SPE Latin American and Caribbean Petroleum Engineering Conference 2012

(LACPEC 2012)

Mexico City, Mexico
16-18 April 2012

Volume 1 of 2

ISBN: 978-1-62276-046-6
# TABLE OF CONTENTS

## VOLUME 1

### OTC 22738 - Integrated Petrophysics and Geosteering Reservoir Characterization in the Initial Development Phase of a Carbonate Reservoir – Campos Basin, Offshore Brazil

M. Ribeiro, Y. Costa, R. Guedes, P. Bittencourt, P. Ferraris, A. Guedes

### SPE/IADC 140228 - Case History: Lessons Learned From Retrieval of Coiled Tubing Stuck by Massive Hydrate Plug When Well Testing in an Ultra-Deep Water Gas Well in Mexico

Victor Fallejo Arrieta, Aciel Oliveira Torralba, Pablo Crespo Hernandez, Eduardo Rafael Román García, Claudio Tigre Maio, Michael Guajardo

### SPE 149982 - Application of a Hybrid System of Genetic Algorithm & Fuzzy Logic as Optimization Techniques for Improving Oil Recovery in a Sandstone Reservoirs in Iraq

Wathiq Al-Mudhafer, Maytham Alabbas

### SPE 150663 - A New Rigorous Analytical Solution for a Vertical Fractured Well in Gas Reservoirs

A. B. Barreto Jr., A. P. Pires, A. M. M. Peres

### SPE 150835 - Pore Pressure Prediction in Carbonate Reservoirs

V. Atashkari, M. Tingay

### SPE 150844 - Dual-Fiber Technology Simply and Effectively Cures Total Losses in Southern Mexico Without Knowing Size of Fractures

### SPE 150955 - Improving Sweep Efficiency In A Mature Waterflood: Balcon Field, Colombia

### SPE 151021 - Modeling Drilling Fluid Losses in Fractured Reservoirs

### SPE 151031 - Integrated Cementing Hydraulics Design for Massive Salt Zones

A. L. Martins, P. E. Aranha, M. G. Folsta, C. A. Simão, N. A. Batalha, G. H. V. P. Pinto

### SPE 151174 - Fracture Aging Evaluation in Tight Sands Using a Snubbing Unit

G. Irazustu, P. Forni, M. Pons, Luis Agüero

### SPE 151546 - Numerical Simulation of Transient Flow for Gas Pipeline and Tank

K. Ling

### SPE 151547 - Modification to Equations of Gas Flow through Choke

K. Ling

### SPE 151602 - Stepping Forward: An Automated Rock Type Index and a New Predictive Capillary Pressure Function for Better Estimation of Permeability and Water Saturation. Case Study, Urdaneta-01 Heavy Oil Reservoir

E. Tillero

### SPE 151609 - Qualitative and Quantitative Analysis of Three-Phase Distributions of Oil, Water and Gas in Bentheimer Sandstone Using Micro-CT Imaging

### SPE 151613 - Improving Flow Assurance in Multi-Zone Fracturing Treatments in Hydrocarbon Reservoirs with High Strength Corrodible Tripping Balls

N. Carrejo, J. Welch, M. Solfrank, M. H. Johnson

### SPE 151628 - Quantification of Hydrocarbon Volume: An Example Using Rock Typing Methodology Applied in Cerro Negro Field, Eastern Venezuela Basin

C. Moya, G. W. Gunter, J. Mahadevan, K. M. Wolgemuth

### SPE 151673 - Optimization of Production Allocation under Price Uncertainty: Relating Price Model Assumptions to Decisions

A. A. Bukhari, C. J. Jablonowski

### SPE 151819 - Water Conservation: Reducing Freshwater Consumption by Using Produced Water for Base Fluid in Hydraulic Fracturing–Case Histories in Argentina

