International Conference on Information Systems 2011

(ICIS 2011)

Shanghai, China
4-7 December 2011

Volume 1 of 5
TABLE OF CONTENTS

Volume 1

1. EAST MEETS WEST: CONNECTIVITY AND COLLABORATION THROUGH EFFECTIVE INFORMATION SYSTEMS (CONFERENCE THEME)

Situation Awareness Through Social Collaboration Platforms in Distributed Work Environments .............................................................. 1
Christoph Seebach, Roman Beck, Immanuel Pahlke

Attaining and Enacting Green Leadership: Insights from the Green IT Initiatives of China Mobile ......................................................... 23
Barney Tan, Shan Ling Pan, Meeiun Zuo

Collaborating Globally: Culture and Organizational Computer-Mediated Communication ................................................................. 43
Jiang Yang, Zhen Wen, Luda Adamic, Mark Ackerman, Ching-Yung Lin

When Environment Matters: Inter-Organizational Effects on Sociomaterial Imbrications and Change ....................................................... 63
Ajoma Patilima Zorina, David Arvon

2. VISUAL MEDIA

Intrusiveness of Online Video Advertising and Its Effects on Marketing Outcomes ................................................................. 83
Kendall Goodrich, Shu Schiller, Dennis Galetta

Developing Electronic Markets in Low-Tech Environments: India’s Agriculture Markets ............................................................... 93
Christopher Parker, Bruce Weber

Dynamic Personal Feedback in Acquiring Information to Manage Your Health ................................................................. 108
Hadar Ronen, Dov Te’En

On Inter-reality Literacy: Emotions as Predictors of Performance in Virtual Worlds ................................................................. 120
Sabrina Schiele, Thomas Weiss, Johannes Putze

A Typology of Affordances: Untangling Sociomaterial Interactions through Video Analysis ................................................................. 132
Wietske Van Och, Orr Mendelson

3. IT IN HEALTH CARE

A Profiling Model for Readmission of Patients with Congestive Heart Failure: A Multi-hospital Study ............................................................. 150
Indranil Bardhan, Eric Zheng, Jeong-Ha Oh, Kirth Kirksey

Information Sharing in NHS Polyclinics ........................................................................................................................................... 166
Laurence Brooks, Rajul Mehta, Zhao Huang

Integrating Self-Service Kiosks into Healthcare Delivery Organizations ..................................................................................................... 184
Patricia Holahan, Carol Brown, Chon Abraham, Blake Lescelroth

Weaving Discourses and Changing Organizations: The Role of ICT in the Transformation of Healthcare Towards Patient-Centered Model ........................................................................................................................................... 185
Ela Klecun

Environmental Uncertainty and Firm Performance: An Empirical Study with Strategic Alignment in the Healthcare Industry ........................................................................................................................................... 202
Sangno Lee, Jaeki Song, Qing Cao

Improving Knowledge-Intensive Health Care Processes Beyond Efficiency ..................................................................................................... 219
Saikat Bhattacharya

Use of Healthcare IS by Multiple User Groups: An Empirical Study of a Medication Management System ........................................................................................................................................... 234
Boon-Yuen Ng, Arreyi Kankanahalli, James Yip

Understanding the Drivers and Outcomes of Healthcare Organizational Privacy Responses ........................................................................................................................................... 245
Bachida Parks, Chao Chu, Heng Xu, Lascelles Adams

IT-based Capabilities, Service Innovation, and Quality in Health Care ..................................................................................................... 265
Ravi Thambusamy, Prashant Palvia

The Influence of Job Rotation on Physicians’ System Use: A Situated Learning Perspective ........................................................................................................................................... 285
Yang Tong, Nadee Goonawardene, Sharon Swee-Lin Tan, Hock Hai Teo, Cheng Oui Low

Exploring the Impact of RFID on Organizational Structure Changes in a Healthcare Setting: An Adaptive Structuration Theory Perspective ........................................................................................................................................... 286
Jason Trice, Qing Cao, Jaeki Song

