TABLE OF CONTENTS

VOLUME 1

Differences in Myosin Heavy Chain mRNA Expression Levels Among Chicken Muscles Reflect
A. Ahkmed, Y. Tomisaka, M. Muguruma, G. Kaneko, S. Watabe, H. Yetim, R. Sakata

Differences in Protein Polymerization by Transglutaminase
H. Huang, M. Larsen, A. Karlsson, R. Lametsch

Phosphoproteomics Analysis of Postmortem Porcine Muscle with pH Decline Rate and Time
S. Saman, P. Joseph, S. Li, K. McClelland, G. Renfrow, C. Beach

Proteome Basis of Muscle-Specific Beef Color Stability
R. Roberson, D. Gerrard

Adenosine Monophosphate-Activated Protein Kinase Status Modulates Kinetics of Post-Mortem pH
J. Faure, B. Lebret, P. Ecolan, S. Metayer-Coustand, L. Lefaucheur

Decline and Meat Quality in Pig Longissimus Muscle
R. Roberson, D. Gerrard

Evaluation of Meat Quality Traits from European Pig Production Systems in Relation to
Sustainability: An Approach

Vocalization As a Measure of Welfare in Slaughter Pigs at Danish Slaughterhouses
S. Stier, A. Sell, L. Christensen, L. Blaabjerg, M. Aaslyng

Cattle with More Reactive Temperaments Have Lower Resting Muscle Glycogen

Differences in Minolta Color Score and Beef Tenderness Associated with Feedlot Stress and Slaughter
Method

Cluster Analysis Application in Research of Muscle Biochemical Determinants for Beef Tenderness
R. Roberson, D. Gerrard

Prediction Equations of Beef Tenderness: Implication of Oxidative Stress and Apoptosis
N. Guillemin, C. Jurie, D. Micol, G. Renand, J. Hocquette, B. Picard

Small Heat Shock Proteins and Tenderness in Intermediate pHu Beef
D. Loirom, M. Farouk, D. Frost, P. Dobbie, O. Young

Meat Tenderness: Aging Management of Nine Beef Muscles
V. Marzin, P. Tribout-Laspriere, F. Turin, C. Denoyelle

Canadian Consumers’ Willingness to Pay for Pork with Different Attributes
E. Goddard, J. Janz, H. Bruce, G. Plastow, S. Moore, L. Ma, V. Muringai, S. Anders

Application of Legume Flours in Low-Fat Meat Product Formulations for Better Consumer Acceptance
P. Shand, G. Hong, H. Wang, M. Gerlat, M. Nickerson, J. Wanasundara

Dog Rose As Functional Ingredient in Ascorbic Acid- and Nitrite-Free Porcine Frankfurters
E. Vossen, M. Utvers, S. Deme, D. Morcuende, M. Estevez

Evaluation of the Antioxidant Potential of Artichoke (Cynara scolymus L.) Byproducts Extracts in
Raw Beef Patties
M. Serdaroglu, H. Ergezer, T. Akan

Avocado As a Functional Ingredient in Porcine Patties: Effect on Protein Carbonylation
M. Utvers, J. Rodrigue-Carpeta, D. Morcuende, M. Estevez

Stabilization of Dry Fermented Sausages Enriched in ω-Linolenic Acid and Docosahexaenoic Acid by
a Lyophilized Antioxidant Extract of Melissa officinalis L.
M. De Ciriano, E. Larequi, I. Fafasategi, I. Astiasaran, D. Ansorena

Effect of Natural Preservatives on the Microbial Quality, Lipid Stability and Sensory Acceptability of
Boerewors
S. Mathenwja, C. Hugo, C. Bothma, A. Hugo

Occurrence of Human Enteropathogenic Yersinia spp. in Pigs and Contamination of Pork Carcasses
During Slaughter
I. Van Damme, L. De Zutter

Meat Tenderness of Thai Native Cattle from Different Area of Thailand .......................................................... 363
P. Tavitchasiri, P. Uapphattanaphong, C. Artchawakom, M. Rakthong, N. Ngamyeesoon, J. Sethakul

Investigation of Instrumental Tenderness Measurements As Indicator of Overall Meat Tenderness .................. 367
M. Choi, J. Choe, Y. Choi, K. Jung, K. Lim, K. Hong, B. Kim

Beef Meat Aged at Mild Temperature: Preliminary Qualitative and Microbiological Results .................. 371
D. Zillo, S. Ballico, M. Conito, A. Chiariotti, S. Failla

Characterization of Antibodies against Connectin/Titin 20-kDa Fragment Increased in Chicken Sarcoplasm during Postmortem Aging ................................................................. 375
M. Yamanoue, S. Ueda, K. Matsunaga, K. Onishi, N. Sioyama

