# TABLE OF CONTENTS

## VOLUME I

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEPDG Implementation: Manitoba Experience</td>
<td>1</td>
</tr>
<tr>
<td>M. Alauddin Ahammed, Said Kass, Stan Hilderman, William K. S. Tang</td>
<td></td>
</tr>
<tr>
<td>Bio-engineering and Bio-technical Techniques in Streambank Stabilization: TAC, Education</td>
<td>20</td>
</tr>
<tr>
<td>Achievement Award Nomination Submission</td>
<td></td>
</tr>
<tr>
<td>N/A</td>
<td></td>
</tr>
<tr>
<td>Alberta Transportation Experience with Debonded Pre-tensioning Strands in Precast NU Girders</td>
<td>27</td>
</tr>
<tr>
<td>John Alexander, David Rogowsky, Bob Ramsay</td>
<td></td>
</tr>
<tr>
<td>Household Trip Patterns and Travel Characteristics in Lethbridge, Alberta</td>
<td>41</td>
</tr>
<tr>
<td>Ahmed Ali, Darvin Juell, Shirley Lui, Julie Winram</td>
<td></td>
</tr>
<tr>
<td>Cable-Stayed Bridge as an Alternative for Medium and Short Span Bridges</td>
<td>60</td>
</tr>
<tr>
<td>Aiza Azarnejad, Ken McWhinnie, Gamil Tadros, Jiri Strasky</td>
<td></td>
</tr>
<tr>
<td>Challenges in Designing Pavements for Bus Rapid Transit Projects Experience in York Region, Ontario</td>
<td>76</td>
</tr>
<tr>
<td>Andrew C. Babasundaram, Ludomir Uzarowski, Michael L. J. Maher, Mitchell Smith, Darrin Sellick</td>
<td></td>
</tr>
<tr>
<td>How to Regulate Traffic in a Sustainable World</td>
<td>88</td>
</tr>
<tr>
<td>Daniel Beaulieu</td>
<td></td>
</tr>
<tr>
<td>City of Saskatoon Mechanistic Pavement Structure Modeling</td>
<td>110</td>
</tr>
<tr>
<td>Curtis Berthelot, Rielle Hauchert, Roberto Soares, Diana Podborochynski, Colin Prang, Duane Guenther</td>
<td></td>
</tr>
<tr>
<td>Traffic Calming Speed Humps and Speed Cushions</td>
<td>124</td>
</tr>
<tr>
<td>Catherine Berthod</td>
<td></td>
</tr>
<tr>
<td>Modération de La Circulation Dos D’âne Allongés Et Coussins</td>
<td>141</td>
</tr>
<tr>
<td>Catherine Berthod</td>
<td></td>
</tr>
<tr>
<td>Innovative Infrastructure Designs to Accommodate High-Loads and Over-Dimensional Loads through the Fort McMurray Area</td>
<td>159</td>
</tr>
<tr>
<td>Ferhan Bhanji, Wayne Tomlinson</td>
<td></td>
</tr>
<tr>
<td>Redevelopment of the Metropolitan Expressway in Montreal: Efficient Transportation Planning in a Dense and Compact Urban Environment</td>
<td>180</td>
</tr>
<tr>
<td>Nicolas Bissuel-Roy</td>
<td></td>
</tr>
<tr>
<td>Dundas Street Crossing of Sixteen Mile Creek A Field Spliced, Post-tensioned Precast Concrete Girder Bridge</td>
<td>192</td>
</tr>
<tr>
<td>Matthew Bowser, Scott Leitch, Bob Stofko</td>
<td></td>
</tr>
<tr>
<td>Quantification of Recycled Concrete Aggregate (RCA) Properties for Usage in Bridges and Pavements: An Ontario Case Study</td>
<td>203</td>
</tr>
<tr>
<td>Liam Butler, J.S. West, S.L. Tighe, Norman W. McLeod</td>
<td></td>
</tr>
<tr>
<td>The Two Percent Solution</td>
<td>222</td>
</tr>
<tr>
<td>Al Capas, Steve Aguiar</td>
<td></td>
</tr>
<tr>
<td>How Constructive Public Consultation can Lead to a Successful Project: The Ioco Road Corridor Safety Improvements Study</td>
<td>229</td>
</tr>
<tr>
<td>Borg Chan</td>
<td></td>
</tr>
<tr>
<td>Evaluation of Safety and Operational Performance of High Tension Median Cable Barrier on Deerfoot Trail, Calgary, Alberta</td>
<td>248</td>
</tr>
<tr>
<td>Tony Churchill, Upal Bawa, Masood Hassan, Muhammad Imran, Bill Kenny</td>
<td></td>

