# TABLE OF CONTENTS

## Volume 1

<table>
<thead>
<tr>
<th>Title</th>
<th>Pages</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPE 145433: Forties Infill Drilling Eight Years on; Continued Success Through the Application of Thorough Development Geoscience Driven by 4D Seismic</td>
<td>281</td>
</tr>
<tr>
<td>SPE 145234: Managed Pressure Drilling Enables Drilling Beyond the Conventional Limit on an HP/HT Deepwater Well</td>
<td>22</td>
</tr>
<tr>
<td>SPE 143166: First True Tight Gas (&lt;0.1 mD) Horizontal Multiple Fractured Well In The North Sea</td>
<td>38</td>
</tr>
<tr>
<td>SPE 143403: Success Story: Improving Reservoir Monitoring to Increase Production in Offshore Marginal Oil Field</td>
<td>58</td>
</tr>
<tr>
<td>SPE 143748: Problems with Operational Piggling in Low Flow Oil Pipelines</td>
<td>70</td>
</tr>
<tr>
<td>SPE 144491: Will Performance Based Safety Processes Prevent Future Oil Spill Disasters?</td>
<td>78</td>
</tr>
<tr>
<td>SPE 144502: Consideration Factors in Defining an Effective Scale Management Strategy During Early Stages of Field Development Planning</td>
<td>83</td>
</tr>
<tr>
<td>SPE 144847: Simulation of Two-Phase Flow in Carbon Dioxide Injection Wells</td>
<td>94</td>
</tr>
<tr>
<td>SPE 144890: Sourceless LWD Service Provides Unique Petrophysical Measurements for the First Time in Offshore Environment: A Case Study from Libya</td>
<td>107</td>
</tr>
<tr>
<td>SPE 145167: Industrialization of Electrically Trace Heated Pipe-in-Pipe (ETH-PiP)</td>
<td>121</td>
</tr>
<tr>
<td>SPE 145190: Offshore Replacement of a Damaged FPSO Fairlead</td>
<td>135</td>
</tr>
<tr>
<td>SPE 145224: Remote Operations—A Remote Possibility, or the Way We Do Things ‘Round Here?</td>
<td>173</td>
</tr>
<tr>
<td>SPE 145242: Reservoir Surveillance and Successful Infill Well Delivery in a Mature Asset</td>
<td>195</td>
</tr>
<tr>
<td>SPE 145236: CO₂ Leakage Prevention Technologies</td>
<td>207</td>
</tr>
<tr>
<td>SPE 145290: How Advances in Diverless Pipeline Repair Technology Made it Possible for an Operator to Save CAPEX on the Construction of the Deepwater Field Export Pipeline to Transport the Newly Discovered Oil to Shore</td>
<td>221</td>
</tr>
<tr>
<td>SPE 145390: Minimising HSE Impacts During Design and Construction of a Major Gas Pipeline Through the Baltic Sea</td>
<td>235</td>
</tr>
<tr>
<td>SPE 145391: The State of Business Continuity Preparedness In The Supply Chain—An Operator’s View</td>
<td>250</td>
</tr>
<tr>
<td>SPE 145397: Successful Closure of Zonal Sand Production with Silica Gel in a Horizontal Well</td>
<td>258</td>
</tr>
<tr>
<td>SPE 145427: Evaluation of Orientated Perforating in the Buzzard Field</td>
<td>267</td>
</tr>
<tr>
<td>SPE 145433: Forties Infill Drilling Eight Years on; Continued Success Through the Application of Thorough Development Geoscience Driven by 4D Seismic</td>
<td>281</td>
</tr>
</tbody>
</table>

Philip Rose, Gregg Barker, Klaas Koster, Jeff Pyle
SPE 145744: Drilling Challenges in the North Atlantic Margin ................................................................. 597
S. Bagala, J. Getliff, J. Zaske, I. Watt

SPE 146014: The Link Between Safety and Shift Handover .................................................................. 613
Andy Brazier, Brian Pacitti

SPE 146018: An Operating Management System to Deliver Safe Operations .................................. 628
Michael Ferrow

SPE 146072: The Activities and Recommendations of the UKCS OSPRAG Technical Review Group Following the Deepwater Horizon, Macondo Incident ......................................................... 637
Brian Kinkead

