Some format issues inherent in the e-media version may also appear in this print version.
### TABLE OF CONTENTS

**FRACTURED RESERVOIR MODELLING – RECENT PROGRESS AND PROMISING PERSPECTIVES**

B. Bourbiaux, R. Basquet, A. Lange, L. Y. Hu .......................................................... 1

**RESTARTING A HISTORY-MATCHING STUDY FOR AN EXISTING RESERVOIR MODEL**

Mickaële Le Ravalec-Dupin, Frédéric Roggero .......................................................... 9

**USING SEISMIC VELOCITIES TO IMPROVE PERMEABILITY ESTIMATION OF A CARBONATE RESERVOIR**

E. Hassanzadeh, I. Maddahi, F. Talebi ................................................................. 17

**PORE-TO-FIELD MULTI-PHASE UPSCALING FOR A DEPRESSURIZATION PROCESS**

Thomas Gorm Theting, Alf Birger Rustad, Thomas Rage Lerdahl, Jan Age Stensen, Troy Boassen, Pal-Eric Oren, Stig Bakke, Philip Ringrose ....................................... 22

**UPSALING FOR IMPROVED OIL RECOVERY**

P. Zhang, G. E. Pickup, M. A. Christie ................................................................. 30

**FLEXIBLE UPSALING USING PERTURBED BOUNDARY CONDITIONS**

L. Ricard, M. Laravalec-Dupin, Y. Gueguen .......................................................... 38

**ESTIMATION OF WATER SATURATION FROM TRACER DATA**

S. O. Stalheim, R. Kleven ................................................................. 46

**OPTIMISATION OF SAGD PROCESSES BY INJECTION OF LIGHT/HEAVY HYDROCARBONS**

Gilles Darche ................................................................. 55

**IMPROVED THERMAL-STEAM TREATMENT OF HIGH-VISCOSITY OIL POOLS BY CO₂ GENERATING SYSTEMS**

L. Altunina, V. Kuvshinov ................................................................. 63

**WETTABILITY ALTERATION AND IMBIBITION EFFECTS IN STEAM RECOVERY FROM MATRIX BLOCKS IN FRACTURED RESERVOIRS**

Siyavash Motealleh, Bert-Rik De Zwart, Hans Bruining ........................................ 71

**THERMAL MODELING ANALYSIS FOR COMPLETION DESIGN OF DEEP OFFSHORE HEAVY OIL RESERVOIRS**

Felix A. Ascanio, Lanny G. Schoeling ................................................................. 79

**SELECTION OF OPTIMUM THERMAL RECOVERY METHOD FOR A HEAVY OIL RESERVOIR OF IRAN**

Behnam Sedaei Sola, Fariborz Rashidi ................................................................. 87

**LOW SALINITY OIL RECOVERY – THE ROLE OF RESERVOIR CONDITION COREFLOODS**

K. J. Webb, C. J. Black, I. J. Edmonds ................................................................. 95

**IMPROVED OIL RECOVERY BY WETTABILITY ALTERATION**

Y. C. Araujo, M. Araujo ................................................................. 102

**LINKED POLYMER SOLUTIONS FOR IMPROVED OIL RECOVERY BY WATERFLOODING**

Morten G. Aarra, Magny Bjorsvik, Harald Holland, Tore Skodvin, Dag Standes, Arne Skauge ................................................................. 110

**A COMPARATIVE EVALUATION OF FRACTURING TECHNIQUES, RELATING ECONOMIC BENEFITS TO ALTERNATIVE APPROACHES IN ZONAL ISOLATION AND SELECTIVITY**

John Fothergill, Kenji Furui ................................................................. 118

**GEL TREATMENT OF INJECTORS – THEORY AND PRACTICE**

K. M. Fedorov, N. E. Pavlov, V. E. Andreev ........................................................ 126

**SHALLOW PERFORATION SHUT-OFF WITH A NEW GEL-CEMENT SYTEM**

Jip Van Eijden, Fred Arkasteijn, Diederik Van Batenburg, Paul McGinn, Jacques Vla Vliet ................................................................. 134

**WATER SHUTOFF USING OIL-SOLVABLE CHEMICALS - AN X-RAY CT STUDY**

Koenraad Elewaut, Pacelli L. J. Zitha ................................................................. 142

**SCALES, SCALING AND SCALE-UP**

Larry W. Lake ................................................................. 150