Biochemical and Structural Changes Promoted by Beef Marination .......................................................... 379
D. Sharedeh, P. Gatellier, F. Peyrin, T. Astruc, J. Daudin

Supplementation to Improve Beta-Agonist Beef Quality - Relationship of Vitamin D3 and 25-Hydroxivitamin D3 Levels in Meat with Measured Meat Tenderness Characteristics .................. 383
L. Frylink, K. Moloto, P. Strydom, K. Modika

Calpain and Calpastatin Activity in Porcine Longissimus and the Red and White Portions of the Semitendinosus ................................................................. 387
S. Cruzen, P. Paulino, E. Steadham, E. Huff-Lonergan, S. Lonergan

Comparison of Biceps Femoris Muscle Proteome in Dry-Cured Xuanwei Ham with Different Quality Grades ................................................................. 391
Z. Wang, X. Gao, X. Wang, X. Li, Z. Lin, C. Ma

Iron Binding Ability of Phosvitin in Ground Beef ................................................................. 395
S. Jung, C. Jo, J. Ham, D. Ahn, K. Nam

Muscle Characteristics from Young Bulls of Different Beef Breeds .......................................................... 399
C. Jurie, B. Picard, D. Micol, A. Listrat, M. Kammoun, J. Hocquette

Effects of the Inhibitors of Calpain MDL-28170 and Calpeptin on Caspase-3 Activity of Chicken
During Postmortem Ageing ................................................................. 402
L. Chen, X. Feng, X. Xue, W. Zhang, C. Li, G. Zhou

Predicting Meat Aging Using Quartz Crystal Microbalance (QCM) .......................................................... 405

Changes in Protein Composition Related to Tenderness in Bovine Longissimus Thoracis Muscle .............. 409
K. Hollung, E. Færgestad, E. Veiseth-Kent

Influences of Pig Breed and Slaughter Age on Cathepsin B+L Activity in Fresh Meat and Dry-Cured
Hams ........................................................................................................ 412
B. Tessema, L. Storrøstølken, O. Alyseikê, K. Hollung

High-oxygen Modified Atmosphere Packaging Induced Protein Polymerization of Myosin Heavy Chain and Decreased Tenderness of Ovine M. Longissimus During Retail Display .................. 415
Y. Kim, S. Bodker, K. Rosenvold

Correlations Between Myosin Light Chain Isoforms and Glycolytic Characteristics in Porcine Longissimus Dorsi Muscle ................................................................. 419
Y. Choi, J. Choe, K. Jung, B. Kim

Biochemistry and Morphological Characterization of Intra Muscular Connective Tissue of Two Contrasting Bovine Muscles ................................................................. 422
A. Dubost, D. Micol, B. Meunier, C. Botiaux, A. Listrat

Effect of Low Voltage Electrical Stimulation on Changes in Proteome of Bovine Longissimus Muscle
During Postmorten Aging ................................................................. 426
A. Della Malva, R. Marino, J. Grubbs, A. Fritchen, S. Lonergan, E. Huff-Lonergan

Age Related Changes in Lipid, Collagen and Hydroxypyridinium Contents Related to Bovine Nelore Rhomboideus M. (Bos Indicus) Texture ................................................................. 430
M. Pedroso, M. Yamaguchi, F. Coro, A. Alfaro, E. Youssef, P. Teles, M. Shimokomaki

Effect of Castration on the Protein Oxidation and Colour Stability in Aged Beef ................................................................. 434
A. Silva, M. De Melo, S. Silva, T. Jafet

Properties and Application of Dietary Fibers in Meat Technologies .......................................................... 1249
V. Pryanishnikov, A. Ilyakov

Development and Application of Dietary Fibers and Soy Protein Complex in Meat Products
Technology .................................................................................................................................................. 1266
A. Ilyakov, V. Pryanishnikov

Effects of Kimchi Powder on Quality Characteristics of Frankfurter Sausages Prepared with
Irradiated Pork Meat ..................................................................................................................................... 1269

Evaluation of Storage Condition and Phosphate Addition on the Physicochemical Properties and
Textural Characteristics of Model Lamb Sausages ....................................................................................... 1273
K. Chin, Y. Kim, K. Rosenvold

Effects of Chicken Skin and Wheat Fiber Mixture on Quality Properties of Chicken Frankfurter .......... 1277

Characterization and Detection of Lactococcus lactis subsp. lactis Sb 2 As Probiotic Starter in Beef
Nhann ......................................................................................................................................................... 1281
K. Pilasombut, N. Ngamyeesoon, J. Sethakul