SPE 146077: Coiled-Tubing Technologies Improve Shale-Play Development Efficiencies .................. 643
S. Hampton Fowler, Sharlene Lindsay, Robert Smith

SPE 146121: Seascape Sabertooth, A Hybrid AUV/ROV Offshore System ........................................ 659
Bert Johansson, Jan Siesjö, Marcus Furuholmen

SPE 146124: Qualification of the Deepwater Subsea Well Intervention System “AX-S” for 10,000 ft Operations .......................................................................................................................... 670
Matthew Svensen, Robbie Williamson, Matthew Law

SPE 146125: Ensuring the Integrity of Subsea Hot Tap Welded Joints in Lieu of Hydro Testing........... 676
Alan Smith, Robbie Williamson, Andrew Low

SPE 146126: Marginal Field Life Extension: Goosander Field Case Study ........................................... 683
Gordon McRae, Iulia Wright, Rene Van Oorschot, Guillaume Bertherave, Shahbaz Sikander

SPE 146142: Qualifying an External Turret and Mooring System for the Offshore Industry ............... 694
Eugene Ogosi, Robbie Williamson, David Galbraith, John Donovan

SPE 146143: Fit For Purpose and Cost Effective Integrated Operations Implementation For Mature Assets In Maersk Oil North Sea UK Limited .................................................................................. 707
Claude G. Bjerregaard, Helen Ratcliffe

SPE 146144: High-Density OBC—A Step Change in Reservoir Imaging—A BP North Sea View ......... 717
Daniel Davies, Herlinde Mannerts, John McGarry, Mark Ibrahim, Colin McKenzie, Steve Campbell, Gino Alexander, Angeles Lezana, Jan Kommedal, Olav Barkved, Jean-Paul Van Gestel

SPE 146147: Applying Fault-Tolerant, Hot Swappable Control Architectures in Subsea Environments ................................................................................................................................. 728
Rick McKin

SPE 146157: Unlocking the Future for a Mature Field: Surveillance and Complex Wellwork Combine to Extend Field Life ........................................................................................................ 734
Matthew Dunning, John Stripe, Patrick Keatinge, Peter Newton, Ann Davies, George Waugh

SPE 146161: West Franklin - How Geophysical Tenacity Led a Modest Franklin Satellite to a Full- Blown Field Development ............................................................................................................... 743
Kailesh Patel, Jean-Marc Ugolini, Francois-Jean Millancourt, Chris Falconer, Christophe Soyeur, Valerie Neillo

SPE 146166: Innovative Web Portal Reservoir Knowledge Base Integrates Engineering, Production, Geosciences and Economic Data Sets .................................................................................. 755
D. Rees, J. Reichardt, A. O’Carroll

SPE 146192: “Learning the Lessons - Retrospective HAZOPs” ................................................................. 771
Ian L Herbert

SPE 146198: Ageing Infrastructure Offshore - A Risk-Based Approach to Supporting Investment/Divestment ......................................................................................................................... 779
Marcus Flint, Sture Angelsen, Øivind Amundsgård

SPE 146199: Application of Particle Swarm Optimization for Parameter Estimation Integrating Production and Time Lapse Seismic Data .................................................................................. 789
Richard Rwechungura, Mohsen Dadashpour, Jon Kleppe

SPE 146207: Oil Field Developments-Long Tie-back Concepts UK Limited ........................................ 808
L. Rivière, M-K. Decrin, E. Sibaud, S. Annes

SPE 146216: CO2 Monitoring: Taking the Pulse of CO2 Storage Reservoirs ........................................ 822
Hazel Clynne, Ian Phillips, Alan James

SPE 146218: Integrity of High Pressure Relief Systems ........................................................................ 832
J. P. M. Smeulers, S. V. Hageraats-Ponomareva

SPE 146225: Ageing and Life Extension of Offshore Oil and Gas Installations .................................... 842
Iain Wright

SPE 146229: BP North Sea: Introduction and Compliance with BP’s Aviation Group Defined Practice Group Defined Practice 3.7 - Aviation .................................................................................................. 852
Alan Combe, John Parker, David Maclean

SPE 146239: Flow Assurance Challenges in Gas Storage Schemes in Depleted Reservoirs .............. 857
Alireza Kazemi, Bahman Tohidi, Emile Bakala Nyounary