**DISPLACEMENT OF HIGH-VISCOSITY OIL USING MICROORGANISMS**

L. Altunina, V. Osvyannikova, L. Svarovskaya ........................................................ 151

**INTERPRETATION OF MICROBIAL OIL RECOVERY FROM LABORATORY EXPERIMENTS**

E. Kowalewski, I. Rueslatten, E. Gilje, E. Sunde, G. Bodtke, B. L. P. Lillevik, T. Torsvik, J. A. Stensen, B. Bjorkvik, K. A. Strand ................................................................. 158

**LABORATORY STUDY OF “SUPER” SURFACTANTS AS CANDIDATES IN SURFACTANT FLOODING**

I. Lakatos, J. Toth, Z. Bedo, J. Lakatos-Szabo, M. Hlatki, S. Puskas, P. D. Berger, C. Lee ................................................................. 166
SUCCESSFUL APPLICATION OF HYDROCARBON MICROTREMOR ANALYSIS (HYMAS)
FOR THE IDENTIFICATION OF HYDROCARBON RESERVOIRS
................................................................. 178

THERMAL METHOD OF GAS HYDRATE FIELDS DEVELOPMENT
................................................................. 186
K. Basniev, A. Nifantov, A. Shchebetov

EFFECTS TO BE CONSIDERED WHEN PLANNING LATE STAGE DEPRESSURISATION
................................................................. 194
Dag Sandnes, Arne Skauge, Oystein Pettersen

DOWNHOLE GASIFICATION FOR IMPROVED OIL RECOVERY
................................................................. 202
M. Greaves, T. Y. Xia, R. R. Rathbone, A. H. Bentaher

WATERFLOoding OF FRACTURED CARBONATE RESERVOIRS
................................................................. 210
Tor Austad, Skule Strand, Eli J. Hoganes, Peimao Zhang

QUALITATIVE AND QUANTITATIVE STUDY OF ASPHALTENES PRECIPITATION DURING
A GAS INJECTION PROJECT
................................................................. 220
S. St̄akiotakis, N. Pasadakis, N. Varotsis, H. P. Hjermstad

WATERFLOOD EFFICIENCY FOR DIFFERENT PORE CLASSES IN CARBONATE
RESERVOIRS
................................................................. 228
Arne Skauge, Kristine Spildo, Arve Lonoy, Geir Njoten, Bard Ottesen

IMPROVED PROCEDURE FOR CALCULATING UNSTEADY-STATE RELATIVE
PERMEABILITY
................................................................. 236
A. S. Lackner, O. Torsaeter

CONTACT ANGLE DETERMINATION USING LOGS AND CAPILLARY PRESSURES FOR A
CARBONATE RESERVOIR
................................................................. 244
Behnam Sedaei Sola, Fariborz Rashidi

CHARACTERIZATION OF SULFUR IN RESERVOIR ROCKS BY ROCK-EVAL ANALYSIS
................................................................. 251
Francois Lorant, Roland Antonas, Jean Espitalie

INTERPRETATION OF DISPLACEMENT DATA OBTAINED FROM UNSTEADY-STATE
RADIAL FLUID FLOW SYSTEMS
................................................................. 259
Tibor Bodí, Janos Toth, Peter Szucs, Faruk Civan

EXPERIMENTAL EVALUATION OF H₂S YIELDS IN RESERVOIR ROCKS SUBMITTED TO
STEAM INJECTION
................................................................. 269
Violaine Lamoureux-Var, Francois Lorant

MISCIBLE GAS INJECTION ISSUES IN A THICK CARBONATE VOLATILE OIL RESERVOIR
................................................................. 277
Patrick Denby, Loris Tealdi, Michel Vert, Luigi Francia

THREE-PHASE RELATIVE PERMEABILITIES AND CAPILLARY PRESSURE BY UPSCALING
................................................................. 284
A. Lohne, G. A. Virnovsky, A. Hlorth

APPLICATION OF A NEW UPSCALING TECHNIQUE TO A MISCIBLE GAS INJECTION
FIELD STUDY
................................................................. 296
Man-Hong Hui, Louis J. Durlofsky, Xian-Huan Wen

NUMERICAL AND EXPERIMENTAL INVESTIGATION INTO THE MECHANISMS OF FIRST
CONTACT MISCIBLE SIMULTANEOUS AND SLUG WAG INJECTION
................................................................. 304
H. Al-Shuraiqi, A. Muggeridge, C. A. Grattoni

FLUID FLOW PROPERTIES OF WAG INJECTION PROCESSES
................................................................. 312
Elisabeth Iren Dale, Arne Skauge

CO₂ INJECTION FOR IOR AND STORAGE – OPPORTUNITIES AND CHALLENGES FOR THE
NORTH SEA
................................................................. 320
F. Gozalpour, S. R. Ren, B. Tohidi

