
(APCOM 2011)

Wollongong, Australia
24-30 September 2011

Editors:
E.Y. Baafi I. Porter
R.J. Kininmonth

ISBN: 978-1-61839-222-0
## CONTENTS

### Keynote Addresses

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multi-Disciplinary Engineering Research and Development Skills for Mining – A Case Study</td>
<td>C D Cook, S Van Duin and I Porter</td>
<td>1</td>
</tr>
<tr>
<td>The Decision of Stationarity in Modern Resource Estimation</td>
<td>C V Deutsch and B J Wilde</td>
<td>11</td>
</tr>
<tr>
<td>Formulating and Solving Complex Minerals Industry Optimisation Problems – A Systems Approach to Complex Systems Problems</td>
<td>P A Dowd</td>
<td>29</td>
</tr>
<tr>
<td>Visual Computing and Mine Design</td>
<td>K R Johnson</td>
<td>39</td>
</tr>
<tr>
<td>Reconciliation Principles for the Mining Industry</td>
<td>H M Parker</td>
<td>47</td>
</tr>
<tr>
<td>JORC and Mineral Resource Classification Systems</td>
<td>P Stoker</td>
<td>69</td>
</tr>
<tr>
<td>Long-Term Scheduling</td>
<td>J Whittle</td>
<td>75</td>
</tr>
</tbody>
</table>

### Geological Modelling

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Effects of Considering the Spatial Bulk Density Variability in Mineral Resources and Reserves</td>
<td>P M Dias, J F C L Costa, J C Koppe and C Diedrich</td>
<td>81</td>
</tr>
<tr>
<td>Interactive Modelling and Visualisation of Large Deposits Using Linear Octrees</td>
<td>Y D Jiang</td>
<td>89</td>
</tr>
<tr>
<td>Geological Domaining and Resource Estimation – A Discussion</td>
<td>N A Schofield</td>
<td>99</td>
</tr>
<tr>
<td>Boundary Classification for Automated Geological Modelling</td>
<td>K Silversides, A Melkumyan, P Hatherly and D Wyman</td>
<td>113</td>
</tr>
</tbody>
</table>

### Geostatistical Resource Estimation

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mineral Resource Classification Using a Data Geometry Index</td>
<td>A Arik</td>
<td>121</td>
</tr>
<tr>
<td>Localised Uniform Conditioning in the Multivariate Case – An Application to a Porphyry Copper Gold Deposit</td>
<td>J Deraisme and W Assibey-Bonsu</td>
<td>131</td>
</tr>
<tr>
<td>Localised Indicator Kriging</td>
<td>W Hardtke, I Allen and I Douglas</td>
<td>141</td>
</tr>
<tr>
<td>Learning from Simulation at Boddington Gold Mine</td>
<td>M Humphreys</td>
<td>149</td>
</tr>
<tr>
<td>Multivariate Block Co-Simulation of an Iron Ore Deposit</td>
<td>A Jewbali</td>
<td>157</td>
</tr>
<tr>
<td>A Non-Parametric Bayesian Framework for Automatic Block Estimation</td>
<td>A Jewbali, F Ramos and A Melkumyan</td>
<td>177</td>
</tr>
</tbody>
</table>
Field Parametric Geostatistics – Geostatistical Rigorous Solutions
Dealing with Extreme Grades During Resource Estimation

R S Machado, M Armony, J F C L Costa and J C Koppe 191

A New Look at Multiple-Point Geostatistics for Geological Modelling

G Mariethoz and B F J Kelly 203

Non-Parametric Bayesian Learning for Resource Estimation in the Autonomous Mine

A Melkumyan and F Ramos 209

Multivariate Geostatistical Simulation via Joint Approximate Diagonalisation – A Case Study

U Mueller and J Ferreira 217

Looking for an Adequate Drilling Spacing and Heterotopic Sampling – An Iron Ore Example

J D V Reuwsaat, J F C L Costa, J C Koppe and D T Ribeiro 231

Calculating Similarity Among Geological Simulated Images and Reference Images Using Principal Component Analysis

D T Ribeiro, J F C L Costa, D Roldao, E Cunha, T Webber, C Monteiro and T Tamantini 243

Open Pit Planning

A New Approach to Flexible Open Pit Optimisation and Scheduling

M Armstrong and A Galli 253

Contemporary Criteria of Open Pit Long-Term Production Scheduling

R A Halatchev 265

Investigating the Effect of Different Block Dimensions on the Economic Life of Open Pit Mines

