2012 International Symposium on Ubiquitous Virtual Reality

ISUVR 2012

Table of Contents

Message from the Program Chair ................................................................. vii
Organizing Committee ..................................................................................... viii
Advisory Committee ......................................................................................... ix
Steering Committee ........................................................................................ x
Technical Program Committee ....................................................................... xi
Reviewers .......................................................................................................... xii

Session 1: Tutorial
A User Study Trends in Augmented Reality and Virtual Reality Research: A Qualitative Study with the Past Three Years of the ISMAR and IEEE VR Conference Papers ........................................ 1
   Si Jung Jun Kim

Session 2: Invited Papers
Immersive Telepresence: Transcending Space and Time ............................. 6
   Zhengyou Zhang
Physical-Virtual Humans: Challenges and Opportunities ......................... 10
   Greg Welch
Trends and Vision of Head Mounted Display in Augmented Reality .......... 14
   Kiyoshi Kiyokawa
From Interactive to Adaptive Augmented Reality ...................................... 18
   Didier Stricker and Gabriele Bleser
**Session 3: Dual Space Interaction**

DigiLog Space: Real-Time Dual Space Registration and Dynamic Information Visualization for 4D+ Augmented Reality  .................................................................22
  
  Taejin Ha, Hyeongmook Lee, and Woontack Woo

Digital Restoration of Seokguram Grotto: The Digital Archiving and the Exhibition of South Korea's Representative UNESCO World Heritage ........................................26
  
  Jin ho Park

**Session 4: User Experience**

Designing for Human-Centered Curricular Experience - A Study on Engaging Academic Career Management System Interface Design ...............................................................30
  
  Orlando João Borges Jr. and Young Yim Doh

A Study on the Relationship between Educational Achievement and Emotional Engagement in a Gameful Interface for Video Lecture Systems ........................................34
  
  Haksu Lee and Young Yim Doh

**Session 5: Depth Information**

Putting Real-World Objects into Virtual World: Fast Automatic Creation of Animatable 3D Models with a Consumer Depth Camera .................................................................38
  
  Hwasup Lim, Seong-Oh Lee, Jong-Ho Lee, Min-Hyuk Sung, Young-Woon Cha, Hyoung-Gon Kim, and Sang Chul Ahn

Local Feature Descriptors for 3D Object Recognition in Ubiquitous Virtual Reality ........................................................................................................................................42
  
  Youngkyoon Jang and Woontack Woo

**Session 6: Context of Interest**

Contextual Information Provision on Augmented Reality with IoT-Based Semantic Communication ..................................................................................................................46
  
  Heesuk Son, Seungwook Han, and Dongman Lee

Linking Functionality for Ubiquitous Virtual Reality ........................................................................................................................................50
  
  Yoosoo Oh and Woontack Woo

**Author Index** ........................................................................................................................................53
