IADC/SPE Asia Pacific Drilling Technology Conference 2012

Catching the Unconventional Tide: Winning the Future Through Innovation

Tianjin, China
9-11 July 2012

Volume 1 of 2

# TABLE OF CONTENTS

## Volume 1

SPE 149625 Innovative Whipstock Technology / Procedures Successfully Complete Challenging Low-Side, Uncemented Casing Exits: UK North Sea ................................................................. 1
  Andrew Finite, James Bain, Alan Fairweather, James Ford

IADC/SPE 151018 Applying Simultaneous Variable Control Strategies for ROP Optimization and Offshore Well Costs Mitigation ............................................................................. 8
  M. G. Falsta, A. L. Martins

IADC/SPE 151020 Friction Factor Correlation for Viscoelastic Fluid Flows through Eccentric Elliptical Annular Pipe ........................................................................................................... 23

IADC/SPE 152836 Existing and New Coating Technologies for Drilling and Completion Applications ................................................................. 33
  R. S. Lauer

IADC/SPE 152917 Extreme Fast Track: Combined Subsea HPHT Horizontal Production and Exploration Well .................................................................................................................. 40
  Adriaen Nelemans, Stein Howland, Bård Haukland, André Ivarjord Rasbak

IADC/SPE 152934 Development of a Software System for Drilling Optimization using Surface and Downhole Drilling Data Modeling a Human Process for Drilling Optimization .......... 48
  Chris Hanley, Simon Stuart, Chad Bass, Alexis García

IADC/SPE 153700 Second Generation Interval Control Valve (ICV) Enhances Operational Efficiency and Inflow Performance in Intelligent Completions ............................................. 58
  Jameel Rahman, Clifford Allen, Gireesh Bhat

IADC/SPE 154003 Reactive and Weak Zone Drilling Solution: Non-retrievable Casing Drilling ................................................................. 64
  M. Faizol M. Jusoh, Keith Won Shao Wang

IADC/SPE 154649 Effect of Liquid Invasion and Capillary Pressure on Wireline Formation Tester Measurements in Tight Gas Reservoirs ......................................................... 76
  Joshua Thomas Andrews, Hassan Bahrami, Reza Rezaee, Sultan Memhood, Hossein Saleni, Hamidreza Pourabed

IADC/SPE 154830 Evaluation of Dispersants for Drilling Fluids based on Manganese Tetraoxide ................................................................. 86
  Abdallah M. Al Maajil, Abdul Rehman, Mohamed Al-Bagoury, Hisham A. Nasr-El-Din, Christopher D. Steele

IADC/SPE 154846 Challenges in Deep Shale Gas Drilling: A Case Study in Sichuan Basin ................................................................................................. 99
  Gao Li, Haoxin Liu, Yingfeng Meng, Xueshuang Leng, Hongjun Jia, Hongtao Li, Jinke Hu

IADC/SPE 155056 Real-Time Bed Boundary Mapping And Formation DIP Image To Navigate Well At Channel Sand – A Case Study ................................................................. 108
  Muhammad Natsir, Nurul Hasani, Tabagus Nasiruddin, Adjie Setiawan, Yus Willian, Julianta P. Panjaitan, Laurence Reynolds

IADC/SPE 155440 Drilling Performance Optimization on Malaysia’s First Coiled Tubing Drilling Pilot Project: A Case Study ................................................................................................. 138
  A. A. Abdul Rahman, N. E. Hamzah, N. Ahmad Fauzi, H. El-Hariry, J. R. Jenie, Y. Chaari

IADC/SPE 155505 Unique Flow-Back Chemistry for Enhancing Productivity of Low-Permeability Reservoir ................................................................................................. 148
  Hui Zhang, Pavel Martinescu, William Foxenberg

IADC/SPE 155532 Embracing the Challenges - Installation of the Deepest Level 4 Multilateral Cemented Junction ................................................................................................. 156
  Wen Hua An, Xue Qiang Teng, Xiang Tong Yang, Deng Xiang Bai, Calvin Ponton, Doug Durst