J. Bonapace, M. Giglio, J. Moggia, A. Krenz

### SPE 151825 - Risk Analysis and Economic Evaluation of Oil and Gas Prospects Offshore Uruguay

S. Ferro, J. Tomasini, M. Soto, E. Morales, P. Rodríguez, B. Conti, H. De Santa Ana

### SPE 151927 - Using Cogeneration To Mitigate CO2 Emissions in Upstream Oil & Gas Activities

M. J. Welch

### SPE 152015 - Upgrading Crude Oil by a Deasphalting Technology Under Non Severe Operating Conditions

M. Álvarez, M. Chirinos, F. Silva, A. Zabala, L. Perdomo
Hydrocarbon-Based Ultrafine Cement: Case History from Mexico’s Offshore Region

Fractures ........................................................................................................................................ 442

Macuspana Field
Clean-up Behavior through Multiple Sensor Analysis ................................................................... 349

Descriptions
Log Measurements from the Gulf of Mexico and North Sea Fields for Improved Reservoir
Oil Belt ............................................................................................................................................. 255

M. A. Castillo, W. A. Chacón, V. M. Cancino, A. Palomares

SPE 152252 - Field Application of New Proppant-Detection Technology—A Case History in the
Putumayo Basin of Colombia .............................................................................................................. 428

F. Torres, W. Reinoso, M. Chapman, X. Han, P. Campo

SPE 152256 - Environmental Protection Under the Perspective of Oil Companies......................... 453

R. Santana

SPE 152259 - A Comparative Study of Emulsion Flooding and other IOR Methods for Heavy Oil ...... 465

M. L. Rocha De Farias, A. L. De Souza, M. Da Silveira Carvalho, G. Hirasaki, C. Miller

SPE 152297 - Successful Implementation of a Relative-Permeability Modifier Along with
Hydrocarbon-Based Ultrafine Cement: Case History from Mexico’s Offshore Region .................. 473

M. A. Castillo, W. A. Chacón, V. M. Cancino, A. Palomares

SPE 152309 - GaStim Concept - A Novel Technique for Well Stimulation. Part I: Understanding the
Physics .............................................................................................................................................. 479

Experiences Indicate that Natural Fractures or Fissures Are not Activated with Existing Infrastructure in Offshore Fields

Costs without Damaging Pumps

SPE 152328 - Artificial Communication Between Compartmentalized Reservoirs to Maximize the Value with Existing Infrastructure in Offshore Fields

SPE 152330 - Enhance Platform Integrity by a Real-time Equipment Availability Monitoring Workflow

SPE 152332 - Rock Type Modeling: An Effective Method to Determine Reservoir Quality Rock to Discretize Net Pay in Lower Guadalupe Formation, Abanico Field, Colombia

Jose Betancourt

SPE 152391 - Successful Production Allocation through ESP Performance in Peregrino Field

SPE 152392 - Probabilistic Production Forecasts Using Decline Envelopes

SPE 152396 - Hydraulic Fracture Geometry Evolution and Pressure During Pumping: Chicontepec Experiences Indicate that Natural Fractures or Fissures Are not Activated

J. Luces, J. M. Reano, J. Salguero, J. Morales

SPE 152400 - Formation Damage Modeling Improves Well Candidate Selection and Stimulation Treatment Design in Western Area of Putumayo Basin, Colombia

SPE 152482 - High-Resolution Numerical Modeling of Complex and Irregular Fracture Patterns in Shale Gas and Tight Gas Reservoirs

O. M. Olorode, C. M. Freeman, G. M. Moridis, T. A. Blasingame

SPE 152524 - Decision-Making Breakthrough Technology

Damián A. Fernández, Matías J. Vidal, Diego E. Festrini

SPE 152542 - An Integrated Pathway to Enhance Human Talent

J. Hasselmeyer, L. Vielma Lobo

SPE 152545 - Water Coning in Naturally Fractured Carbonate Heavy Oil Reservoir – A Simulation Study

E. Pérez-Martínez, F. Rodríguez-De La Garza, F. Samaniego-Verduzco

SPE 152554 - An Innovative Solution to Optimizing Production in Naturally Fractured Carbonate Reservoirs in Southern Mexico

