SUMMARY

Section 1: MODELING AND SIMULATION IN MECHANICAL ENGINEERING

- A PERSPECTIVE OF MECHANISM AND MACHINE SCIENCE FROM THE PAST TO THE FUTURE
  CECCARELLI Marco .............................................................................................................. 7
- NUMERICAL FLOW SIMULATION APPLIED TO FLOW METERING
  von LAVANTE Ernst ........................................................................................................... 25
- ANALYSIS OF PRIMARY AIR FLOW INSIDE A BURNING COAL DUST WITH F.E.M.
  TUDOR Viorel ................................................................................................................... 37
- BIOMATERIALS USED TO BUILT DENTURES
  CIORTAN Marinela .............................................................................................................. 47
- CHANGES IN THE TECHNOLOGICAL PARAMETERS OF THE DRYING PROCESS OF GRAIN AND TECHNICAL PLANTS IN A FLUID BED
  CERNAIANU Corina, BICA Marin, TUTUNEA Dragos, STĂNCUȚ Adriana, DIMA Alexandru ............................................................................................................................... 51
- CONSIDERATION ABOUT THE SIMULATION OF THE OSTEOSYNTHESIS FOR THE HUMAN ELBOW BONES USING METALLIC IMPLANTS
  BORGAZI Erdin, POPA Dragos, TUTUNEA Dragos, GHERGHINA George, BOGDAN Mihaela ................................................................................................................................. 59
- CONSIDERATIONS ON ADVANTAGES AND CHALLENGES OF COMPLIANT MECHANISMS
  DUMITRACHE Ionut, DUMITRU Nicolae ............................................................................... 69
- CONSIDERATIONS ON BIOMATERIALS AND THEIR USE IN MEDICINE
  DUMITRACHE Ionut .............................................................................................................. 77
- DESIGNING MECHANICAL ARTICULATED HANDS – A DIFFICULT PURSUIT TO COPY THE HUMAN HAND
  BERCEANU Cosmin, TARNITA Daniela, FILIP Dumitru, STANIMIR Alexandru, STANIMIR Marius ............................................................................................................................... 83
- DYNAMIC ANSWER AND EXPERIMENTAL RESEARCH CONCERNING THE MECHANISMS OF MOWERS MACHINE
  MICU Cristina, GEONEA Ionut, MANEA Valentina .............................................................. 91
- INFRARED THERMOGRAPHY COUPLED WITH REVERSE PROBLEM AT FINITE ELMENT ANALYSIS
  ROSCA Adrian Sorin, CRACIUNOIU Nicolae, CIOLACU Filip ............................................ 103
- INTERNAL DATA ACCESS BASED ON ARX LIBRARY AND MFC
  NANU Andrei, ROSCA Adrian Sorin ................................................................................... 109
- INVERSE DYNAMIC ANALYSIS OF THE FRANCIS TURBINE DIRECTOR DEVICE
  SEMENESCU Danel, DUMITRU Nicolae, GHERCIOIU Jeni, MALCIU Raluca ...................... 115
- KINEMATIC ANALYSIS OF A HUMAN ANKLE JOINT PROSTHESIS
  COPILUSI Petre .................................................................................................................. 125
- KINEMATIC MODELING AND SIMULATION OF QUADRUPED BIOMECHANISM
  MICU Cristina, GEONEA Ionut, BUZEA Eleni Mimi, COTESCU Daniela ......................... 137
- KINEMATICAL ANALYSIS OF HUMAN FOOT MOVEMENT
