## TABLE OF CONTENTS

### VOLUME 1

**SPE 120569** Thermal EOR Pilot Plan for a Shallow Limestone Reservoir (Rubble Zone) in Bahrain  
Field ........................................................................................................................................................................... 1  
Challah R.K. Murty, K. Kumar, Jean-Hector de Galard, Virginie Mazeraud

**SPE 139703** CO$_2$ and C$_1$ Gas Injection for Enhanced Oil Recovery in Fractured Reservoirs ......................................... 8  
Hassan Karimaei, O. Torsaeter

**SPE 141462** Wettability Alteration and Foam Mobility Control in a Layered 2-D Heterogeneous System ......................................................... 25  
Robert F. Li, George J. Hirasaki, Clarence A. Miller, Shehadeh K. Masalmeh

**SPE 142770** A Study on Alkali Consumption Regularity in Minerals of Reservoirs During Alkali(NaOH)/Surfactant/Polymer Flooding .................................................................................................................. 42  
Jianguang Wei, Jianwen Tao, Shuzhen Xin, Qingjie Zhang, Xin Zhang, Zhiming Wang

**SPE 142771** The Performance of Polymer Solution Added with Viscosity Stabilizer and The Evaluation of Its Oil Displacement Efficiency in Daqing Oilfield ................................................................. 51  
Shuzhen Xin, Qingjie Zhang, Jianguang Wei, Yong Chen, Rongjiu Wang, Jingbo Wang, Zhiming Wang

**SPE 142855** Laboratory Tests with CO$_2$, N$_2$, and Lean Natural Gas in a Naturally Fractured Gas-Condensate Reservoir under HP/HT Conditions ................................................................. 58  
Heron Gachuz-Muro, Blanca Gonzalez-Valtierra, Erick Luna-Rojero, Berenice Aguilar-Lopez, Armando Pineda-Muñoz

**SPE 143013** Mechanistic Study of Improved Heavy Oil Recovery by CO$_2$-Foam Injection ................................................................. 67  
Alireza Emadi, Mehran Sohrabi, Mahmoud Jamiolahmady, Shaun Ireland, Graeme Robertson

**SPE 143142** Assessment of Development Methods for a Heavy-Oil Sandstone Reservoir in Middle East: Part II: Numerical Evaluation of Thermal Recovery Methods in a Heterogenous System .................................................................................................................................................................. 86  
Hifaa Alajmi, P.R. King

**SPE 143161** Microbial Enhanced Oil Recovery in Carbonate Reservoir: An Experimental Study ............................................................. 103  
Chang Hong Gao

**SPE 143282** Bayesian Network Analysis as a Tool for Efficient EOR Screening ................................................................................. 111  
M.M. Zerafat, S. Ayatollahi, N. Mehranbod, D. Barzegari

**SPE 143287** EOR Potential in the Middle East: Current and Future Trends.......................................................................................... 127  
Saad M. Al-Mutairi, Sonil L. Kokal

**SPE 143297** Investigation of the Effect of Some Parameters in Miscible WAG Process Using Black-Oil and Compositional Simulators .................................................................................................................. 138  
M. Namani, J. Kleppe

**SPE 143300** EOR vs. Infill Well Drilling: How to Make the Choice? .................................................................................................................. 149  
Gamal Alusta, Eric Mackay, Julian Fennema, Ian Collins

**SPE 143390** Recovery Processes of Extra Heavy Oil - Mechanistic Modelling and Simulation Approach ................................................................. 166  

**SPE 143391** Application of Radioactive and Chemical Tracers for Offshore WAG Pilot Project ........................................................................ 176  
Zaidi Zainal Abdullah, Z.M. Zain, Nor Aidil Anua, Ashok Singhal

**SPE 143408** Field Applications of an Evaluation Model for Enhancing Recovery Efficiency to Polymer-flooding ......................................................... 193  
Hu Dandan, Wu Yuanbing, Zhao qingfei, Feng Mingsheng, Liu Hui

