2011 24th International Symposium on Computer-Based Medical Systems

(CBMS 2011)

Bristol, United Kingdom
27-30 June 2011
TABLE OF CONTENTS

Proceedings of the 24th International Symposium on Computer-Based Medical Systems – CBMS 2011
Bristol, UK ................................................................. 1
Tony Solomonides

MAIN CONFERENCE TRACK:

A Novel Methodology for Evaluating User Interfaces in Health Care.......................................................... 7
Luca Longo, Bridget Kane

On Record Keeping at Multidisciplinary Team Meetings.................................................................................. 13
Bridget Kane, Saturnino Luz

A Retrospective Study of Paediatric Health and Development Following Pre-Implantation Genetic Diagnosis and Screening.......................................................... 19
Mark Olive, Alison Lashwood, Tony Solomonides

Data Warehousing based Architecture for the Reporting of the NHS Primary Care Prescribing .................. 26
Sabina Redzanovic, Panagiotis Chountas, Thierry Chaussalet, Farid Fouladinejad, Mohamed Tadjer

Information and Communication Technologies Enable a Comprehensive Governance of Patient Safety in Chemotherapy. An Italian Framework Project ..................................................................... 32
Elena Sini, Michele Torresani, Paolo Locatelli, Nicola Restifo, Roberta Facchini

Performance Analysis and Assessment of a T-idf based Archetype-SNOMED-CT Binding Algorithm .......... 39
Sheng Yu, Jesus Bisbal, Damon Berry

Right Dose, Right Care, Every Time a Distributed System for Quality Use of Drugs ......................................... 45
B. Rudroju, M. Schukat, P. Kidd

An Informatics Architecture for the Virtual Pediatric Intensive Care Unit.................................................... 51
Daniel Crichton, Chris Mattman, Andrew Hart, David Kale, Robinder Khemani, Patrick Ross, Sarah Rubin, Paul Veeravatanayothin, Amy Braverman, Cameron Goodale, Randall Wetzel

Interorganizational Structures of Taiwan’s Hospitals....................................................................................... 57
Hsieh-Hua Yang, Yi-Horng Lai, Fen Fen Huang, Chien-Chang Yang

SensorMed: A Lightweight Software Library for Pervasive Healthcare Systems ........................................... 63
Athanasia Panoussopoulou, Leo Galway, Chris Nugent, Guido Parente

Sharable Simulations of Public Health for Evidence Based Policy Making .................................................... 69
P. A. Couch, J. Ainsworth, I. Buchan

Usable Access Control Policy and Model for Healthcare ............................................................................... 75
Ana Ferreira, Ricardo Correia, Marta Brito, Luis Antunes

Virtual Health Care Infrastructures: Markets and Hierarchies .................................................................... 81
Ann Seror

Carolyn McGregor

A Framework for Context-Aware Online Physiological Monitoring.............................................................. 93
Shuai Zhang, Sally McClean, Bryan Scotney, Leo Galway, Chris Nugent

A Wireless EEG Monitor System based on BSN node ................................................................................... 99
Yeongsoon Gil, Gang Li, Haiyong Chen, Jungtue Lee

An Efficient Autofocus Algorithm for Indirect Immunofluorescence Applications ....................................... 106
Gialio Iannello, Leonardo Onofri, Gianpaolo Punzo, Paolo Soda

Eye Tracker Based Method for Quantitative Analysis of Pathological Nystagmus ........................................ 112
Daniela Giordano, Carmelo Pino, Concetto Spampinato, Massimo Di Pietro, Alfredo Reibaldi

Vishnoo - An Open-Source Software for Vision Research ............................................................................ 118
Enkelejda Tafaj, Thomas Kubler, Jorg Peter, Ulrich Schiefer, Martin Bogdan, Wolfgang Rosenstiel

COMPUTATIONAL PROTEOMICS AND GENOMICS:

Challenges in Microarray Data Management and Analysis .......................................................................... 127
Pietro Hiram Guzzi, Mario Cannataro