</tbody>
</table>
GeoTAIS: An Application of Spatial Analysis for Traffic Safety Improvements on Provincial Highways in Saskatchewan

Brandt Denham, George Eguakun, Kwai Quaye

383

Recycled Aggregate and Geosynthetic Study City of Edmonton

Hugh Donovan

402

Case History on the Design, Implementation, and Conclusions of a Study of Haul Roads Associated with a Wind Farm Development in Southwestern Ontario

Robert A. Douglas, Inana Marsikic, James D. Rodger

421

Combined Ranking Method for Screening Collision Monitoring Locations along Alberta Highways

Robert Duckworth, Muhammad Imran, Jack Chan

430

Twinning of the Trans Canada Highway Through Banff National Park

N/A

453

Educational Achievement Award: 2010 Nomination

N/A

465

Edmonton Experience with Bottom Ash and Other Insulating Materials for Mitigation of Frost Heave

David A. Field, Tony Ruban, Art Johnston, Daryl Nixon, Don Lewycky

472

Induced Damage in Pavements

Ralph Haas

489

Generating Carbon Offset Credits in Canada Using Weigh-in-Motion

Ellie Gould

502

Environments

Laurent Guignard

520

Le Réaménagement de L’échangeur Henri-bourassa / Pie-IX À Montréal: Un Projet D'ingénierie Urbaine Pour Une Mobilité Durable

Ralph Haas

537

Impact of High RAP Content on the Performance Characteristics of Asphalt Mixtures in Manitoba

Elie Y. Hajj, Peter E. Sebaaly, Luis Loria, Said Kass, Tara Liske

554

Cement-Modified Soil for Long Lasting Pavements

Gregory E. Halsted

574

Unique New Bridge Designs for Four Highway Interchanges in BC

David Harvey

587

Construction of High Tension Median Cable Barrier on Alberta Highway 2: A Case Study of Cost-effective Innovation

Massood Hassan, Cory Rogers, Mike Damberger, Bryan Ngo

604

Evaluation of Darwin-ME Pavement Rutting Prediction Models Using Data from Alberta’s Pavement Management System

Wei He, Marta Jukasz, John Crockett, Venkat Lakshwati

622

Life Cycle Cost Analysis of Municipal Pavements in Southern and Eastern Ontario

Anne Holt, Sherry Sullivan, David K. Hein

634

2011 TAC/ATC Environmental Achievement Award Nomination

Calvin McClary

656

Provision for all - Adaptive Signal Control for cities where modal demands are changing - the London Case Study

Gavin Jackman, Mike Hutt

670

Owner, Consultant, and Contractor Collaboration for Rapid Delivery of the Marine Drive Transit Priority Project

Murray Johnson, David Queen

686

Transportation Association of Canada Sustainable Urban Transportation Award

N/A

700

Ontario’s 2011 Transit-supportive Guidelines: Integrating Land Use, Transit and Active Transportation

Jeannie Lee, Robin Kortright

708

Trends in Urban Travel: Implications for Planning and Forecasting

David Kriger, Rhys Wolff, Ahmad Suhbani, Donald Cleghorn

723

TRAVIS Multi-Jurisdiction Oversize Vehicle Permitting System

Imants Krumins, Kerry Leslie

740

Vancouver 2010 Olympic and Paralympic Winter Games: BC MoT Traffic Management

Nasir Kurji, Ed Miska

759

Application Des Routes 2+1 AU Québec

Marina Fresnancourt, Sébastien Labonté

779
Performance of Precast Concrete Pavement Repairs on an Urban Freeway in Toronto ................................................. 797
Becca Lane, Tom Kazmierowski

Design and Construction of the Capilano Cliffwalk ................................................................................................. 813
Kent LaRose, Scott Loftson, Duncan C. Wyllie, Stuart Masterson

Innovative Rehabilitation Gives new Life to a 100-Year-Old Steel Truss Bridge ........................................ 829
K. Lima, S. Kanji, J. DiBattista

Development of the Highway Hierarchy for Preservation of Provincial Highways in Saskatchewan .......... 840
Andrew Liu, Sudip Adhikari, Doug Hansen

Link Slab Deck Joints........................................................................................................................................... 858
Edmund Ho, Jim Lukashenko