M. Quevedo, F. Tellez, T. Resendiz, O. Jiménez Bueno, G. Ramírez

SPE 152575 - Comparison between Real Field Data and the Results of Wax Deposition Simulation

I. Noyola, L. Naveira

SPE 152592 - Talking to the Reservoir through PDGs: A Brazilian Deepwater Oilfield Case

G. S. Feitosa, M. A. Lucas

SPE 152597 - Minimum Flowrate to Unload Gas Wells: Dynamic Multiphase Modeling to Validate Existing Correlations

M. Daas, T. Golczynski, J. Harry

SPE 152639 - Production Forecasting for Shale Gas Exploration Prospects Based on Statistical Analysis and Reservoir Simulation

G. Morales-German, R. Navarro-Rosas, F. Xavier Dubost

SPE 152660 - Wireless Reservoir Surveillance Using Intelligent Tracers

B. Williams, A. Vilela

SPE 152662 - Surge and Swab Pressures in Horizontal and Inclined Wells

R. Srivastav, M. Enfis, F. Crespo, R. Ahmed, A. Saasen, M. Laget

SPE 152667 - Integration of Surface and Reservoir Modeling for Steam Assisted Gravity Drainage on the Bare Field in Eastern Venezuela

R. Ruiz, J. Muñoz, A. Martínez, A. Álvarez

SPE 152674 - Reservoir Evaluation & Completion Optimization in Heavy Oil Sands with Dielectric & Diffusion Measurements

Y. Ramos, M. Chavez, U. Bustos, E. Decoster

SPE 152675 - Automation Master Plan Framework: Case Study

D. Herrera, J. Avellino, J. Sánchez, O. Díaz, A. Galán, C. Bravo, J. Rodríguez, M. Torre
SPE 153232 - Economic and Social Development of Angola Because of Petroleum Exploration (Revisited) ............................................................... 1050
D. Fernandes Do Carmo, M. Gonzalez Amoreira, R. Bröker Bone

SPE 153252 - Combining Decline-Curve Analysis and Capacitance-Resistance Models To Understand and Predict the Behavior of a Mature Naturally Fractured Carbonate Reservoir Under Gas Injection ........................................................................................................... 1063
Martin Salazar, Hector Gonzalez, Sébastien Matringe, David Castiñeira

SPE 153275 - A Method for Probabilistic Forecasting of Oil Rates in Naturally Fractured Reservoirs ............................................................ 1070
Julio César Muñoz Blanco, Rafael Paz Palenzuela, Roberto Aguilera

SPE 153307 - Analytical Estimation of CO₂ Storage Capacity in Depleted Oil and Gas Reservoirs Based on Thermodynamic State Functions .................................................................................................................. 1083
Ernesto Valbuena, Maria Barrufet, Gioia Falcone

SPE 153310 - Recent Advances in Dynamic Modeling of Naturally Fractured Reservoirs .................................................................................. 1094
R. Camacho-Velázquez, M. Vásquez-Cruz, G. Fuentes-Cruz

SPE 153315 - Oil Reserves Positive Adjustment of the Middle Eocene Calcarenites Reservoir Through a Correct Interpretation of the Oil/Water Contact: Ku Maloob Zaap Fields, Mexico .................................. 1104
J. Angeles, J. G. Del Angel, M. C. Lopez

SPE 153360 - New Artificial Lift System Using Coiled Tubing and Reciprocating Downhole Pumps for Heavy and Viscous Oil .......................................................... 1109

SPE 153387 - A Holistic Risk Analysis Approach for Reservoir Modeling ........................................................................................................ 1121
V. A. Huerta, A. Lanchimba

SPE 153388 - Modeling Condensate Banking in Lean Gas Condensate Reservoirs ........................................................................................... 1132
V. A. Huerta, A. Lanchimba, J. W. Forlés

SPE 153391 - Measurement, Modeling, and Diagnostics of Flowing Gas Composition Changes in Shale Gas Wells ............................................................................. 1147
C. M. Freeman, G. J. Moridis, G. E. Michael, T. A. Blasingame