Does "Meaningful Use" of EMR Improve the Quality and Efficiency of Health Care? An Exploratory Analysis of Ambulatory EMR Usage ........................................................................................................................................... 304
Nan Xiao, Raj Sharma, Ravitej Singh, Gurdev Singh, H. R. Rao

Microprocesses of Healthcare Technology Implementation Under Competing Institutional Logics ........................................................................................................................................... 314
Adrian Yeow, Sameer Faraji

Understanding the Impact of Internet Media on Patient-Clinician Trust: Model Development and Research Design ........................................................................................................................................... 324
Zhongwen Zhang, Nan Zhang, Qingguo Meng
4. BREAKTHROUGH IDEAS

Measuring Emotions in Electronic Markets ................................................................. 335
Mark Adam, Matthias Gamper, Jan Kramer, Christoph Weinhardt

Social Networking and Extending Social Capacity .................................................. 354
Carl Adams

Protecting Children Online: Identifying Registered Sex Offenders' Presence on the Internet and Consequent Online Social Behavior .................................................. 362
Connie Albert, A. F. Salam

The Incumbency Protection Power of Network Effects: Hype or Reality? .................. 374
Anitesh Barua, Rajiv Mukherjee

An Entropy Index for Multitasking Behavior ............................................................. 391
Raquel Benhunun-Fich

An Instrument for Measuring SOA Maturity ............................................................. 405
Nils Joachim, Daniel Beimborn, Tim Weitzel

Confidential Information-Sharing for Automated Sustainability Benchmarks .......... 416
Florian Kerschbaum, Jens Stricker, Thomas Koslowski

Computer-Mediated Social Networks and Environmental Behavior ....................... 433
Richelle Oakley, A. F. Salam

Synthesizing Professional and Market Logics: A Study of Independent iOS App Entrepreneurs ................................................................. 444
Yixin Qiu, Anand Gopal, Il-Horn Nam

Emergence of Cloud Computing: An Institutional Innovation Perspective ................. 465
Ning Su

An Effective and Efficient Subpopulation Extraction Method in Very Large Social Networks ................................................................. 477
Bin Zhang, David Kruschke, Ramayya Krishnan, Patrick Doreian

5. ECONOMICS AND VALUE OF IS

Sponsored Search: Do Organic Results Help Or Hurt the Performance and Under What Conditions? ................................................................. 494
Ashish Agarwal, Kartik Hosanagar, Michael Smith

Content and Context: Identifying the Impact of Qualitative Information on Consumer Choice ................................................................. 511
Sinan Aral, Panos Ipeirotis, Sean Taylor

To Commit or Not: Reputation and Preemption Strategies in Competing Technology Networks ................................................................. 526
Anitesh Barua, Rajiv Mukherjee

Strength in Numbers: How Does Data-driven Decision-making Affect Firm Performance? ................................................................. 541
Erik Brynjolfsson, Lorin Hitt, Heekyoung Kim

An Empirical Examination of the Antecedents of Contribution Patterns in Crowdfunded Markets ................................................................. 559
Gordon Burtch, Anindya Ghose, Sanit Wattal

Contract Structure and Performance: The Role of Milestone Payments in IT Technology Development Agreements ................................................................. 576
Yuanyuan Chen, Ivan Png

Software Adoption under Network Effects: Optimal Seeding, Sequencing, and Pricing ................................................................. 586
Yifan Dou, Marisa Nicolella, D. J. Wu

Productivity Differences and Catch-Up Effects among Software as a Service Firms: A Stochastic Frontier Approach ................................................................. 603
Chunmian Ge, Ke-Wei Huang

How is the Mobile Internet Different: Search Costs and Local Activities .................. 614
Anindya Ghose, Avi Goldfarb, Sang Pil Han

Consumer Product Consideration and Choice at Purchase Time at Online Retailers ........ 632
Bin Gu, Prabhudev Konana, Heekyoung Kim

The Economic Role of Rating Behavior in Third-Party Application Market ................. 647
Lin Hao, Xiaofei Li, Yong Tan, Jiuping Xu

