2011 International Joint Conference on Service Sciences

(IJCSS 2011)

Taipei, Taiwan
25 – 27 May 2011
# 2011 International Joint Conference on Service Sciences

**IJCSS 2011**

## Table of Contents

- **Welcome Message from the General Chair Thomas Li**
- **Welcome Message from the General Chair Ja-Shen Chen**
- **Conference Organization**
- **Reviewers**
- **Workshop: CASEE**
  - A Sense of Connection: Towards a Personal Wellness Management Ready Society
    - Ching-Hu Lu, Yuan-Ling Chiao, Yi-Shin Deng, and Pei-Ling Liu
  - Using Music Notation as a Graphic Language for Designing, Prescribing and Measuring Service Experience
    - Amnon Ribak, Raymund J. Lin, Yoav Rubin, and Susan Spraragen
  - Intelligent Nutrition Service for Personalized Dietary Guidelines and Lifestyle
    - Mark Hsiao, Ya-Fan Yeh, Pei-Yun (Sabrina) Hsueh, and Selina Lee
  - Leveraging NFC and LBS Technologies to Improve User Experiences
    - Tina Ho and Rebecca Chen
- **Session S1-A: Service Science**
  - Dynamic Pick Method of Web Service Selection Algorithms Based on Use Mode in Self-adaptive Web Service Composition
    - Li Guohong, Na Jun, Zhang Bin, Dong Pengxiang, and Zhang Yuesong
  - Research on Stateful Web Service Modeling Based on Extended Petri Net
    - Feng Chen, Changrui Ren, Qinhua Wang, Jin Dong, Bing Shao, and Jinfeng Li
  - Decision Constructing as Conceptualisation of Service Innovation
    - Michel Léonard and Anastasiya Yurchyshyna
  - Right Sizing Customer Care: An Approach for Sustainable Service Level Agreements
    - Thiago Barroero, Gianmario Motta, and Marco Della Vedova
  - Design of Performance Aware Service Systems: A Conceptual Framework and a Case Study
    - Gianmario Motta, Thiago Giulio Barroero, and Ivo Telese
Session S2-A: Service Science

A Definition of Service as Base for Developing Service Science ................................................................. 49
Ted Lau, Hsuan-Chih Wang, and Chun-Chi Chuang

Adjusting Service Performance Criteria Based on Generalized Information from Previous Reports ................................................................. 54
Xiangling Hu

Resiliency the Elusive Piece in the Service Management Puzzle ................................................................. 59
R.V. Weeks and S. Banade

Format Selection and the Treatment Effects on Chain Businesses Outlet Performance: A Self-selection Approach ................................................................. 64
Seng-Su Tsang

Session S1-B: Service Management

Composition Oriented Web Service Semantic Relations Research ........................................................................... 69
Yi Guo, Shizhan Chen, and Zhiyong Feng

Inventory Replenishment Scheduling to Minimize the Number of Vehicles ................................................................. 74
Yinfeng Xu, Haiyan Yu, Ke Liu, and Linglang Tang

Antecedent of HR Competencies and Job Performance: Required IT Competencies for HR Professional in Digital Era ........................................................................... 79
Hung-Yue Suen, Hsiang-En Hsiao, and Jiann-Min Yang

Internal Service: Drivers of (dis)Satisfaction in the Chinese Context ........................................................................... 84
James O. Stanworth, Bo Edvardsson, and Ryan Shu-wei Hsu

A Learning Organisation Approach to Managing Service Quality ........................................................................... 89
Ebrahim Soltani, Ying-Ying Liao, and Wei-Yuan Wang

Session S2-B: Service Management

A Study on the Value Creation Model in English-Speaking Virtual Communities - With a Focus on Forum Members in 2D Visual Design and 3D Animation Forums ........................................................................... 92
Pei-Hsuan Hsieh, Hsing-Yu Pan, and Chueh-Ting Chang

Evaluating a Mechanism for Measuring Customer Expectation in Real-Time Service Contexts ........................................................................... 97
Yen-Hao Hsieh and Soo-Teysr Yuan

Making Sense of Technology: A Triple Contextual Perspective of GPS Use in the Taxi Industry ........................................................................... 105
Sheng-Tsung Hou

The Influence of Social Presence on Continual Participation in Online Communities: The Relational View Based on Social Identity Theory ........................................................................... 110
Kai Wang and Chi-Feng Tai
The Study of Service Co-creation .................................................................116
Russell K.H. Ching, Ang Chin Hui, and Ja-Shen Chen