**SPE 143438** Evaluation of Oil Recovery by Water Alternating Gas (WAG) Injection–Oil-wet and Water-wet Systems ......................................................................................................................... 200  
Abdulrazaz Y. Zekri, Mohamed S. Nasr, Adullah S. AlShobakhy

**SPE 143454** Comprehensive Study of Asphaltene Precipitation due to Gas Injection: Experimental Investigation and Modeling ......................................................................................................................... 208  
Gholam Abbas Roshanaei Zadeh, Siyamak Moradi, Bahram Dubir, Mohammad Ali Emadi, Davood Raskhchian

**SPE 143488** Study of Asphaltene Precipitation and Deposition Phenomenon during WAG Application ........................................................................... 220  
Ahmad Khanifar, Sima S. Alian, Birol Demiral, Nasir Darman

**SPE 143506** A Novel PPG Enhanced Surfactant-Polymer System for EOR ......................................................................................................................... 232  
Xiao-hong Cui, Zhen-quan Li, Xu-long Cao, Xinwang Song, Xinying Zhang

**SPE 143514** Experimental and Numerical Simulation Studies of Different Modes of CO$_2$ Injection in Fractured Carbonate Cores ......................................................................................................................... 240  
A.A. Aeidan, D.D. Mamora, D.S. Schechter

**SPE 143514** Research on a New Profile Control Agent: Dispersed Particle Gel ............................................................................................. 268  
Qing You, Yongchun Tang, Caili Dai, Patrick Shuler, Zayne Lu, Fulin Zhao
Simulation of Optimal Peak Oil Production Rate in a Fractured Reservoir during Miscible CO2 injection
Abhishek Joshi, G. Suresh Kumar

SPE 143568 EOR: Challenges of Translating Fine Scale Displacement into Full Field Models
Jaime Moreno, Omer Gurpinar, S. Flew

SPE 143578 Immiscible Foam for Enhancing Oil Recovery: Bulk and Porous Media Experiments
Alexey Andrianov, R. Farazjadeh, Mahmood Mahmoodi Nick, Mohand Talanana, Pacelli L.J. Zilha

SPE 143650 Impact of Fluvial Geological Characteristics on EOR Screening of a Large Heavy Oil Field
A. Soleimani, R. Penney, O. Hegazy, Ab Wahab Ngah, Abdalla Elhaj Sullivan, R. Tewari

SPE 143671 Detailed Modeling of the Alkali Surfactant Polymer (ASP) Process by Coupling a Multi-purpose Reservoir Simulator to the Chemistry Package PHREEQC
R. Farazjadeh, T. Matsuura, D. van Batenburg, H. Dijk

SPE 143736 Breaking Oil Recovery Limit in Malaysian Thin Oil Rim Reservoirs: Enhanced Oil Recovery by Gas and Water Injection
Ezzam A. Razak, Kong Seng Chan, Nasir Darman

SPE 143833 CO2 + Gas + WAG + Water Injection in the Same Oil Reservoir - Case Study
Istvan Uj, Tibor Fekete

SPE 143903 A Systematic Approach to Evaluate Asphaltene Precipitation during CO2 Injection

SPE 143926 Identification of Chief Zones by Dimensionless Pressure Index in Waterfloods
Qihong Feng, Sen Wang, Shoulei Wang, Yanzhong Wang, Depo Chen

SPE 143952 The Application of Microbial Enhanced Oil Recovery
Hou Zhaowei, Dou Xumou, Jin Rui, Wang Rui, Wang Yanling, Li Wei, Le Jianjun

SPE 143982 Evaluation of the Impact of Relative Permeability Hysteresis and Three Phase Modeling on the Performance of Water Alternative Gas EOR Processes
Hooman Karkooti, Rahim Masoudi, Andry M. Arif, Nasir Darman, Mohamad Othman

SPE 143983 Reliable Characterization and Modeling of the Capillary Transition Zone and Flow Dynamics in the Oil Rim Reservoirs
Rahim Masoudi, Hooman Karkooti, Mohamad Othman, Nasir Darman