IADC/SPE 155536 Fighting Wellbore Instability: Customizing Drilling Fluids Based on Laboratory Studies of Shale-Fluid Interactions ................................................................. 166
  Sandra Gomez, Wenwu He

IADC/SPE 155540 Pore Pressure and Fracture Gradient Prediction in Shale Gas Formations: Accounting for Complex Rock Properties and Anisotropies ........................................... 176
  Shuding Li, Cary Purdy, Shiguo Wu

IADC/SPE 155566 The Drilling Technique of the Parallel Horizontal Well of Steam-Assisted Gravity Drainage and Vertical Well Connectivity .............................................................................. 186
  Minghua Nie, Wenbo Zhang, Zongyu Lu, Zhaofei Wang, Yinghao Liu

IADC/SPE 155578 Biodiesel-based Drilling Fluids ................................................................................................................................. 192
  Meishan Wang, Mingbo Sun, Hongyan Shang, Songlin Fan, Meiquan Liu, Fupeng Liu

IADC/SPE 155579 Application of Down-hole Screw-type Pressure Intensifier for ROP Enhancement ................................................................. 196
  Meishan Wang, Jun He, Yong He, Yi Xu, Jian Zhao
IADC/SPE 155858 Successful Development of Changbei Marginal Tight Gas Field: Dual Lateral Horizontal Well and Significant Drilling Performance Improvement .................................................... 396
Erlhao Gao, Harshit Desai, Si-Boon Wee, Hongkai Zhao, Xiongfei Wang, Jin Yang
IADC/SPE 155878 Coiled Tubing Working Life Prediction Based on BP Algorithm of Artificial Neural Network.......................................................... 410
Peng Song, Jian-Qiu Xiao, Yi Tian, Ye Zhang, Jie Feng, Zhi-Jian Hu
IADC/SPE 155879 Simulating Experiments of Hydrate Perforating Process .......................................................... 416
Qingfa Hu, Feng Zhu, Weiping Lv
IADC/SPE 155881 Wavelet Packet Noise Reduction Algorithm Based Near-bit Resistivity Measurement Method and Device ........................................... 428
Hengtian Jia, Limin Sheng, Xiufeng Dou, Le Deng, Kang Guan, Jinhui Fan
IADC/SPE 155882 Research on Treatment of Abandoned Water-based Drilling Fluid by Low Pressure Distillation Process ........................................... 435
Youhua Wang, Fuchang Shu, Xingjin Xiang, Yan Zhang, Gang Luo, Mingzhao Huang
IADC/SPE 155885 Research and Development of Contactless Power Coupling System in Rotary Steering Tool ........................................................................ 443
Weiping Ai, Lei Zhang, Le Deng
IADC/SPE 155886 Design and Application of 735hp (4000m) Plateau Mountain Rig .......................................................... 448
Zengxuan Yan, Hongwei Xu, Guanghui Liu, Qinghong Li, Jianhong Wang, Xianping Ma, Peng Zhao, Qingyu Li, Shiquan Yang, Lin Sun
IADC/SPE 155887 Under-balanced Drilling Technology Applied in China’s CBM Exploitation .......................................................... 452
Yan Xia, Ruichen Shen, Guangjie Yuan, Lihui Zheng, Maoa Tian, Jingzui Li
IADC/SPE 155888 Application of Smart Packer Technology in Underbalanced Completion .......................................................... 457
Chao Chen, Yu Lei, Deji Liu, Yuchuan Yin, Tao Wang, Xiaohui Li
IADC/SPE 155890 Research and Application of Horizontal Drilling for CBM .......................................................... 468
Ruichen Shen, Lei Qiao, Li Fu, Henglin Yang, Wen Shi
IADC/SPE 155892 One New Needle Technology of Remote Intersection between Two Wells and Application in Chinese Coalbed Methane Basin .......................................................... 473
Zhongqian Tian, Ruichen Shen, Lei Qiao
IADC/SPE 155895 Analysis of Cemented Casing Mechanical Failure under Arbitrary In-situ Stress Field Coupling Effects of Downhole Pressure and Temperature .......................................................... 481
Yong Li, Jingping Yuan, Fengchong Qi, Shaoliang Liu, Zhuhai Wang, Congfeng Qu
IADC/SPE 155897 Application of Aluminum & Amino Drilling Fluid in Drilling Encountering Massive Coal ........................................................................ 490
Kaijun Xiong, Pingping Ma, Fukua Yong, Feng Qian, Ronghui Yang, Youpeng Meng
IADC/SPE 155906 Applying Integrated Fracturing Technology For Unit To Achieve Efficient Development Of Low Permeability And Complex Lithologic Reservoir .......................................................... 502
Changyu Liu, Jianwu Xu, Zengwei Long, Lichun Cong, Gao Su, Kai Chen, Biansheng Li, Zhanwei Li
IADC/SPE 155908 The Drilling Fluid Technology for the Top Formation in South Los Tan Blocks of Turkmenistan .......................................................... 507
Baojun Li, Liuhua Gao, Changming Wang, Zhispeng Lin, Xiaobin Yang, Xiangyang Zhao, Changgeng Zhang
IADC/SPE 155911 The Horizontal Massive Multistage Fracturing Meet the Challenging Tight Gas Field Development Strategy .......................................................... 516
Feng Wang, Yining Zhang, Hongbo Zi, Qiuping Pang, Guangyu Liu, Zhaopeng Zhu, Bianhong Li, Yongwei Duan
IADC/SPE 155921 Trapping Damage Analysis of Water Locking/Aqueous Phase of Tight Sandstone Gas Reservoir in Ke Keya Structure .......................................................... 521
Hongjie Lu, Jiangshe Guo, Yongkang Wang, Min Yang, Wenze Nan

