2012 First International Workshop on Software Engineering Education Based on Real-World Experiences

(EduRex 2012)

Zurich, Switzerland
9 June 2012
# TABLE OF CONTENTS

Teaching Requirements Engineering with Authentic Stakeholders: Towards a Scalable Course Setting............................................................................................................................... 1  
G. Gabrysiak, M. Guentert, R. Hebig, H. Giese  

Towards Production Ready Software in Project Courses with Real Clients .................................................. 5  
B. Brugge, M. Gluchow  

Integrating Open Source Software into Software Engineering Curriculum: Challenges in Selecting Projects ............................................................................................................................... 9  
S. Gokhale, T. Smith, R. McCartney  

Software Development Studio — Bringing Industrial Environment to a Classroom .................................................. 13  
S. Kopczynska, J. Nawrocki, M. Ochodek  

edubase Cloud: Cloud Platform for Cloud Education ............................................................................................................................... 17  
S. Yokoyama, N. Yoshioka, T. Shida  

An Experience Report on Cross-Semester Student Critique and Action in an Integrated Software Engineering, Service Learning Course .................................................. 21  
R. Burns, T. Harvey, L. Pollock  

Teaching Software Engineering with Projects ............................................................................................................................... 25  
J. Ludewig, I. Bogicevic  

Teaching Real-World Software Engineering through a Capstone Project Course with Industrial Customers ............................................................................................................................... 29  
J. Vanhanen, T. Lehtinen, C. Lassenius  

Synergizing Industrial Needs and Academic Research for Better Software Education .................................................. 33  
S. Eldh, S. Punnekhat  

Teamwork, Coordination and Customer Relationship Management Skills: As Important as Technical Skills in Preparing Our SE Graduates ............................................................................................................................... 37  
D. Damian, A. Bortci