SPE 153393 - Gas Coning and Channeling Management in Naturally Fractured Reservoirs with Applications to the Akal-Cantarell Field ................................................................................. 1172
F. Rodriguez-De La Garza, R. Ortega-Galindo, E. Garcia-Pietri

SPE 153426 - Sizing of Pipelines for Gas-Condensate by Multiphase Dynamic Simulation, Based in Minimum, Medium and Maximums Flowrates .................................................................................. 1181
V. Martinez-Ortiz

C. P. Tellez, F. Elisabeth, E. Bentosa, D. Munoz, C. Cortes

SPE 153431 - Methodology to Quantify the Value of Information Incorporating Operational Flexibility .......................................................................................... 1222
Humberto D. Bovolenta, Fernando P. Munerato, Denis J. Schiozer

SPE 153434 - Evaluation of Multifractures Through Unconventional Log Using Gamma Functions, Mineralogy and Fracture Migration in Laminated Sandstone of Chicontepec’s Formation, Chicontepec Channel, Mexico ................................................................................................................. 1232
S. Gomez Garcia, E. Estrada, L. Rodríguez, A. Vargas, G. Gomez, O. Picon, J. Estrada, Heriberto Zarate, A. Salazar, F. Tineo, B. Quediman

SPE 153446 - Using Neural Networks for Determining Hydrocarbons Presence from Well Logs: A Case Study for Alagoas Basin .................................................................................. 1246
M. A. Fernandes

SPE 153450 - Use of Liner Drilling Technology To Ensure Proper Liner Setting: A Mexico Case Study ................................................................................. 1254
A. Belloso, J. Scott, J. M. Rivera, J. Piña, J. V. Silva Garcia, J. C. Garcia Mendez, J. L. Resendiz Robles

SPE 153454 - Predictive Analytics: Development and Deployment of Upstream Data Driven Models ........................................................................ 1264
Keith R. Holdaway

SPE 153468 - Instrumented Yates Tail Completion: A Good Practice For Monitoring Cantarell Reservoir’s Behavior ........................................................................................................................ 1278
J. E. L. de Guevara, M. Gonzalez-Vazquez, R. Posadas-Mondragon

SPE 153472 - Simulation of Intermittent Gas-Bubbly Oil Three Phase Flow in Upward Vertical Pipe Using the Two-Fluid Model ............................................................................. 1292
O. Cazarez-Candia, D. J. Montoya-Hernández, A. C. Bannwart

SPE 153473 - Effect of Pressure and Air Flow Rate on In-Situ Combustion Experiments of Heavy Oil ........................................................................ 1304
O. Cazarez-Candia, J. Cruz-Hernández

SPE 153477 - Risk Analysis Speed-up with Surrogate Models .......................................................... 1314
T. Amorim, D. J. Schiozer
SPE 153480 - Transient Pressure Behavior for Dual Porosity Low Permeability Reservoir Based on Modified Darcy’s Equation ................................................................. 1322
J. Xu, R. Jang, L. Xie, M. Yang, G. Wang, J. Liu

SPE 153486 - 3D Analytical Modeling of Hydraulic Fracturing Stimulated Reservoir Volume ................................................................. 1332
Guang Yu, Roberto Aguilera

SPE 153518 - The Effect of Aquifer Condition on Methane Recovery for CO2 Injection in Coalbed ................................................................. 1359
K. H. Kim, M. K. Lee, W. M. Song

SPE 153526 - First Three Surface Casing While Drilling Operations in Brazil Demonstrate Technical Feasibility in Loss Circulation Scenarios ................................................................. 1371

SPE 153528 - Utilization of Charged Particles as an Efficient Way to Improve Rheological Properties of Heavy Asphalitic Petroleum Fluids ................................................................. 1379
Masoud Alfi, Paulo F. Da Silva, Maria A. Barrafa, Rosana G. Moreira

