TABLE OF CONTENTS

VOLUME 1

PLENARY PANEL: PANAMA CANAL EXPANSION - IMPLICATIONS FOR THE U.S. GULF AND EAST COAST PORTS
Moderator: Richard A. Wainio

The Panama Canal Expansion Implications for Gulf and East Coast Ports ................................................................. 1
Marianela Dengo de de Obaldía

The Dynamics of the US Container Market and Shifting Trade Patterns - Implications for East Coast and Gulf Coast Ports ................................................................. 20
Jeff Sweeney

SESSION 1.1: AIRLINE INDUSTRY STRUCTURE AND PRICING
Session Moderator: Alan Bender

Is the Decision to Code-Share a Route Different for Virtual versus Traditional Code-Share Arrangements? ................................................................. 30
Yan Du, B. Starr McMullen

Assessing the Strategic Evolution of U.S. Low Cost Airlines in the Post – 9/11 Environment ........................................... 65
Carl Scheraga, Paul Caster

The Impact of Recent US & European Airline Mergers on Industry and Airport Concentration Levels ............................................. 79
Aisling Reynolds-Feighan

Airline Fare and Seat Management Strategies with Demand Dependency ................................................................. 92
K. Obeng, R. Sakano

SESSION 1.2: TRANSPORTATION AND THE ENVIRONMENT 1
Session Moderator: Michael Babcock

The Economics of Sourcing Cellulosic Biomass for Energy Production ........................................................................... 101
David Ripplinger, Thein Maung, Cole Gustafson

Designing An Environmental Policy to Reduce Social Costs of Aircraft Emissions ......................................................... 102
Arthur Shantz

The Transportation Emission Impact of the Biomass Feedstock Traffic of A Potential Commercial-Scale Biorefinery in East Tennessee .................................................. 117
T. Edward Yu, Joshua S. Fu, James A. Larson, Burton C. English, Daniel De La Torre Ugarte, Bradly Wilson, Jeongran Yun, Yuan Gao, Jimmy Calcagno III

Sustainable Freight Transportation: A Review of Strategies ......................................................................................... 129
Kusumal Ruamsook, Evelyn A. Thomchick

SESSION 1.3: RAIL PASSENGER TRANSPORTATION
Session Moderator: Frank Mulvey

Factors to be Considered in Planning High Speed Rails: Time, Population, Economic Markets, and Track Mileage .................................................................................. 166
Curtis Bradley, Judith Mwakalonge

An Analysis of the Chinese High-Speed Rail from the American Perspective ................................................................. 178
Chien Wen Yu, Neala Menz, Corrine Hunter, Yuan Ying Chen, Pamela Farias

Individual Freight Effects, Capacity Utilization, and Service Quality ........................................................................... 195
Betty Krier, Chia-Mei Liu, Brian MacNamara, Jerrod Sharpe

SESSION 1.4: URBAN TRAVELER CHOICES
Session Moderator: Marcus Bowman

Commuters Attitudes to Frequency of Delays Days on Their Routes ........................................................................... 196
Nikhil Sikka, Paul Hanley

The Role of Street Network Pattern in Daily VMT: A Behavioral Analysis of a National Road User Study Participants ................................................................. 197
Paul Hanley, Suyun Ma
Transportation and the Environment: Cars, Parking and Sustainability ................................................................. 198
    Shannon Sanders McDonald

Bus Network Design Using Genetic Algorithm ................................................................................................. 210
    Hadi Sadrsadat, Hossein Poorzahedi, Ali Haghani, Elham Sharifi

SESSION 1.5: HIGHWAY CONSTRUCTION AND MONITORING
    Session Moderator: Utpal Dutta

Development of Utility Tools for the Innovative Construction Approach ......................................................... 226
    Utpal Dutta, Kirtik Patel, Patricia Martinico

Modeling Pavement Performance and Preservation ................................................................................................. 238
    Pan Lu, Denver Tolliver

GPS-Based Highway Performance Monitoring Performance Monitoring Using GPS: Characterization of Travel Speeds on any Roadway Segment........................................................................ 257
    Alain Kornhauser

SESSION 2.1: PANEL -RESEARCH ADDRESSING PUBLIC TRANSPORTATION CHALLENGES
    Session Moderator: Dennis Hinebaugh

Critical Issues Facing Public Transportation ........................................................................................................ 314
    Steven E. Polzin

Smart Phones and Smart Travelers ......................................................................................................................... 330
    Sean J. Barbeau

