2012 8th International Conference
on Computing Technology and
Information Management

(NCM 2012 and ICNIT 2012)

Seoul, South Korea
24-26 April 2012

Volume 1
Pages 1-541
Performance Comparison of IEEE 802.1Q and IEEE 802.1 AVB in an Ethernet-based In-Vehicle Network ................................................................. 1
Hyung-Taek Lim, Daniel Herrscher, Firas Chaari

Fair Resource Allocation Scheme Using Cooperative Game Theory in Layer 1 VPN ............................................................ 7
Aran Kim, Sangdo Lee, Hyeopgeon Lee, Yongtae Shin

A Fast Seat Assignment Algorithm Based-on Bucket Data Structure .......... 11
Gene Eu Jan, Cheng-Hung Li, Chi-Chia Sun, Bor-Shing Lin

A Scalable Data Distributing Method Supporting Replication and Weight .......... 16
Wenhan Zhan, Hancong Duan, Lin Li, Xiaowen Nie, Cheng Chen

Intelligent Mining Agent .............................................................................. 23
Dr. Abbas M. Al-Bakry, Jinan Ali

A Two-phase Iterative Pre-copy Strategy for Live Migration of Virtual Machines ..... 29
Cho-Chin Lin, Yu-Chi Huang and Zong-De Jian

</table>
Threat Risk Analysis for Cloud Security based on Attack-Defense Trees ................................. 106
Ping Wang, Wen-Hui Lin Pu-Tsun Kuo, Hui-Tang Lin, Tzu Chia Wang

Design and Implementation of a Negotiation Model based on the Principle of Leverage ................................................................. 112
Patrick Gacirane, Lasheng Yu

A Novel Pattern of Distributed Low-Rate Denial of Service Attack Disrupts Internet Routing ........................................................................... 119
LIU Xiao-ming, LI Qi, LIU Xiao-guang

Anonymous Identity Authentication Scheme In Wireless Roaming Communication ............................................................... 124
Tao Feng, Wenying Zhou, Xinghua Li

WAPI Secure Access Authentication Scheme for Heterogeneous Networks Based on Identity-Based Cryptograph .................................................. 130
FENG Tao, JIAO Jian

A Multiplication Algorithm with Square-free Gauss Period Normal Basis ....................................................................................... 136
Yasuyuki Nogami and Kenta Nekado

Ganesh Subramanian, Dr.R.Amutha

Encrypting Ontological Meta-Model Using Elliptic Curve Cryptography with Identity Based Encryption ........................................................................... 146
Pramukh R. Karla, Sang C. Suh, Varadraj P. Gurupur

General Survey on Massive Data Encryption ......................................................................................... 150
Mengmeng Wang, Guiliang Zhu, Xiaoqiang Zhang

A Fast Parallel Algorithm For Decoding Algebraic Geometry Codes ........................................... 156
Xiaohui Fu, Junjian Yang

Improved Parcel Delivery Service by using Delivery Points Information and RFID ........................................................................................... 160
Geeju Moon, Sungmee Park

Integration of Predictive Route Data in Active Safety Systems .................................................. 165
Hadj Hamma Tadjine, Steven Myslinski, Bert Auerbach, Karsten Schulze
SMART-CITY: Problematics, Techniques and Case Studies .............................. 168
Bertrand DAVID, Chuantao YIN, Yun ZHOU, Tao XU, Bingxue ZHANG, Huiliang JIN, René CHALON

A Formal Modeling Method of Network Architecture Based on Entity ....................... 175
Liu Xiaoxiao, Shen Jun

A Networking Scheme for Transmission Line On-line Monitoring System Based on IoT ............................................................. 180
Ruixue LI, Jianming LIU, Xiangzhen LI

Load Balancing Strategy of Cloud Computing based on Artificial Bee Algorithm ................................................. 185
Jing Yao, Ju-hou He

Developing an Information Management System for Efficient Operation & Maintenance of BTL Projects ................................................................. 190
Chun-Kyong Lee, Tae-Keun Park

