2011 Sixth IEEE International Conference on Global Software Engineering Workshop

(ICGSEW 2011)

Helsinki, Finland
15-18 August 2011
Table of Contents

Message from the Workshops Chairs .......................................................................................................................... viii
AGSE 2011 Organizing Committee .......................................................................................................................... ix
Globagile 2011 Organizing Committee .................................................................................................................... x
PARIS 2011 Organizing Committee .......................................................................................................................... xi
REMIDI 2011 Organizing Committee ....................................................................................................................... xii
Doctoral Symposium Committee ............................................................................................................................. xiii

Architecting in Global Software Engineering (AGSE 2011)
Architectural Knowledge Management Practices in Agile Global Software Development ............................................. 1
Viktor Clerc, Patricia Lago, and Hans van Vliet

Architectural Viewpoints for Global Software Development ...................................................................................... 9
Bugra M. Yildiz and Bedir Tekinerdogan

Global Software Engineering for Agile Teams (Globagile 2011)
Signs of Agile Trends in Global Software Engineering Research: A Tertiary Study .................................................... 17
Geir K. Hanssen, Darja Šmite, and Nils Brede Moe

Does Distribution Make Any Difference? Quantitative Comparison of Collocated and Globally Distributed Projects ........................................... 24
Arttu Piri and Tuomas Niinimäki

Co-ordination Support for Managing Progress of Distributed Agile Projects .......................................................... 31
Sultan Alyahya, Wendy K. Ivins, and W.A. Gray
Methods and Tools for Project/Architecture/Risk Management in Globally Distributed Software Development Projects (PARIS 2011)

Risk Management in Global Software Development Projects: Challenges, Solutions, and Experience .................................................................35
Jürgen Münch

Risk Identification and Risk Mitigation Instruments for Global Software Development: Systematic Review and Survey Results ..................................................36
Indira Nurdiani, Ronald Jabangwe, Darja Šmite, and Daniela Damian

Distributed IT-Projects, Trust and Communication Practices ..................................................42
Anna Zaitsev

A Decision Support System for Global Software Development ..................................................48
Sarah Beecham, John Noll, Ita Richardson, and Deepak Dhungana

Follow-the-Sun Methodology in a Stochastic Modeling Perspective ......................................54
Ricardo M. Czekster, Paulo Fernandes, Rafael Prikladnicki, Afonso Sales, Alan R. Santos, and Thais Webber

Fifth International Workshop on Tool Support Development and Management in Distributed Software Projects (REMIDI 2011)

5th International Workshop on Tool Support Development and Management in Distributed Software Projects (REMIDI’11) ..................................................60
Patrick Keil, Marco Kuhrmann, and Tuomas Niinimäki

Requirements for an Infrastructure to Support Activity-Based Computing in Global Software Development ..................................................................................62
Paolo Tell and Muhammad Ali Babar

Using the Cloud to Facilitate Global Software Development Challenges ................................70
Sajid Ibrahim Hashmi, Viktor Clerc, Maryam Razavian, Christina Manteli, Damian Andrew Tamburri, Patricia Lago, Elisabetta Di Nitto, and Ita Richardson

Face-to-Face, Email and Instant Messaging in Distributed Agile Software Development Project ..................................................................................78
Tuomas Niinimäki

Software Configuration Management Issues with Industrial Opensourcing .............................85
Lars Bendix, Tero Kojo, and Jan Magnusson

An Architecture for Creating Simulators for Training Global Software Development ....................90
Miguel J. Monasor, Aurora Vizcaíno, and Mario Piattini
Integrating Early V&V Support to a GSE Tool Integration Platform ................................................................. 95

Jukka-Pekka Pesola, Hannu Tanner, Juho Eskeli, Päivi Parviainen, and Dan Bendas

**Doctoral Symposium**

Research Plan - Planning Product Releases in Global Multi-team Agile Development Projects ................................................................. 102

*Ville T. Heikkilä and Casper Lassenius*

Studying the Influence of Culture on Outsourced, Offshored Software-Testing Practice: An Ethnographic Approach ................................................................. 105

*Hina Shah, Mary Jean Harrold, and Nancy J. Nersessian*

Exploring the Role of Social Software in Global Software Development Projects ........................................................................................................... 108

*Rosalba Giuffrida and Yvonne Dittrich*

Decision Support for Offshore Insourcing Software Development ........................................................................................................... 111

*Ronald Jabangwe and Darja Smite*

Globally Distributed Software Process Engineering ........................................................................................................... 114

*L. García-Borgoñon and MJ Escalona*

Towards Understanding of Software Engineer Motivation in Globally Distributed Projects ........................................................................................................... 117

*Līva Šteinberga and Darja Šmite*

**Author Index** ............................................................................................................................................. 120