  FILIP Dumitru, TARNITA Daniela, RUSU Florin ................................................................ 149
- METHOD OF ANALYSIS FOR INDUSTRIAL BUILDINGS STRUCTURES MADE OF METAL
  DUTĂ Alina, GUGILA Olga, NEGRU Mihai, SASS Ludmila ................................................. 155
- MODELING AND ANALYSIS ON ADJUSTABLE VANE
  SEMENESCU Danel, CRACIUNOIU Nicolae, DUMITRU Nicolae, MANEA Ion ................... 159
MODELING AND SIMULATION OF A DIDACTIC MANIPULATOR-ROBOT WITH HELP CATIA SOFT
ANTONESCU Ovidiu, ANTONESCU Paun ................................................................. 163
MODELING DYNAMIC BEHAVIOR OF HUMAN UPPER LIMB KINEMATIC CHAIN
GRECU Valentin, DUMITRU Nicolae, CIUPITU Ion, GRECU Luminita ....................... 171
MODELLING OF THE COAL DUST FLOW IN BURNERS OF THE COAL BOILER BY TYPE MAN 510 th
TALU Mihai, BICA Marin, TALU Stefan ................................................................. 177
MULTI-SCALE THERMAL CONTACT RESISTANCE
JACKSON Robert L., WILSON W. Everett, MARGHITU Dan,
CRACIUNOIU Nicolae ............................................................................................... 185
NEW STEADY-HAND EYE ROBOT WITH MICROFORCE SENSING AND SERVOING FOR VITREORETINAL SURGERY
U’NERI Ali, BALICKI Marcin, HANDB James, TAYLOR Russell ................................. 195
NUMERICAL MODELING OF THE CHARPY TEST, AN IMPROVING WAY OF OBTAINED RESULTS BY THE EXPERIMENTAL METHOD
NASTASESCU Vasile .................................................................................................. 205
NUMERICAL SIMULATIONS OF THE VIRTUAL MODEL OF ULNA BONE
CISMARU Florin, TARNITA Daniela, BOBORELU Cristi, BELU Eliana,
ALBULESCU Dana ..................................................................................................... 213
ON STATIC BEHAVIOR OF DENTAL IMPLANTS UNDER DIFFERENT LOAD DIRECTIONS
ÖZILMAZ Emre, AYKUL Halil, DALKIZ Mehmet, KARA Emre .................................. 221
ON THE MODELLING OF CONVENTIONAL VERTICAL AIRFLOW IN SURGICAL OPERATING ROOMS
TALU Mihai, TALU Stefan, BICA Marin ................................................................. 225
PREVENT TEMPERATURE SWINGS IN SUNROOMS WITH FIBERGLASS HEAT STORAGE TUBES FOR SOLARIUM COOLING AND SOLAR HEAT STORAGE
MOGOSANU Anca-Mihaela, CALBUREANU Madalina .............................................. 233
SPHERE CONTACT WITH GRANULAR MEDIA
MARGHITU Dan, SEUNGHUN Lee, CRACIUNOIU Nicolae ......................................... 239
STRUCTURAL ANALYSIS OF HIGH VOLTAGE ELECTRIC EQUIPMENT WITH A VIEW TO THE SEISMIC CAPABILITY ASSESSMENT
MANEA Ion ................................................................................................................. 249
THE STEERING MECHANISM MODELING, CONSIDERING THE DEFORMABLE ELEMENTS
DUMITRU Nicolae, ROSCA Adrian Sorin, MARGINE Alexandru,
COPILUSI Petre, MARINESCU Gabriel Catalin ..................................................... 259
THE THREE-DIMENSIONAL PRINTING TECHNOLOGY USED FOR BIOMECHANICAL PROTOTYPES
TARNITA Daniela, BERCEANU Cosmin, TARNITA Dan, CISMARU Florin .................. 269
THE USE OF THE FOUR-BAR MECHANISM TO THE AIR VEHICLES’ FLAPPING WING
MALCIU Tiberiu, SEPCU Lucian, LUNGU Mihai, MALCIU Raluca .............................. 275