RFID Network Planning based on k-Coverage Using Plant Growth Simulation Algorithm .............................................................. 196
Huang Yihua, Lv Shilei

A Study on U-City Carbon Footprint Calculation Method to Prepare for Carbon Emission Trading System ............................................................. 202
Ruixue LI, Jianming LIU, Xiangzhen LI

Analysis of Energy Saving Potential of Power Industry in China Based on Multiple Liner Regression Model ............................................................. 206
Yonggui He, Yanzi Li, Xin Zhao

Potential Evaluation of Hydropower Development Based on the Grey Fuzzy Clustering Method ............................................................. 210
Yonggui He, Xin Zhao, Yanzi Li

Measuring Weather Prediction Accuracy Using Sugeno Based Adaptive Neuro Fuzzy Inference System, Grid Partitioning and Guassmf ................................... 214
Naveed Anwer, Aneela Abbas, Aneela Mazhar, Syed Hassan

Modeling and Verification of Web Applications using Formal Techniques Methods ............................................................. 220
Atsushi Togashi, Yuh Kitano, Satoru Izumi, Kaoru Takahashic, Kei Homma

Influence of Knowledge Management System on Organization Effectiveness in Macedonian Organization ................................................................. 299
Blazeska-Tabakovska Natasha, Manevska Violeta

Research on Inter-Domain Collaborative Syllabus Services with Cross-Retrieval ................................................................. 305
Takashi KAWABA, Takeshi TSUCHIYA, Keiichi KOYANAGI

Privacy Protection of User-Created Content on Multicore-based Handheld Devices ................................................................. 310
Sungju Lee, Heegon Kim, Yongwha Chung

Indexing the Past, Present and Future Positions of Moving Objects Using PPFI* ................................................................. 314
Ying Fang, Jiaheng Cao, Ceng Zeng, Nengcheng Chen

An Arabic Information Management Messaging System: Using Information Extraction for the Proper Flow of Information within Organizations ................................................................. 321
Bushra Abdullah Al-Anesi, Dr. Khalid Omar Thabit

Knowledge Acquisition, Information Exchanges, and Supply Chains Cycle Time ........................................................................... 327
Kuo-En Huang, Jao-Hong Cheng

New Graph Mining Algorithm for Vector GIS Systems ................................................................. 335
Mahdi JASIM, Dr. Tawfiq Al ASADI

Pattern Analysis for Load Forecasting ................................................................. 339
YingJu Xia, YuHang Yang, Fujiang Ge, Jian Su, Hao Yu

VIQI: A New Approach for Visual Interpretation of Deep Web Query Interfaces ................................................................. 344
Radhouane Boughammoura, Lobna Hlaoua, Mohamed Nazih Omri

An Ontology-based Multi-dimensional Organization and Management Model for Web Services ................................................................. 350
Kun Yang, Weiqun Cui, Junheng Teng, Chenze Hang

Tile Based Geographic Information System to Improve Response Speed of Mapping Application in E-Government of Indonesia ................................................................. 356
Imairi Eitiveni, Dana Indra Sensuse
Research on Semantic Expression Methods of Management Policy in Multi-Agent Based NMS .......................................................... 361
Gang Xiao, Xi-lin Ji, Run-qing Zhang

Young Children's Perception of IrobiQ, the teacher assistive robot, with reference to Speech Register ...................................................... 366
Eunja Hyun, Hawon Lee, Hyemin Yeon

Evaluating Packet-level Forward Error Correction: 1-D Interleaved Parity Codes .............................................................. 370
LinLiu, Xiaoshe Dong

Promote Visitor Interactions by Smart Devices in Museum Learning Scenario ..... 376
Binyue Cui, Shigeki Yokoi

A User-Centric uncertain data model for Homogeneous Service ................. 380
Xin Gao, Wenhui Hu, Rundong Li, Wei Ye

