# TABLE OF CONTENTS

## VOLUME 1

### I  FULL PAPERS OF THE KEYNOTE LECTURES

- **SCIENCE AND ENGINEERING FOR SELF-CONSOLIDATING CONCRETE** .......................................................... 1  
  Surendra P. Shah, J. Kim, Shiho Kawashima

- **ADVANCES IN THE MODELLING OF THE CORROSION ONSET AND THE CORROSION PROPAGATION** .......................................................... 11  
  C. Andrade, F. Tavares, M. Prieto, P. Tanner, D. Izquierdo

- **WATER ABSORPTION OF SUPERABSORBENT POLYMERS IN A CEMENTITIOUS ENVIRONMENT** .......................................................... 20  
  Ole Mejhlude Jensen

- **SUSTAINABLE DEVELOPMENT FOR CONCRETE INFRASTRUCTURE IN CHINA** .......................................................... 34  
  Z. Li, Bo Zhang

### II  ABSTRACTS OF THE SESSIONS

#### 1 Microstructures and Hydration

- **UNDERSTANDING MATERIAL BEHAVIOR BY INTEGRATING NUMERICAL SIMULATION WITH 3D MICROSTRUCTURAL IMAGING** .......................................................... 47  
  Eric N. Landis, John E. Bolander

- **CONSIDERATIONS ABOUT STATISTICAL NANOINDENTATION ON HARDENED CEMENT PASTES** .......................................................... 54  
  Pietro Lura, Pavel Trtik, Beat Munch

- **INVESTIGATION OF HYDRATION AND POZZOLANIC REACTION IN SILICA FUME-CEMENT PASTE** .......................................................... 61  
  Lei Wang, Zhen He, Xinhua Cai, Xiaorun Chen

- **AN INVESTIGATION ON THE MICROSTRUCTURE FORMATION OF POLYMER MODIFIED MORTARS IN THE PRESENCE OF POLYACRYLATE LATEX** .......................................................... 69  
  Ye Tian, Z. Li, Hong-Yan Ma, Xian-Yu Jin, Nan-Guo Jin

- **IMPROVEMENT IN POZZOLANIC REACTIVITY OF COARSE FLY ASH BY MECHANO-CHEMICAL METHOD** .......................................................... 77  
  B. Singh, Simmi Tyagi, M. Gupta, S.K. Bhattacharyya

- **INFLUENCE AND MECHANISM OF NANOWHISKER MATERIAL FOR CONCRETE IN-SITU TOUGHENING** .......................................................... 85  
  W. Liu, D. Zhou, C. Miao, J. Liu

- **HYDRATION KINETICS OF CEMENT PASTE WITH VERY FINE INERT MINERAL ADDITIVES** .......................................................... 92  
  H-W. Krauss, H. Budelmann

- **HYDRATION MODEL OF SLAG-BLENDED CEMENTS** .......................................................... 99  
  B. Kolani, L. Buflo-Lacarriere, A. Sellier, G. Escudeillas, L. Boutilhon, L. Linger

- **EFFECT OF WATER-FILLED MACROPORE INCLUSIONS ON THE HYDRATION OF PORTLAND CEMENT DETECTED BY THERMO GRAVIMETRIC ANALYSIS** .......................................................... 107  
  A. Assmann, H.W. Reinhardt

- **SELF CURING CONCRETE** .......................................................... 115  
  Garje Rajesh Kumar

- **A CLOSED-LOOP CONTROLLED AUTOMATIC FOGGING CURING SYSTEM BASED ON PORE WATER PRESSURE MEASUREMENT** .......................................................... 123  
  Q. Tian, Yufang Wang, Jiaping Liu, C. Miao

#### 2 Admixtures

- **EFFECT OF A MGO-CAO COMPOSED EXPANSIVE AGENT ON THE PROPERTIES OF HIGH PERFORMANCE CONCRETE** .......................................................... 131  
  J.P. Liu, Q. Tian, Y.J. Wang, S.Z. Zhang, F. Guo, C. Miao

- **THE EFFECT OF THE EVAPORATION RETARDANT ON THE MORTAR PLASTIC SHRINKAGE AND CRACKING** .......................................................... 139  
  L. Li, J.P. Liu, Q. Tian, C. Miao, Y.J. Wang
3 Rheology and Self-Compacting Concrete