Section 2: APPLIED MECHANICS AND MECHATRONIC SYSTEMS

A COMPARATIVE STUDY CONCERNING THE TRANSVERSAL DISPLACEMENTS FIELDS OF A THIN PLANAR PLATE HAVING A LINEAR ELASTIC BEHAVIOR VERSUS A THIN PLANAR PLATE
BAGNARU Dan, BOLCU Dumitru, STANESCU Marius, RIZESCU Sabin ................. 279
A GEOMETRIC DISCRETE MODEL FOR THE SECOND ORDER SYSTEMS
POPESCU Marcela, POPESCU Paul ........................................................................... 289
A SECOND ORDER EXTENSION OF EULER EQUATIONS
POPEȘCU Marcela, POPEȘCU Paul ................................................................. 295
ABOUT HYDRAULIC IMPEDANCE CALCULATION
RADULESCU Mircea, CRANTA Ionuț Adrian .................................................. 303
ABOUT MOVEMENT EQUATIONS OF THE ACTIVE ELEMENTS IN A
ULTRASONIC SYSTEM USE IN MODERN FABRICATION
TICA Bebe, CIUNEL Stefan ............................................................................. 313
AN ANALYTICAL ELASTIC-PLASTIC STRESS ANALYSIS IN A WOVEN
STEEL REINFORCED THERMOPLASTIC CANTILEVER BEAM LOADED
UNIFORMLY
AYKUL Halil, SAYMAN Onur, ÖZYILMAZ Emre, KARA Emre ........................................... 321
AN APPROXIMATION SOLUTION OF THE DIRECT LINEAR ELASTIC
CONTACT PROBLEM
TALU Mihai, TALU Ștefan ............................................................................. 333
AUTOMATIC CONTROL OF THERMODYNAMIC PARAMETERS OF THE
MICRO CHANNELS HEAT EXCHANGERS
STĂNCIU Adriana, CERNAIANU Corina, TUTUNEA Dragos, DIMA Alexandru ........ 339
CONSIDERATION ABOUT VIBRATIONS OF THE THICK PLATES
BĂNĂRȘU Dan, CATANEANU Adina, CATANEANU Mihnea ..................................... 343
CONSIDERATIONS ON THE MODELS WITH A SINGLE DEGREE OF
FREEDOM IN THE ELASTODYNAMIC ANALYSIS OF PLANE
MECHANISMS
NANU Gheorghe, NANU Andrei .................................................................. 349
CONSIDERATIONS ON THE STABILITY OF THE SOLUTION FOR THE
MATHEMATICAL MODEL OF TRANSVERSAL VIBRATIONS OF A LINEAR
ELASTIC PLANE PLATE UNDERGOING A PLANE MOVEMENT
NANU Gheorghe, NANU Andrei .................................................................. 355
CONSTRUCTION AND KINEMATICS OF THE MAIN GEAR REDUCERS OF
HELICOPTERS
TEMPEA Ioșif, LAZĂR Ionel, ADİR George ..................................................... 359
CONTRIBUTIONS AT HYDRODYNAMIC CALCULUS OF HYDRAULIC
ENGINE SEGNER
STĂN Marinica ................................................................................................ 371
CREEP AND DAMAGE OF RUBBERS SURROUNDED BY AGGRESSIVE
MEDIA
HADJOV Kliment, ALEXANDROV Alexander, HALLIL Giunai,
MILENOVA Milena, MARIN Mihnea .......................................................... 375
DIDACTIC REDUNDANT MANIPULATOR
OCNĂRESCU C ............................................................................................... 385
DYNAMICS AND CONTROL OF A FLEXIBLE BEAM WITH IMPACTS
MARGHIȚU Dan, DIACONESCU Cristian, CRĂCIUNOIU Nicolae,
DUMITRÎU Nicolae ....................................................................................... 391
ELASTIC, PLASTIC AND RESIDUAL STRESS ANALYSIS IN SYMMETRIC
THERMOPLASTIC LAMINATED PLATES UNDER VARIOUS
TEMPERATURE CHANGE THROUGH THE THICKNESS: ANALYTICAL
SOLUTION
KARA Emre, AYKUL Halil, SAYMAN Onur, ÖZYILMAZ Emre .............................. 405
HYDROSTATIC TRANSFORMER FOR IRRIGATION SYSTEMS
RADULESCU Mircea, BUZĂTU Ștefan, POPEȘCU Ion ........................................ 417
INFLUENCE OF ASYMMETRY COEFFICIENT VARIATION UPON THE
STRESSES FROM THE CRACK TIP TO AN AXIAL ECCENTRIC FATIGUE
SOLICITATION
ROȘCA Vâlcu, GEONEA Ionuț, ROMANESCU Alina ........................................... 427
INVESTIGATIONS OF TENSION-TENSION PRE-STRESS EFFECTS ON
GLASS REINFORCED COMPOSITE PLATES UNDER THE LOW-VELOCITY
IMPACT
KURȘUN Ali, ȘENEL Mahomet ....................................................................... 437
MATHEMATICAL MODELLING OF HUMAN EYE ROTATIONS AND POSITIONS USING ROTATION MATRICES AND QUATERNIONS
TALU Stefan, TALU Mihai ................................................................. 445

