2011 Third International Workshop on Security Measurements and Metrics

(Metrisec 2011)

Banff, Alberta, Canada
21 September 2011
Session 1 - Vulnerabilities
Security Risk Management by Qualitative Vulnerability Analysis .................................................1
  Golnaz Elahi, Eric Yu, and Nicola Zannone
An Empirical Study of the Evolution of PHP Web Application Security .........................................11
  Maureen Doyle and James Walden

Session 2 - Alerts
Cyber Security Alert Warning System: A Socio-techinal Coordinate System Proposal .................................................................21
  Stewart Kowalski, Rostyslav Barabanov, and Robert Hoffmann
An Enhanced Threat Identification Approach for Collusion Threats ........................................25
  Harpreet Kohli, Dale Lindskog, Pavol Zavarsky, and Ron Ruhl
Quantifying the Effects of More Timely Certificate Revocation on Lightweight Mobile Devices .................................................................31
  Sufatrio and Roland H.C. Yap

Session 3 - Privacy and Short Talks
Measuring Privacy Compliance with Process Specifications .........................................................41
  Sebastian Banescu and Nicola Zannone
Performance Evaluation of Oracle VM Server Virtualization Software 64 Bit Linux Environment .............................................................................51
  Ibidokun Emmanuel Tope, Pavol Zavarsky, Ron Ruhl, and Dale Lindskog
A Framework for Security Metrics Based on Operational System Attributes ........................................58
    Erland Jonsson and Laleh Pirzadeh
A Testbed for the Evaluation of Web Intrusion Prevention Systems .........................................................66
    Jeff Stuckman and James Purtio
Authentication Protocol for Preventing Damage by Loss and Theft of Smartphone ..................................................76
    Ki-Hun Jang and Heung-Youl Youm
A Cause and Effect Approach towards Risk Analysis ..................................................................................80
    Laleh Pirzadeh and Erland Jonsson
Performance Measurement in Cross-Organizational Security Settings .........................................................84
    Lukas Demetz, Stefan Thalmann, Daniel Bachlechner, and Ronald Maier

**Breakout Session**

Experiences from Using Indicators to Validate Expert Judgments in Security Risk Analysis .................................................................88
    Olav S. Ligaarden, Atle Refsdal, and Ketil Stølen
Are Vulnerability Disclosure Deadlines Justified? .......................................................................................96
    Miles McQueen, Jason L. Wright, and Lawrence Wellman

**Author Index** ............................................................................................................................................102
