abstracts

Lorenzo Boaro, Emanuele Glorio, Francesco Pagliarecci and Luca Spalazzi  
(DIIGA, Università Politecnica delle Marche, Italy)

Constraints or Consequences in the U.S. Electricity Smart Grid ............................................................... 636  
John C. Hoag, Stanley A. Klein, and Burzin Kahjotia  
(Ohio University, Ohio; Open Secure Energy Control Systems, LLC; KPMG, Ohio, USA)

Man and Machine: A Collaborative Approach to Digital Collection Evaluation ............................................. 638  
Catherine Hall and Mi Zhang  
(Drexel University, Pennsylvania, USA)

Healthcare Information Behavior: Implicit Collaboration with Social Tagging Systems .......................... 639  
Michael A. Zarro  
(Drexel University, Pennsylvania, USA)

Use of Sensor-Based Feedback Technology in Reducing Home Energy Consumption .......................... 640  
Annika Matta, Aurélie Heitz, and Banny Banerjee  
(Stanford University, California, USA)

Educational System for Diabetic Children ................................................................................................... 641  
Sofia Tretyakova  
(Østfold University College, Halden, Norway)

Drupal: Collaborative Framework in Science Research .............................................................................. 643  
Ranjeet Devarakonda and Harold Shanafield  
(Oak Ridge National Laboratory, Tennessee, USA)

Green Box: An Innovative Approach of e-Grocery with Shared Reception Box .................................... 644  
Manish Shrestha and Satya Ram Twanabasu  
(Østfold University College, Halden, Norway)

Universal Devices for Public Transport ......................................................................................................... 646  
Lada Rodzina and Olga Ionova  
(Østfold University College, Halden, Norway)

Real-Time Carpooling System ........................................................................................................................ 648  
N.V. Pukhovs'k’y, R.E. Lepshokov  
(Østfold University College, Halden, Norway)

Late Arriving

Expert Opinions in Cancer Metastasis: Harvesting Knowledge from Uncertainty and Discrepancies (Invited) ................................................................. 650  
Anna Divoli  
(The University of Chicago, Illinois, USA)