MECHANICAL STRENGTH OF THE RTR STRUCTURAL GROUP
ILINCIOIU Dan, MIRTOIU Cosmin, JOHREND Helmut .................................................. 451

MECHANISM OF SIX-SPEED AUTOMATIC TRANSMISSION
ANTONESCU Ovidiu, ANTONESCU Daniela .................................................. 465

POSITION ANALYSIS IN POLYNOMIAL FORM OF CLASS-THREE RP-RP-RP ASSUR GROUP
MITSI Sevasti, BOUZAKIS Konstantinos, MANSOUR Gabriel , POPESCU Iulian.......................... 473

RANDOM VIBRATIONS OF THE KINEMATIC CHAINS WITH FLEXIBLE ELEMENTS
VINTILA Daniela, NANU Gheorghe, GRIGORE Laura .................................................. 481

RESPONSE STATISTICS OF NONLINEAR OSCILLATORS UNDER WHITE NOISE excitation
POPA Dinel, STAN Petre .................................................................................. 487

SOME APPLICATIONS FOR WOHLHART MECHANISM
DAHAN Marc, RACILA Laurentiu ........................................................................ 495

SOME DYNAMIC SYNTHESIS AND STABILITY CRITERIONS OF THE SPATIAL KINEMATIC CHAINS WITH LINEAR-ELASTIC ELEMENTS
VINTILA Daniela, GRIGORE Laura ........................................................................ 503

STRESSES FIELD DISTRIBUTION FOR THE R520 STEEL TO AN OSCILLATOR POSITIVE FATIGUE SOLICITATION
ROSCA Vâlcu, GEONEA Ionut, RADULESCU Mircea .................................................. 509

STUDY OF A MECHANISM WITH TWO CRANK GUIDE WAYS, WITH STOPS
SASS Ludmila, POPESCU Iulian, MITSI Sevasti .................................................................. 519

THE EFFECTS OF THE MODULATION POWER ON THE ENERGETIC SAVING UTILISING A CONDENSING BOILER
BOZZINI Fausto, ANOIACA Paul ........................................................................ 525

THE POWER SPECTRAL DENSITY OF RESPONSE FOR NON-LINEAR OSCILLATORS WITH THE NONLINEAR DAMPING FORCE
POPA Dinel, STAN Petre .................................................................................. 531

THE SYNTHESIS OF A MECHANISM WITH CAM WHICH IS FUNCTION GENERATOR
POPESCU Iulian, LUCA Liliana ........................................................................ 537

"THE SYNTHESIS OF A PLANETARY MECHANISMS COMPLETED WITH A DYAD, WHICH ENSURES THE TEMPORARY STOP OF THE FINAL HEADED ELEMENT"
LUCA Liliana, POPESCU Iulian ........................................................................ 545
SUMMARY