Volume 2
IADC/SPE 155945 Complicated Drilling in Extremely Thick Ultra-Deep Salt Formation in Tarim - Case of KeShen Well 7 ................................................................. 577
   Wenhua An, Xueqiang Feng, Da Yin, Hongjun Liang, Yan Ye, Chunsheng Wang, Yingjin Cui, Xiaochun Li
IADC/SPE 155958 Fishbone Well Drilling and Completion Technology in Ultra-thin Reservoir ................................................................. 584
   Guangxin Xing, Faxiang Guo, Cheng Song, Yongcai Sun, Jing Yu, Guangxin Wang
IADC/SPE 155965 Horizontal Drilling and Cementing Technology of The Gas Storage in LiaoHe Oil Region .................................................. 589
   Zhongwei Zhu, Sheng Wu, Yiu Yang
IADC/SPE 155970 A New Fracturing Fluid of Low Concentration .......................................................... 600
   Guo-Jianshe, Bo Zhao, Ao Xu, Hongjie Lu, Zijun Li
IADC/SPE 155993 Double Shoulder Connection Technology Enables Exploration and Production of Ultra-deep Prospects – Case Histories and Lessons Learned in Xinjiang, China ........................................... 609
   Jingmin Zhao, Linhu Ma, Guillaume Plessis, Yongjun Zhu, Qiang Lu, Jianwen Su, Peng Liu
IADC/SPE 156073 Drilling and Frac Stimulation Waste Management in Unconventional Gas Projects in Sichuan, China ........................................... 619
   J. Zhu, J. Chen, G. De Blak
IADC/SPE 156176 Successful Application of ESPs in Bohai Bay Development ........................................... 625
   Ed Sheridan, Zia Janjua, Jim McRae, Sanjay Paranjpi, Michael Long
IADC/SPE 156177 Peninsular Malaysia Coiled-Tubing Drilling Case Study: Atypical Approach to an Unconventional Drilling Technique ........................................... 634
   A. A. Abdul Rahman, N. E. Hamzah, M. S. A. Razak, N. Ahmad Faazi, J. R. Jenie, H. E. Haririy, Y. Chaari
IADC/SPE 156179 Hybrid Fracturing Treatments Unleash Tight Oil Reservoirs Consisting of Sand Shale Sequences in the Changqing Oilfield ........................................... 642
   Zongqiang Zhou, Lijun Mu, Xianwen Li, Wen Zhao, Xiaodong Wang, Xiangqian Bu, Wenxiang Wang, Peng Pang
IADC/SPE 156181 Hydra-jetting Staged Horizontal Completion via Multiple Sliding Sleeve in Changing Sandstone Tight Gas Reservoir ........................................... 650
   Yonggao Xu, Zhenfeng Zhao, Yujian Wang, Yanning Zhang, Xu Ma, Kuangsheng Zhang, Xiangang Lai, Chunyang Zhou
IADC/SPE 156182 The New Development of Multi-stage Fracturing Technology of Multilayer Vertical gas Wells In Sulige Tight Gas Field ........................................... 657
   Tianchao Zhu, Gangdan Fu, Yang Ren, Huaqiang Zhang, Fengxia Zhao, Jie Gu, Zaiqiang Wang