ON THE RHEOLOGICAL BEHAVIOUR OF SUPERPLASTICIZED CEMENT PASTE
C. Jayasree, Ravindra Gettu, J. Murali Krishnan

RHEOLOGICAL PROPERTIES OF SELF-CONSOLIDATING CONCRETE STABILIZED WITH FILLERS OR ADMIXTURES
H. Vikan, K. De Weerdh, S. Smeplass

RHEOLOGICAL BEHAVIOR OF FRESH MORTAR
Qiangian Zhang, Jianzhong Liu, C. Miao, Juaping Liu

MEASUREMENT METHOD FOR CONSISTENCY OF POLYMER-MODIFIED SPRAYED MORTAR WITH VANE-TYPE VISCOMETER
Kazuo Ichimiya, Kimiaki Zaitsu, Makoto Etoh

INFLUENCE OF BAR DIAMETER ON TOP-BAR EFFECT IN SELF-COMPACTING CONCRETE
P. Desnerck, G. De Schutter, L. Taerwe

ECO-EFFICIENCY OF FIBER-REINFORCED SELF-COMPACTING CONCRETE (FR-SCC)
A.P. Fantilli, C. Villani, B. Chioia, D. Zampini

FRACTURE PROCESSES OF SELF COMPACTING CONCRETE USING IMAGE ANALYSIS
T. Hemalatha, J.M. Chandra Kishen, Ananth Ramaswamy

STUDY ON CHLORIDE BINDING OF SELF-COMPACTING CONCRETE WITH DIFFERENT CRACK LENGTHS: NON-STEADY STATE MIGRATION TEST
S. Mu, G. De Schutter, B.G. Ma

STRENGTH AND DURABILITY STUDIES OF CONVENTIONAL CONCRETE AND SELF COMPACTING CONCRETE
S. Venkateswara Rao, M.V. Seshagiri Rao, D. Ramaseshu

STRUCTURAL BEHAVIOUR OF A TIE CONFINED SELF CONSOLIDATING PERFORMANCE CONCRETE (SCPC) UNDER AXIAL COMPRESSION
P. Rathish Kumar, M.L.V. Prasad, K.L. Radhika

4 Shrinkage

PREDICTION OF DRYING SHRINKAGE IN CONCRETE STRUCTURES: STUDY OF SIZE EFFECT
F. Benboudjemaa, J-M. Torrenti

EARLY-AGE BEHAVIOR OF REINFORCED CONCRETE UNDER RESTRAINED CONDITIONS
W. Jiang, Y. Yuan, G. De Schutter

AUTOGENOUS SHRINKAGE OF DAM CONCRETE AND ITS INFLUENCE ON THERMAL STRESS
Hideaki Sato, Shingo Miyazawa, Astushi Yatagai
ASSESSMENT OF RESTRAINED SHRINKAGE CRACKING OF CONCRETE WITH ELLIPTICAL RING SPECIMENS - PRELIMINARY RESULTS ................................................................. 308
Xiangming Zhou, Olayinka Oladiran

SYNTHESIS AND EVALUATION OF GRAFTED COPOLYMER SHRINKAGE REDUCING ADMIXTURE ...................................................................................................................... 316
Gao Nanxiao, Zhang Jiangang, Ran Qianping, Miao Changwen, Liu Jiaping

5 Novel Testing and Characterization Methods

EXPERIMENTAL STUDY ON BLAST RESISTANCE OF SIFCON ................................................................................................................................. 326
P. Chun, S. Lee, S.H. Cho, Y.M. Lim

A STUDY OF THE ACCELERATED AGEING PROCESS OF CEMENTITIOUS MATERIALS .............................................................. 334
A. Babaahmadi, L. Tang, Z. Abbas

IMAGE-BASED DETECTION AND ANALYSIS OF CRACK PROPAGATION IN CEMENTITIOUS COMPOSITES ............................................................ 342
E.B. Pereira, G. Fischer, J. Barros

ESTIMATION OF SPATIAL DAMAGE IN CONCRETE STRUCTURES USING SEMIVARIOGRAM ANALYSIS ................................................................. 350
Tetsuya Suzuki, Tatsuo Naka, Masayasu Ohtsu