Section 3: AUTOMOTIVE AND TRACTORS

- A SIMPLIFIED MODEL FOR THE STUDY OF THE VEHICLES STABILITY
  SIMNICENU Loreta, OTAT Victor, BOGDAN Mihaela .......................................................... 551
- ABOUT THE VIBRATIONS OF THE AMBILAGE FROM A V-TYPE ENGINE
  CATANEANU Miheea, BAGNARU Dan, CATANEANU Adina .................................................... 555
- ANALYSIS OF THE COMMAND SYSTEM FOR ADAPTIVE ADMISSION AT HEAT ENGINE
  STAN Marinica .......................................................................................................................... 561
- AUTOMATIC GEARBOX OPTIMIZING PROCESS DEVELOPED IN AVLCRUISE
  VARGA Bogdan, BURNETE Nicolae, RUS Ioan, KOCSIS Levente Botond ................................. 567
- BIODIESEL USAGE -THEORETICAL RESEARCHES ON AN ENGINE EQUIPPED WITH COMMONRAIL INJECTION SYSTEM
  NAGI Mihai, CIAI Ciprian, MOLDOVANU Calin Mihai ............................................................ 579
- CASE OF STUDY FOR THE IMPLEMENTATION OF HYBRID ENGINES IN ROMANIA
  DIMA Alexandru, TUTUNEA Dragos .......................................................................................... 585
- CFD STUDY OF SECTION CHARACTERISTICS OF RACE CAR WINGS
  BORZA Emilian, BĂLDEAN Doru, MOLDOVANU Dan, KOCSIS Levente Botond ......................... 591
- CONTRIBUTIONS TO THE STUDY OF THE GEOMETRIC AND HYDRODYNAMIC CHARACTERISTICS OF AN INJECTION PLANT USED TO HIGH POWER ENGINES
  RADULESCU Mircea, CARA MANU Stefan, CARA MANU Nicolae ........................................... 601
- DESIGNING AND VERIFYING IN R.D.M. OF A TEST BENCH FOR STUDYING THE S.I.E. CHARACTERISTICS WITH HYDRAULIC DYNAMOMETER
  BĂLDEAN Doru, CRISAN Mihai, BORZA Emilian ...................................................................... 607
- DETERMINATION OF DRIVE PERFORMANCE FOR TRACTORS EQUIPPED WITH SUPPLEMENTARY HYDROSTATIC TRANSMISSIONS
  POPA Gheorghe, BUCULEI Mihaela, UNGUREANU Alin, SUTRU Nastase .................................. 617
- DEVELOPED SOLUTIONS FOR OPTIMISING THE RISING OF THE ADMISION VALVE IN AUTOMOBILE ENGINES
  PANA Gabriela, MARCU Carmen .............................................................................................. 623
- EXPERIMENTAL RESEARCHES UPON TUBE IN TUBE HEAT EXCHANGERS PERFORMANCES TYPE
  NAGI Mihai, STANCIU Tiberiu, CARABAS Ioan-Daniel, LAZA Ioan ........................................ 631
- EXTERNAL ENERGY CONDITIONING AND THE INFLUENCES ON BIOFUELS PHYSICALLY PARAMETERS
  MARIŞIU Florin, BURNETE Nicolae .......................................................................................... 635
- FINITE ELEMENT MODEL UPDATING OF AN ENGINE IN THE AUTOMOTIVE INDUSTRY
  ANTON Gabriel-Petru, PAVAL Mihai, SORÉL Fabien .................................................................. 643
- INFLUENCE OF THE ADDITIONAL LOADS ON THE DISTRIBUTION OF THE VERTICAL FORCES AT THE VEHICLE WHEELS
  BOLCU Dumitru, BOGDAN Mihaela, SIMNICENU Loreta, OTAT Victor .................................... 653
- INNOVATIVE ELEMENTS FOR AUTO VEHICLE STEERING SYSTEMS
  MARINESCU Gabriel Catalin, OTAT Dana Victoria ...................................................................... 659
- INTRODUCTION TO SIMULATION SOFTWARE
  MOLDOVANU Dan, BĂLDEAN Doru, KOCSIS Levente Botond .................................................... 663
- ISSUES CONCERNING THE STUDY OF PRESENT ENGINE’S INTAKE MANIFOLDS
  IORGĂ Daniela, TOKAR Adriana, HÎTICAȘ Ioan, HENŢIȘ Radu, SVOBODA Walter ....................... 671
- OPTIMIZATION STUDY OF A CAR SUSPENSION–STEERING LINKAGE
  PREDA Ion, CIOLAN Gheorghe, ISPAS Nicolae ....................................................................... 675
- OTTO ENGINE DYNAMICS
  PETRESCU Florian Ion, PETRESCU Relly Victoria, GRECU Barbu ........................................ 683
- STUDY ON STRATEGY FOR REMOVING ALL THE UNWANTED FREQUENCIES PROVIDED BY KNOCK SENSOR COEFFICIENT
  BRABETE Marian, GHERGHINA George .................................................................................... 689
THE CURRENT RESEARCH STUDY IN THE FIELD OF HEAT EXCHANGERS WITH BAYONET TUBE
STANCIU Tiberiu, MOTĂNTĂU SĂRBĂU Dan ................................................................. 693