Effect Evaluation for Airfield Target Based on Queuing Theory .............. 386
WU Jian LIU Xin-xue SHU Jian-sheng LI Ya-xiong HAO Hui

Economy Analysis for a Comprehensive Model of Emergency Reserve and Supermarket .......................................................... 391
Yuanhui Xiu, Xiwu Han

Using LBS to Construct an E-learning Environment .................................. 395
Tung-Hsiang Chou, Che-Wei Fan

A Middleware for Smart Object in Ubiquitous Computing Environment ........ 400
EunJung Ko, JiHoon Kang, JongHyun Park

Automatic Registration of Remote Sensing Image with Moderate Resolution ........ 404
Qiang Wang, Yahui Qiu, Ximin Cui, Guo Wang

Integrating Similar Images to Effectively Improve Image Retrieval Accuracy ...... 410
Hai Thanh Mai, Myoung Ho Kim

A Self-learning Stateful Application Identification Method for Deep Packet Inspection ................................................................. 416
Uday Trivedi

The Study of Feature-Level Fusion Algorithm for Multimodal Recognition ....... 422
Xiaona Xu, Yue Zhao, Haijun Li
Increase the Hiding-bit Capacity and Strength for Text Watermarking with the Line Intersection on Text Image ................................. 427
Wiyada Yawai, Nualsawat Hiransakolwong

New Methods and Tools for the Development and Verification of Safety Functions during Development of Pedestrian Detection Systems ............................. 434
Hadj Hamma Tadjine, Karsten Schulze, Rene Roellig, Herold Daniel

Real-Time Moving Target Detection in the Dynamic Background .............. 439
Qin Yue, Mao Zheng, Yuan Jian Jian, Qu Jin Song

BER and Throughput Analysis of X-OR Network Coded D-F Relays alongwith LDPC Channel Coding ................................................. 444
Tariq Aziz, Ishtiaq Ahmad, Nasir Saleem, Lin Zhang, Jiaru Lin

Path Clustering using Dynamic Time Warping Technique ....................... 449
Kelvin Lo Yir Siang, Siak Wang Khor

Visualizing Futuristic Ubiquitous Media Services - A Collaborative Approach in the Newspaper Industry ..................................................... 453
Carina Ihlström Eriksson

A Metadata-orientated Integrated Approach to Personal File Management ........ 459
Md Maruf Hasan, Chutiporn Anutariya, M Zau Ja

System Architecture In the Dynamic Environment Based On Commonality and Variability Business Processes .................................................. 465
Ahmad Nurul Fajar, Eko K.Budiardjo, Zainal A. Hasibuan

Designing Solutions to Problems - From co-design approach ....................... 470
Ya-Ling Ko, Wen-Huei Chou

A Fingerprinting-Based Plagiarism Detection System for Arabic Text-Based Documents ................................................................. 477
Ameera Jadalla, Ashraf Elnagar

RGB Digital Image Forgery Detection Using Singular Value Decomposition and One Dimensional Cellular Automata ................................. 483
Dr. Mohammad V. Malakooti, Ahmad Pahlavan Tafti, Faezeh Rohani, Mohammad Amin Moghaddasifar

An Optimized Lumped Element Improved Performance Hybrid Directional Couplers ................................................................. 489
Mazhar B. Tayel, Hani S. Alhakami
A Real-Time Sand Simulation using a GPU ............................................. 495
Dieudonné Nkulikiyimfura, Jee-In Kim, HyungSeok Kim

Multiresolution Volumetric Medical Data Modeling Based on Gaussian Curvature by Using Weighted Alpha Shapes ................................................................. 499
Kun Lee

A Content Based Retrieval Method For MR Brain Images ....................... 505
Abduljawad A. Amory, Hassan I Mathkour, Rachid Sammouda

Object Localization using Intended Signal Blocking in Passive UHF Far-Field Systems .................................................................................................................. 510
Jae Sung Choi, Hee Kuk Kang, Jung Eun Kim, Dong Ha Lee, Hyun Lee