A REVIEW OF THE CHALLENGING RESERVOIR ENGINEERING ASPECTS OF MODELING
THE RECOVERY FROM A LIGHT OIL, FRACTURED RESERVOIR BY AIR INJECTION
................................................................. 328
Maruro Okamoto, Bernard Bourbiaux

AIR INJECTION INTO LIGHT OIL RESERVOIRS – OXIDATION KINETICS AND
SIMULATION
................................................................. 336
M. Greaves, A. H. Bentaher, R. R. Rathbone

PROBLEMS AND PROSPECTS OF GAS METHODS FOR ENHANCING THE RESERVOIR
HYDROCARBON RECOVERY
................................................................. 344
R. M. Ter-Sarkisov

FLUID FLOW BEHAVIOUR OF GAS-CONDENSATE AND NEAR-MISCIBLE FLUIDS AT THE
PORE SCALE
................................................................. 352
Richard A. Dawe, Carlos A. Grattoni

INVESTIGATION OF PRODUCTION POTENTIAL OF THE „HOSSZÚPÁLYI-SOUTH”
GASFIELD SUPPOSING DIFFERENT DRIVING MECHANISMS. CASE STUDY
................................................................. 360
Zsolt Bihari
A STUDY OF IOR BY CO$_2$ INJECTION IN THE GULLFAKS FIELD, OFFSHORE NORWAY ......................................................... 368  
H. Agustsson, G. H. Grinstaff

NUMERICAL SIMULATION OF TERTIARY CO$_2$ INJECTION AT IVANIC OIL FIELD, CROATIA ......................................................... 382  
D. Domitrovic, S. Sunjerga, J. Jelic-Baltu

LESSONS FROM TRINIDAD’S CO$_2$ IMMISCIBLE PILOT PROJECTS 1973-2003 ................................................................. 390  
Lorna J. Mohammed-Singh, K. Ashok

ENHANCED OIL RECOVERY BY IN-SITU COMBUSTION PROCESS IN SANTHAL FIELD OF CAMBAY BASIN, MEHISANA, GUJARAT, INDIA – A CASE STUDY ................................................................. 400  
S. K. Chattopadhyay, Binay Ram, R. N. Bhattacharya, T. K. Das

IOR AND EOR – CHANCES FOR INCREASE OF OIL PRODUCTION AND RECOVERIES IN EXISTING, MATURE RESERVOIRS ................................................................. 412  
Jasip Secen

LEAN GAS INJECTION INTO AN EXTRA LIGHT OIL RESERVOIR-INITIAL RESULTS AND FURTHER STEPS ................................................................. 420  
Lajos Benedek, Gyorgy Palasthy, Istvan Papp, Andrea Lovei, Veronika Pipicz

THE MODERN TRENDS IN ESTIMATION OF EOR/IOR TECHNOLOGIES PROFITABILITY ................................................................. 428  
A. Y. Khavkin

EOR EFFICIENCY – MYTH OR REALITY? ................................................................. 436  
R. R. Ibatullin, R. S. Khisamov, A. I. Frolov, E. D. Podymov, N. A. Lebedev, G. V. Romanov

A CHEMICAL SOLUTION TO INCREASING OIL PRODUCTION WHILST MINIMISING WATER PRODUCTION USING POLYMERIC SELECTIVE WATER SHUT OFF GELS ................................................................. 445  
J. J. Wyde, G. D. M. Williams, G. D. Williams, H. Frampton, J. Morgan

TAMPEN IOR ................................................................. 453  
Ardil Hesjedal, Stein Rune Jakobsen

POSSIBILITY TO IMPROVE THE EFFICIENCY OF GEOLOGICAL SURVEY IN FRACTURED GRANITIC BASEMENT ................................................................. 461  
Tr. L. Dong, Tr. V. Hoi, V. K. Utoplennikov, V. E. Korablinov, F. A. Kireev

IMPLEMENTATION OF SCAL DATA FOR A CAPILLARY TRANSITION ZONE ................................................................. 469  
Kristine Spildo, Arne Skauge

COMBINATION OF COMPUTED TOMOGRAPHY AND PETROGRAPHY IN RESERVOIR CHARACTERIZATION ................................................................. 477  
Remesjesen Kalleen, Swennen Rudy

A NEW GENETIC ALGORITHM (GA)-BASED TECHNIQUE TO MODEL THE EFFECTS OF CO$_2$ INJECTION ON CRUDE OIL PROPERTIES ................................................................. 485  
Mohammed K. Emera, Hemanita K. Sarma

