# Proceedings

## Keynote Papers

### Keynote Papers

Utilization of weather station data for the assessment of ground surface moisture flux [F](#)

D.G. Fredlund & J. Stianson

Some applications of unsaturated soil mechanics [FJ](#)

A. Gens

The role of unsaturated geomechanics in desertification due to salt damage [FE](#)

A. Iizuka, K. Kawai, S. Nomura, S. Tachibana, S. Ohno & T. Pipatopongsa

Some applications of unsaturated soil mechanics in Thailand: an appropriate technology approach [FI](#)

W. Mairaing, A. Jotisankasa & S. Soralump

Calculation of heave of deep pier foundations [FI](#)

J.D. Nelson, K.C. Chao, D.D. Overton & R.W. Schaut

In-situ and laboratory investigations of stress-dependent permeability function and SDSWCC from an unsaturated soil slope [FI](#)

C.W.W. Ng & A.K. Leung

Shrinkage induced pressure measurements in unsaturated expansive clays [FJG](#)

A.J. Puppala, T. Wejrungsikul, V. Puljan & T. Manosuthikij

Unsaturated soil mechanics for slope stabilization [FEG](#)

H. Rahardjo, A. Satyanaga & E.C. Leong

The development of unsaturated soil mechanics at Imperial College, London [FFI](#)

J.R. Standing

Climate change and the role of unsaturated soil mechanics [FHI](#)

D.G. Toll, J. Mendes, P.N. Hughes, S. Glendinning & D. Gallipoli

Some mining applications of unsaturated soil mechanics [FI I](#)

D.J. Williams

## Stress-Strain & Strength Characteristics

Lateral strain due to drying and triaxial compression of unsaturated soil [FI I](#)

M. Shimizu, K. Shimogaki & Y. Kimachi

Properties of compression of unsaturated clay and examination of effective stress by collapse test [FI G](#)

H. Suzuki, R. Tsutsumi & Y. Okano

The unsaturated shear strengths of two compacted collapsible soils [FI I](#)

R. Nuntasarn & D.A. Cameron

The undrained shear strengths of unsaturated khon kaen loess [FI H](#)

R. Nuntasarn

Strength reduction of gap-graded cohesionless soil due to internal erosion [FI J](#)

L. Ke & A. Takahashi

Examination of critical state for unsaturated soils using the suction stress in unconfined compression test [FJI](#)

B.S. Kim, S. Kato & S.W. Park

Shear behavior of shiraz silty clay determined using osmotic direct Shear box [FGEF](#)

A. Hamidi, G. Habibagahi & M. Ajdari

Stress-strain behavior and shear strength of unsaturated residual soil from triaxial tests [FGEI](#)

T.T. Nyunt, E.C. Leong & H. Rahardjo

Curvi-linear shear strength envelope for granitic residual soil grade VI [FGEF](#)

M.J. Md.Noor & A. Derahman

- A novel suction-controlled biaxial apparatus for unsaturated soils [ÁGFí](#)  
 J.A. Cruz, L.R. Hoyos & A. Lizcano
- Relationship between Poisson's ratio and soil suction for unsaturated soils [ÁGCH](#)  
 W.T. Oh & S.K. Vanapalli
- Application of suction stress on compacted silty sands in unconfined compression test [ÁGHE](#)  
 H.G. Kwon, S.W. Park, B.S. Kim & S. Kato
- Variation of shear strength of weathered granite soil with water content [ÁGHí](#)  
 Y.T. Kim, H. Shin & D.K. Park
- Applicability of suction stress for unsaturated shear strength [ÁGG G](#)  
 S. Kato, B.S. Kim & S.W. Park
- Effects of shear box size on the strength for different type of silty sands in direct shear tests [ÁGí ì](#)  
 R.Z. Moayed & A. Alizadeh
- Radial stress paths in triaxial tests on compacted Boom clay: stiffness and anisotropy [ÁGí í](#)  
 G.D. Vecchia, C. Jommi & E. Romero