A Hekmat, M Osanloo and P Moarefvand 287

Blast Movement Modelling and Measurement

D La Rosa and D Thornton 297

Four-Dimensional Network Relaxation Method for Long-Term Open Pit Mine Scheduling

S Murakami, Y Tamanishi, S Miwa and J Yamatomi 311

A New Metaheuristic Algorithm for Long-Term Open Pit Production Planning

J Sattarvand and C Niemann-Delius 319

Mine Planning

Integration of Oil Sands Mine Planning and Waste Management Using Goal Programming

H Askari-Nasab and E Ben-Awuah 329

Selection Criteria for Open Pit Production Equipment – Payload Distributions and the ‘10/10/20’ Policy

E K Chanda and R J Hardy 351

Creating the Optimal Coal Working Section

R de Jongh and P Lukic 365

Robust Decision Making – Application to Mine Planning Under Price Uncertainty

F Grobler, T Elkington and J-M Rendu 371
Improving Truck-Shovel Matching

Eight-Dimensional Planning – Construction of an Integrated Model for Mine Planning Involving Constructability

Panel Caving Scheduling Under Precedence Constraints Considering Mining System

A Novel Approach to Estimate the Gap Between the Middle- and Short-Term Plans

Mineral Processing

An Integer Programming Model for Optimisation of a Heavy Media Coal Preparation Plant

Application of Statistical Approaches for the Development of Cost Estimation Models for Jaw Crushers

A Numerical Approach for Prefeasibility Analysis of Tailings Disposal Options

Screen Media Aperture Size Measurement Using Metso’s Screen Tracker

Computer Simulation of the Direct Iron Reduction in MIDREX Ovens

A Fractal Approach for Mineral Breakage

Fuzzy Model of a Multigrade Structure for Support of Decision-Making and Management in Mineral Processing

Project Evaluation

Multi-Stage Stochastic Optimisation for Managing Major Production Incidents

Optimisation of Mining Policy Under Different Economical Conditions Using a Combination of Non-Linear Programming and Genetic Algorithm

Development and Application of a Holistic Quantitative Deterministic Technique for Risk Modelling (Quadrim) in Mine Valuation

The Resource Valuation and Optimisation Model – Real Impact from Real Options
Internalising Ecological Costs in Evaluating and Planning a Mining Project

What do Geostatistics and Cut-Off Grade Optimisation have to do with Real Options Applied to Mine Project Evaluation?

Risk Assessment of Consumables Supplies Management in Mines

**Health and Safety**

Prediction of Acid Gas Generation in the Petroleum Industry

Monitoring Haul Truck Operator Fatigue Using Gyroscope Data

Computational Fluid Dynamics Modelling of Gas Flow Dynamics in Large Longwall Goaf Areas

**Rock Mechanics**

Synthetic Rock Mass Modelling of a Rock Mass with Non-Persistent Joints

Assessing Deformability of Siltstone Under Compressive Loading by Ultrasonic Wave Propagation

Optimisation of a Stochastic Rock Fracture Model Using Markov Chain Monte Carlo Simulation

Probabilistic Slope Stability Assessment of Fresh Bulldog Shale in Prominent Hill Open Pit

**Simulation of Mining Systems**

Dynamic Simulation as a Test Bed for Emerging Technologies

Mill Modelling Using an Extensible Station-Based Framework

Application of Simulation Technology to the Design of Coal Clearance Systems

A Multibody Simulation Solution to Analyse Attachment Kinematics of Hydraulic Excavators and Other Linkages

Using Flexsim Simulation Models to Assess Coalmine Roadway Development Performance

</table>
# Remote Sensing

Direct Detection of Buried Orebodies Using Gradiometry  
*D FitzGerald, A Christensen and R Paterson*  
853

Radar-Based Surface Scanning with the World’s First Fully Digital Beam Forming Technology Sensor Especially Developed for Mining Productivity and Safety  
*K Nienhaus, M Hahn, J Berg and R Winkel*  
857

Autonomous Mapping of Mine Face Geology Using Hyperspectral Data  
*S Schneider, R J Murphy, A Melkumyan and E Nettleton*  
865

# Artificial Intelligence Applications

Prediction of Burden at the Sungun Copper Mine by Artificial Neural Network  
*M Badroddin, H Khoshrou and A Siamaki*  
877

An Optimisation Approach to Maintenance Scheduling for Capacity Alignment in the Hunter Valley Coal Chain  
*N Boland, T Kalinowski, H Waterer and L Zheng*  
887

Critical Assessment of Machine Learning Algorithms as Estimation Techniques for a Polymetallic Ore Deposit  
*S Dutta, S Bandopadhyay, R Ganguli and D Misra*  
899