THE INFLUENCE OF RADIATORS WIDTH OVER THERMAL AND FLUID-DYNAMICS PERFORMANCES
NAGI Mihai, ILIES Paul, CARABAS Ioan-Daniel .......................................................... 697

THE PARAMETRIC VIBRATIONS OF THE DRIVING HYDRAULIC MOTORS FOR HEAVY MOTOR VEHICLES
MARINESCU Gabriel Catalin, OTAT Victor, OTAT Oana Victoria .................................... 703

THE PARTICULARITIES OF THE TRACTIVE CHARACTERISTIC FOR THE TRACTORS EQUIPED WITH HYDROSTATIC TRANSMISSIONS
POPA Gheorghe, UNGUREANU Alin, BUCULEI Mihaela .................................................... 709

THE ROLE OF MECHATRONICS IN THE EDUCATION OF AUTOMOTIVE ENGINEER
GHERGHINA George, TUTUNEA Dragos, POPA Dragos, GLUGA Cristian, ANUSCA Marcela ........................................................... 717

VARIOUS ASPECTS REGARDING THE DESIGN OF A GEAR SHIFT SENSOR FOR ROAD VEHICLES
DUMITRU Ilie, POPESCU Simion, VINITORU Matei, POPESCU Traian, CATANEANU Miheea ............................................................ 725

Section 4: TRANSPORTATION AND TRAFFIC

ASPECTS CONCERNING THE SEVERITY OF FRONT REAR COLLISIONS
GAIGINSCHI Radu, SACHELARIE Adrian, PINTILEI Mihai ............................................... 729

BIODIESEL STANDARD CHARACTERISTICS THAT AFFECT THE ENGINE FUNCTIONING
BUCULEI Mihaela, PICIOREA Daniel .................................................................................. 733

BITUMINOUS ROAD METALS BUILT OF HOT-WORKED CYLINDERED ASPHALT MIXTURES. MECHANICAL-PHYSICAL CHARACTERISTICS, IDENTIFIED IN THE LABORATORY
BURADA Cristian ................................................................................................................ 737

COMMUNICATION SYSTEMS IN TRANSPORTATION CAR TO CAR COMMUNICATION SYSTEM - INTRODUCTIVE STUDY
OTAT Oana Victoria, MARINESCU Gabriel Catalin ......................................................... 743

COMPARATIVE ANALYZE OF BRAKING DISTANCES ON SNOW COVERED ROADS FOR TWO VEHICLES: DACIA LOGAN AND SEAT LEON
MARC Andreea Cristina, BĂLEANU Doru, MOLDOVANU Dan .............................................. 749