SESSION 2.2: RAIL FREIGHT TRANSPORTATION
    Session Moderator: C. Gregory Bereskin

A Comprehensive Rail Rate Index for Grain ........................................................................................................... 345
    Adam Sparger

Grain and Oilseed Shipment Sizes and Distance Hauled by Rail ......................................................................... 352
    Marvin E. Prater, Adam Sparger

Productivity Improvements in the U.S. Rail Freight Industry 1980-2010 ................................................................. 375
    Carl D. Martland

Rail Freight Traffic: An Analysis to Better Understand the Industry and the Factors that Influence Traffic ......................................................................................................................... 411
    Paul Lewis

SESSION 2.3: MARITIME DEMAND, SAFETY, AND SECURITY
    Session Moderator: Isaac Shafran

Embedding Shippers' Preferences in a Simulation Model of a Congested Segment of the Upper Mississippi River ......................................................................................................................... 431
    Kevin Sweeney, Donald Sweeney, James Campbell

Choosing a Port: An Analysis of Containerized Imports into the U.S. ................................................................. 433
    Adams B. Steven, Tom Corsi

Determinants of Vessel-Accident Bunkers Spillage ................................................................................................. 434
    T.L. Yip, Wayne Talley, Di Jin

    Weihao Yin

SESSION 2.4: HIGHWAY SAFETY 1
    Session Moderator: Wei Fan

Use of Hybrid Static-Dynamic Signs: A Critical State-of-the-Practice Review ................................................... 456
    Dibakar Saha, Albert Gan, Kirolos Haleem, Felix H. Delgado

The Attitudes of Qatari Nationals and White-Collar Resident Workers Towards the New Traffic Law in Qatar ......................................................................................................................... 491
    Elawad Elmogiera

Modeling the Injury Severity of Young Drivers Using Highway Crash Data from Kansas ........................................ 492
    Niranga Amarasingha, Sunanda Dissanayake
PLENARY PANEL: FINANCING THE FUTURE TRANSPORTATION SYSTEM
Moderator: Daniel Dornan

Aviation Infrastructure Financing: Focus on the United States Case .......................................................... 510
Tae H. Oum

Financing the Future Transportation System: Developing Country Finance .................................................. 521
Andreas Kopp

Financing the Future Transportation System: Latin American Airport Financing ........................................ 527
Bijan Vasigh

Financing Urban Highways and Transit ........................................................................................................... 537
Clifford Winston

The Role of Public-Private Partnerships and Tolls on Financing Highway Infrastructure ................................ 542
Brad Watson

SESSION 3.1: PANAMA CANAL IMPACTS
Session Moderator: Paul Bingham

The Impacts of the Panama Canal Expansion on World Cotton Trade .......................................................... 546
Rafael Costa, Parr Rosson

Pulsating Market Boundaries and Spatial Arbitrage in US Gulf Region: Impact of Panama Canal Expansion on US Agriculture ........................................................................................................... 569
Sumadhur Shakya, William W. Wilson, Bruce Dahl

The Panama Canal Expansion: Implications for U.S. Inland Transportation .................................................. 607
Randolph R. Resor, Eric Gabler

A Game Theoretic Approach to Understanding Port Privatization Decisions: The Case of Panama Transshipment Ports ........................................................................................................................... 641
Anthony M. Pagano, Onésimo Sánchez, Ricardo Ungo

SESSION 3.2: TRANSPORTATION AND THE ENVIRONMENT 2
Session Moderator: T. Edward Yu

A Model for Evaluating Emission Benefits and Economic Effects after Closing Drive-Thrus .......................... 642
Hetal Bhatt, Stephen Mattingly, Melanie L. Sattler, Antonio Massidda

Evaluation of the Impacts of Land Use Household Vehicle and Trip Characteristics on Automobile-Specific Carbon Dioxide (CO2) Emissions ................................................................. 643
Saidi Siuhi, Judith Mwakalonge, Jason Reed, Judy Perkins

Themes and Challenges in Making Freight Transport Sustainable: A Logistics Service Providers’ Perspective ................................................................................................................................. 644
Maisam Abbasi, Fredrik Nilsson

VOLUME 2

SESSION 3.3: HIGHWAY FUNDING AND TOLLING
Session Moderator: Michael Bronzini

Transitioning to a New Financing Structure for U.S. Roads in the 21st Century ............................................... 660
Marcus Bowman, Gabriel Roth

Are Land-Use Planning and Congestion Pricing Mutually Supportive? Evidence from a Pilot Mileage Fee Program in Portland, OR ........................................................................................................ 669
Zhan Guo, Aasha Agrawal, Jennifer Dill