Multi-Domain Data Search and Retrieval: A Service-Oriented Life Science Scenario .................................. 133
Giorgio Ghisalberti, Marco Masseroli, Salvatore Vadalca
KNOWLEDGE DISCOVERY AND DECISION SYSTEMS IN BIOMEDICINE:

A Multidisciplinary Approach to the Design and Development of a CAD System for the Detection of Clustered Microcalcifications ............................................................. 147
Claudio Marrocco, Mario Molinara, Francesco Tortorella, Pierluigi Rinaldi, Lorenzo Bonomo, Alfredo Ferrarotti, Cesare Aragno, Salvatore Schiano Lo Moriello

A Reliable Approach for Applying DICOM Structured Reporting in a Large-scale Teledermatology Network .................................................................................. 153
Cloves Langendorf Barcellos, Aldo von Wangenheim, Rafael Andrade

MediQuery-An Automated Decision Support System ........................................... 159
Rebeck Carvalho, Rahul Isola, Ameya Tripathy

A Method for the Automatic Classification of ECG Beat on Mobile Phones ........................................................................................... 165
Fernando A. Varella, Guilherme L. De Lima, Cirano Iochpe, Valter Roesler

Classifying the Decision to Perform Surgery in MEN1 Cancer Patients using Decision Trees ........................................................................... 171

Feature Extraction from Electroencephalograms for Bayesian Assessment of Newborn Brain Maturity ......................................................... 177
Livia Jakaite, Vitaly Schetinin, Joachim Schult

Color to Grayscale Staining Pattern Representation in IIF .................................................................................................................. 183
Paolo Soda, Ermanno Cordelli

Informativeness of Sleep Cycle Features in Bayesian Assessment of Newborn Electroencephalographic Maturation .............................................................. 189
Vitaly Schetinin, Livia Jakaite, Joachim Schult

Predictions in Antibiotics Resistance and Nosocomial Infections Monitoring ......................................................................................... 195
Mary Gerontini, Michalis Vazirgiannis, Alkiviadis C. Vatopoulos, Michalis Polemis

Quantitative Evaluation of Parkinson’s Disease using Sensor Based Smart Glove ...................................................................................... 201
Khalil Niazmand, Karin Tomn, Anastasios Kalaras, Urban Piotzek, Jan-Hinrick Mehrkens, Tim Lueth

TECHNOLOGY ENHANCED LEARNING IN MEDICAL EDUCATION:

A Learning Tool for Assessing Skeletal Bone Age in Radiology ................................................. 211
Alberto Faro, Daniela Giordano, Concetto Spampinato, Rosalia Leonard

An Economical and Feasible Teaching Tool for Biomedical Education ........................................................................................................... 217
Radovan Stojanovic, Dejan Karadaglic

Federating Learning Management Systems for Medical Education: A Persuasive Technologies Perspective ................................................................. 222
Panagiotis Bamidis, Stathis Th. Konstantinidis, Charalampos Bratsas, M. Sriram Iyengar

Modeling Medical Interventions using the Semantic MediaWiki for use in Healthcare Practice and Education .......................................................... 228
Dionyssia Kontotastou, Charalampos Bratsas, Panagiotis Bamidis

PRIMER ICT: A New Blended Learning Paradigm for Teaching ICT Skills to Older People ......................................................................................... 234
Peter Kokol, Gregor Stiglic

Promoting Learning in MORMED, a Multilingual Social Networking Platform ......................................................................................... 239
Iraklis Paraskakis, Thanos Hatzigapostolou

Using Education Theory to Design a Patient E-Health Education System Capable of Increasing Health Literacy ............................................... 245
Kevin Butterworth, Alex Gray, Heather Butterworth, Omnia Allam

INTELLIGENT PATIENT MANAGEMENT:

Development of a Web-based System using the Model View Controller Paradigm to Facilitate Regional Long-Term Care Planning ......................... 253
Philip Worrall, Thierry Chaussalet, Salma Chahed Jebali