VOLUME 2

Risk Mapping and a Physical–Attribute-Based Star Rating System for Road Safety Network ......................................................... 878
Jane MacAngus, Henry Hernandez, Craig Milligan, Thomas Baumgartner, Maryam Moshiri, Keenan Patmore, Jeannette Montufar

G37 Interchange – Stage 1 Detour, Innovation and Integrated Project Delivery ......................................................... 900
Calvin McClary, Andrew Boucher

Performance measurement for roads in the North: Available tools and knowledge gaps ...................................... 919
Craig Milligan, Jeannette Montufar

Mobility Milton 2010: A Marketing Program to Encourage Transit Use in Milton .................................................. 940
Tony D’Alessandro

A Case Study on Sustainability Through the Application of the Principles of Pavement Management .................... 957
Gary St. Michel, Mo Mofrad, Tyler Bowie

Comprehensive Regional Transportation Infrastructure Planning for the Alberta Oil Sands .......................... 979
Gordon Molinar, Francis Wambega

Réduction de La Limite de Vitesse à 40 km/h Dans Les Rues Locales de La Ville de Montréal ........................................... 996
N/A

Geosynthetics as a Component of Sustainability in Pavement Structure Design for Arterial Roadways ................. 1034
Brian Morrison

Transportation of Canada Environmental Achievement Awards ............................................................................. 1047
N/A

Programme de Surveillance Environnementale Pour Le Réaménagement de La Route 175 Dans La Réserve Faunique Des Laurentides: Une Approche Novatrice Déployée Sur 143 km .............................................. 1058
N/A

Prix d’ingénierie en Sécurité Routière 2011 ................................................................................................................. 1074
N/A

Compare Risk Allocation for Different Project Delivery Methods in Canada .......................................................... 1082
Allan Nell, Hussien AL Battaineh

Constructability and Challenges of the Slims and Duke Bridges Project ................................................................. 1097
Mekdam Nima, Kian Mirza, Asnee Pochanart, Amin Abdullah

Climate Change Engineering Vulnerability Assessment of Transportation Infrastructure in British Columbia: Phase II ............................................................................................................. 1117
Dirk Nyland, Joel R. Nodelman, Joan Y.H. Nodelman

Ontario Good Roads Association: Educational Achievement Award Application Form and Pavement Condition Evaluation Course ............................................................................................................. 1135
N/A

Calibration of a Micro-Simulation Model in a Large Urban Network ........................................................................... 1139
Timothy Oketch, Manoj Dilwaria

Sustainable UHPC Bridges for the 22nd Century ...................................................................................................... 1154
V.H. Perry

Quantifying Incremental Pavement Damage Caused by Overweight Trucks ............................................................ 1167
Diana Podborochynski, Curtis Berthelot, Ania Anthony, Brent Marjerison, Robin Litzenberger, Tim Kealy

Multi-use Trail Hard - Medicine to Prescribe and Swallow ......................................................................................... 1187
Chris Poirier

Frost Heaves: A Problem That Continues To Swell .................................................................................................. 1201
Lori Schaus, Mark Popik

Measuring and Predicting Soil Temperature and Moisture Content Beneath Nova Scotia’s Highways: A Report and Preliminary Results from a Recently Installed Network ........................................................................ 1212
Benoit Pouliot, Paul Delannoy, Olga Kidson, Phil Woodhams, Shawn Allan
Hurontario/Main Street Corridor Master Plan Mississauga and Brampton: Building a New and Integrated Vision for the Corridor ................................................................. 1232
Martin Powell

Laboratory Characterization of Shredded Tires as Substructure Road Drainage Layer Material ................................................................. 1242
Ganis Abdul Rahman, Curtis Berthelot, Duane Guenther, Shane Olsen, Theresa McQuoid

Remote Control Weigh Station Implementation ................................................................. 1254
Randy Hanson, Ann Reinhart, Selma Yousif, Scott McGibney

Innovative Structural and Geotechnical Strategies: Crossing Unstable River Valleys in Northern Alberta ................................................................................................. 1269
Neil Robson, Gamal Ghoneim, Don Proudfoot, Donald Saunders, Darcy Taylor

Methods of Reducing Collisions on Alberta Roads ................................................................. 1284
Sarah Rocchi, Richard Chow, Ben Kenny, Jesse Arsenaud, Raheem Dilgir

Gestion de la Fluidité des Déplacements_personne et Priorité du Transport en Commun: la Réussite Entre la Société de Transport de Montréal et la Ville de Montréal ................................................................. 1304
Pascal Rochon, Thomas Bissuel Roy

Structural and Hydrological Design of Sustainable Pervious Concrete Pavements ................................................................................................. 1324
Robert Rodden, Tim Smith

