Andy Scanlon Symposium on Serviceability and Safety of Concrete Structures: From Research to Practice 2011

At the ACI Fall 2011 Convention SP-284

Cincinnati, Ohio, USA
16 – 20 October 2011

Editors:

Peter H. Bischoff
Eric Musselman

ISBN: 978-1-61839-801-7
# TABLE OF CONTENTS

**SP-284 — 1**  
Serviceability and Safety: Core Aspects of Sustainable Structures  
Andrea J. Schokker  

**SP-284 — 2**  
Impact of Adjacent Lane Traffic on the Serviceability of Concrete Bridge Decks  
Nakin Suksawang and Hani H. Nassif  

**SP-284 — 3**  
Design Improvements from Structural Investigations  
Jared E. Brewe and W. Gene Corley  

**SP-284 — 4**  
Learning From Failures in Concrete Design and Construction  
Norbert Delatte  

**SP-284 — 5**  
Using Historical Cylinder Strength Data for Structural Evaluation  
F. Michael Bartlett  

**SP-284 — 6**  
Revised Statistical Resistance Models for R/C Structural Components  
Andrzej S. Nowak, Anna M. Rakoczy and Ewa K. Szeliga  

**SP-284 — 7**  
An Overview of Flexural Cracking Mitigation in Two-Way Slabs and Plates  
Edward G. Nawy  

**SP-284 — 8**  
Implementing Lessons Learned From Twenty Years of Bridge-Deck Crack Surveys  
David Darwin, JoAnn Browning, Heather A. K. McLeod, Will Lindquist, and Jiqiu Yuan  

**SP-284 — 9**  
Serviceability Design of Reinforced Concrete Members with Emphasis in Marine Infrastructure  
Carlos E. Ospina  

**SP-284 — 10**  
Experimental Study on Cracking and Leakage in RC Walls under Cyclic Loading  
R. Sadjadi and R. Kianoush  

**SP-284 — 11**  
Prediction of Concrete Integral Abutment Bridge Unrecoverable Displacements  
WooSeok Kim, Jeffrey A. Laman, and Daniel G. Linzell  

**SP-284 — 12**  
Evaluation and Management of Tension Stiffening  
Richard H. Scott and Andrew W. Beeby