In Vitro Studied of Lactic Acid Bacteria As Probiotic Starter for Fermented Meat Product ....................... 1285
R. Sinthigripong, K. Pilasombut, N. Ngamyeesoon

Functional Properties of Emulsion-Type Pork Sausages by Addition of Natural Shell Calcium
Powder ......................................................................................................................................................... 1289
D. Jung, J. Choi, S. Park, J. Kim, S. Lee, S. Choi, Y. Choi

Sensory Quality of the Burger Fermented with Lactobacillus Acidophilus CRL 1014 Mixed Chicken
and Soybean Residue .................................................................................................................................... 1292
L. Bomdespacho, A. Isoe, D. Cavallini, E. Silveira, S. Pflanzer, E. Rossi

Quality Characteristics of Highly Extended Cook-in Packaged Ham As Affected by Replacement of
Sucrose by Hydrolyzed Corn Starches and Sorbitol ..................................................................................... 1296
A. Lemos, J. Andrade, M. Haguivara, R. Bromberg, E. Yamada, L. Abreu, B. Frias

Starter Cultures Effects on Proteolytic Changes and Amino Acid Content in Fermented Sausage .......... 1300
M. Juan, C. Amelia

Effect of Chemically Modified Soy Proteins and Ficin-Tenderized Meat on the Quality Attributes of
Sausage ....................................................................................................................................................... 1304
R. Ramezani, M. Aminlari, H. Fallahi

Meat and Fatty Acid Composition of Chevon from Goats Supplemented with Moringa oleifera leaf
Meal ............................................................................................................................................................ 1308
B. Moyo, P. Masika, A. Hugo, V. Muchenje
Changes in the Lipid Content During the Refrigerated Storage of Animal Raw Material ........................................ 1311
A. Semenova, A. Ivankin, T. Kuznetsova, A. Bogdanova

Effects of Lipid Supplementation, Method of Preservation and Cooking on Nutritional and Sensorial Qualities of Minced Beef ................................................................. 1313
J. Normand, A. Bertout, D. Le Pichon, D. Ribaud, C. Evrat-Georged, V. Marzin

Effect of Whole Linseed and Protected-CLA Enriched Diet on Beef Sensory Quality ........................................ 1317

Effects of Sex and Age on the Expression of Stearoyl-CoA Desaturase in Bovine Muscle and Adipose Tissue ........................................................................................................ 1321
D. Bures, L. Barton, T. Kott

Eating Quality of Lamb and Broiler Meat Fed on Linseed ............................................................................... 1325
G. Zadaie, M. Sarries, K. Insaurasti, M. Beriain, I. Gomez, A. Arana

Beef Quality Attributes As Affected by Increasing the Intramuscular Levels of Vitamin E and Omega-3 Fatty Acids .................................................................................................. 1328
M. Juarez, M. Dugan, N. Aldai, J. Basarah, V. Baron, T. McAllister, J. Aalhus

Effect of Substituting Pork Fat with Sunflower Seed Oil and Makgeolli Lees Fiber on Quality Characteristics of Reduced-Fat Emulsion Sausage .................................................................................. 1332
Y. Choi, K. Park, H. Kim, D. Han, J. Choe, D. Song, C. Kim

Fatty Acids Modulate Adipocyte Growth and Development in Pig: An Approach from Cell Culture Study .................................................................................................................. 1336
I. Nakajima, M. Oe, K. Ojima, S. Muraya, M. Shibata, K. Chikuni

Lipid Characteristics of Commercial Lamb Cuts ......................................................................................... 1340
M. Campo, M. Barahona, E. Muela, P. Perez, C. Sanudo

Cis-Trans Isomerisation of Unsaturated Fatty Acids in Pork Lipids by Nitrite ................................................................................. 1344
S. Kawahara, K. Shibata, Y. Matsuoka, M. Murahama

Relationship between Meat Quality Measurements in Pigs Fed Different Dietary Fat Sources ......................... 1348

Effect of Mustard Seed on Fatty Acids Composition and Lipid Oxidation of Cooked Meat Products ...... 1352
M. Karwowska, Z. Dolatorowski

Intramuscular Fat is Reduced in Lambs from Sires Selected for Leanness ......................................................... 1355
L. Pannier, G. Gardinier, G. Geesink, A. Ball, R. Jacob, D. Pethick

Effect of Breed and Reduced Protein Diets on Pork Fat Content and Fatty Acid Composition ...................... 1359
M. Madeira, C. Afuia, M. Nascimento, S. Alves, R. Bessa, J. Prates

