2011 Fourth International Conference on Emerging Trends in Engineering & Technology

(ICETET 2011)

Port Louis, Mauritius
18 – 20 November 2011
Advanced Computing and Intelligent Internet Systems

Suggested Methodologies for Enhancing SAD ................................................................. 1
   *Neha Sharma and Deepali Sawai*

Novel Multi-core Perspective Approach for Automotive System with Virtual Instrumentation ........................................ 5
   *Kavita Katole and Dinesh Padole*

LetSurf—Implementing Collaborative Surfing .............................................................. 8
   *Mangesh Bedekar, B. Abhay Rao, Prateek Gupta, and Suvrajyoti Chatterjee*

An Improved Adaptive Noise Reduction for Secured CAPTCHA ............................... 12
   *Anjali Chandavale and Ashok Sapkal*

On the Inference of Automatic Generation of Software Tests ..................................... 18
   *Gend Lal Prajapati*

Analysis of Adaptive LMS Filtering in Contrast to Multirate Filtering ....................... 22
   *Amanpreet Singh and Bharat Naresh Bansal*

</tbody>
</table>
Parallel Concatenation of LDPC Codes with Two Sets of Source Bits ...........................................112
  P.C. Catherine and K.M.S. Soyjaudah

International Radio Spectrum Management Beyond Service Harmonisation ................................116
  Jerome Louis

A Fuzzy Deduction Graph Model for Computing with Words .....................................................121
  Pragya Shukla, Sanjiv Tokekar, and Suresh Jain

Special Session II: Human Centered and Intelligent Transportation Engineering

Driver Drowsiness Detection Using Skin Color Algorithm and Circular Hough Transform .........................................................129
  Mandalapu Sarada Devi, Monali V. Choudhari, and Preeti Bajaj

Evaluation of a Navigator’s Skill Based on Physiological Index—Case Study of a Student Simulator Training .............................................................135
  Koji Murai and Yuji Hayashi

A Design Approach for Driver’s Vigilance and Monitoring System .................................................................140
  Rushikesh T. Bankar, Preeti R. Bajaj, and Rahul M. Deshpande

Wearable Health Monitoring System and Its Applications .................................................................143
  Tomoya Tanaka, Koji Sonoda, Sayaka Okochi, Alex Chan, Manabu Nii, Kensuke Kanda, Takayuki Fujita, Kohei Higuchi, and Kazusuke Maenaka

Vibratory Energy Harvester for Human Centered Transportation System Applications ..................147
  Takayuki Fujita, Kohei Fujii, Toshikazu Onishi, Kazusuke Maenaka, and Kohei Higuchi

A Human State Estimation Method Using Fuzzy Based System ............................................................151
  Manabu Nii, Kazuki Nakai, Yutaka Takahashi, Kohei Higuchi, and Kazusuke Maenaka

Evaluation of Noise Pollution Annoyance at Uninterrupted Traffic Flow Condition .............................156
  P.B. Nagarnaik, V.M. Mohitkar, and Dhananjay K. Parbat

Modern Drives and Power Systems

Experimental Study of Some Variable Impedance Type FACTS Devices ........................................164
  Jyoti Govind Agrawal and K.D. Joshi

Performance Evaluation of IPFC by Using Fuzzy Logic Based Controller for Damping of Power System Oscillations .................................................................168
  Supriya Belwanshi, Vinod Chandrakar, and Sonali Dhurvey

Role of Micro Sources within Micro Grid .........................................................................................174
  Sandeep A. Kale, P.P. Jagtap, and J.B. Helonde

Power Quality Improved PMBLDCM Drive for Adjustable Speed Application with Reduced Sensor Buck-Boost PFC Converter .................................................................180
  Sanjeev Singh and Bhim Singh

Optimal Location of Series FACTS Devices for Enhancing Power System Security ..........................185
  P.S. Vaidya and V.P. Rajderkar

Indirect Field Oriented Control for Induction Motor .............................................................................191
  Rutuja S. Hiware and J.G. Chaudhari
Pattern Recognition and Machine Intelligence

Human Visual System and Wavelet Transform Based Disparity Estimation ................................................................. 195
Sanoj Kumar, N. Sukavanam, Balasubramanian Raman, and Sanjeev Kumar