The Short-Run Impact of Gas Prices Fluctuations on Toll Road Use .............................................................. 670
Chao Huang, Mark Burris

SESSION 3.4: ASPECTS OF PUBLIC TRANSIT AND URBAN LIFE
Session Moderator: Art Guzzetti

Influence of Network Structure and Urban Form on Multimodal Public Transit Utilization .......................... 671
Yu Zhang, Makarand Gawade

Ride or Relocate? Transportation and Housing Options for Senior Adults .................................................... 672
Del Peterson, Marc Scott

Understanding Gender Effect on Commuter’s Transportation Mode Choice .................................................. 673
R. Sakano
SESSION 3.5: AVIATION SAFETY AND SERVICE
Session Moderator: Steve Leon

Safety Impact Assessment of the End-Around Taxiway at the Dallas/Fort Worth International Airport Using ASDE-X Data ................................................. 674
Stephen Mattingly, Antonio Massidda

The Relationship Between Characteristics Associated with High Reliability and Commercial Aircraft Accident Rates........................................................................... 682
Patrick D. O’Neil, Kenneth Kriz

Predicting Block Time: An Application of Quantile Regression .................................................. 683
Tony Diana

SESSION 4.2: BUS TRANSPORTATION AND EQUIPMENT MANAGEMENT
Session Moderator: Albert Gan

An Analysis of Transit Bus Driver Distraction Using Multinomial Logistic Regression Models.............................................. 695
Kelwyn A. D’Souza, Sharad K. Maheshwari

Characteristics of Bus Transit Vehicles in the United States: How They Have Changed Over a Quarter Century............................................. 727
Li Tang, Albert Gan, Fabian Cevallos

Equipment Replacement Decision Making: Opportunities and Challenges........................................... 742
Wei Fan, Mason D. Gemar, Randy Machemehl

A Multistage Stochastic Optimization Model for the Optimal Transportation Fleet Management Problem ........................................................................ 755
Wei Fan

SESSION 4.3: INFRASTRUCTURE PLANNING AND IMPACTS
Session Moderator: David Ripplinger

Methodology to Measure the Benefits and Costs of Rural Road Closure: A Kansas Case Study................................. 756
Michael W. Babcock, Abhinav Alakshendra

Effect of Transportation Infrastructure on Food Manufacturing Industries in the United States............................... 794
Tingting Tong, T. Edward Yu

Regional MPO Alliances in Florida: A Model for Setting Megaregion Transportation Policies? .......................... 795
Karen E. Seggerman, Jeffrey Kramer

Alternative Funding for Mobility in Florida ................................................................................. 812
Karen E. Seggerman, Kristine M. Williams, Arthur C. Nelson, James C. Nicholas, Pei-Sung Lin, Aldo Fabregas

SESSION 4.4: URBAN TRANSPORTATION POLICY
Session Moderator: Norbert Mundorf

Relationships Between Land Use and Freight and Commercial Truck Traffic in Metropolitan Areas..................... 838
Michael S. Bronzini

The Effects of Urban Sprawl on Daily Life ................................................................. 855
Andrew Brunner

The Effect of Attitude on Mode Choice: Evidence from NHTS, 2009 .................................................. 864
Mintesnot Woldeamanuel

The Impact of On-Street Parking Availability on the Car Ownership of Households with Off-Street Parking ........................................................................ 875
Zhan Guo

SESSION 5.1: TRANSPORTATION PLANNING, POLICY AND IMPACTS
Session Moderator: Paul Bingham

Surface Transportation: The Case for Growth ................................................................................ 876
Michael S. Bronzini

The Relationship Between Vehicle Miles Traveled and Economic Activity ................................................... 895
B. Starr McMullen, Nathan Eckstein

Accessibility and Residential Property Price Resilience to Economic Downturns: Evidence from Limited Access Roadways ........................................................................ 896
Sisinnio Concas, Arjun Chauhan
**SESSION 5.2: URBAN TRANSIT**  
Session Moderator: Paul Hanley

</table>
Impetus to Short Sea Shipping Lines through Marine Highways: Trade Growth between Latin America and U.S. ............................................................... 968
EunSu Lee

Evaluation of Intermodal Marine Container Terminal Gates via Simulation ........................................................................................................... 969
Jeffery Karafa, Mihalis M. Golas

SESSION 6.2: TRUCKING 1
Session Moderator: Jack Ventura

Toxic Air Pollutants and Trucking Productivity ................................................................. 981
Yan Heng, Siew Hoon Lim, Junwook Chi

