# TABLE OF CONTENTS

## VOLUME 1

### PHYSICAL ENVIRONMENT: CODES AND STANDARDS

**Assessment of International Standards for Safe Exploration, Production and Transportation of Oil and Gas in the Barents Sea** .......................................................... 1  
Gus Cammaert, Erling Saebo

**Limit State Design Methodology for Offshore Pipelines Against Ice Gouging – Industry Guidelines from the ICEPIPE JIP** .......................................................... 9  
Graeme Davies, Kim Mørk, Mark Marley

**The Arctic Regulatory and Stakeholder Experience** .................................................. 31  
Gene Pavia, Shannon Blue, L. Renkert

**Arctic Standards – A Comparison and Gap Study** .................................................. 41  
G. Abdel Ghoneim

### PHYSICAL ENVIRONMENT: DOE

**Effect of Residual Oil Saturation on Recovery Efficiency during Polymer Flooding of Viscous Oils** .......................................................... 56  
Karthik Kamaraj, Guoyin Zhang, Yi Liu, Randall S. Seright

**North Slope Decision Support System: Multi-Objective Planning for Ice Road Routes** .......................................................... 65  
Stephen Bourne, James Halebian, Kelly Brumbelow, Amy Tidwell, William E. Schnabel

**North Slope Decision Support System: Technological Aspects** ................................ 69  
Stephen Bourne, James Halebian, Kelly Brumbelow, Amy Tidwell, William E. Schnabel

**Snow Management to Augment Fresh Water Supplies in the Arctic** .................................. 76  
S.L. Stuefer

### PHYSICAL ENVIRONMENT: GEOHAZARDS

**Geotechnical Investigations of the Clay Soils on the Oil and Gas Condensate Perspective Structures of Okhotsk Sea Self (Practice and Theory)** .................................................. 81  
Nikolaj A. Kuten, Dmitry Zdobin

**Integrated Methodology for Mapping and Monitoring Permafrost and Seasonally Frozen Ground** .......................................................... 84  
Gary R. Walter, Marius Necsoiu, Stuart A. Stothoff

**Ice-Soil-Pipeline Interactions Using Coupled Euler-Lagrange (CEL) Ice Gouge Simulations – Results from DNV Ice Pipe JIP** .......................................................... 102  
Ranil Banneyake, M Kahir Hossain, Ayman Ellaheh, Than Nguyen, Paul Jukes

### PHYSICAL ENVIRONMENT: METOCEAN

**A Model for Waves-in-Ice and Sea Ice Dynamics in the Marginal Ice Zone** .......................................................... 118  
Dany Dumont, Alison Kohout, Laurent Bertino, Stein Sandven

**Wave Propagation at Marginal Ice Zone** .......................................................... 124  
François Petrie, Benjamin Rouse, J.M. Cholley, Guy Facon

**Application of the Buoy Network in the Barents Sea** .......................................................... 131  
Jan-Petter Mathisen, Jean Bidlot

**Consideration of Long-Term Natural-Climatic Factors in the Russian Arctic Energy Resources Development Strategy** .......................................................... 141  
Andrey Tsunevskiy

### LOGISTICS AND MARINE TRANSPORT: EER

**Enhanced Arctic Lifeboat Design and Operation** .......................................................... 146  
Aaron M. Barr, Alan Browning, Eshen J. Sorensen, Peter Schmidt, Charles J. McHardy

**Feasibility of Escape, Evacuation, and Rescue for Facilities in Arctic Shear Zone Environments** .......................................................... 156  
Melanie Totten, Arnold Marsden, Walter Spring

**The Design of Hovercraft to Support Offshore Operations in the Beaufort and Chukchi Seas** .......................................................... 165  
John H. Gifford, Malcolm Cox, Robert Barton

**Criteria for the Next Generation of Cold Regions Evacuation Systems** .......................................................... 187  
Gareth Igloliorte, Bruce Quinton
ARKTOS Shear Zone Evacuation Craft Design Development

Terrence A. Hall, Bruce H. Seligman

Stereographic Analysis of Aerial Photographic Imagery for Arctic Development and Technology Planning

Walter Spring, Mark Hansen, Jeremy Smith

RESOURCES: CIRCUM-ARCTIC GEOSCIENCE OF PETROLEUM BASINS

U.S. Geological Survey Circum-Arctic Resource Appraisal

Donald Gautier

Russian Arctic Petroleum Resources: Challenges and Future Opportunities

Anatoly Zolotukhin, Victor Gavrilov

Tectonic History and Petroleum Geology of the Russian Arctic Shelves

Sergey S. Drachev, Nikolay A. Malyshev, Anatoly M. Nikishin

Production of Light Oil from a Shallow, Frozen Reservoir: A Predevelopment Case Study of the Umiat Oil Field, Northern Alaska

Catherine Hanks, Allen Hackabay, Joanna Mongrain, Abhijit Dandekar, Vijay Bangia, Paul McCarthy

Petroleum Prospectivity of the Canada Basin, Arctic Ocean

Arthur Gruntz, Patrick E. Hart

Resource Appraisal Technology for Undiscovered Arctic Petroleum

L.P. (Red) White, Donald Gautier

REGULATORY AND ENVIRONMENT: ISO 19906

ISO 19906 - An International Standard for Arctic Offshore Structures

Walter Spring, Graham Thomas, Richard McKenna, Denis Blanchet

Ice Actions in ISO 19906 – Overview

Tuomo Kärnä, Robert Frederking, Karl Shkhinek

Probabilistic Ice Loads Assessments for Arctic Regions: Inputs for Calibration of ISO 19906

Mark Fuglem, Paul Stuckey, Ian Jordaan

Risk-Based Calibration of Action Factors in the New ISO 19906 Arctic Offshore Structures Standard