### Constitutive Modelling and Fundamentals

- Discussions on the simulations of an unsaturated soil model accounting for hydraulic [ÁGí F](#)  
 hysteresis and effects of porosity change  
 M. Morvan, H. Wong & D. Branque
- Mathematical model of soil/water/air coupled problem for unsaturated soils considering mass transfer within pore-water [ÁGí ï](#)  
 S. Nomura, K. Kawai, A. Iizuka, S. Tachibana & S. Kanazawa
- Constitutive modeling of unsaturated soils using a refined suction-controlled cubical test cell: final observations [ÁGí H](#)  
 L.R. Hoyos, A.J. Puppala & D.D. Pérez-Ruiz
- Critical state modeling of lower-bound threshold stress for clay subgrade [ÁGí €](#)  
 R.B.H. Loh & H.R. Nikraz
- Effective stress in unsaturated soils under wetting and drying [ÁGí Î](#)  
 S. Zargarbashi & N. Khalili
- A constitutive model for unsaturated cohesionless soil-structure interfaces [ÁGGF](#)  
 A. Lashkari
- Thermodynamics of unsaturated soils [ÁGí ï](#)  
 R. Tamagnini, R.A. Hiley, M. Mavroulidou & M.J. Gunn
- Elasto-plastic constitutive model for expansive soils with a concept of fully saturation curve [ÁGH](#)  
 S. Tachibana, Y. Takayama, A. Iizuka, K. Kawai, S. Ohno & I. Kobayashi
- Experimental investigation on an effective stress law in compacted clayey/silty soil [ÁGHJ](#)  
 E.E. Alonso & E. Romero

### Soil-Water Characteristics and Hydraulic Behaviour

- Hysteresis of soil water extracted by a refined tensiometer method [ÁÁFí](#)  
 H. Terasaki & T. Fukuhara
- Prediction of soil water characteristics curves using SPSS [ÁÁGF](#)  
 A. Johari & A.A. Javadi
- Influence of PS consolidation on permeability of unsaturated soil [ÁÁGí](#)  
 M.S. Shao, Y.B. Wang, S.J. Wang, E.Z. Wang & Z.X. Li
- The relationship between the microstructure and the water retention properties of a natural loess from Northern France [ÁÁHG](#)  
 J. Muñoz-Castelblanco, P. Delage, J.M. Pereira & Y.J. Cui
- Size effect on soil-water characteristic curve of clay-gravel mixture [ÁÁHí](#)  
 J.P. Yuan & G.Q. Ding
- Influence of different suction control methods on soil-water characteristic curves of a

decomposed granite soil [ÁÁÍ H](#)

F. Ajima, H. Komine & S. Murakami

Inverse analyses of disk infiltrometer tests [ÁÁÍ Í](#)

E.C. Leong, T.T. Nyunt & H. Rahardjo

Modeling soil-water characteristic curve using EPR [ÁÁÍ G](#)

A. Ahangar-Asr, A.A. Javadi & A. Johari

Modelling the dependency of soil-water characteristic curves on initial density [ÁÁÍ Í](#)

A.N. Zhou, D. Sheng & J.P. Carter

Evaluating the accuracy of unsaturated hydraulic conductivity determined by instantaneous profile method [ÁÁÍ H](#)

Y.L. Zhang, R. Chen, J.H. Li & J. Xu

Comparison of soil water retention curves obtained by filter paper, high capacity suction probe and pressure plate [ÁÁÍ Ì](#)

T. Noguchi, J. Mendes & D.G. Toll

Obtaining unsaturated soil properties for high volume change oil sands materials [ÁÁÍ Í](#)

D.G. Fredlund, J. Stone, J. Stianson & A. Sedgwick

### Advances in Experimental Technique

Calibration of the osmotic technique of controlling suction using a miniature tensiometer [ÁÁÍ €](#)

A.M. Tang, Y.J. Cui, L.X. Qian, P. Delage & W.M. Ye

Cavitation in high suction tensiometers: effect of temperature, time of use, and stone drying [ÁÁÍ Í](#)

S.D.N. Lourenço, D. Gallipoli, D.G. Toll, C.E. Augarde & F.D. Evans

Characteristic stress-strain relationship of unsaturated soil by a method for making clay specimen using micro wave [ÁÁÍ JG](#)

H. Suzuki & Y. Okano

Measurement of pore-water and pore-air pressure in unsaturated soil [ÁÁÍ Ì](#)

K. Sako, T. Danjo, R. Fukagawa & H.H. Bui

Proposed method for obtaining representative water content and matric suction of a cracked soil [ÁÁÍ €](#)

S. Krisnanto, H. Rahardjo & E.C. Leong

Calibration of TDR probes to measure water content in pyroclastic soils [ÁÁÍ €](#)

R. Papa & M.V. Nicotera

Null-type axis-translation technique: is it applicable to soils with low saturation? [ÁÁÍ FÍ](#)

N. Kurucuk, J. Kodikara & D.G. Fredlund

### Jc`i a Y=

### Soil Improvement

Expression of self-hardening property of coal fly-ash with the constitutive model [ÁÁÍ G](#)

V. Phommachanh, F. Maegawa, K. Kawai & A. Iizuka

Thermal characteristics of phosphoric acid treated tropical soils [ÁÁÍ HE](#)

A. Eisazadeh, K.A. Kassim & H. Nur

Issues involved in using Temperature to Improve the Mechanical Behavior of Unsaturated Soils [ÁÁÍ H](#)

J.S. McCartney

Potential of potassium silicate reinforcement technique for earthen relics protection in moist areas regarding shear strength of unsaturated soil [ÁÁÍ €](#)