Extraction of Brain Tumor Based on Morphological Operations ............. 515
Kiran Thapaliya, Goo-Rak Kwon

Graph Classification based on Top near optimal Co-occurrence Graph patterns of size-k ............................................................................................................. 521
Maniraguha Muhamad, Nyirabahizi A., Ntawumeyikizaba A., YK Lee, SY Lee

Comparative Analysis On Evaluation Results of Case Base Reasoning Classification and ANN Classification On Mammogram Mass Detection ................................. 527
Valliappan Raman, Patrick Then, Putra Sumari

A Decision Support System for Cancer Prevalence in South Africa .......... 532
Nosipho Dladlu, Okathe P. Kogeda

Self - Monitoring for the Horizontal Fragmentation Evolution based on Ants in the Relational Datawarehouses ................................................................. 538
Mohamed BARR
Track 2. ICNIT

Achieving Maximum Performance for Matrix Multiplication using Set Associative Cache ................................................................. 542  
Sasko Ristov, Marjan Gusev

Using Grammar Patterns to Evaluate Semantic Similarity for Short Texts ........ 548  

A QoS based Handover Decision (Nearest Performance Handover) Algorithm for Next Generation Networks ........................................... 554  
Fazal Wahab Karam, Terje Jensen

Understanding the Requirement Engineering for Organisation: The Challenges ................................................................. 561  
Azlena Haron, Shamsul Sahibuddin, Mazlan Harun, Nor Hawaniah Zakaria, Mohd Naz’ri Mahrim, Noorihan Abdul Rahman

Thi Hong Nhan Vu, Quang Hiep Vu, Yang Koo Lee, The Duy Bui

Enhanced Weighted K-Nearest Neighbor Algorithm for Indoor Wi-Fi Positioning Systems ................................................................. 574  
Beomju Shin, Jung Ho Lee, Taikjin Lee, Hyung Seok Kim

Dynamic Replica Replacement Strategy in Data Grid ........................................... 578  
Alexis M. Soosai, Azizol Abdullah, Mohamed Othman, Rohaya Latip, Md. Nasir Sulaiman, Hamidah Ibrahim

High Efficiency Transmission Scheme Based on Improved CP-EBPSK Modulation ................................................................. 585  
Man Feng, Lenan Wu

The Influence Factors to The Enterprise Microblogs - A Research of The Restaurant Enterprise Microblogs on Weibo.com ...................... 590  
Yinbin Liu, Ph.D. Mengyao Shi, M.A.

Common-Sense Reasoning in Constructive Discursive Logic .......................... 596  
Seiki Akama, Kazumi Nakamatsu, Jair Minoro Abe
Complex Event Processing (CEP) Based Friend Informer Application .............. 602
Rustam Rakhimov Igorevich, Eldor Primov Ismoilovich, Thoeun Chheav Hun, Dugki Min

On Content-based Image Synthesis ................................................... 607
Ting-Zhu Dai, Chang-Sheng Tan, Qing Liu

An Efficient Algorithm for Web Transaction Pattern Mining .................... 613
zaipingTao

An Adaptive Transmission Scheme for Wireless Sensor Networks over Slow Fading Channels ................................................................. 617
Hieu T. Nguyen, Tor A. Ramstad, Ilangko Balasingham

i-Questionnaire - A Software Service Tool for Data Analysis in e-Business .... 622
Andy S.Y. Lai, Y.C. Poon

An Effort Re-estimation Technique Using Defect Analysis And Risk Assessment .... 628
Kamol Kitbamrung, Worasit Choochaiwattana

A Framework For Financial Analysis System and a Test of CAPM ............. 634
ShaoPeng Tong

Development of the Digital Public Address System .................................. 638
Jung-Sook Kim

Adaptive and Fast HDR Image Sensors - Resources of the CMOS Multiple Exposure ................................................................. 643
M.M. Balas

Anomaly Detection using New MIB Traffic Parameters based on Profile ......... 648
Patthama Sangmee, Nithi Thanon, Nittida Elz