The Impact of Temperature Disparity on Emergency Readmissions and Patient Flows .................................................................................. 260
Muhammad Saiful Islam, Thierry Chaussalet, Nazmiye Ockun, Salma Chahed, Eren Demir, Christophe Sarran
InfoFrame – An Intelligent Informatics Data Collection Framework .......................................................... 266
Ali Hamou, Jesse O’Brien, Stacey Guy, Femida Gwadry-Sridhar

Introducing Home Telemanagement of Congestive Heart Failure Using Xbox Gaming Platform ..................... 272
Joseph Finkelstein, Jeffrey Wood

Using Process-Mapping to Design Integrated Health Information Management Systems .................................. 276
Matt-Mouley Bouamrane, Frances Mair

SUPPORTING COLLABORATION IN HEALTHCARE:

3D Visualization and Interaction with Spatiotemporal X-ray ............................................................................. 285
Foteini Ioakeimidou, Alex Olwal, Axel Nordberg, Hans von Holst

Human Computer Interaction Issues in Eliciting User Requirements for an Electronic Patient Record with Multiple Users ........................................................................................................... 291
Clare Harney, Paul Fahey, Sajeesh Kesavan, Alana McMahon, Louise McQuaid, Bridget Kane

Interactive Annotations to Support Collaborative Analysis of Streaming Physiological Data .......................... 297
Ruairi O’Reilly, John Morrison, Philip Healy, Geraldine Boylan

Nurse Calls via Personal Wireless Devices; Some Challenges and Possible Design Solutions .......................... 302
Lill Kristiansen

Pointing in Multi-Disciplinary Medical Meetings .............................................................................................. 308
Eva-Lotta Sallnäs, Jonas Moll, Oscar Frykholm, Kristina Groth, Jonas Forslund

Spatial, Organizational, and Social Dimensions of Intra-hospital Communication ............................................. 314
Ero S. Karlsen, Line Melby, Lill Kristiansen

BIOMEDICAL IMAGE PROCESSING AND INFORMATICS:

Biomedical CBIR using “Bag of Keypoints” in a Modified Inverted Index .......................................................... 323
Mahmudur Rahman, Sameer Antani, George Thoma

Computer-Aided Detection of Retroflexion in Colonoscopy ............................................................................. 329
Yi Wang, Wallapak Tavanapong, Johnny Wong, Junghwan Oh, Piet.C. De Groen

Controller-free Exploration of Medical Image Data: Experiencing the Kinect .................................................. 335
Luigi Gallo, Alessio Placitelli, Mario Ciampi

Graph to Graph Matching: Facing Clinical Challenges ..................................................................................... 341
Cristina Oyarzun Laura, Klaus Drechsler

Improving Content-Based Retrieval of Medical Images through Dynamic Distance on Relevance Feedback .......................................................................................................................... 347
Payel Ghosh, Sameer Antani, L. Rodney Long, George R. Thoma

Multi-modality Medical Image Simulation of Biological Models with the Virtual Platform (VIP) .......................... 353
Adrien Marion, Germain Forestier, Hugues Benoit-Cattin, Savina Camarassu-Pop, Patrick Clarysse, Rafael Ferreira Da Silva, Bernard Gibaud, Tristan Glatrard, Patrick Hugonnard, Carole Lartizien, Herve Liebgott, Svenja Specovius, Joachim Tabary, Sebastien Valette, Denis Friboulet

Review of Medical Image Retrieval Systems and Future Directions .................................................................. 359
Payel Ghosh, Sameer Antani, L. Rodney Long, George R. Thoma

RIM-ONE: An Open Retinal Image Database for Optic Nerve Evaluation ......................................................... 365
Francisco Jose Fumero Batista, Silvia Alayon Miranda, Jose Francisco Sigut Saavedra, Jose Luis Sanchez De La Rosa, Marta Gonzalez-Hernandez