Accommodating Pedestrians and Cyclists at a Suburban Freeway Interchange ................................................................. 1341
Mark Roen

Burnaby Mountain Gondola Transit Project Success in Integrating Sustainable Transportation and Land Use ................................................................................................. 1359
Ian Fisher, Robert Rollin

Identifying High Collision Locations for Roadway Segments without Traffic Volume Information ................................................................. 1380
Rajib K. Sahaji, Peter Y. Park, George Eguakun

Safer City Program – Chilliwack Experience ................................................................................................. 1398
Roderick Sanderson

Rapid Non-Contact Tension Force Measurements on Stay Cables ................................................................................................. 1408
Marcus Schmieder, Alex Taylor-Noonan, Rolane Heere

Comparative Life Cycle Cost Analyses of Asphalt Pavements Treated with Anti-Stripping Additives ................................................................................................. 1417
Peter E. Sebaaly, Elie Y. Hajj

Vehicle Crash Testing on a GFRP-Reinforced PL-3 Concrete Bridge Barrier ................................................................................................. 1436
Khaled Sennah, Benjamin Juette, André Weber, Christian Witt

Oversize/Overweight Vehicles: An Investigation into the Safety and Space Requirements for Alternative Energy Projects ................................................................................................. 1444
Daniel Shihundu, John Morroll

Characterizing Field and Laboratory Performance of Cementitious Partial Depth Repair Materials ................................................................................................. 1462
Haithem Soliman, Jean-Luc Lambert, Ahmed Shalaby, Tara Liske, Said Kass, Lester Deane

City Shaping Light Rail Transit: The Hamilton, Ontario Project and Lessons for Other North American Cities ................................................................................................. 1476
Jillian Stephen, Justin Readman, Ashley Curtis

Impacts of Increased Loading Due to Heavy Construction Traffic on Thin Pavements ................................................................................................. 1491
Harry Sturm, Amir Abi El Halim, Abid Ikram, Lewis Wong

Measuring Goods Movement Travel Time and Reliability: Proposed Methodology ................................................................................................. 1509
Cheryl Szuch, Zorana McDaniel

A Case Study on the Performance of High Load Polystyrene as Roadway Insulation in Edmonton, Alberta, Canada ................................................................................................. 1526
Christina Tatarniuk, Don Lewczyk

Selecting Communities for Piloting the New Reduced Speed Limit on Residential Roads in the City of Edmonton ................................................................................................. 1540
Stevanus Adrianto Tjandra, Gerry Shinko, Mathew Roorda

University of Toronto: Department of Civil Engineering ................................................................................................. 1561
Mathew Roorda

Beyond the Storm: A Risk Based Process and Tool to Enable Better Understanding and Management of Environmental and Climate Risks ................................................................................................. 1568
N/A

Implantation et Mise en Œuvre Des Passages Pour Piétons en Diagonale au Québec ................................................................................................. 1580
Simon Trépanier

Innovative Infrared Crack Repair Method ................................................................................................. 1600
Ludomir Uzarowski, Vimy Henderson, Mike Henderson, Bob Kiesswetter

Weigh-In-Motion Sensors’ Installation and Calibration Efforts on Highway 401 Perpetual Pavements, Woodstock ................................................................................................. 1611
Shahram H. Vaziri, Carl Haas, Leo Rothenburg, Joseph Ponniah, Ralph Haas
Accommodating Commercial and Over-Dimensional Vehicles at Roundabouts ....................................................... 1628
Phil Weber

Cycling in the Capital: Laurier Avenue Segregated Bicycle Lane Pilot Project – Ottawa, ON ........................................ 1648
Michel Bisson, Meghan Whitehead, Laura Maxwell

Implementing a Pavement Management System for Low Volume Roads: Challenges and Successes ....................... 1667
Leanne Whiteley-Lagace, Khaled Helali, Jason Dietz

Creating Sustainable Pavements through Level of Service Options for Roads ................................................. 1683
Leanne Whiteley-Lagace, Andy Dalziel, Richard Andoga, Gary Moore

Assessment of Impact of Energy Development Projects on Local Roads .......................................................... 1701
Paul W. Wilke, Michael Harrell

Environmental Management and Benefits in a Major Capital Project: Teston Road and Highway 400, York Region, Ontario, Canada .................................................................................................................................................. 1718
Arup Mukherjee

Internet Bidding Adoption in Large Transportation Agencies from Innovation to the Norm ................................ 1730
Ward Zerbe