CONTRIBUTIONS TO THE VIBRATION ANALYSIS OF THIN CURVE BOARDS FROM THE CAR BODY STRUCTURE
OTAT Victor, OTAT Oana Victoria, MARINESCU Gabriel Catalin .................................. 755

DEVELOPMENT OF A DRIVING CYCLE FOR BRASOV CITY
COVACIU Dinu, PREDA Ion, FLOREA Daniela, CAMPAN Ovidiu-Vasile .......................... 761

DIESEL FUEL, LPG AND BIODIESEL MIXTURES COMBUSTION IN D.I. DIESEL ENGINES
ISPAS Nicolae, COFARU Corneliu, NĂSTASOIU Mircea, DOGARIU Mihai .................................... 767

EVALUATION METHODS FOR THE BIOMECHANICAL QUALITY OF RESTRAIN SYSTEMS DURING FRONTAL IMPACT
CIUNEL Stefan, TICA Bebe, CAMPAN Ovidiu-Vasile .................................................. 777

EXPERIMENTAL RESEARCHES CONCERNING POLLUTING EMISSIONS FROM MOTOR VEHICLES, TRAFFIC CONDITIONS, WITH AND WITHOUT AIR CONDITIONING FUNCTION
IORGA Danila, TOKAR Adriana, HITICAȘ Ioan, HENȚIU Radu, SVOBODA Walter ................................................................. 783

GPS SOLUTIONS FOR THE GPS NETWORK AJUSTEMENT COORDINATE SYSTEMS
BĂBUCĂ Nicolae Ion, MARIN Miheea ................................................................................ 791
A MODEL OF NEW OR IMPROVED PRODUCT ANALYSIS

APPLYING THE HEURISTIC STEP METHOD IN THE INNOVATIVE PRODUCTION MANAGEMENT

ASPECTS ON APPLYING OF QUALITY FUNCTION DEPLOYMENT METHOD TO PRODUCTS DESIGN AND ITS RELATIONSHIPS WITH OTHER VARIOUS DESIGN TOOLS AND METHODS

ASPECTS ON THE RISK REDUCTION AT MACHINERY IN THE DESIGN STAGE

ASSESSMENT OF PLASTIC DEFORMATION IN THE CUTTING ZONE AND CORRELATION WITH ROUGHNESS, AT INNER CYLINDRICAL TURNING WITH SMALL CUTTING FEEDS

CHIPS FORMS AND THEIR IMPORTANCE ON PLAIN TURNING WITH SMALL CUTTING Feeds

DETERMINATION OF PROCESSING FORCES ON CENTERLESS GRINDING MACHINES WITH TRANSVERSAL ADVANCE IN FAVOR OF ACTIVE CONTROL AND ADAPTIVE CONTROL

ECO-EFFICIENCY CONSIDERATIONS ON THE END-OF-LIFE OF CONSUMER ELECTRONIC GLASS DOMINATED PRODUCTS

FLEXIBLE MANUFACTURING APPROACH OF A PART IN AN INTEGRATED MANUFACTURING ENVIRONMENT

KINETIC ENERGY VARIATION IN PROCESSING OF PARTS BY CENTERLESS GRINDING WITH CROSS FEED

MATHEMATICAL MODEL FOR ANALYSIS OF SURFACE GENERATION AT GRINDING

NEW APPROACHES IN TOLERANCE ANALYSIS AND ALLOCATION

OPTIMIZATION OF CUTTING CONDITION ON A VERTICAL MILLING MACHINE USING VIBROMECHANICAL ANALYSIS

PROCESS SIMULATION USING DELMIA

Section 5: MANAGEMENT AND PRODUCTIONS
PROGRAMING A 3 AXIS MACHINING CENTRE WITH TOPSOLID - PART I - MODELLING OF PIECES
STANIMIR Alexandru, PANDURU Dumitru, VADUYA Catalin, TĂLĂU Liviu, STANIMIR Marius .......................................................................................................................... 935