Crowdsourcing "Blockbuster" Ideas: A Dynamic Structural Model of Ideation ............. 662
Yan Huang, Param Singh, Kannan Srinivasan

Bounded Rationality, Social Learning and Collective Behavior: Decisional Analysis in a Nested World ................................................................. 680
Hao Hu, Siu-King Lai, Yani Jia

The Economic Impact of Public Beta Testing: The Power of Word-of-Mouth ............... 697
Zhengru Jiang, Kevin Scheibe, Sree Nilaakanta

How Does Bond Market View IT Investments of Firms? An Empirical Evidence of Bond Ratings and Yield Spreads ................................................................. 713
Keongtae Kim, Sunil Mithas

Business Values of Community Source: The Construct and a Research Framework ........ 731
Manlu Liu, Qiang Tu

Learning from Peers on Social Media Platforms ..................................................... 732
Yingda Lu, Param Singh, Baoshong Sun

Code Architecture and Open Source Software Development ..................................... 752
Gang Peng, Xianjun Geng, Lihui Lin

A Twitter-Based Prediction Market: Social Network Approach .................................. 769
Liangfei Qiu, Huaxia Rai, Andrew Whinston
The Price and Quantity of IT-Related Intangible Capital ...................................................................................................................... 785
Peasam Tambe, Lovin Hua, Erik Brynjolfsson

Content Contribution under Revenue Sharing and Reputation Concern in Social Media: The Case of YouTube ................................................................. 799
Qian Tang, Bin Gu, Andrew Whinston

Social Network Effects on Performance and Layoffs: Evidence from the Adoption of a Social Networking Tool ................................................................. 815
Lynn Wu

The Impact of RFID on Firm and Supply Chain Performance: A Simulation Study ........................................................................................................... 834
Xiaoran Wu, Jing Zhou, Sangjuan Park, Chandrasekar Subramaniam

Truck, Barter, and Exchange: An Empirical Investigation of Reciprocity in Online P2P Barter Markets ................................................................. 844
Shan Ye, Il-Horn Han, Siva Viswanathan

The Impact of Third-Party Information on the Dynamics of Online Word-of-Mouth and Retail Sales ........................................................................................................ 855
Wenqi Zhou, Wenjing Duan

6. ENGAGED SCHOLARSHIP IN IS RESEARCH

Dialogical Action Research as Engaged Scholarship: An Empirical Study ........................................................................................................... 871
Gabriel Costello, Brian Donnellan, Kieran Conboy

Theorizing in Design Science Research: Inductive versus Deductive Approaches ........................................................................................................... 888
Robert Gregory, Jan Muntermann

The Roles of Agency and Artifacts in Assembling Open Data Complementarities ........................................................................................................... 905
George Kuk, Tim Davies

7. GLOBAL, INTERNATIONAL, AND CULTURAL ISSUES IN IS

Gender-Segregated Work in Saudi Arabia: A Structurational Perspective on Technology and Cultural Change ........................................................................................................... 921
Amin Alotaibi, George Kuk

The Role of Culture and Personality in the Leadership Process in Virtual Teams ........................................................................................................... 932
Julia Gallenkamp, Arnold Picot, Isabell Welpe, Rolf Wigand, Bettina Riedl, M. Audrey Korsgaard

Choice of Information: A Study of Twitter News Sharing during the 2009 Israel-Gaza Conflict ........................................................................................................... 953
Onook Oh, Kyounghee Kwon, Manish Agrawal, H. R. Rao

User Satisfaction of E-government Procurement Systems in Developing Countries: An Empirical Research in Indonesia ........................................................................................................... 965
Lei Wang, Rajiv Kishore

Differences in Knowledge Seeking Ties between the US and Singapore Students: An Exploratory Study ........................................................................................................... 981
Zheng Wang, Shan Ling Pan, Tao Hua Ouyang, Tzu-Chuan Chou

Evolving IT Organizational Identity as a Source of IT-enabled Enterprise Agility in China ........................................................................................................... 992
Zheng Wang, Shan Ling Pan, Tao Hua Ouyang, Tzu-Chuan Chou