SPE 143987 Emulsion Characteristics and Novel Demulsifiers for Treating Chemical Induced Emulsions
Day Nguyen, Nicholas Sadeghi, Christopher Houston

SPE 143992 Prediction and Experimental Measurements of Water-in-Oil Emulsion Viscosities during Alkaline Surfactant Injections
Amrit Kalra, Kirk Raney, Birol Dindoruk, Ashwin Venkatraman

SPE 144012 Flexibility Research of Hot-Water Flooding followed Steam Injection in Heavy Oil Reservoirs
Xiaohu Dong, Huiqing Liu, Hongling Zhang, Zhanxi Pang

SPE 144016 A Case Study in Cased-hole Log-inject-log Techniques to Determine Residual Oil Saturation to ASP Injection
R.A. Schulz

SPE 144023 Experimental PVT Data Needed to Develop EOS Model for EOR Projects
Jawad Azeem Shaikh, Pashupati Sah

SPE 144024 Adjoint-based Optimization of Polymer Flooding
Jorn Van Doren, Sippe Douma, Berti Wassing, Hans Kruijffeven, B. de Zwart

SPE 144025 EOS Modeling, The First Step in Detailed EOR Potential Evaluation - A Case Study
Pashupati Sah, Karen Schou Pedersen, Shahuk Jawad Azeem

SPE 144027 Feasibility for the Application of In Situ Combustion in Faja Petrolifera del Orinoco (FPO) Based in a Novel Screening Criteria for the Technology
Rafael Hincapie, Francisco Tovar, Carlos Alvarez

SPE 144040 Estimates of Surfactant Concentration Used for EOR in Low Permeability Oil Reservoir
Yu Hongwei, Chen Taoqiang, Gao Ming, Liu Jinshan, Liu Jijun

SPE 144042 Experimental and Numerical Simulation Study on Single Layer Injectivity for CO2 Flooding in Low Permeability Oil Reservoir
Yu Hongwei, Song Ximin, Yang Shiyu, Chen Dingfeng

SPE 144043 Study on the Safety Geology Sequestration after CO2 Displacement in Low Permeability Oil Reservoir
Yu Hongwei, Shen Ping-ping, Shi Yan-yao, Yang Yong-zhi, Wang Jing-yao

SPE 144069 Optimizing Simulation Studies for Miscible Gas Injection Process Using Horizontal Wells
Ahmed S. Zakaria