PROGRAMING A 3 AXIS MACHINING CENTRE WITH TOPSOLID - PART II - G-CODE PROGRAMME CREATION
STANIMIR Alexandru, PANDURU Dumitru, MASU Bogdan, RUSU Florin, POPA Cezar .......................................................................................................................... 945

RESEARCH REGARDING THE ROUGHNESS OF THE SURFACES TITANIUM ALLOYS TURNING
ZAMFIRACHE Marius, LAZAR Luminita .................................................................................. 959

SOME CONSIDERATIONS ON DETAIL DESIGN OF INDUSTRIAL PRODUCTS
DUMITRU Constantin, DUMITRU Violeta Cristina ..................................................................... 965

STUDIES CONCERNING THE ROUGHNESS OF THE SURFACES IN THE CASE OF STAINLES STEEL MILLING
ZAMFIRACHE Marius, STANIMIR Alexandru ............................................................................. 973

THE EFFICIENCY OF TRAINING PROGRAMS IN THE PRODUCTION AREA
MILITARU Constantin, OPRESCU Claudia ............................................................................ 977

THE IMPORTANCE OF PERFORMACE EVALUATION SYSTEM FOR BLUE COLLAR WORKERS
MILITARU Constantin, OPRESCU Claudia ............................................................................ 981

Section 6: MATERIALS AND FABRICATION SYSTEMS

ADDITION ELEMENTS INFLUENCE ON THE MECHANICAL PROPERTIES OF THE PM COPPER BASED ALLOYS
GHEORGHE Stefan, TEISANU Cristina ...................................................................................... 985

CAPTURE, TRANSPORT AND GEOLOGICAL STORAGE CARBON
TUDOR Viorel ............................................................................................................................ 991

CHEMICAL COMPOSITION INFLUENCE ON THE MECHANICAL AND PHYSICAL CHARACTERISTICS OF THE PM IRON BASED ALLOYS
TEISANU Cristina, GHEORGHE Stefan, PASCU Ileana ............................................................ 999

CURRENT SITUATION IN THE FIELD OF ELECTRICITY PRODUCTION TECHNOLOGIES – CLEAN TECHNOLOGIES
STOIAN Andrei, ENACHE Marian .......................................................................................... 1003

EXPERIMENTAL RESEARCH REGARDING THE AUSTENITIC STAINLESS STEELS WITH CYROGENIC RESISTANCE
TARÂȚA Daniela ..................................................................................................................... 1009

INFLUENCE OF TECHNOLOGICAL PARAMETERS ON THE FINAL PROPERTIES OF COMPOSITE BASED ON TUNGSTEN POWDER AFTER HYDROGEN SINTERING
PASCU Ileana, TEISANU Cristina .......................................................................................... 1013

MANUFACTURING TECHNOLOGIES USED IN CONSTRUCTIONS IN ANCIENT TIMES
PREDOI Geogrgiana, MOGOSANU Anca-Mihaela, DUTA Alina ............................................ 1021

MICROBIAL RECOVERY OF COPPER FROM ELECTRONIC SCRAP BY MIXED CULTURE OF MESOPHILIC BACTERIA
IVANUS Radu, OLARU Luminita ............................................................................................ 1027

SO2 EMISSION ABATEMENT METHODS
STOIAN Andrei, ENACHE Marian .......................................................................................... 1035

SOME CONSIDERATIONS ON MECHANICAL PROPERTIES FOR COMPOSITES MATERIALS
STANESCU Gelica, DUTA Alina, MOGOSANU Anca-Mihaela, MATEESCU Monica, SASS Ludmila ............................................................................................................ 1041

STUDY REGARDING THE COSTS RELATED WITH THE CONSTRUCTION OF A BIOGAS PLANT FROM USING ANIMAL RESIDUES
LAZA Ioan, CIOABĂ Adrian Eugen ......................................................................................... 1049

THE MOVEMENT OF AN ELECTRON AROUND THE ATOMIC NUCLEUS
PETRESCU Florian Ion ........................................................................................................... 1053