8. HUMAN BEHAVIOR AND IT

Modeling Quality Dynamics in IT Services Management ........................................................................................................... 1012
Shahriar Akter, John D'Ambra, Pradeep Ray

Identifying Individuals' Preferences Using Games: A Field Experiment in Promoting Sustainable Energy Consumption ........................................................................................................... 1029
Michael Baeriswyl, Wojtek Przepiorka, Thorsten Staake

Which Processes Do Users Not Want Online? - Extending Process Virtualization Theory ........................................................................................................... 1040
Martin Barth, Daniel Veit

Herding Behavior as a Network Externality ........................................................................................................... 1061
Gordon Burtch

Kyungsub Choi, Il Im, Byungho Kim

Exploring Information Systems Control Alignment in Organizations ........................................................................................................... 1092
W. Alec Cram, M. Kathryn Brohman, R. Brent Galupe, Yolande Chan

The Sociomateriality of IT Surveillance: A Dramaturgical Model of IT Adoption ........................................................................................................... 1102
Joao Cunha, Andrea Carugati

Trusting M-Payments - Realising the Potential of Smart Phones for M-Commerce: A Conceptual Model & Survey of Consumers in Ireland ........................................................................................................... 1118
Aidan Duane, Philip O'Reilly, Pavel Andreev

Configurator-based Product Choice in Online Retail - Transferring Mass Customization Thinking to Services in Retail ........................................................................................................... 1137
Marcus Gerards, Florian Siems, David Antonis, Christoph Bil, Frank Thomas Piller

The User-Centered Nature of Awareness Creation in Computer-mediated Communication ........................................................................................................... 1154
Russell Haines, Kai Riemer
Critical Factors Affecting Compliance to Campus Alerts ............................................................................................................. 1172

Why Are You Sharing Others’ Tweets?: The Impact of Argument Quality and Source Credibility on Information Sharing Behavior .................................................................................................................. 1186

A Longitudinal Model of Post-Adoption Phenomena and Its Empirical Test in the Context of Social Games .................................................. 1197

Seeds of Change: Substance and Influence in Brand Communities ......................................................................................................... 1207

I Like it Because I (‘m) Like You - Measuring User Attitudes Towards Information on Facebook ........................................................................ 1223

The Attitude Construct in IT Adoption Research - A Scientometric Analysis .......................................................................................... 1242

Examining the Determinants of Mobile Location-based Services’ Continuance ....................................................................................... 1253

Green IS Design and Energy Conservation: An Empirical Investigation of Social Normative Feedback ..................................................... 1271

Innovating with Technology in Team Contexts: A Trait Activation Theory Perspective .............................................................................. 1286

Our Understanding through Psychology .................................................................................................................................................. 1306

Examining Trends of Technology Diffusion Theories in Information Systems ................................................................................................ 1318

User Responses to New System Implementation: A Bricolage Perspective .............................................................................................. 1330

Influence, Information Technology & Group Polarization: A Field Study of a Virtual Team ......................................................................... 1346

Testing Tournament Selection in Creative Problem Solving Using Crowds ................................................................................................ 1428

Social Capital and IT as Predicat of Collective Mindfulness and Business Risk Mitigation: A Grounded Theory Development ........................................ 1445

Is Tom Cruise Threatened? An Empirical Study of the Impact of Product Variety on Demand Concentration ................................................ 1463

Don’t Pressure Me! - Exploring the Anatomy of Voluntariness in the Organizational Adoption of Network Technologies ......................... 1481

Management Utopia or User Dystopia? A Critical Analysis of a University Administration System ......................................................... 1499

Understanding Online Payment Method Choice: An Eye-tracking Study .............................................................................................. 1518

9. HUMAN CAPITAL

The Influence of Demands and Resources on Emotional Exhaustion with the Information Systems Profession ........................................................ 1530

CIO Survival and the Composition of the Top Management Team .......................................................................................................... 1549