INFLUENCE OF STRENGTH AND CURING AGE ON CONCRETE FRACTURE ENERGY ADJUSTED BY FRACTAL METHOD ...................................................... 357
J.G. Han, P.Y. Yan

HYBRID NDE FOR REBAR CORROSION IN REINFORCED CONCRETE .......... 363
Masayasu Ohtsu, Yuma Kawasaka, Misuzu Kitaura, Yuichi Tomoda

EVOLUTION OF SHEAR STIFFNESS AND ELECTRICAL RESISTANCE IN CEMENT BASED MATERIALS ................................................................. 370
Tae Sup Yun, Woong Been Son, T.J. Kim, Y.M. Lim

FAILURE PROCESS IN SHEAR BONDING STRENGTH TESTS BETWEEN EXISTING CONCRETE AND REPAIRING MATERIAL BY ACOUSTIC EMISSION TECHNIQUE ...................................................................................................................... 376
Kentaro Ohno, So Kurohara, Kimitaka Uji, Atsushi Ueno

A STUDY OF FULL-FIELD DEBOND BEHAVIOR OF CFRP-REINFORCED CONCRETE BEAMS .......................................................................................................................... 383

CONTINUOUS MONITORING OF CEMENT PASTE E-MODULUS SINCE CASTING: A METHOD BASED ON MODAL IDENTIFICATION ................................................................. 394
M. Azenha, R. Faria, F. Magalhaes, L. Ramos, A. Cunha

6 Material Damage and Durability

STATIC VS. DYNAMIC YOUNG’S MODULUS AS INDICATOR FOR ASR DEGRADATION ................................................................. 402
H.W. Reinhardt, O. Mielich

STUDY OF THE OF PORE SOLUTION IN CONCRETE PARTIALLY EXPOSED TO Na₂SO₄ SOLUTION ................................................................................................................................. 410
Zanqun Liu, Yunhua Liu, G. De Schutter, Dehua Deng

FATIGUE DAMAGE ASSESSMENT IN CRACKED RC BEAMS ................................................................................................................................. 418
Sonalisa Ray, J. M. Chandra Kishen

DURABILITY AND CRACK CONTROL IN FRC RC ELEMENTS: AN EXPERIMENTAL STUDY ................................................................. 426
F. Minelli, G. Tiberti, G.A. Pizzarri

VALIDATION OF MODELS FOR ASSESSMENT OF DURABILITY OF CONCRETE STRUCTURES EXPOSED IN CHLORIDE ENVIRONMENTS ................................................................................................. 435
L. Tang

SIMULATION OF CHLORIDE PENETRATION WITHIN PARTIALLY CARBONATED CONCRETE ................................................................. 444
Xiaomeng Wang, Mickael Thierry, Veronique Baroghel-Bouny

SALT DISTRIBUTION MAPPING IN NATURAL BUILDING AND DECORATIVE STONES ................................................................................................................................. 452
S. Modestou, M. Theodoridou, I. Ioannou

LATTICE BOLTZMANN SIMULATION OF THE IONIC DIFFUSIVITY OF CEMENT PASTE ................................................................................................................................. 460
M. Zhang, G. Ye, K. Van Breugel

SPECIFICATION AND SITE CONTROL OF THE PERMEABILITY OF THE COVER CONCRETE: THE SWISS APPROACH ................................................................................................................................. 469
E. Denarie, F. Jacobs, A. Leemann, T. Teruzzi, R. Torrent
INCREASE OF SERVICE LIFE OF REINFORCED CONCRETE STRUCTURES IN MARINE ENVIRONMENT BY WATER REPELLENT TREATMENT ................................................................. 477
T.J. Zhao, F. Wittmann, Weihua Li, P. Zhang

CHARACTERISING THE STRUCTURE AND PERMEABILITY OF ALKALI-ACTIVATED BINDERS .................................................................................................................... 484
John L. Provis, Idawati Ismail, Rupert J. Myers, Volker Rose, Jannie S.J. Van Deventer

CONCRETE PERMEABILITY SIZE EFFECT .................................................................. 493
S. Dal Pont, M. Brocato, A. Fervielle