A Compensating Power Control Method Based on Interference Detection ....... 654
Jie Huang, Lin Chen

Improved Static Desynchronization Scheme For Clos-Network Switches ........ 659
Che-Hsi Chao, Yarsun Hsu

A Dynamic Route Switching Method for Inter-Vehicle Networks .............. 665
Shih-Chang Huang
Ismail Ahmedy, Md Asri Ngadi, Syaril Nizam Omar

Weighted Average Problem revisited under Hybrid and Malicious Model .......... 677
H. Xiong, Echo P. Zhang, T.W. Chim, S.M. Yiu, Lucas C.K. Hui

Hybrid Parent Selection for Peer-to-Peer Multimedia Streaming ............... 683
Ricky Y. T. Hou, Yiu-Wing Leung

Hierarchical and Heterogeneous Mobile Agent-based Wireless Sensor Networks (HHMA-WSN) ................................................................. 688
Kassem Saleh, Nidal Nasser, Anwar AlYatama

Next Generation Networks (NGN) in the Mexican Rural Context ............... 692
Alberto Colin, Eduardo Alvarez, Arturo Serrano

A Review on Artificial Intelligence Techniques for Developing Intelligent Honeypot ................................................................. 696
Wira Zanoramy Ansiry Zakaria, Miss Laiha Mat Kiah

Integrated Orchestration of Web Services and the Impact of the Query Optimization ................................................................. 702
Agni Dika, Festim Halili

Research on Description Method for SOA-based Network Management System with Fractal Characters ................................................ 709
Xi-lin Ji, Gang Xiao, Yong-qiang XIE, Run-qing ZHANG

A General Configurable Wireless Sensor Network System Based on SD Card ...... 713
Jianfeng Chen, Shouyi Yin, Dajiang Liu, Hui Gao, Shaojun Wei

Source Address Validation based SIP Security Service Model ....................... 717
HU Jinlong, LIAO Bin, QIN Bujie

Dynamic TXOP Allocation to Support QoS Based on Channel Conditions in Wireless Networks ................................................................. 721
Kwangsung Ju, Dongho Lee, Kwangsue Chung

Research on Location Based Service Implementation .................................. 725
Luo Zhaohui, Hao Jie, Zhang Fang
A Simple Method to Secure the Integrating a Key Distribution in to Digital Signature Standard

Song-Kong Chong, Shu-Fen Chiou, Min-Shiang Hwang

729

The Batch Verifying Multiple Digital Signature Scheme: A Modified Version of Ohta-Okamoto Digital Signature

Min-Shiang Hwang, Ting-Yi Chang, Wei-Pang Yang

732

Elbow Movement Detection using Brain Computer Interface

Farid Ghani, Musfira Jilani, Mohit Raghav, Omar Farooq, Yusuf Uzzama Khan

736

Korean Chess Game Implementation by Hand Gesture Recognition using Stereo Camera

Xianghua Li, Kwang-Seok Hong

741

Objective Quality Assessment based on Low Bit Rate Audio

Xuan Jiang, Ze Hu, Yanming Zhao, Hui Shi

745

Parallelism Optimization with Variables Affinity Graph for Reconfigurable Computing Architecture

Shizhu Liu, Shouyi Yin, Chongyong Yin, Leibo Liu, Shaojun Wei

749

A General Architecture Framework for Data Manipulation and Representation in WSNs

Anh-Vu Dinh-Duc

753

Scale Invariant Feature Transform Algorithm based on a Reconfigurable Architecture System

Hui Gao, Shouyi Yin, Peng Ouyang, Leibo Liu, Shaojun Wei

759

Mobile Application for Diabetes Control in Qatar

Saleh Alhazbi, Moh'd Alkhateeb, Abdulla Abdi, Ahmed Janahi, Ghazi Daradkeh

763

Design and Implementation of Mobile Widget Composition Framework and Tool for End-User

