# TABLE OF CONTENTS

Volume 1

## SESSION FR1: WATER - KEY TO OPTIMIZING THE LEAN GREEN MACHINE

- Perspectives on Water Use and Reuse at Pulp and Paper Mills ................................................................. 1  
  Barry Malmberg
- Reuse of Purified Process Water in the Fiberline - Laboratory Results .......................................................... 13  
  Ted Poulin, Janne Vehmaa, Olavi Pikka, Pekka Tervola
- Water is the Key .............................................................................................................................................. 35  
  Pierre Rutz

## SESSION S3: NEW TECHNOLOGY SHOWCASE

- KB Fiber Optic Sheet Break Detector ............................................................................................................ 50  
  Mark Scotch
- AFeed Solaris Steam Feeder for MC Pulp Heating ............................................................................................ 57  
  Ted Poulin
  John Schwamberger
- New Optical Sensors - Real-Time Measurement of Ash and Total Consistency ........................................... 66  
  David Goss
- Rapid Innovative Process Analyzer for Kraft Liquors and ClO₂ Generator Liquor Measurements ............... 70  
  Cheryl Sewell
- Chloride Removal Using Short Column Resin Bed Technology – Dry Bottom ESP ..................................... 79  
  Jon Foan

## SESSION FR2: STICKIES & PITCH

- Online MacroStickies Measurement in an OCC Recycling Mill .................................................................... 85  
  Michelle Ricard, Natalie Pagé, Gilles Dorris, Sylvain Gendron
- Comparison of Sample Pre-treatment Methods on Flow Cytometry Measurement of Mechanical Pulp ...... 113  
  Reetaleena Rissanen, Asta Leinonen, Antti Haapala, Pirjo Kyyrönen
- Treatment of Lap Pulp Colloidal Stickies to Improve Paper Machine Runnability ...................................... 130  
  R. Daniel Haynes

## SESSION PE1: CORROSION WORKSHOP FOR MILL ENGINEERS

- A Primer for DUPLEX Stainless Steel ........................................................................................................... 159  
  John M. Grocki

## SESSION PULP1: PULPING - THE GLOBAL PICTURE

- The 2010 Reference Mill for Kraft Market Pulp .............................................................................................. 191  
  Niklas Berglin, Anders Lovell, Lennart Delin, Janice Törmälä
- Improving Pulp Characteristics with Enzymes ............................................................................................... 198  
  Rosy Covarrubias, Philip M. Hoekstra
- Pulp Mill Management of Non-Process Elements Aided by Process Simulation ....................................... 232  
  Rickard Wadsborn, Åsa Samuelsson, Niklas Berglin, Marta Bialik, Ingeli Karlholm
SESSION FR3: DEINKING

Reflectance Based Ink Content Measurements – Operational Wavelength Comparison Between 700 nm and 950 nm ................................................................. 238
Mika Körkkö, Antti Haapala, Ari Ämmälä, Henrikki Liumatainen, Jouko Niinimäki
Deinking of Inkjet-Printed Paper Using a Reagent Based on Modified Kaolin ........................................... 254
Cesar Basilio, Steven Sheppard
Recent Advances in Process Water Optical Analysis .................................................................................. 258
Antti Haapala, Mika Körkkö, Elisa Koivuranta, Jouko Niinimäki

SESSION ENV1: ENVIRONMENTAL SESSION - COMPANY INITIATIVES PROVIDING BUSINESS ADVANTAGES

Risk Management for the Paper Industry ................................................................................................. 279
Kirk Dammeyer, Mark Jackson, Michael Pardus
Leveraging Environmental Programs to Support Mill Investment: A Case Study ........................................ 287
Todd J. Griset, Steven A. Hudson
Unbundled Loss Prevention and Risk Engineering Services Provide Major Economic Benefits .............. 297
David Bennett, Christopher Jackson

SESSION FR4: UNIT OPERATIONS

New Approach to Clean and Recover Fibres from Fine Screening Reject .................................................. 301
Lisa Mäkinen, Mika Körkkö, Antti Haapala, Terhi Suopajärvi, Ari Ämmälä, Jouko Niinimäki
DIP Lines for Tissue Products: Furnish Variability, Low Energy Impact and Design Flexibility .............. 329
Marco Pescantin

