2012 IEEE International Games Innovation Conference

(IGIC 2012)

Rochester, New York, USA
7 – 9 September 2012
Table of Contents

From Arcades to Apps .......................... 1  
Seamus Blackley

What Is Fun? ................................. 2  
Ian Bogost

Virtual Worlds and Their Discontents: Who Will Refuse to Enter the Matrix and Why... 3  
Cory Doctorow and Charles Stross

The Skylanders Story: Successfully Combining Toys and Video Games ............... 4  
Paul Reiche

GamiMUSTication: Transforming Learning to Drive 21st Century Skills............ 5  
Anthony Salcito

Breaking into the Game Industry........................................................... 6  
Ian Schreiber

Engaging Interactivity Using Gesture Control Technologies.......................... 7  
Vincent John Vincent

Assistive Design and Production in Computer Games: Parametric Systems, Data  
Mining, Visual Analytic................................................................. 8  
Bardia Aghabeigi, Magy Seif El-Nasr, Thomas Calvert and Mirek Riedewald

The Game of Life Science: Self-Directed Learning in a Middle School Classroom........ 12  
Gerald Ardito

Teaching Game AI through Minecraft Mods.............................................. 17  
Jessica Bayliss

Lazy Eye Shooter: a novel game therapy for visual recovery in adult amblyopia....... 21  
Jessica Bayliss, Indu Vedamurthy, Mor Nahum, Dennis Levi and Daphne Bavelier

An Online Game of Carrom with Live Video Feed of Coplayer and Face-to-Face: Effect  
on Strike Response Time................................................................. 25  
Abhishek Bharadwaj and Kavita Vemuri

Implementing a Game Design Course as a Multiplayer Game ......................... 29  
Kevin Bierre

Learning from User Experience in Games................................................ 33  
Matthias Brandstetter and Samad Ahmadi

When the games industry and academia collide: What we learn from each other........ 39  
Craig Caldwell, Robert Kessler, Roger Altizer and Mark van Langefeld

Blaze: A Serious Game for Improving Household Fire Safety Awareness............ 43  
Veronica Cole, Aaron Dechamplain, Eric Rosendale, Ian McCabe, Matthew Stephan  
and Bill Kapralos

Gamification of Citizen Sensing through Mobile Social Reporting.................... 47  
David Crowley, John Breslin, Peter Corcoran and Karen Young
RESTful Massively Multi-User Virtual Environments: A Feasibility Study .......................... 52
*Thomas Debeauvais, Arthur Valadares and Cristina Lopes*

*Adrienne Decker, Christopher Egert, Andrew Phelps and Jerome McDonough*

Studying the Past by Playing the Future .............................................................. 60
*Christopher Egert, Elizabeth Goins and Andrew Phelps*

Using Open Source Libraries in Cross-platform Game Development .................. 64
*Ruairi Fahy and Liam Krewer*

Next Generation E-education: Bringing Fully-Interactive Content Into University Labs Classrooms .............................................................. 69
*Imran Haddish*

An Architecture for Game Interaction using Mobile Devices ............................ 73
*Mark Joselli, Jose Ricardo Da Silva Junior, Eduardo Soluri, Marcelo Zamith, Esteban Clua, Mateus Pelegrino and Evandro Mendonça*

Techniques for Designing GPGPU Games ......................................................... 78
*Mark Joselli, Eduardo Soluri, Jose Ricardo Da Silva Junior, Marcelo Zamith, Esteban Clua, Evandro Mendonça and Mateus Pelegrino*

A Course on the Design and Development of Serious Games and Virtual Simulations ...... 83
*Bill Kapralos*

Creating Tangible Cultural Learning Opportunities for Indigenous Dance with Motion Detecting Technologies .............................................................. 87
*Muqeem Khan and Penny de Byl*

Integration of mobile game development into introductory CS courses: lessons learned .... 90
*Stan Kurkovsky*

What’s In Your Toy Box: Toolboxes for Learning .................................................. 94
*Steve Kurtz and Nancy Doubleday*

Dynamic Quest Generation in Micro Missions .................................................... 99
*Yana Malyshcheva*

Video Games as a Medium for Software Education ............................................ 102
*Bradley Marques, Ken Nixon and Stephen Levitt*

The effects of ambient motion speed on player performance in video games ............ 106
*Dinara Moura, Magy Setf El-Nasr and Lyn Bartram*

How much sport is in sport games? .............................................................. 111
*Joery Mueller-Lietzko*

From Exercise to Socialize: Improving Peer Relations in the Fitness Center .......... 116
*Daniel Nystrom, Alexander Nalbandian, Matthias Reichenbach and Brian O’Keefe*

Linking In-Game Events and Entities to Social Data on the Web .......................... 121
*Owen Sacco, Maciej Dabrowski and John Breslin*