Computer Science and Information Technology (CSIT) Identity: An Integrative Theory to Explain Gender Gap in IT ........................... 1565

Social Media, Social Movement and Political Change: The Case of 2011 Cairo Revolt ............................................................................. 1575

How Do High-Skill Foreign Workers Assimilate in the United States? Tracing the Wage Trajectories of Foreign and American IT Professionals ......................................................................................... 1586

The Performance of IT Professionals: The Difference that Makes a Difference .......................................................................................... 1604

Is the Source Strong with You? A Fit Perspective to Predict Sustained Participation of FLOSS Developers ................................................ 1620

Social Capital in the ICT Sector - A Network Perspective on Executive Turnover and Startup Performance ............................................. 1631
10. HUMAN-COMPUTER INTERACTION

Personal Life Interrupted: Understanding the Effects of Technology-Mediated Interruptions from Work to Personal Life ................................................................. 1644

Activity Awareness as a Means to Promote Connectedness, Willingness to Do Additional Work, and Congeniality: An Experimental Study
                                          Russell Haines, Nadine Vehring, Malte Kramer

A Portfolio of Media: Effects of Media Synchronicity on Communication Performance .................................................. 1672
                                          Martin Hassel, Moz Limayem

Comprehension of Online Consumer-generated Product Review: A Construal Level Perspective ........................................ 1682
                                          Liqiang Huang, Chuan-Hoo Tan, Weiling Ke

The Role of Product Recommendation Agents in Collaborative Online Shopping ........................................... 1699
                                          Shan Huang, Izak Benbasat, Andrew Burton-Jones

(Dis-) Satisfiers for e-Learning User Interfaces ................................................................. 1709
                                          Margit Kastner, Brigitte Stangl

Three Classes of Attitude and Their Implications for IS Research ................................................................. 1728
                                          Julia Krümig, Andreas Eckhardt

Designing Recommendation Agents As Extensions of Individual Users: Similarity and Identification in Web Personalization ................................. 1745
                                          Roman Lukyanenko, Sherrie Komiak

Trusting Humans and Avatars: Behavioral and Neural Evidence ................................................................................. 1757
                                          Rene Riedl, Peter Mohr, Peter Kenning, Fred Davis, Hanke Heekeren

Gender Differences in Virtual Collaboration on a Creative Design Task ........................................................................ 1780
                                          Sha Schiller, Fiona Nah, Brian Mennecke, Kong Siau

The Avatar as Sociomaterial Entanglement: A Performative Perspective on Identity, Agency and World-Making in Virtual Worlds ................................................................................. 1794
                                          Ulrike Schulze

Making Sound Adoption Decisions: A Longitudinal Study of Mindfulness in Technology Adoption and Continued Use ........................................................................................................... 1812
                                          Hesuan Sun

Toward Deep Understanding of Persuasive Product Recommendation Agents ................................................................. 1832
                                          Tian Yu, Izak Benbasat, Ronald Contoselli

11. IS CURRICULUM AND EDUCATION

A Megaproject that Defines the Nation: The Building of the Largest Airport Terminal in Asia ................................................................................. 1841
                                          Jenson Chong-Leng Koh, Meiyan Zuo

Understanding IS Education Quality in Developing Countries: Role of Acculturation ......................................................... 1863
                                          David Marshburn, Radha Appan

Using a Computer Business Simulation to Measure Effectiveness of Enterprise Resource Planning Education on Business Process Comprehension ......................................................................................... 1876
                                          Ellen Monk, Mark Lycett

SYSCO’s Best Business Practices (BBP) ................................................................................................................................. 1886
                                          Daniel O’Leary

Who Are Our Students? A Profile of IS Majors ................................................................................................................. 1897
                                          Ravi Patnayakuni, Nainika Patnayakuni, Wafa Orman

Information Technology at Cirque du Soleil: Looking Back, Moving Forward ............................................................................. 1911
                                          Suzanne Rivard, Alain Pisonneault, Anne-Marie Croteau