Marc A. Maes, Graham Thomas

Reliability, Limit States and Action Factors for ISO 19906

Graham Thomas, Frank G. Bercha, Ian Jordaan

Overview of Case Studies for Draft ISO 19906

Graham Thomas, Dan Masterson, Walter Spring

Use of the ISO 19906 Arctic Structures Standard

Richard McKenna, Walter Spring, Graham Thomas

LOGISTICS AND MARINE TRANSPORT: VESSELS

Drillship Heating and Ventilating Challenges in Arctic Environments

Scott Brittin, Alan Browning, Aaron M. Barr, Joe Davis, Charles J. McHardy, Kewndae Choo

Design Considerations for an Arctic Intervention Vessel

Tor Einar Berg, Bjorn O. Berge, Saara Hanninen, Reko-Antti Suojanen

Experience from Vessels Operating in Ice in the Double Acting Principle

Maximilian Vocke, Erkki Raeki, Arto Uuskallio, Mikko Niin

Preparations Required for Switching to Ultra Low Sulfur Diesel in Marine Propulsion and Onboard Auxiliary Engines

Braxton Scherz, Eivind Flagstad-Andersen, Christian Fjell, Brian Ackeman

PRODUCTION DRILLING, FACILITIES AND EXPORT: PIPELINES I

Qualification of Fiber Wrapped Steel Pipe for High Pressure Arctic Pipeline

Mamdouh M. Salama

Arctic and Harsh Environment Pipeline Trenching Technologies and Challenges

Paul Jukes, Shawn Kenny, Upali Panapitiya, Syed Jafri, Ayman Eltaher

Small- and Full-Scale Testing of Flexible Pipes in Cold Environment for Arctic Use

Christelle Gabet, Stephanie Chicheportiche, Romain Vivet, Oliver Mesnage, Carol Taravel Condat

Pipeline Routing and Burial Depth Analysis Using GIS Software

Tony King, Ryan Phillips, Christian Johansen

</table>
PRODUCTION DRILLING, FACILITIES AND EXPORT: PIPELINES II

3-D Continuum Simulations to Determine Pipeline Strain Demand Due to Ice-Gouge Hazards ................................................................. 650
Suvrat P. Lele, Jed M. Hamilton, Michele Panico, Haydar Arslan, Karel Minnaar

Alaskan Beaufort Sea Pipeline Design, Installation and Operation ......................................................... 658
Glenn A. Lanan, Todd Cowin, David K. Johnston

Well, You’ve Drilled ‘em. Now Can You Produce ‘em? Panarctic Oils Ltd’s Test Program—The Drake F-76 Project .................................................. 667
John G. Bonsba, R. J. Brown

Leak Detection in the Arctic – How it’s Different .............................................................................. 677
Edward J. Farmer

Reliability of Power Supply in Remote BGV/RGV Stations along the Pipeline - A Key Factor for Arctic Pipelines Operation .............................................. 687
Jean Gropper

10 Years of Sub Arctic Subsea Projects - Stepping Stones for Arctic Development .................................................. 696
Sam Allen

PRODUCTION DRILLING, FACILITIES AND EXPORT: AUVS

Risk Management for Autonomous Underwater Vehicles Operating Under Ice ........................................ 706
Gwyn Griffiths, Mario P. Brito

HUGIN 1000 Arctic Class AUV .............................................................................................................. 714
Einar Gustafson, Chris Hancock, Øystein Engelhardt, Bjørn Jalving

AUV- and Satellite Imagery-Based Ice Management around Critical Infrastructure ............................................. 722
Einar Gustafson, Chris Hancock, Richard Hall

Robust Robots for Arctic Exploration ........................................................................................................ 731
T. Voegeler, J. Albiez, M. Hildebrand, S. Jouves, F. Kirchner

Ice Class Autonomous Underwater Vehicle Development ........................................................................ 738
Art Kleiner, Jamie Cheramie, Robert Raye, Jeremy Dean

REGULATORY, ENVIRONMENT: EMISSIONS

Using Exercises to Advance Approaches to Response for Oil in Ice Environments ........................................ 747
Kurt Hansen, Marion Lewandowski

Numerical Prediction of Spilled Oil Behavior in the Sea of Okhotsk under Sea Ice Condition .............. 752
Hajime Yamaguchi, Keiichiro Ohshima, Naoki Nakazawa

Developing Treatment Products for Increased Microbial Degradation of Petroleum Oil Spills across Open-Water Surfaces ........................................................................................................ 760
Grethe Kjeilen-Eilertsen, Josep Jerstak, Stig Westerlund

Development of High-Speed Aerial Ignition Techniques for in Situ Burning ............................................ 769
Tom A. Preli, A. A. Allen, Dave Glenn

Behavior of Oil Spills in Ice and Implications for Spill Response ........................................................ 779
David Dickins

Application of New Radar Sensor Technology for Enhanced Safety and Oil Spill Detection through All Phases of Operations in the Arctic Environment ......................................................................................... 794
Arnstein Havro, Per-Arne Isaksen

Understanding and Mitigation of Underwater Sound in the Arctic .............................................................. 811
John M. Ward

PRODUCTION DRILLING, FACILITIES AND EXPORT: OPERATIONS

Umbilical Technology for Arctic Projects .............................................................................................. 820
David Fogg

Offloading from Arctic Terminals ........................................................................................................ 827
Bill Maddock, Bernard Footo

Well Architecture and Well Operating Procedures on Khariaga Field, Russia .......................................... 836
Yannick Boyer, Cyril Szakoczai

Leak Detection Systems and Challenges for Arctic Subsea Pipelines ....................................................... 847
Benjamin Eisler

Explosion Safety in Arctic Environment ....................................................................................................... 858
Joar Dalheim, Sverre Nodland