The Effect of Omega-3 Rich Oils on Functionality, Quality and Consumer Acceptance of Low- and High-Fat Bologna ........................................................................................... 1363
Z. Pietrasik, H. Wang, J. Jang

Rhomboideus Muscle Fatty Acid Profile in Advancing Age of Zebu Cattle (Bos indicus) ................................. 1367
M. Pedroso, N. Souza, M. Matsushita, F. Coro, P. Telles, J. Visentainer, M. Shimokomaki

Transfer of Different Exogenous Fatty Acids Into Milk and Muscle in Dairy Cows ........................................ 1371
K. Nuernberg, J. Anglo, M. Olivera, L. Mahecha, G. Nuernberg, D. Dannenberger

Expression of SCD and LPL Genes and Fatty Acid Profile of Subcutaneous Adipose Tissue of Two Portuguese Cattle Breeds ....................................................................................... 1375
Y. Pires, A. Costa, C. Fontes, J. Prates

Effect of Dietary Lipid Source on Fatty Acid Profile, Lipid Oxidation and Sensory Acceptability of Broiler Breast Meat ................................................................................................. 1379
A. Hugo, S. Els, C. Bothma, F.-H. De Witt, H. Van Der Merwe

Effects of Cooking Methods on Fatty Acids, Trans Fatty Acid and Conjugated Linoleic Acid in the Longissimus dorsi Muscles of Goats ........................................................................ 1383
M. Ebrahim, M. Rajion, A. Szilili, J. Schonewille, Y. Goh

Effects of Illegal Treatments on Meat Quality of Charolaise Bulls ........................................................................ 1387
S. Barbera, F. Kannozzo, B. Biolatti

Effect of Roasting, Boiling and Microwaving Cooking Method on Doxycycline Residues in Edible Tissues of Poultry by Microbial Method ................................................................. 1391
A. Javadi, H. Mirzaie, S. Khatibi

Residues of Aflatoxins in the Meat of Chicken and Duck in Iran ........................................................................ 1395
B. Radmehr, R. Malakzadeh, M. Saemi, N. Dallal Abbollahi

Nuclear Magnetic Resonance Spectroscopy as a Tool to Distinguish between Irradiated and Non-Irradiated Meat .................................................................................................................. 1397
E. Zanardi, A. Caligiani, M. Mariani, S. Ghidini, G. Palli, A. Ianieri
Effects of Alpha-Tocopherol on the Formation of Lactones in Beef Rendered Fat ......................................................... 1401
A. Watanabe, M. Imanari, M. Yonai, N. Shiba

Factors Affecting Levels of PAH in Smoked Meat Products .................................................................................................. 1405
A. Gomes, L. Roseiro, J. Almeida, M. Elias, C. Santos

Impact of High Pressure Processing on the Quality and Safety of Ready-to-Eat Iberian Chorizo and Dry-Cured Loin ............................................................................................................................................. 1409
S. Bover-Cid, M. Guardia, A. Claret, T. Aymerich, C. Arnau

Biogenic Amines in Commercial Dry Fermented Sausages As Possible Precursors of N-nitrosamines .................................................. 1413
E. De Mey, L. Deofof, G. Drabik-Markiewicz, G. Derdelinckx, M.-C. Peeters, H. Paelinck

Development of Analytical Methods for Multi-Residue Screening of Penicill Insin Bovine Muscle, Chicken and Milk ............................................................................................................................................. 1417
J. Song, S. Hu, H. Joo, J. Hwang, M. Kim, S. Kang, D. Cho

Vitamin D3 Metabolism After Ultra-High Supplementation to Beef Animals to Alleviate the Effects of Beta-Agonist Supplementation in Feedlot Cattle ............................................................................................................................................. 1421
K. Moloto, L. Frylinck, P. Strydom, K. Modika, G. Koorsen

Differences in Biogenic Amines Content of Dry-Fermented Sausage Petrovska klobasa Produced in Traditional Manner from Hot Deboned and Cold Meat ............................................................................................................................................. 1425
V. Tomovic, L. Petrovic, T. Tasic, A. Mandic, M. Jokanovic, P. Ikonic, B. Sojic

Effect of the Inclusion of Smoking Step in Iberian Sausage Processing on Levels of Polycyclic Aromatic Hydrocarbons ............................................................................................................................................. 1429
L. Martin-Cabello, A. Carrapiso, J. Sanchez Del Pulgar, C. Torrado, C. Garcia, L. Martin

Development of a Liquid Chromatography-Ultraviolet-Mass Spectrometry Analytical Method for Malondialdehyde ............................................................................................................................................. 1433
C. Douny, R. Dure, F. Brose, A. Remacle, G. Degand, A. Clinquart, M.-L. Scippo
