SPE International Conference and Exhibition on Oilfield Scale 2012

Aberdeen, Scotland, United Kingdom
30-31 May 2012
SPE 155109 Coupled Adsorption/Precipitation Experiments: 1. Static Results .......................................................... 281
   J. Ibrahim, K. S. Sorbie, L. S. Boak
SPE 155110 Coupled Adsorption/Precipitation Experiments: 2. Non-Equilibrium Sand Pack Treatments .......................................................... 304
   J. Ibrahim, K. S. Sorbie, L. S. Boak
SPE 155111 A Simple Model of Precipitation Squeeze Treatments ........................................................................ 333
   K. S. Sorbie
SPE 155112 Modelling of Enhanced Scale Control via Inhibition of Stimulation Fluids for Deepwater Developments ........................................................................ 347
   Oleg Ikhkov, Eric Mackay, Myles Jordan
SPE 155114 The Relation Between Barite Inhibition by Phosphonate Scale Inhibitors and the Structures of Phosphonate-Metal Complexes ........................................................................ 358
   S. S. Shaw, T. D. Welton, K. S. Sorbie
SPE 155123 Industrial Experience in Sea Water Desalination .......................................................................... 387
   Pierre Pedenaud, Christian Hurtevent, Salima Baraka-Lokmane
SPE 155124 Prediction of Mineral Scaling in a MEG Loop System of a Gas Production Offshore ........................................ 395
SPE 155127 A New Correlation to Predict the Stoichiometry of Mixed Scale: Iron-Calcium Carbonate ...................... 407
   H. A Alsaiai, N. Zhang, S. Work, A. Kan, M. B. Tomson
SPE 155171 Emerging 4th Generation Analytical Technology for the Individual Analysis of Multiple Families of Co-mingled Scale Inhibitors in Deepwater Wells ..................................................... 422
   Alan Thompson, Steve Heath, Thomas E. Gundersen, Alf Terje Andresen, Per Anders Dahlgren, Bjorn Julissen
SPE 155187 Development of a New Tagged Polymeric Scale Inhibitor with Accurate Low-level Residual Inhibitor Detection, for Squeeze Applications ........................................................................ 436
   Neil Poynton, Annabelle Mollet, Andre Leontieff, Stuart Cook, Susanna Toivonen, Rick Griffin
SPE 155229 Risk Assessment of Calcium Napthenates and Separation Mechanisms of Acicular Crude Oil .......................................................... 443
   Nicolas Passade-Boupat, Marianna Rondon Gonzalez, Benjamin Brocart, Christian Hurtevent, Thierry Palermo
SPE 155235 Selection of Anti-scale and Anti-corrosion Products: How to Avoid Interactions? ....................................... 455
   Marianna Rondon Gonzalez, Nicolas Passade-Boupat, Paul Bascoul, Salima Baraka-Lokmane, Christian Hurtevent
SPE 155243 A 3-Year Results of Application a Combined Scale Inhibition and Hydraulic Fracturing Treatments Using a Novel Hydraulic Fracturing Fluid, Russia .......................................................... 465
   Olesya Levanyuk, Alexander Overin, Almaz Sadykov, Sergey Parkhonyuk, Bernhard Lungwitz, Philippe Eukababian, Alexander Klimov, Sergey Legeza
SPE 155254 A New Class of Non-Damaging, Environmentally Responsible Scale Squeeze Enhancement Aids .......................................................................... 478
   Curtis Sitz, Julie Hardy, Justin Merryman, Dennis Varner
SPE 155255 Impact of Reservoir Reactions on Thermodynamic Scale Predictions .......................................................... 499
   R. M. Gomes, E. J. Mackay, R. H. Deucher, M. C. M. Bezerra, F. F. Rosário, M. M. Jordan
SPE 155263 A Novel Approach to the Study of CaCO3 Precipitation Kinetics on Carbon Steel Pipe ........................................ 517
   Nan Zhang, Amy Kan, Wei Shi, Hamad Alsaiari, Mason B. Tomson
SPE 155407 Foamed Scale Inhibitor and Scale Dissolver Treatments for Improved Placement in a Subsea Norne Well .......................................................................... 534
   Olav Martin Selle, Ole-Kristian Nygård, Elisabeth Storås, Arild Moen, Ping Chen, Rozenn Matheson, Bjørn Juliansen, Torstein Håland, Amare Mebratu, Ingrid Melen
   Ronald Benvie, Tao Chen, Steve Heath, Ping Chen, Harry Montgomerie, Thomas Hagen
SPE 155462 Combined Inhibitors - A New Experimental Method for a Simultaneous Assessment of Scale and Corrosion Phenomena .......................................................... 569
   Laura Sanders, Xinning Hu, Eleftheria Mavredaki, Violette Eroini, Richard Barker, Anne Neville
SPE 155467 Scale Removal Operations in High Pressure High Temperature Tight Carbonate Reservoir and Sour Environment - Challenges and Guidelines .......................................................................... 578
   Noura Almai, Qasim Dashti, Ravi Chandra Badhula, Mishari Al-Awadi, Taha Baloushi, Najet Aouchar, Iyad Hamed-Naji, Thomas Metzger
SPE 156005 Development of Test Method and Environmentally Acceptable Inhibitors for Zinc Sulfide Deposited in Oil and Gas Fields .......................................................................... 583
   Bin Wang, Tao Chen, Ping Chen, Harry Montgomerie, Thomas Hagen, Xuan Liu, Xu Yang
SPE 156008 Understanding Mechanisms of Scale Inhibition Using Newly Developed Test Method and Developing Synergistic Combined Scale Inhibitors .......................................................................... 594
   Xuan Liu, Tao Chen, Ping Chen, Harry Montgomerie, Thomas Hagen, Bin Wang, Xu Yang