IADC/SPE 156183 Application of Cluster Well Drilling Technology in Sulige Gas Field ........................................... 664
   Zongqiang Zhou, Longjian Cai, Jianmin Li, Fucheng Zhang, Xuesheng Wu, Haige Wang, Manchong Ju, Ouyang Yong
IADC/SPE 156187 Application of Multi-branch Horizontal Well Technology in CBM Drilling ........................................... 671
   Naizhong Duan, Zhimin Gong, Helin Wang, Zengshun Wang, Linxu Lv, Qingquan Huang, Zhili Xu
IADC/SPE 156191 Research and Application of BH-ATH (Anti-three high) Drilling Fluid System ........................................... 677
   Minli Zhang, Zongyan Tian, Shaoying Xu, Dianbin Dong, Da Yin, Fengqiang Zuo, Changshu Wang, Li Yin, Liang Ren
IADC/SPE 156193 Clean Sand Consolidation Technology Research and Application ........................................... 690
   Zhiyong He, Guijun Wang, Sasa Cao, Wei Dang, Fengxian Zhou, Qiangjia Gu
IADC/SPE 156199 Complication Circumstance Directional and Horizontal Wells Drilling Technology in Iran ........................................... 697
   Chao-Hui Fu, Hu Zhao, Zhi-Sen Yun, Yu-Qiang Tang
IADC/SPE 156221 The Influence of Wellbore Stability on the Feasibility of Extended Reach Drilling Wells: A Case Study from Offshore Vietnam ........................................... 700
   Feng Gui, Abbas Khaksar, Todd Gilmore, Ngo The Duong
IADC/SPE 156236 Multistage Pulse Deep Penetrating Perforation Technology ........................................... 709
   Weishan Zhang, Zhaohui Wang, Fengchun Liu, Guo Xiong, Shuhua Wang, Jinyang Jiang
IADC/SPE 156239 The First Real Time Reservoir Characterization, Well Placement and RSS Applications in Shale Gas Horizontal Well Play in Central China - A Case Study ........................................... 716
   Xing Liang, Ji Sheng Lou, Yong Qiang Zhang, Jie Hui Zhang, Lei Zhang, Ju Song, M. H. Parulindungan, Rana Khalid Habib, Guo Yu Dai, Aamir Singh Bisain
IADC/SPE 156240 A New Model of Bit Whirl ........................................... 726
   Yevhen Kovaiyschen
IADC/SPE 156249 Integrated Drilling and Evaluation Solution to Improve Malaysia Deepwater Exploration Drilling Efficiency and to Mitigate Potential Drilling Hazard ........................................... 730
   Rosli Hamzah, Khalil Mohamed M Banoek, Kityo Chen Sze Wei, Keith Sissons, Lim Kien Ming, Ng Kwai Loong
IADC/SPE 156252 Solving Slow Drilling/Hole Deviation Issues: Modeling Effort Increases ROP by 250% Saving Operator 14-Days Rig Time, Turfan Basin China ........................................... 740
   Dong Zhen Tao, Jing Zhang Long, Lai Bi Zhi, Wenza Nan, Xiao Long Zhang, Tom Kang, Simon Downie, Colin Ke, Jim Li Jun Zhao, Mike Hong Yong Zhang, Xiao Jun Liu