Session S1-C: Service Marketing

Customer Participation in Services: Review and Synthesis .................................................120
Xiucheng Fan and Yanyan Du

Service Consumption Experience and Relational Exchange in Electronic Mediated Environment .................................................................125
Hua Dai, Kuang-wei Wen, and Wei Zhao

Service Quality and Business Performance: The Role of Organizational Factors .....................130
Tung-Zong (Donald) Chang and Su-Jane Chen

Engaging Customers in Value Co-creation: The Emergence of Customer Readiness ..................135
Wenkai Wang, Peihua Hsieh, and Hsiuju Rebecca Yen

Study on the Impacts of Opinion Leader in Online Consuming Decision .................................140
Fei Meng, Jianliang Wei, and Qinghua Zhu

Session S2-C: Service Marketing

Fairness is in the Eye of the Beholder: How Personality Traits Affect Perceived Fairness and Satisfaction in Hotel Service .................................................................145
Yu-Qian Zhu and Houn-Gee Chen

Service Quality and Service Fulcrum of the Innovative Tourism Cluster: A Case Study on Shuilimei Technological Tourism Cluster .................................................................150
Pei-Chun Tsai, Ta-Jung Lu, and Jong-Wen Wann

Reconsidering the Marketing Strategies over Social Network - On the Perspective of Network Topology ..................................................................................................................155
Jin-Gu Pan and Yu-Fan Lin

What Forms the Migrating Pattern for Innovation Adoption? The Case of Mobile Data Services .................................................................158
Fang-Mei Tseng, Shih-Chieh Kuo, and Huiyi Lo

Session S1-D: E-Service & Service Computing

Semantic Web Service Selection Algorithm Based on QoS Ontology ........................................163
Wen Junhao, Gu Jianan, Jiang Zhuo, and Zhu Yijiao

The Application of Cloud Computing and the Internet of Things in Agriculture and Forestry ..................................................................................................................168
Yifan Bo and Haiyan Wang

Trust Calculation Model Based on Social Network and Evidence Theory .................................173
Jie Jiang, Junhui Xiang, Hua Zhou, Xiaolin Zheng, and Tianyang Dong

Reliable Services and Services Recommendation: A Detecting Model ....................................178
Liu Yingchun, Zheng Xiaolin, and Chen Deren
A Classification Framework of Service Composition Issues in BIRIS Scenario .................................................. 183
  Dianhui Chu, Zhongjie Wang, and Xiaofei Xu

Session S2-D: E-Service & Service Computing
Detection of Feedback Reputation Fraud in Taobao Using Social Network Theory ............................................. 188
  Zhu Yanchun, Zhang Wei, and Yu Changhai

A Personalized Recommender Algorithm Based on Fuzzy Relation Reputation Model .................................... 193
  Meiya Fang, Xiaolin Zheng, and Deren Chen

Applying Fuzzy AHP on Product Selection Service in e-Commerce ................................................................. 198
  Deng-Neng Chen, Chih-Wei Tseng, and Chia-Yi Lin

Mechanisms to Ensure QoS over ASON ........................................................................................................... 203
  Octavio J. Salcedo Parra, Gustavo López Rubio, and Lilia Castellanos

Session S3-A: Service Innovation
Intellectual Property in Inter-firm R&D Collaboration, An Examination on the Role
of IP Management Core Components .............................................................................................................. 208
  Yichen Lin, ChienHsing Wu, William Y.C. Wang, and Le Xuan Lam

Innovation Capability Reconfiguration of Manufacturing Firms for Servicization: A
Conceptual Framework on Dynamic Capability Approach .................................................................................. 213
  Ting-Kuei Kuo, Guang-Jie Ren, and Yongjiang Shi

Understanding the Adoption of Wireless Sensor Network Service in Households ............................................ 218
  Fu-Ren Lin, I-Ying Lu, and Pei-Shan Hsieh

The Study of Mobile Service Innovation on Service Performance ..................................................................... 223
  Yi-Chun Chen and Ja-Shen Chen

Session S3-B: Service Management
Examining the Fit Between e-Health Service Design Features and Patient Segments ....................................... 227
  Hsin-Lu Chang and Ya-Lin Tsai