SPE 144088 Selecting the “Right” ASP Model by History Matching Coreflow Experiments
V. Karpan, R. Farazjadeh, M. Zarubinska, H. Dijk, T. Matsuura, M. Stoll
SPE 144092 Quantitative Uncertainty Estimation and Dynamic Model Updating for Improved Oil Recovery ................................................................. 576
Marko Mauèec, Stan Cullick, Genbao Shi
SPE 144101 Visualization of CO₂ Displacement Process under Gravity Domination ................................................................. 591
Zeeshan Mohiuddin, Manouchehr Haghighi
SPE 144108 Laboratory Assessment and Field Pilot of Near Miscible CO₂ Injection for IOR and Storage in a Tight Oil Reservoir of ShengLi Oilfield China ................................................................. 604
Bo Ren, Yang Xu, Baolun Niu, Shaoran Ren, Xiangliang Li, Ping Guo, Xinwang Song
SPE 144115 Comprehensive EOR Screening and Pilot Test for Thar Jath Heavy Oil Field, Sudan ................................................................. 615
Abdalla Elhay Sultman, Ashraf Elsadil Bhabh, Salaheldin Tawfig Hashim
SPE 144119 The Study of Oil Displacement Characteristics of CDG and Polymer Flooding ................................................................. 627
Guo Zhidong, Harry L. Chang, Fan Chengyong, Li Jinliang, Hou Weihua, Sun Dianguo
SPE 144135 Nabiye Cold Lake Expansion - Leveraging Technology to Create Success ................................................................. 641
Heather L. Fairvett, Sylvia Kueh, Sheng-Yuan Hsu, Yueming Liang, George R. Scott, Larry M. Dittaro
SPE 144147 Successful Story of Development and Optimization for Surfactant-Polymer Flooding in a Geologically Complex Reservoir ................................................................. 650
Cuong T.Q. Dang, Zhangxin Chen, Ngoc T.B. Nguyen, Wisup Bae, Thuoic H. Phung
SPE 144150 Evaluation of Alkalii-Surfactant Effectiveness by Single Well Test Pilot in a Malaysian Offshore Field Environment ................................................................. 658
Arif Azhan Abdul Manap, Mzain Omar Chong, Rithauddin M. Sai, Sazalina Zainal, A. Wafi Yahaya, Mohd Mohamad Othman
SPE 144164 Planning for Increased Production through Integrated Well and Reservoir Surveillance in the Oman EOR Developments ................................................................. 666
M. Zwaan, J. Lopez, Joel Ita, Yuan Qiu, Hassan Mahani, Rob Hartmans, Jasmeet Saluja, Stan Schoofs, G. Rocco, Rashid Al-Adawi, Faisal Saadi, Johannes Rehling
SPE 144177 Using Analog Reservoir Performance to Understand Type I Fractured Reservoir Behavior with Strong Water Drives ................................................................. 672
D. Nathan Meehan
SPE 144205 Field Experience from a Biotechnology Approach to Water Flood Improvement ................................................................. 690
B.G. Bauer, R.J. O’Dell, S.A. Marinello, J. Babcock, T. Ishoey, E. Sunde
SPE 144221 Development and Optimization of Polymer Conformance Control Technology in Mature Reservoirs: Laboratory Experiments vs. Field Scale Simulation ................................................................. 700
Cuong T.Q. Dang, Zhangxin Chen, Ngoc T.B. Nguyen, Wisup Bae, Thuoic H. Phung
SPE 144228 Application of 4D Seismic for Reservoir Management in Carbonates. Does it Work? ................................................................. 710
Mohamed Saleh Efnik, Samsudin Haj Taib
SPE 144229 An Integrated Approach to Monitor Gas Sweep in Heterogeneous Reservoirs ................................................................. 719
Mohamed Saleh Efnik, Samsudin Haj Taib
SPE 144231 EOR Success in Mann Field, Myanmar ................................................................. 729
William K. Ott, Thu Nyo, Win Nyunt Aung, Aung Thei Khai
SPE 144234 Thermally Active Polymer to Improve Sweep Efficiency of Water Floods: Simulation and Pilot Design Approaches ................................................................. 737
SPE 144250 An Enhanced Oil Recovery Technology Continually after Polymer-Flooding ................................................................. 752
Li He, Li Guo
SPE 144251 Application of Polymer Flooding with High Molecular Weight and Concentration in Heterogeneous Reservoirs ................................................................. 760
Zhang Xiaojin
SPE 144252 A Novel Method of Optimizing the Molecular Weight of Polymer Flooding ................................................................. 767
Zhang Xiaoqian, Peng Feng, Guan Wenting, Li Dan, Li Xia, Guo Songlin
SPE 144270 Comprehensive Study to Determine Optimum Solvent Composition for VAPEX In a Heavy Oil Reservoir ................................................................. 771
Abdolkarim Hosseinpour, Reza Azin, Mat Hussin Yuan
SPE 144271 Crosswell Technologies: New Solutions for Enhanced Reservoir Surveillance ................................................................. 793
Bruce Marion, Muhammad Safdar, Michael Wilt, Ping Zhang, Fabian Loh, Ajay Nalonnil
SPE 144272 Pilot Tests for Enriched-Gas Flooding with Small Well Distance at Zarzaitine Oil Field ................................................................. 802
Sheng Kai Wang, Min Li, Dao Xuian Li, Hai Long Li, Wei Cheng, Xi Li Wu, Qian Yin Xiao
SPE 144277 Field Experience of Produced Polymer Control in Offshore Oilfield ................................................................. 817
Wentao Xiang, Wei Zhou
SPE 144281 Biology Enzyme EOR for Low Permeability Reservoirs ................................................................. 821
Liu He, Zhang Zhonghong