SPE 153530 - Modeling and Analysis of Temperature Transients Caused by Step-Like Change of Downhole Flow Control Device Flow Area ................................................................. 1388
M. F. Silva Junior, K. Marudov, M. S. Carvalho

SPE 153534 - Initial Characterization of an Extra Heavy Oil Carbonate Exploratory Field ................................................................. 1405
E. G. Aguilera, L. M. Gonzalez, V. G. Ruiz

SPE 153535 - Modeling Multiple-Porosity Transport in Gas-Bearing Shale Formations ................................................................. 1410
John Hudson, Faruk Civan, Guillermo Michel-Villazon, Deepak Devegowda, Richard Sigal

SPE 153536 - Fracturing With Viscoelastic Surfactant Fluid in Cyclic Steam Injection Wells - A Synergy for Heavy Oil Recovery ................................................................. 1429
J. Gomez, H. Morles, D. Toyo, J. Bracho

SPE 153541 - Geomechanics Applied to Perforating Design: One Solution to Reduce the Sand Production Risk ................................................................. 1436
Y. Quintero, M. Jaimes, D. Martin, G. Rivera

SPE 153550 - Production Logging During Shut-In To Characterize Water Production in Vertical Wells With Multizone Completions ................................................................. 1444
Tiago Plisson Sampaio, André Luís Morosov, Christiane De Camargo

SPE 153554 - Models for Estimating the Shrinkage Factor in the Mixtures of Diluents with Colombian Heavy Crude Oils ................................................................. 1451
F. Guarin Arenas, C. A. Garcia, L. M. Orozco Chínome

SPE 153557 - Experimental Study of Gel Particles Transport Through Porous Media ................................................................. 1459
A. Al-Ibadi, F. Civan

SPE 153558 - A Procedure for Upscaling a Complex Fractured Reservoir using Near-Well Refinement ................................................................. 1486
Manuel G. Correia, Celso Machado, Denis J. Schiozer

SPE 153566 - Filtering of Tide Effects in Formation Evaluation Data ................................................................. 1496
Marco Aurelio Rachid De Araujo, Rosangela Barros Zanoni Lopes Moreno

SPE 153580 - Milestone in Production Using Proactive Azimuthal Deep-Resistivity Sensor Combined with Advanced Geosteering Techniques: Tarapoa Block, Ecuador ................................................................. 1508
A. Guevara, J. Sandovil, M. Guerrero, C. A. Manrique

SPE 153581 - Improved Heavy Oil Recovery by Drilling Horizontal Wells in Rubiales Field, Colombia ................................................................. 1521
A. Flores Anaya, Y. Araujo Paz, M. Ucategui Rivas, W. Parra Moreno, R. Lavado Quiñones

SPE 153591 - Pore Scale Modeling of Gravity Drainage Dominated Flow under Isothermal and Non-Isothermal Conditions ................................................................. 1535
F. J. Argüelles-Vivas, T. Babadagli

SPE 153602 - Unusual Asphaltene Phase Behavior of Fluids from Lake Maracaibo, Venezuela ................................................................. 1546
D. L. Gonzalez, M. E. Garcia, O. Diaz

SPE 153604 - Integration of Uncertainty Analysis and History Matching: Application in a Complex Case ................................................................. 1558
Luciana Dos Santos Silva, Denis Schiozer

SPE 153609 - Closure of Natural Fractures Caused by Increased Effective Stress, A Case Study: Reservoir Robore III, Bulo Bulo Field, Bolivia ................................................................. 1577
O. G. Vega Navarro

SPE 153613 - Novel Barium Sulfate Scale Inhibitor for Use in High Iron Environments ................................................................. 1588
W. Dickinson, L. Sanders
SPE 153615 - Interference Tests Analysis in Fractured Formations With a Time-Fractional Equation
A. De Swaan-Oliva, R. Camacho-Yelizquez, M. Vasquez-Cruz
.......................................................... 1593

SPE 153616 - Streamlines Simulation of Polymer Slugs Injection in Petroleum Reservoirs
B. J. Vicente, V. I. Priimenko, A. P. Pires
.......................................................... 1603