Assessing the Performance of e-Health Service ................................................................................................. 232
  Hsin-Lu Chang and Yu-Sheng Wang

Factors that Impact the Performance of e-Health Service Delivery System ...................................................... 237
  Hsin-Lu Chang and Ju-Chien Lin

An Application of Contrast Effects on Service Recovery Process; A Preliminary
Result in Taiwan .................................................................................................................................................. 242
  Hua-Hung (Robin) Weng and Chin-Yu (Eunice) Kao

Service Business Model Innovation: A Conceptual Model and a Framework
for Management Consulting ............................................................................................................................... 247
  Jonathan C. Ho, Fang-Mei Tseng, and Chung-Shing Lee
Session S4-A: Service Design & Engineering

Building Customizable Context-aware Systems ................................................................. 252
Lian Yu, Zengguang Wang, Yu Huang, and Songlin Chen

The Quantitative Evaluation on the Value-Oriented Priority of Service Elements .................. 257
Chao Ma, Xiaofei Xu, and Zhongjie Wang

Seat Inventory Control Based on Dual Directional Diversion of Demands .......................... 262
Zhang Jia-ying, Li Xiang-yong, and Huo Jia-zhen

Regional Tourism Service Ecosystem Development: A Co-Creation and Imagery
Based Approach .................................................................................................................. 267
Pei-Hung Hsieh and Soe-Tsyr Yuan

Formulate Service Innovation in Accordance with a Living-Lab Based Service
Engineering Architecture ................................................................................................. 272
Yu-Tso Chen

Session S5-A: Service Design & Engineering

A Hybrid Approach to Automatic Web Services Discovery .................................................. 277
Yu-Huai Tsai, San-Yih Hwang, and Yung Tang

How is a Service Based on Service-dominant Design Superior to Goods-dominant
Design? .................................................................................................................................... 282
Bo Edvardsson, Gloria Ng, Choo Zhi Min, Robert Firth, and Ding Yi

The Service Design Strategy of Hot Spring Industry in Taiwan ............................................. 287
Yiche Grace Chen and Chih-Ming Hsu

Value Co-Creation and Value-in-Context: Understanding the Influence of Duality
of Structures ....................................................................................................................... 292
Bo Edvardsson and Bård Tronvoll

Session S3-C: Education

A Service-Oriented Platform for Collaborative Learning System ........................................... 297
Ping Li and Lishuan Hu

Practice of Improving Service Science Cultivation Mode Oriented to Service Industry
Collaboration in China ........................................................................................................... 301
Shimin Shan, Yu Liu, Xiujuan Xu, and Feng Ding

Session S4-B: Application & Industry

An Empirical Study on the Bivariate Interrelationships between Oil Price and Stock
Prices ....................................................................................................................................... 305
Xin Yang and Shuliang Wang
How to Enhance and Sustain Free Knowledge Services? A Service Science Research
Agenda for Open Knowledge Portals (OKPs) in East Asia ...............................................................310
  Wenhao Huang and Wenyeh Huang

Construction of Curriculum Ontology Aiming at Educational Service Support: An
Ontology Approach for Knowledge-Intensive Service Systems .........................................................315
  Wenhuan Lu and Jiawan Zhang

A Service-Oriented Spam Filtering System Using Shared Fingerprints ...............................................319
  Wenxuan Shi and Yalou Huang

3D Virtual Client Center and its Service Oriented Modeling .................................................................324
  Yi Min Wang, Lijun Mei, Qi Cheng Li, Jian Wang, and Zi Yu Zhu

Session S5-B: Application & Industry

Using Feature Selection to Reduce the Complexity in Analyzing the Injury Severity
of Traffic Accidents .................................................................................................................................329
  Jo-Ting Wei, Hsin-Hung Wu, and Kuang-Yang Kou

From Governance to Service-Smart City Evaluations in Taiwan .........................................................334
  Jin-Gu Pan, Yu-Fan Lin, Su-Yi Chuang, and Yu-Chia Kao

Drug Shelving Plan Inside the Drug Prescription Center - A Case Study ...........................................338
  Hen-Yi Jen, Hung-Chang Lin, Wan-Ching Chou, and Shu-Ling Hsiao

Asymmetric Exchange Rate Pass-through of Categorized Import Price Index - An
Empirical Study of Taiwan ......................................................................................................................343
  Tzu-Ying Chen and Yi-Heng Tseng

Author Index