SESSION PULP2: OPTIMIZING FIBER SUPPLY

From Tree Cutting to Pulping: The Impact of Tree Storage Time on Pulp Mill Economics ............................... 339
Gisely Samistraro, Peter W. Hart
Furnish Homogenization for Pulp Mill Applications .................................................................................. 362
Walter D. Lampp III
Effects of Loblolly Pine Tree Age and Wood Properties on Linerboard Grade Pulp Yield and Sheet Properties. Part 2: Effects on Sheet Properties ........................................ 375
Thomas J. McDonough, C. E. Courchene, D. E. White, L. Schimleck, G. Peter

SESSION EPR1: RECOVERY BOILER OPTIMIZATION

CFD-Modeling for More Precise Operation of the Kraft Recovery Boiler .................................................. 400
Markus Engblom, Pasi Miikkulainen, Anders Brink, Mikko Hupa
Modeling of Fine Particles and Alkali Metal Compounds in Kraft Recovery Boiler Furnace ....................... 420
Aino Leppänen, Erkki Välimäki, Antti Oksanen
Initial Stages and Overlapping Processes of a Black Liquor Droplet in a Kraft Recovery Boiler .................. 434
Ari Kankkunen, P. Miikkulainen, M. Järvinen

SESSION FR5: GREEN DEINKING

Greener Deinking – Biodegradable Deinking Chemistry ........................................................................ 458
David R. Jones, Daniel E. Glover
Introduction of Sodium Sulfite Free Neutral Deinking ........................................................................... 466
R. Daniel Haynes, Eden Nicodimos
SESSION PULP3: EUCALYPTUS FIBER SUPPLY

Highlights of the 5th International Colloquium on Eucalypt Pulp
Jorge L. Colodette, Fernando J. B. Gomes, José L. Gomide, Teresa C. F. Da Silva

Performance of the Woods of Eucalyptus Grandis X Eucalyptus Urophylla and Acacia Mearnsii for the Production of Kraft Pulp on Lo-Solids® Process
T. E. S. Segura, F. G. Silva Jr.

Use of Cold Tolerant Eucalyptus Species as a Partial Replacement for Southern Mixed Hardwoods
Peter W. Hart, Dale E. Nutter

SESSION EPR2: POWER PLANT UPGRADES

Superheater Modifications and Boiler Upgrades to Maximize In-House Power Generation
John F. La Fond, Marcel D. Berz, Samit J. Pethe, Arie Verloop

SESSION PE2: AVOIDING HIGH TEMPERATURE CORROSION

Weld Overlay Materials Comparison For Recovery Boiler Service
John A. Kulig, Robert P. Viscardi

Energy from Biomass - Lessons from European Boilers
W. B. A. (Sandy) Sharp, Douglas L. Singbeil, James R. Keiser

Corrosivity of Pyrolysis Oils
James R. Keiser, Michael A. Bestor, Samuel A. Lewis Sr., John M. Storey

SESSION EPR3: LIME KILN OPTIMIZATION

Increasing Lime Production while Decreasing Kiln Pluggage through the Installation of the First LimeFlash™ Lime Kiln Feed System in North America
Peter W. Hart, Gary W. Colson, Michael H. Clapper, Brandon M. Pollet, William K. Doughty

Improve Lime Mud Kiln Operation By Accurately Sensing and Controlling Mud Moisture
John Robinson, Roger Douglas

Characterization of Hard Scale Formed in the Kraft Mill Green Liquor Processing Equipment
Tasnuva Zakir, Honghi Tran, Vladimiros G. Papangelakis

SESSION EPR4: ENERGY CONSERVATION & COST REDUCTION

An Alternate Approach to Flue Gas Heat Recovery
William R. Stirgwolt, Timothy E. Hicks

Integrating a Reheat Steam Cycle Power or Recovery Boiler into an Existing Pulp Mill
Timothy Hicks

Jason Gold, Christine Capilouto

SESSION PULP5: IMPROVING PULPING UNIFORMITY

Kraft Delignification: Recent Findings Regarding the Impact of Non-Reacting Ions in the Cooking Liquor
Harald Brelid, Johannes Bogren, Binh Dang, Fredrik Lundqvist, Anna Saltberg, Hans Thelander

A Review of Deresinators as Digester Additives for Kraft Pulping
Brian N. Brogdon, John Adwinata

The Impact of Impregnation on High Kappa Number Hardwood Pulps
Peter W. Hart, Gary Colson, Stefan Antonsson, Anders Hjort
### SESSION PE3: MAKING GOOD MATERIALS SELECTION & INTEGRITY DECISIONS

<table>
<thead>
