2011 7th International Conference on Advanced Information Management and Service

(ICIPM 2011)

Seogwipo, South Korea
29 November – 1 December 2011
How can Service-Oriented Architecture drive Service Innovation in newly emerging Service Systems? ................................................................. 1
Renu Agarwal, Jae Choi, Ram Ramamurthy, Willem Selen, Hassan M. Selim

Visual Stress of Blinking Cues and Density of Multiple Graphs in Dual Tasks ................................................................. 7
G. Kim, S. M. Lui

An Execution Context Aware Approach for Web Service Substitution ................................................................. 13
Ming Wei Zhang, Zhi Liang Zhu, Dan Cheng Li, Bin Zhang, Li Zhang

Analysis on China's 3G Consumer's Profits and Market Strategy ................................................................. 19
TANG Shoulian, HONG Ying

High performance Data exchange Architecture Design and Implementation for Software Development between Disconnected Networks .......... 27
Sangdo Lee, Hanchul Woo, Yongtae Shin

The Effectiveness of Rapid Business Application Development Using Oracle Forms ................................................................. 33
Saber Salah, Hyontai Sug

Automatic Metadata Extraction and Classification of Spreadsheet Documents Based on Layout Similarity ................................................................. 38
Somchai Chatvichienchai
ORXUpdater: A lightweight updater for XML Views defined over Object-relational Databases ........................................... 44
Anuradha Karunasena

Knowledge Services Dynamic Composition Algorithm Based on Semantics ................................................................. 50
WANG Daoping, HAO Mei, WANG Haoyu

An Investigation of Knowledge Creation Process in the LearningZone Learning Management System amongst Postgraduate Students ............ 54
Mazida Ahmad, Adzira Husain, Abdul Nasir Zulkifli, Nur Fadziana Faisal Mohamed, Syamila Zakiah A.Wahab, Azmi Md Saman, Abdul Razak Yaakub

CommonKADS’s Knowledge Model using UML Architectural View and Extension Mechanism ....................................... 59
Boonprasert Surakratanasakul and Kazuhiko Hamamoto

An Integrated Probabilistic Text Clustering Model with Segment-based and Word Order Evidence....................................... 64
Lin Dai

Representing Ordered Order-k Voronoi Diagrams .....................................71
Ye Wang, Kyungmi Lee, Ickjai Lee

On a Security Model for a Retrieval System over Encrypted Database ...... 76
Hyun-A Park, Jin Wook Byun, Jae Hyun Park, Dong Hoon Lee

Detecting the vulnerability of software with cyclic behavior using Sulley ........................................................................ 83
Hye-ryun Lee, Seung-hun Shin, Kyung-hee Choi, Ki-hyun Chung, Seung-kyu Park, Jun-yong Choi

An Efficient Video Encryption Scheme for H.264 Compressed Bitstream ...................................................................... 89
Niansheng Mao, Li Zhuo, Xiaoguang Li, and Jing Zhang

Applying a Decomposed Theory of Planned Behavior to Study the Paying Behaviors of a Virtual Community .......................... 95
Shwu-Min Horng, Yih-Yuh Lee, Chih-Lun Wu

Monitoring Indicators Applied to Taiwan Stock Market ....................... 101
Chao-Yen Wu, Hsin-Te Chan, Ting-Ying Chen
Red Blood Cell Classification Through Shape Feature Extraction and PSO-CSVM Classifier Design ................................................................. 107
Ruihu Wang

Decision on Weak and Strength Points of CRM................................. 112
Reza Allahyari Soeini, Behzad Jafari, Rouzbeh Keshavarz, Amin Ganjdanesh, Mohammadreza Abdollahzadeh

A Review of Information Technology Use in Medical Education: an overview............................................................................................. 121
Rattiporn Luanrattana

Android/OSGi-based Mobile Healthcare Platform ............................. 125
K.C. Kang, S.U. Heo, C.S. Bae

Adaptive FOA for Saliency-Based Visual Attention ...................... 127
Hyungjik Lee, Jinyoung Moon, ChangSeok Bae and Sungwon Sohn

The Causes of Customer Satisfaction in Telecommunication Service: An empirical study ................................................................. 129
Aihui Chen, Hong Zhang, Wanqiang Cai, Kun Lan, Honglei Wang

Prescription-Level Based Test Assertion Model for SOA ............. 133
Youngkon Lee

Business-Context Based SLA Parameters for SOA Management .... 139
Youngkon Lee

EVEC: Event-Driven Test Script Methodology for SOA System ....... 145
Youngkon Lee

Determinants of behavioral intention to mobile payment: evidence from China...................................................................................... 151
Shuiqing Yang, Yuzhi Cao, Wenjun Mao, Rui Zhang, Lihui Luo

The Tsunami Early Warning and the Two-Way Situation Transmission System .................................................................................. 155
Park hyo-sang, Lee han-na, Kim jang-ryul, Choi jae-kyung, Kim sung-han, Pyeon mu-wook
The Deduction of Health Risk Caused by Air Pollutants and Realization of Mobile Visualization Service by using Eco-indicator 99 Methodology ...... 159
Kim Yong Kye, Kim Hyun Guk, Kim Hyung Suk, Lee Ju Young, Cho Han Gi, Choi Gi Chul, Pyeon Mu Wook

Reliability Modeling and Analysis of Application Servers using Stochastic Petri Net Model.............................. 163
Ohnmar Nhway