REAL-TIME EVOLUTION OF WATER PERMEABILITY IN CRACKING CONCRETE ................................................................. 498
G. Rastiello, C. Boulay, S. Dal Pont, J-L. Tailhan, S. Ramanich

APPLICATION OF NEUTRON RADIOGRAPHY TO STUDY MOISTURE MOVEMENT IN CRACKED AND UNCRACKED CONCRETE .................................................. 506
F. Wittmann, P. Zhang, T.J. Zhao

APPLICATION OF SODIUM SILICATE SOLUTION AS SELF-HEALING AGENT IN CEMENTITIOUS MATERIALS ................................................................. 514
Haoliang Huang, G. Ye

SELF-HEALING CAPABILITY OF FIBER REINFORCED CEMENTITIOUS COMPOSITES .................................................................................................................. 521
S.Z. Qian, J. Zhou, E. Schlangen

SELF HEALING MORTARS BY USING DIFFERENT CEMENTITIOUS MATERIALS ........................................................................................................ 528
K. Sisomphon, O. Cooperoglu

FEASIBILITY AND POTENTIAL OF PREFABRICATED POROUS CONCRETE AS A COMPONENT TO MAKE CONCRETE STRUCTURES SELF-HEALING .................................................................................................................. 536
Senot Sangadji, E. Schlangen

SELF HEALING BEHAVIOR OF ENGINEERED CEMENTITIOUS COMPOSITES .................................................................................................................. 543
M. Koda, H. Mihashi, T. Nishiaki, T. Kikuta, S.M. Kwon

7 Strengthening and Repair

BOND DETERIORATION BETWEEN REINFORCING BARS AND CONCRETE SUBJECT TO CYCLIC LOADS AND CRACKS .................................................................................................................. 551
C. Mahrenholtz, R. Eligehausen, J. Hofmann, S. Pampanin

STRAIN MODELS FOR FRP-CONFINED CONCRETE .................................................................................................................. 559
A. Napoli, R. Realfonzo

VOLUME 2

INTERFACIAL BEHAVIOUR BETWEEN MECHANICALLY FASTENED FRP LAMINATES AND CONCRETE SUBSTRATE: TEST RESULTS AND MODELLING .................................................................................................................. 567
E. Martintelli, A. Napoli, B. Nunziata, R. Realfonzo

EXPERIMENTAL AND NUMERICAL STUDY OF DISTINCT TECHNIQUES TO STRENGTHEN BEAMS FAILING IN BENDING UNDER MONOTONIC LOADING .................................................................................................................. 575
Jose Sena-Cruz, J. Barros, Mario Coelho, Luis Silva

NUMERICAL SIMULATION OF FLEXURAL BEHAVIORS OF FRP STRENGTHENED RC BEAMS AT DIFFERENT STEEL CORROSION RATES .................................................................................................................. 583
J.L. Pan, C.Y. Qi, Y.F. Huang

RIGID BODY SPRING NETWORK MODELING OF THE TENSION STIFFENING OF FRP-STRENGTHENED RC MEMBERS .................................................................................................................. 591
Jian-Guo Dai

POLYMER MODIFIED CEMENT MORTARS FOR THE REPAIR OF CONCRETE STRUCTURES .................................................................................................................. 599
Ajay Krishnan, Priya S.Nair, Ravindra Gettu

EXPERIMENTAL CALIBRATION OF THE BOND STRENGTH OF FRP, EXTERNALLY GLUED ON MASONRY ELEMENTS, BASED ON DESIGN PROVISIONS .................................................................................................................. 606
Matteo Panizza, Enrico Garbin, Maria Rosa Valluzzi, Claudio Modena

INFLUENCE OF A FIBER COATINGS FOR THE REPAIR OF SEWERAGE IN MASONRY .................................................................................................................. 614
M. Saade, S. Kesteloot, C. Djelal, L. Hamitouche, J. Benlimane

MICROSTRUCTURE OF THE INTERFACE IN CONCRETE REPAIRS .................................................................................................................. 623
J. Zhou, G. Ye, K. Van Breugel
8 Steel Corrosion and Life Prediction

EMBEDDED SENSORS FOR THE CORROSION MONITORING AND CONTROL IN MARINE STRUCTURES ................................................................. 631

CHLORIDE ANALYSIS IN CONCRETE BY LA-ICP-MS ................................................................. 638
N. Silva, T. Luping, S. Rauch