SAPPHIRE Middleware and Software Development Kit for Medical Video Analysis ........................................ 371
Sean Stanek, Wallapak Tavanapong, Johnny Wong, Junghwan Oh, Ruwan Nawarathna, Janyatha Muthukudage, Piet De Groen

Separation of Interconnected Hepatic Veins ....................................................................................................... 377
Klaus Drechsler, Simon Oelmann, Cristina Oyarzun Laura

Spine X-Ray Image Retrieval using Partial Vertebral Boundaries ..................................................................... 383
Zhiyun Xue, Rodney Long, Sameer Antani, George Thoma

The Similarity Cloud Model: A Novel and Efficient Hippocampus Segmentation Technique ........................ 389
Fredy Carranza-Ali, Agma Juci Machado Traina, Caetano Traina, Paula Rejane Bezerra Diniz, Antonio Carlos Dos Santos
MEDICAL ROBOTICS:

Capturing Motions and Forces of the Human Masticatory System to Replicate Chewing and to Perform Dental Wear Experiments ................................................................. Daniel Raabe, Andrew Harrison, Anthony Ireland 397
Development of a Novel Robotic System for Hand Rehabilitation ........................................ Antonia Tzemanaki, Sanja Dogramadzi, Daniel Raabe 403
Parametric Design of an Active Ankle Foot Orthosis with Passive Compliance ................... James Carberry, Graham Hitchley, Edward Talyor, James Buckerfield, Thomas Burton, Sebastian Madgwick, Ravi Vaidyanathan 409
Robust Multi-modal Surface Matching for Intra-operative Registration ................................ Thiago R. Dos Santos, Alfred Franz, Hans-Peter Meinzer, Lena Maier-Hein 415
Sensor Suites For Assistive Arm Prosthetics ............................................................................ Martin Buckley, Ravi Vaidyanathan, Walterio Mayol 421
Ultrasound Palpation by Haptic Elastography ........................................................................ Karljohan Lundin Palmarius, Roald Havre, Odd Helge Gilja, Ivan Viola 427

ASSISTIVE TECHNOLOGIES:

An Embedded Mobile Deductive System for Low Cost Health Monitoring Support ................. Clauirton Siebra, Natasha Lino, Manuela Silva, Hélio Siebra 435
Designing a Web-based Telehealth System for Elderly People: An Interview Study in New Zealand .... Singh Jaspaljeet, Burkhard C. Wunsche, Christof Lutteroth, Czarna Ramos 441
Cameras as Cultural Probes in Requirements Gathering - Exploring their Potential in Supporting the Design of Assistive Technology .......................................................... Preminda Caleb-Solly, Alison Flind, John Paul Vargheese 447
Self-Adaptive Application for Indoor Wayfinding for Individuals with Cognitive Impairments ........ Basel Magableh, Stephen Barrett 453
Using Model-based Clustering to Discretise Duration Information for Activity Recognition ........ Sally McClean, Lalit Garg, Priyanka Chaurasia, Bryan Scotney, Chris Nugent 459

ONTOLOGIES, TERMINOLOGIES AND LANGUAGE PROCESSING:

Aligning Medical Ontologies by Axiomatic Models, Corpus Linguistic Syntactic Rules and Context Information ................................................................. Sonja Zillner, Daniel Sonntag 469
Analysing the Evolution of the NCI Thesaurus ....................................................................... Rafael S. Goncalves, Bijan Parsia, Uli Sattler 475
Leveraging Semantic Networks for Personalized Content in Health Recommender Systems .......... Martin Wiesner, Stefan Rotter, Daniel Pfeifer 481
Ontology-driven Development of a Clinical Research Information System ................................. John Chelsom, Ron Sammers, Ira Pande, Ian Gaywood 487
Scalability and Cost of a Cloud-based Approach to Medical NLP ........................................... Kyle Chard, Michael Russell, Yves Losier, Eneida Mendonca, Jonathan Silverstein 491
The Cancerology Ontology: Designed to Support the Search of Evidence-based Oncology from Biomedical Literatures ................................................................. Jantima Polpinij 503