SPE 153619 - The Way Forward for Deepwater and Ultra Deepwater Drilling in Trinidad and Tobago
J. Rajauth
.......................................................... 1617

SPE 153621 - Borehole Geometry Estimation Through Real Time Measurement of Cavings Flow
While Drilling
J. M. Carvajal, A. Luche Salcedo, D. C. Mattes, E. Caceres
.......................................................... 1628

SPE 153627 - Dilatancy Criterion Applied for Borehole Stability During Drilling Salt Formations
A. Rios, J. Roegiers
.......................................................... 1636

SPE 153636 - Integrated Risk Analysis of Uncertainties in Geological Model and Dynamic Flow
Properties for the Development of Oil Fields
Genilson A. Da Silva, Andre M. De Oliveira Guimaraes, Gislene A. Da Silva, Marcos Aurelio Lucas
.......................................................... 1650

SPE 153639 - Results of the Implementation of the Project Management System: Towards a Competitive Quality Model
L. F. Garcia, J. G. Narango, J. S. Salazar, L. M. Linero
.......................................................... 1661

SPE 153643 - Facilitating Treatment of Produced Water from Offshore Platforms by an Oxidation/Coagulation/Flocculation Approach
C. Cardoso, F. Filho, A. Mahmoudkhani, A. De Caprio, M. Costa, M. Nair
.......................................................... 1668

SPE 153645 - Estimation of Geological Facies Boundaries Using Categorical Indicators With P-Field Simulation and Ensemble Kalman Filter (EnKF)
S. Nejadi, J. J. Trivedi, J. Leung
.......................................................... 1675

SPE 153646 - Environmentally Friendly Dispersants for High Temperature Invert-Emulsion Drilling Fluids Weighted by Manganese Tetraoxide
Abdul Rehman, Abdullah M. Al Moajil, Hisham A. Nasr-El-Din, Mohamed Al-Bagoury, Christopher D. Steele
.......................................................... 1688

C. E. A. G. Barreto, D. J. Schiozer
.......................................................... 1702

SPE 153659 - Importance of Distributed Temperature Sensor (DTS) Data for SAGD Reservoir Characterization and History Matching within Ensemble Kalman Filter (EnKF) Framework
A. Panwar, J. J. Trivedi, Siavash Nejadi
.......................................................... 1710

SPE 153676 - State of the Art and Future Trend of Drilling: An Experimental Study
A. Sanmi Apaleke, A. Al-Majed, M. Enamul Hossain
.......................................................... 1728

SPE 153708 - Development of a Static/Dynamic Model for Chac Field Based on a Novel Multidisciplinary Workflow
R. Ortegui Galindo, A. Galindo-Nava, E. Pérez-Alvés, E. Ortuño, C. A. González Morales
.......................................................... 1738

SPE 153715 - A Semi-Analytic Solution for Flow in Finite-Conductivity Vertical Fractures Using Fractal Theory
M. Cossio, G. J. Moridis, T. A. Blasingame
.......................................................... 1757

SPE 153728 - Understanding the Impact of Channel Fracturing in the Eagle Ford Shale Through Reservoir Simulation
.......................................................... 1782

SPE 153741 - Effect of Natural Fracture Properties on Production Variability of Individual Wells in Multiphase Oil Reservoirs
Bruno Lopez, Laureano Gonzalez, Roberto Aguiler, Francisco Garcia-Hernandez
.......................................................... 1798

SPE 153742 - Improved Predictivity Through Use of a 3D Integrated Seismic Water Saturation Model in the Sierras Blancas Formation
S. Ucan, L. Monti, D. S. Cersosimo, R. A. Claas, A. O. Montagna, A. I. Quintero
.......................................................... 1813

SPE 153908 - Design of a Neural Network Model for Predicting Well Performance After Water Shutoff Treatments Using Polymer Gels
I. Ferreira, A. Gammiero, M. Llamedo
.......................................................... 1830

Author Index