THE INTERFERENCE OF OH IONS IN THE POTENTIOMETRIC DETERMINATION OF FREE CL IN CEMENT PASTE PORE SOLUTION ................................................................. 646
M.A. Climent, C. Anton, G. De Varas, A. Hidalgo, C. Andrade

CORRELATION BETWEEN ACCELERATED STEEL CORROSION IN CONCRETE AND GROUND PENETRATING RADAR PARAMETERS ................................................................. 654

IN SITU CONCRETE STRUCTURES MOISTURE MEASUREMENT USING A PULSE TEST METHOD ........................................................................ 663
Z. Duan, F. Agostini, J. Liu, F. Skoczylas, T. Dubois, J-P. Dubois

DISTRIBUTED CRACKS DETECTION BY BOTDA AND ITS APPLICATION IN CORROSION CRACKING MONITORING ........................................................................ 671
Y. He, J.H. Mao, W.L. Jin, J. Xia

INFLUENCE OF MECHANICAL CRACKS ON THE DEVELOPMENT OF CORROSION MECHANISM ........................................................................ 677
Raoul Francois, Inamullah Khan, Hugo Mercado, Arnaud Castel

MOISTURE CONDITIONS IN A DUTCH TUNNEL LINING AND POSSIBLE CONSEQUENCES FOR REINFORCEMENT CORROSION ............................................................................ 685
J.H.M. Visser

STUDY ON SURFACE CRACKS FRACTAL CHARACTERISTICS OF FORCED CONCRETE BEAM UNDER THREE-POINT LOADING ........................................................................ 693
J. Wei, L.F. Cuo, Y.X. Zeng, R.Z. Dong

INFLUENCE OF CRACK WIDTHS ON CORROSION OF REINFORCING STEEL BAR IN FIBER REINFORCED CEMENTITIOUS COMPOSITES ........................................................................ 701
H. Mihashi, S.F.U. Ahmed, A. Kobayakawa

CLASSIFICATION OF ENVIRONMENTAL EXPOSURE OF BUILDING ELEMENTS BY TESTS ........................................................................ 709
H.W. Pang, Bosco L.K. Au, W.B. Chan

GRADING THE ENVIRONMENTAL AREA ACCORDING TO ITS EFFECT ON THE DURABILITY OF CONCRETE STRUCTURES UNDER ATMOSPHERIC CONDITION ............................................................................ 716
W.L. Jin, H.R. Wu

CORRELATIONS BETWEEN NATURAL AND ACCELERATED CORROSION RATES IN RC STRUCTURES - PRELIMINARY RESULTS ........................................................................ 724
M. Otieno, H. Beushausen, M. Alexander

9 Environmental Friendly Construction Materials

LOW WATER DEMAND BINDER TECHNOLOGY FOR ENVIRONMENTAL FRIENDLY CEMENTS WITH LOW CLinker CONTENT ........................................................................ 732
V.R. Falikman, N.F. Bashlykov

EXCITATION MECHANISM OF ALKALINE CONDITION ON THE HYDRATION ACTIVITY OF STEEL SLAG ........................................................................ 742
Q. Wang, P.Y. Yan, J.J. Feng

CALCINED MARL AS EFFECTIVE POZZOLAN ........................................................................ 750
H. Justnes, T. Otnor, T. Danner

AIR PURIFICATION POTENTIAL AND WEATHERING RESISTANCE OF A TiO2 COATING APPLIED ON AERATED CONCRETE ........................................................................ 758
Anibal Maury-Ramirez, Kristof Demeestere, N. De Belie

HOW TO OVERCOME TECHNICAL AND COMMERCIAL BARRIERS TO THE ADOPTION OF ALKALI ACTIVATED CONCRETE ........................................................................ 764
Jannie S.J. Van Deventer, Peter Duxson, John L. Provis

A TYPE OF ECOCEMENT PREPARED FROM MUNICIPAL SOLID WASTE INCINERATION FLY ASH ........................................................................ 772
K. Wu, H.S. Shi