A Simple Graph Theoretic Approach for Object Recognition ......................................................................................... 200
S.P. Hingway and K.M. Bhurchandi

Mobile Robot Programming by Demonstration ............................................................................................................. 206
A.A. Nippun Kumaar and Sudarshan TSB

A Morphological Segmentation Based Features for Brain MRI Retrieval ................................................................. 210
Prashant V. Ingole and Kishore D. Kulat

Plain Ceramic Tiles Surface Defect Detection Using Image Processing ..................................................................... 215
Atul N. Shire, M.M. Khanapurkar, and Rajashri S. Mundewadikar

VLSI, SoC, and Embedded Systems

A New Approach to Design and Implement Oscillator for Soc Application ................................................................. 221
B.K. Mishra, Sandhya Save, and Rupali Mane

Design of Eight Bit Novel Reversible Arithmetic and Logic Unit .................................................................................. 227
Avinash G. Keskar and Vishal R. Satpute

A New Architecture for RSA Algorithm Using Vedic Mathematics ............................................................................ 233
R.G. Kadukar

CMOS Limiting Amplifier and RSSI (Received Signal Strength Indicator) ................................................................. 238
N.B. Bambal and S.R. Dixit

A Low Voltage Charge Pump Circuit for RFID Tag EEPROM ...................................................................................... 244
Labonnah F. Rahman, M.B.I. Reaz, and M.A.M. Ali

Delayed Latching for Data Synchronization in GALS SOC .......................................................................................... 247
Vivek E. Khetade and S.S. Limaye

Dynamic Partial Reconfiguration in FPGAs for DSP Applications .............................................................................. 253
Chakradhar V. Borkute, A.Y. Deshmukh, and Chetna N. Kharkar

VLSI, SoC, and MEMS

Design and Implementation of Adaptive Front Light System of Vehicle Using FPGA Based LIN Controller .......... 258
Monal Giradkar and Milind Khanapurkar

Design of Mixed Mode Fuzzy Logic Controller for Integrated MEMS System ......................................................... 262
Aparna G. Gale, K.K. Jajulwar, and A.Y. Deshmukh

Design and Implementation of High Speed, Low Area Multiported Loadless 4T Memory Cell ............................. 268
Deepa Yagain, Ankit Parakh, Akriti Kedia, and Gunjan Kumar Gupta

Design and Implementation of a Linear Transconductance Amplifier with a Digitally Controlled Current Source .............................................................................................................................................. 274
Nagaraj R.L. and Deepa Yagain
Design and Implementation of the Low Power 0.64mW, 380 KHz Continuous Time Sigma
Delta ADC .................................................................280
   Aniruddha Kanhe, Bibhudendra Acharya, and R.B. Deshmukh

Design of High Speed Adders Using CMOS and Transmission Gates in Submicron Technology:
A Comparative Study ..............................................................284
   Akansha Baliga and Deepa Yagain

Maximizing Efficiency in Reference Model Based Verification of 2D Graphics Engine ........................................290
   Anita Pinto and Harish Y.S

Early Performance Analysis of Fully Pipelined JPEG Engine in the Simulation Environment ................................296
   Binny Rani, Harish Yagain, and Srinivas Donapati

Wireless and Mobile Communications

A Key Renewal Model for Wireless Sensor Network Under Node Capture Attack ..............................................301
   Alekha Kumar Mishra and Ashok Kumar Turuk

Effect of UWB Interference on WiMAX System .................................................................306
   Rajesh Thakare and Kishor Kulat

Evaluation of Multipath, Unipath and Hybrid Routing Protocols for Vehicular Ad Hoc Networks ................................311
   S.S. Dorle, Bhushan Vidhale, and Megha Chakole

Review of Spiking Neural Network Architecture for Feature Extraction and Dimensionality
Reduction .....................................................................................317
   Soni Chaturvedi and A.A. Khurshid

An Open USSD Enabler to Simplify Access to Mobile Services in Emerging Countries ...........................................323
   Geerish Suddul, Avinash Soohul, Umar Bahadoor, Avinash Ramdoyal, Naveesh Doolhur, Naveesh Doolhur,
   and Morgan Richomme

Author Index ................................................................................327