Rui Zhou, Haiya Meng, Xinchun Liu, Shu Hu, Jing Li, Jinghai Rao, Canfeng Chen

767

Near Field Communication for Pilgrim Services

Mohamed A. Mohandes

771

Advance Learning Tools for Students with Attention Deficit Hyperactivity Disorder

Nor Azlina Ab. Aziz, Kamarulzaman Ab. Aziz, Anuar Mohd Yusof, Avijit Paul

775
Performance Comparison of Genetic Algorithm’s Crossover Operators on University Course Timetabling Problem .......................... 781
Wutthipong Chinnasri, Soradech Kroothjohn, Nidapan Sureerattanan

Design of a Teaching Framework for Software Requirement Prioritization .......... 787
Soroush Forouzani, Rodina Ahmad, Sepehr Forouzani, Nasim Gazerani

Architecture for Realizing Cloud-based IT infrastructures ..................... 794
Philipp Berndt, Matthias Hovestadt, Odej Kao

DUPROSY: Dual Probabilistic System for Biochemical Activity Prediction ...... 800
J. Sidorova, G. Caltabiano, A. Drougov, M. Campillo

Improving Network Performance of Healthcare Services using Content Centric Network Model .................................................. 804
Prasertsak U-Aroon, Panjai Tantatsanawong

The Application of Bi-level Programming with Stackelberg Equilibrium in Cloud Computing based on Simplified Swarm Optimization ...................... 809
Wei-Chang Yeh, Yuan-Ming Yeh, Li-Min Lin

Pattern Search Particle Swarm Optimizer For Global Optimization of Multimodal Functions ............................................................... 815
Li LiGang, Zhang ZhaoHui, Dai YongShou

Vehicle Requirement Analysis of an AGV System using Discrete-Event Simulation and Data Envelopment Analysis ......................................... 819
Muhammad Hafidz Fazli bin Md Fauadi, Wan-Ling Li, Tomohiro Murata, Anton Satria Prabuwono

Quantitative Design Method for AHP Hierarchy Structure using Axiomatic Design ........................................................................... 824
Hyunki Cho, Woo-Je Kim

Hardware as a Service (HaaS): The Completion of the Cloud Stack ............... 830
Alexander Stanik, Matthias Hovestadt, Odej Kao

GUI Design Based on Cognitive Psychology: Theoretical, Empirical and Practical Approaches .......................................................... 836
Chee Kit Yee, Choo Seah Ling, Wong Seok Yee, Wan Mohd Nazmee Wan Zainon

Exploring the Potential of Applying Information and Communication Technology among the Farming Community in Malaysia .................... 842
Tan Shiang-Yen, Lee Heng Wei, Mohd Azam Osman, Nurul Malim
Factors Influencing the Usage of Ubiquitous-Based Mobile Devices .................. 846
Changsu Kim, Mirsobit Mirusmonov

Designing A Pervasive Pet Social Game For A Mobile Phone ...................... 852
Chien-Yu Lai, Wen-Huei Chou

Study on Incentive Mechanism for Knowledge-based Innovation of Cluster Alliance Enterprise ................................................................. 858
Tang JinQuan, Ren JinFang

Technologies and Innovation Matrix for Behavior-Motivation-Embedded Web 2.0 Services ................................................................. 863

An Exploration of Integrating Multimedia into Financial Education in the Elementary Schools ............................................................... 867
Chia-Ping Ma, Hsin-Ke Lu, Peng-Chun Lin

Exploring the Development of a Web-Based Archive Retrieval System: A Case Study at the Institute of Modern History. Academia Sinica .................. 873
Shu-Hui Chang, Hsin-Ke Lu, Chia-Hui Lo

Toward an methodology for SST-based service design: A customer journey perspective ................................................................. 878
Huey-Jiuan Yeh, Lee-Chuan Chuang, David Chien-Liang Kuo

Designing and Developing a Value-add Portable System for 3PL in the Publishing Industry ................................................................. 884
Alex Po-Hsien Li, Hsu-Chen Cheng, David Chien-Liang Kuo