The Contemporary Plagiarist: The Roles of Technology and Moral Development ......................................................... 1922
                                          Jeffrey Roberts, David Wasielewski

Public Expenditure Management through Khajane - An Integrated Financial MIS ................................................................................. 1943
                                          M. S. Sandeep, M. N. Ravishankar

Achieving and Enhancing E-government Integration: Lessons from the Land Data Hub Project of the Singapore Land Authority ........................................................................................................... 1956
                                          Barney Tan, Carmen Leong, Raymond Hackney

12. RESEARCH METHODS AND PHILOSOPHY

Arguments for the Adoption of a Heuristic Approach to IS Research ......................................................................................... 1969
                                          Fuad Baloch, Alan Litchfield, Brian Cusack

In Search of Mechanisms. Conducting a Critical Realist Data Analysis ......................................................................................... 1978
                                          Bendik Brynsd, Bjorn Erik Munkvold

Information Systems Collaborations As Boundary Spanning: Initial Survey in a Sample of Journals ................................................................................. 1993
                                          Jose Cordoba-Pachon, Alberto Paucar-Caceres
Towards an Evidence-based Research Approach in Information Systems .......................................................... 2006
Matthias Goeken

Grounding Theory from Delphi Studies ............................................................................................................. 2022
Tero Päivärinta, Samuli Pekkola, Carl Moe

Artifact or Equipment? Rethinking the Core of IS Using Heidegger's Ways of Being ........................................... 2036
Kai Riemer, Robert Johnston

PLS Marker Variable Approach to Diagnosing and Controlling for Method Variance ........................................... 2054
Mikko Rökkö, Jukka Tiitalo

The Meaning and Measurements of the UTAUT Model: An Invariance Analysis .................................................. 2070
Myung Soo Kang, Il Im, Seongtae Hong

Benefits from Using Continuous Rating Scales in Online Survey Research ....................................................... 2087
Horst Trebil, Matthias Peter Filzmoser

Evaluating Two Automatic Methods for Classifying Information Technology Concepts ........................................... 2090
Chia-Jung Tsui, Ping Wang, Kenneth Fleischmann

13. IS SECURITY AND PRIVACY

Security Concerns in the Nomological Network of Trust and Big 5: First Order Vs. Second Order ......................... 2117
Gaurav Bansal

The Role of Risk Perception, Trust, Innovativeness and Emotion in Developing Consumer's Satisfaction in an Electronic Mediated Environment (EME)................................................................. 2132
Hua Dai, Xin Luo

Exploring Interpersonal Relationships in Security Information Sharing .............................................................. 2153
Sigi Goode, David Lacey

Examining the Antecedents of Sarbanes-Oxley Section 404 IT Control Weaknesses: An Empirical Study ................ 2168
Basil Hamdan

Optimal IS Security Investment: Cyber Terrorism vs. Common Hacking ............................................................. 2182
Jian Hua, Sanjay Bapna

Get a Cue on IS Security Training: Explaining the Difference between how Security Cues and Security Arguments Improve Secure Behavior ................................................................. 2193
Jeffrey Jenkins, Alexandra Duczskova, Mary Burns

The Impact of Security Practices on Regulatory Compliance and Security Performance ...................................... 2204
Juhee Kwon, M. Eric Johnson

Privacy Engineering: Personal Health Records in Cloud Computing Environments ............................................. 2213
Alexander Kets de Vries, Ali Sanyar

Which Phish Get Caught? An Exploratory Study of Individual Susceptibility to Phishing ...................................... 2224
Gregory Moody, Dennis Galletta, Jon Walker, Brian Dunn

Empirical Analysis of Data Breach Litigation ..................................................................................................... 2242
Sasha Romanovsky, David Hoffman, Alessandro Acquisti

Extending UTAUT to Predict the Use of Location-Based Services ................................................................. 2243
Hayung Yun, Dongho Han, Choong Lee

Privacy in Online Social Networks ..................................................................................................................... 2252
Nan Zhang, Chong Wang, Yan Xu