Y.B. Wang, S.J. Wang, L. Li, R. Chen, X.Z. Zhang & W.D. Lei

Large scale tests on the expansiveness of resin-injected clay [ÁÁÍ Í](#)

S.G. Fityus, O. Buzzi & E. Imre

An investigation of the effects of cementation and suction on lime treated London Clay [ÁÁÍ F](#)

M. Mavroulidou, X. Zhang, M.J. Gunn & Z. Cabarkapa

Deformability properties of Soil-MSW Fly Ash Mixtures for Pavements Base [ÁÁÍ Í](#)

G.O.C. Vizcarra, M.D.T. Casagrande, L. Szeliga & L.M.G. Motta

## Geo-Environmental Engineering

Hysteretic seepage analysis in unsaturated soil covers [ÁÁ Î H](#)

C. Yang, D. Sheng & J.P. Carter

Effect of bentonite quality on the hydraulic and compressibility behaviour of soil-bentonite mixtures in the presence of salt solution [ÁÁ Î J](#)

A.K. Mishra

Variation in air entry suction of nonwoven geotextiles with pore size distribution [ÁÁ Î Í](#)

J.W. Eun & J.M. Tinjum

Unsaturated transport of ebullition gas through sediment capping geotextiles and sand [ÁÁ Î F](#)

J.W. Eun & J.M. Tinjum

The exchange of mechanical properties and mineralogy of sandy clay soil after [Á Á Î Ï](#) electrochemical injection

A. Rachmansyah, Y. Zaika & B. Poerwadi

Diesel migration in sand under groundwater movements [ÁÁ JH](#)

S. Sudsaeng, S. Yimsiri, G. Flores, T. Katsumi, T. Inui & S. Likitlersuang

## Cyclic Behaviour & Dynamics

An empirical model for shear modulus and damping ratio of unsaturated soils [ÁÁ JJ](#)

M. Biglari & I. Ashayeri

Effects of soil dynamic properties and bedrock depth on seismic response of building frames incorporation soil-structure interaction [ÁÁ Æ](#)

H.R. Tabatabaiefar, B. Fatahi & B. Samali

Effective stress method on threshold stress of clay under high rate cyclic loading [ÁÁ FF](#)

R.B.H. Loh & H.R. Nikraz

Effect of moisture content on cyclic deformation characteristics of granular material under moving wheel loads [ÁÁ FÍ](#)

A. Inam, T. Ishikawa & S. Miura

Effects of vibration frequencies on dynamic characteristics of unsaturated undisturbed loess [ÁÁ GG](#)

Y.S. Luo, Z.J. Wang, Y. Li & H. Guo

Estimation of P-wave velocities for unsaturated geo-materials [ÁÁ G](#)

Z.Y. Cheng & E.C. Leong

Characterization of small-strain behavior of water repellent soils using a resonant column test [ÁÁ HH](#)

D.H. Kim, T.S. Yun, C. Lee & J.S. Lee

Effect of compaction energy on shear wave velocity of dynamically compacted silty sand soil [ÁÁ H](#)

B. Indraratna, A. Heitor & C. Rujikiatkamjorn

## Shrink-Swell Behaviour

Swell rate and aging effects on a bentonite sand mixture [ÁÁ I I](#)

M.A. Dafalla & M.A. Al-Shamrani

Effect of clay layer thickness on desiccation cracking [ÁÁ I Ì](#)

A. Chegenizadeh & H.R. Nikraz

Investigation on shrinkage behaviour of Kaolin clay [ÁÁ Í G](#)

A. Chegenizadeh & H.R. Nikraz

Prediction of desiccation crack depths allowing for shear failure [ÁÁ Í Î](#)

S.D. Wijesooriya & J. Kodikara

Influence of structure damage to the yielding of expansive soils [ÁÁ Î G](#)

Z.H. Chen, Z.H. Yao & Q.Q. Miao

Study on meso-structure changes of remolded expansive soils during wetting-drying cycles and triaxial soaking test [ÁÁ Î Ì](#)

Z.H. Yao, Z.H. Chen & J.H. Zhang

Identification of potentially expansive soils causing longitudinal cracks along pavement shoulder in central Thailand [ÁÁÍÍ](#)

A. Sawangsuriya, A. Jotisankasa, B. Vadhanabhuti & K. Lousuphap

Mechanisms of longitudinal cracks along pavement shoulder in central Thailand [ÁÁÌF](#)

A. Jotisankasa, B. Vadhanabhuti, K. Lousuphap & A. Sawangsuriya

### **Slope Stability and Stabilization**

Slope stability analysis with change in apparent cohesion and seepage force [ÁÁÌÌ](#)

E. Calo, K. Sako, R. Kitamura & M. Tabata

Influence of cracks on the stability of a cracked soil slope [ÁÁJI](#)