The Impact of Hours of Service Changes to Motor Carrier Profitability and Productivity .............................................................. 982
Ahren Johnston

Impact of Stale Rates in Truckload Shipments ................................................................ 991
Bobby J. Martens, Yoshinori Suzuki

SESSION 6.3: PASSENGER TRANSPORTATION - AIR AND SURFACE
Session Moderator: Yu Zhang

Airports of the Future: Air transportation by the year 2050 ........................................... 992
Rosa Maria Arnaldo, Ricardo Román, Francisco Javier Sáez, Javier Crespo, Jose Félix Alonso

Promoting Behavior Change Among Campus Commuters ............................................. 994
Tat Fu, Norbert Mundorf, Colleen Redding, Andrea Paiva, James Prochaska

Public Transportation Challenges in America: What can we Learn from Mid-Size Cities in Latin America? ......................................................... 1026
Jorge Diaz

SESSION 7.1: TRANSPORTATION SAFETY
Session Moderator: Jack Ventura

Distracted Driving Effects on CMV Operators .................................................................. 1050
Jonathan Martin

Women and Health: A Study of Female Shift Workers In the Transportation Industry ................................................................. 1062
Patrick Sherry, Allison Bondanza

Multi-Vehicle Collisions Involving Large Trucks on Highways: An Exploratory Discrete Outcome Analysis .......................................................... 1064
Mouyid Islam, Salvador Hernande

Accommodating Oversize/Overweight Vehicles at Roundabouts: Survey Results and Preliminary Designs .................................................. 1095
Ranjit Godavarthy, Eugene R. Russell, Dean Landman

SESSION 7.2: DISASTERS AND EMERGENCIES
Session Moderator: Eunsu Lee

Highway Network Restoration After Disasters ............................................................... 1117
Ponlakshep Lertworawan, Montri Dechasakulsom, Bhanitz Assawakijich

Some Canadian Disasters: Their Measurement and their Impact on Measurement .......................................................................................... 1125
Gordon G. Baldwin

SESSION 7.3: TRUCKING 2
Session Moderator: Okorocha Obi William

Transporting Water for Hydraulic Fracturing ................................................................. 1148
Christopher DeHaan, Denver Tolliver

Costa Rica-Related Trucking in the Pan-American Corridor ......................................... 1149
Jane MacAngus, Jeannette Montufar, Jenny Chaverri

Improving Log Transportation with Data Based Monitoring and Analysis in Northern Wisconsin and Upper Peninsula of Michigan ........................................................................ 1165
Richard Stewart, Pasi Lautala, Elizabeth Ogard, Hamed Puryousef, Janne Vartiainen, Alan Siers, Kenneth Chong
SESSION 7.4: HIGHWAY DEMAND AND CONGESTION
Session Moderator: Alain Kornhauser

Highway Capital Accumulation and Induced Travel ......................................................................................... 1167
Sisinnio Concas

Analysis, Characterization, and Visualization of Freeway Traffic Data in Los Angeles ............................................. 1168
Scott Chacon, Alain Kornhauser

The Effect of Augmented Driver Behavior on Freeway Traffic Flow ........................................................................... 1215
Scott Chacon, Alain Kornhauser

A Time and Money Constrained Model of Household Vacation Destination and Mode Choice Behavior ................................................................................................................................. 1245
Caleb Van Nostrand, Vijay Sivaraman, Abdul Pinjari

ADDITIONAL PRESENTATIONS AND ABSTRACTS

Trends and Issues in Container Transport Operations ................................................................................................. 1246
Libby Ogard

How Tomorrow Moves: CSX ........................................................................................................................................... 1257
N/A

Smother Moves: Trends and issues in the Container Transport Operations ................................................................. 1260
Paul Federico

Trends in Federal Transportation Policy ...................................................................................................................... 1266
Joshua Schank

Trends and Issues in Container Transport .................................................................................................................... 1276
Larry Shughart

Airline Fare and Seat Management Strategies with Demand Dependency ................................................................. 1287
K. Obeng, R. Sakano

Assessing the Strategic Evolution of U.S. Low Cost Airlines in the Post-9/11 Environment ........................................... 1288
Carl Scheraga, Paul Caster

Designing Environmental Policies for Aircraft Emissions ........................................................................................... 1290
Arthur Shantz

The Impact of Recent U.S. & European Airline Mergers on Industry and Airport Concentration Levels .................................................................................................................................................. 1291
Aisling Reynolds-Feighan