14. PROJECT MANAGEMENT, OUTSOURCING AND IS DEVELOPMENT

Project and Organizational Antecedents of Effort Withholding in IT Project Teams .............................................. 2273
Elizabeth Baker, Charles Iacovou, H. Jeff Smith, Ron Thompson

Modeling and Checking Business Process Compliance Rules in the Financial Sector ........................................ 2291
Jörg Becker, Philipp Bergener, Patrick Delfmann, Burkhard Weiß

Rahul Thakurta, P. Suresh

Comparing Apples with Oranges? The Perceived Differences between Agile and Lean Software Development Processes ........................................................................ 2491
Xiaofeng Wang, Kieran Conboy

15. SERVICE SCIENCE

Viewing Systems as Services: The Role of Service Quality ........................................................................ 2501
Shahriar Akier, Pradeep Ray, John D’Ambru

A Conceptual Life Event Framework for Government-to-Citizen Electronic Services Provision .................. 2519
Anas Alzoud, Keitichi Nakata

Metamodel for Service Design and Service Innovation: Integrating Service Activities, Service Systems, and Value Constellations ........................................................................................................ 2529
Steven Alter

Perceptual Congruence between IS Users and Professionals on IS Service Quality - Insights from Response Surface Analysis .................................................................................. 2549
Alexander Bentian

Mapping the Emerging Field of Service Science: Insights from a Citation Network and Cocitation Network Analysis .................................................................................................................. 2566
Daniel Beverungen

IT-Enabled Services as Complex Adaptive Service Systems: A Co-Evolutionary View of Service Innovation .................................................. 2588
Bongsuk(Kevin) Chae, David Olson

IT Service Management: Towards a Contingency Theory of Performance Measurement .................. 2589
Francis Gaceng, Aileen Cater-Steel, Wui-Gee Tan, Mark Tooleman

Dynamic Service Level Agreement Management for Efficient Operation of Elastic Information Systems .... 2607
Markus Hedwig, Simon Malkowski, Dirk Neumann

Remote Service Satisfaction: An Initial Examination ............................................................................. 2626
Stefanie Paluch, Markus Blau

Investigating Value Co-Creation in Innovation of IT-enabled Services: An Empirical Study of Mobile Data Services .................................................................................................................. 2645
Hua Ye, Atreyi Kankanhalli, Khim Yong Goh, Jun Sun

Volume 4

Configurability, Maturity, and Value Co-creation in SaaS: An Exploratory Case Study .......................... 2655
Eruani Zainuddin, Paola Gonzalez

16. KNOWLEDGE MANAGEMENT AND BUSINESS INTELLIGENCE

Impact of Business Intelligence and IT Infrastructure Flexibility on Competitive Performance: An Organizational Agility Perspective ................................................................. 2675
Xiaofeng Chen, Keng Siau

Knowledge Refinement Effectiveness ....................................................................................................... 2686
Tingting Chang, Dennis Galletta

Turning Unstructured and Incoherent Group Discussion into DATree: A TBL Coherence Analysis Approach .......................... 2706
Shashka Deng, Pengzhu Zhang, Yilu Zhou

How Formal Structure of Electronic Knowledge Sharing Networks Influences Participation Behavior in a Global Enterprise ...................................................................................................... 2725
Ilan Oshri, Jolita Koksarzky, Alexandra Gerbasi

Towards a Framework for Measuring Knowledge Management Service Productivity .................................................. 2743
Michael Herthein, Stefan Smodnik, Harald Von Kortzfleisch

Organizational Adaption and Implementation of Product Life Management System .......................... 2753
Chin-Fu Ho, Wei-Hsi Hung, Chuaan-Chun Wu, Kao-Hui Kang

Novel Idea Generation, Collaborative Filtering, and Group Innovation Processes .......................... 2769
Tracy Jenkins, David Skillcorn, Yolande Chan

Establishing Nomological Networks for Behavioral Science: A Natural Language Processing Based Approach .......................... 2789
Jingjing Li, Kai Larven

Measuring the Business Value of Online Social Media Content for Marketers .................................................. 2806