Z.F. Wang, J.H. Li & L.M. Zhang

Comparison studies of soil hydraulic properties model on slope stability analysis [ÁÁ€F](#)

M. Mukhlisin, M.R. Baidillah & M.R. Taha

Effect of soaking on stability of cut slope in granitic residual soil [ÁÁ€](#)

M.J. Md.Noor & B. Hadi

Simulation of behavior of a slope model with a shallow subsurface sand layer due to rainfall [ÁÁFH](#)

Y. Kohgo, N. Tokoro, A. Togari & M. Shimamura

Development of rainfall hazard envelope for unsaturated infinite slope [ÁÁFJ](#)

H. Shin, Y.T. Kim & D.K. Park

Effectiveness of horizontal drains in improving slope stability: a case study of landslide event in Putra Jaya Precinct 9, Malaysia [ÁÁG](#)

J. Ahmed, M.A. Ghazali, M. Mukhlisin, M.N. Alias & M.R. Taha

Superficial treatment of slope surface to reduce rain water infiltration [ÁÁHF](#)

M. Pirone & G. Urciuoli

### **Infiltration & Hydrogeology**

Study of the ratio of the infiltration time and gravitational characteristic time action: comparison of numerical and experimental results [ÁÁH](#)

S. Bouchemella, I. Alimi-Ichola & A. Seridi

Estimation of water diversion provided by capillary barrier of soils [ÁÁÁIH](#)

S. Nakafusa, K. Kobayashi, T. Morii & Y. Takeshita

Infiltration of water thorough a clayey-sand in wetting and drying portions of SWCC [ÁÁÌÌ](#)

G. Adelian, A. Mirzaii & S.S. Yasrobi

Influence of surface grading on infiltration [ÁÁÍI](#)

E.J. Nelson, J.D. Nelson, K.C. Chao & J.B. Kang

Infiltration and evaporation from bare soil: a comparison between experimental data and predictive models [ÁÁÍJ](#)

M. Caruso & C. Jommi

Numerical simulation of tension infiltration experiment monitored by 3D ERT [ÁÁÎÍ](#)

D. Zumr, M. Snehota & M. Cislerova

An experimental study of salt movement and accumulation within unsaturated granular road pavements [ÁÁÏF](#)

R. de Carteret, O. Buzzi & S.G. Fityus

### **Foundation Engineering, & Soil-Structure Interaction**

Inclined load capacities of drilled shafts in unsaturated soil environments [ÁÁÏÌ](#)

T. Wejrungsikul, A.J. Puppala, R.S. Williammee, Jr., P. Ruttanaporamakul & L.R. Hoyos

Numerical modeling of the seismic behavior of pile group in soil slopes [ÁÁÏH](#)

S.A. Naeini & M. Hamidpoorzare

Factors influencing design of deep foundations on expansive soils [ÁÁÏJ](#)

K.C. Chao, J.D. Nelson & D.D. Overton

### **Bio-Engineering & Vegetation Effects**

Effects of induced vegetative moisture uptake in an unsaturated soils [ÁÁ Jí](#)

N. Ali & M.A. Muñazu

Numerical prediction of unsaturated ground behavior influenced by vegetation and vacuum consolidation [ÁÁ €F](#)

C. Rujikiatkamjorn, B. Indraratna & B. Fatahi

Effective water harvesting using capillary barrier of unsaturated soils [ÁÁ ě](#)

T. Morii, M. Inoue, G. Komatsu, R. Kadoguchi & Y. Takeshita

An experimental investigation on suction influence zone induced by plant transpiration [ÁÁ FF](#)

K.X. Woon, A.K. Leung, C.W.W. Ng, L.M. Chu & B.C.H. Hau

Effect of vetiver grass (*Vetiveria zizanioides* Nash) on pore-size distribution and unsaturated moisture content of highland soil [ÁÁ Fí](#)

V. Udomchoke, P. Jiwapornkupt & P. Chuchip

### **In-situ Testing & Ground Profile**

Assesment of void index variation with suction and of swelling pressure. Variation of in situ soil stiffness with moisture content [ÁÁ Ĝ](#)

J.C. Gress

Subsurface in situ determination of dynamic properties of coral reefal limestone, Jeddah city, Saudi Arabia [ÁÁ ĜJ](#)

M.A. Rashed, M.A. Eliwah, K.N. Sediek & A.S. Mansour

Stiffness profiles of residual soil sites using continuous surface wave method [ÁÁ Hí](#)

A.M.W. Aung & E.C. Leong

Application of electrical resistivity method to detect deep cracks in unsaturated residual soil slope [ÁÁ I F](#)

E.A. Suryo, C. Gallage, B. Trigunaryyah, I.B. Mochtar & R.A.A. Soemitro