CO$_2$ PILOT INJECTION AT IVANIC OIL FIELD – NUMERICAL SIMULATION ................................................................. 512  
Martina Tuschl, Snjezana Sunjerga, Dragutin Domitrovic

WETTABILITY EFFECTS ON CYCLIC WATERFLOODING – EXPERIMENTAL SANDPACK STUDY ................................................................. 520  
Stephen Booth, Mariela Araujo

CASE STUDY OF INTEGRATED SOLUTIONS USED TO LOCATE AND EXTRACT BYPASSED HYDROCARBONS IN THE MATURE RESERVOIRS OF THE ALGYÖ FIELD, HUNGARY ................................................................. 527  
Veronika Pipicz, Lajos Benedek, Ilona Vargane Toth, Jozsef Toth, Jeff Olson

EFFECT OF FRACTURE SPACING ON GRAVITY DRAINAGE FOR VARIOUS KM/KF RATIO ................................................................. 536  
R. Ghanbarnezhad Moghanloo, M. A. Emadi, M. Tabibi

EVALUATION OF MISCELLIE GAS INJECTION IN OIL RESERVOIRS BY MONITORING THE ASPHALTENES CONCENTRATION – MOREOIL ................................................................. 545  
A. K. Stubos, T. Aurdal, H. P. Hjemne, J. A. Stensen, N. Varotsis, P. Adler, J. Muller, O. P. Bjoerlykke, S. Puskas

AN ITERATIVE METHOD FOR THE REPRESENTATION OF TWO-PHASE FAULT ROCK PROPERTIES IN RESERVOIR SIMULATORS ................................................................. 550  
Attila Z. Vaszi, Simon D. Harris, Bader Al-Busafi, Quentin J. Fisher

ASYMMETRY OF FLUID EXCHANGE IN DEFORMABLE FRACTURED RESERVOIR - INFLUENCE ON EFFICIENCY OF PETROLEUM RESERVOIR CYCLIC STIMULATION ................................................................. 558  
A. A. Shchipanov

SIMULATION OF THE RESERVOIR BV2 WITH MULTIBRANCH WELLS, NONG-EGANSKOE OIL FIELD ................................................................. 566  
A. M. Sartakov, A. V. Byakov, I. V. Perevozkin

CAPILLARY EFFECTS IN RESERVOIR SIMULATION ................................................................. 571  

A METHODOLOGY FOR THE OPTIMISATION OF HEAVY OIL PRODUCTION STRATEGIES ................................................................. 578  
R. F. Martini, J. S. A. Cavalcante Filho, D. J. Schiozer
VIBROSEISMIC OIL STIMULATION METHOD – EFFICIENCY AND THERMODYNAMIC FEATURES OF THE OIL RECOVERY MECHANISM
E. M. Simkin

APPLICATION OF DOE TO STUDY IMPACT OF DISPERSION AND MISCEIBILITY IN WAG
A. Asheghi Hossein, T. E. H. Esmaiel, C. P. J. W. Van Kruisnaa

EXPERIMENTAL INVESTIGATION OF ASPHALTENE PRECIPITATION DURING OIL-SOLVENT FLOW IN CORE SAMPLES

MODELS OF NOT TRADITIONAL COLLECTORS – RESERVE STOCK OF THE GAS AND OIL
V. V. Berkovska

PECULIARITY OF RESERVES PRODUCTION AND OIL RECOVERY OF OIL AND GAS FIELDS
N. A. Cheremisin, P. A. Efimov, A. A. Klimov, R. A. Bulatov

EXPERIMENTAL STUDY OF WATER INJECTION IN ASMARI LIMESTONE FRACTURED ROCK
H. Karimaie, O. Torsaeter, M. R. Esfahani

INFLUENCE OF GAS MICROBUBBLES ON THE GAS FLOODING IN THE PRESENCE OF A SURFACTANT
D. Mikhaylov, V. Nikolaevskiy, G. Stepanova

JET AND INJECT TOOL AND ITS APPLICATION FOR DIRECTIONAL HYDRAULIC MULTIFRACTURING
K. Tagirov

FIELD-SCALE CO2 GAS FLOODING IN SANDSTONE AND LIMESTONE RESERVOIRS
Z. Biro, K. Lovonyak, L. Paczuk

A NEW GLOBAL WELL-LOGGING INVERSION METHOD FOR CHARACTERIZATION OF HYDROCARBON FORMATIONS
M. Dobroka, P. N. Szabo, B. Kiss, T. Krasznavolgyi

Author Index