STRENGTHENING EFFICIENCY OF NONSTANDARD ADDITION OF FLUIDIZED BED ASH IN CONCRETE ........................................................................ 783
Michal A. Glinicki, Grzegorz Nowowiejski, Karolina Gibas
THE INFLUENCE OF HIGH PERFORMANCE CONCRETE ON LOW-CARBON ECONOMY
C. Miao
791
A STUDY ON FACTORS INFLUENCING COMPRESSIVE STRENGTH OF CO2-CURED
CONCRETE
Caijun Shi, Meng Liu, Qingyan Zou, Fuqiang He
802
IMPACT OF RAW MATERIALS ON THE MECHANICAL AND THERMAL PROPERTIES OF
HEMP CONCRETES
E. Gourlay, L. Arnaud
811
MECHANICAL PROPERTIES OF RECYCLED AGGREGATE CONCRETE PREPARED WITH
OLD CONCRETE WITH DIFFERENT STRENGTH GRADES
S.C. Kou, Chi-Sun Poon
819
FATIGUE OF NORMAL AND CRUMB RUBBER CONCRETE UNDER DIFFERENT
TEMPERATURES
Yamei Zhang, Zhe Zhao
829
PROPERTIES OF CONCRETE CONTAINING RECYCLED COARSE AGGREGATES AND FLY
ASH
S.F.U. Ahmed
839
EXPERIMENTAL STUDY ON GEOPOLYMERIC RECYCLED CONCRETE USED AS
SUSTAINABLE CONSTRUCTION MATERIAL
X.S. Shi, F.G. Collins, X.L. Zhao, Q.Y. Wang
847
INFLUENCE OF MICRO AND NANO-SIZED RHAS ON HYDRATION AND COMPRESSIVE
STRENGTH OF CEMENT BASED PASTES
855
USE OF A NATURAL POZZOLAN FOR IMPROVING CONCRETE PROPERTIES
Ozkan Sengul, Ahmet Turkoğlu
864
10 High Performance Construction Materials

FATIGUE BEHAVIOR OF HIGH PERFORMANCE CONCRETE IN COMPRESSION
P. Bun, B. Espion
871
GAS RELATIVE PERMEABILITY OF HIGH-PERFORMANCE CONCRETE: EFFECT OF
WATER SATURATION UNDER PHASE DESORPTION AND SORPTION
Wei Chen, Frederic Skoczylas, T. Dubois
876
DEVELOPMENT OF HIGH-STRENGTH LIGHTWEIGHT CEMENT-BASED COMPOSITES
S.M. Kwon, T. Kikuta, T. Nishiwaki, H. Mihashi
884
WATER FILM THICKNESS AND PASTE FILM THICKNESS: KEY FACTORS FOR MIX
DESIGN OF HIGH-PERFORMANCE CONCRETE
A.K.H. Kwan, L. Li
892
SHEAR STRENGTH OF ULTRA HIGH PERFORMANCE PRE-CAST PC JOINT WITH JOINT
TYPE AND LATERAL COMPRESSION STRESS
C.H. Lee, Y.J. Kim, W.J. Chin, E.S. Choi
898
THE JOINING METHOD FOR PERMANENT FORMWORK
Q. Jin, C.K.Y. Leung, W.L. Chung
906
TIO2TRC - NEW FEATURES OF TRC BY TITANIUM DIOXIDE MODIFICATIONS
C. Neunzig, J. Steinhoff, W. Brameshuber
914
HIGH-TEMPERATURE BEHAVIOR OF TEXTILE REINFORCED CONCRETE
Christian Kalas, Josef Hegger, Michael Raupach, Udo Antons
923
STRESS-CRACK OPENING RELATIONSHIP OF ENGINEERED CEMENTITIOUS
COMPOSITES AND APPLICATION
Jun Zhang, Xianchun Ju
931
SHEAR CRACK FORMATION AND PROPAGATION IN REINFORCED ENGINEERED
CEMENTITIOUS COMPOSITES
Ieva Paegle, G. Fischer
941
TAILORING SHCC MADE OF TWO KINDS OF PVA FIBERS
A.P. Fantilli, H. Mihashi, T. Nagamuma, T. Nishiwaki
949
FIBRE REINFORCED CEMENTITIOUS COMPOSITES WITH ALKALI-ACTIVATED SLAG AS
SOLE BINDER
C. Lin, O. Kayali, E.V. Morozov, D.J Sharp
957
