35th Annual Convention of the Indonesian Petroleum Association 2011

Indonesia Energy: Growth, Security and Sustainability

Jakarta, Indonesia
18-20 May 2011

Volume 1 of 2

ISBN: 978-1-62276-938-4
# TABLE OF CONTENTS

## VOLUME 1

### ARTIFICIAL LIFT TECHNOLOGY

- Technology Enabled Coiled Tubing Cleanout in Low Formation Pressure Wells ......................................................... 1  
  Adrian Weiss, Prama Djanaka, Campbell Kinne

- An Innovative Water Shut Off Technique to Overcome Water Production Problems in a Mature West Java Field .................................................................................................................. 11  
  Muhammad Iqbal Prima, Achmad Soendoro, David Tobing, Wahyu Jatmiko

- Well Performance Misinterpretation Due to Liquid Accumulation ........................................................................... 22  
  Andru Ferdian

### BUILDING A SUSTAINABLE HEALTH AND SAFETY CULTURE

- The Journey towards Sustainable World Class Safety Performance ................................................................. 34  
  Faisal

- Building a Strong HSE Culture ......................................................................................................................... 52  
  Budiman Sarwidi, Hendry Smanjuntak, Hari Subagyo, Maridut Sitompul, Parulutan Sihuea

- Alternative Ways to Manage Students: Part of Our Professional Responsibility ............................................ 63  
  Mayesta Oficinarum Gunarto

### CARBONATES MARATHON 1

- Early Deepwater Drilling Results from a New Exploration Play, Offshore West Sulawesi, Indonesia ......................... 67  

- Facies Analysis and Sequence Stratigraphy of Tertiary Subsurface (Cepu Block) and Surface (Rajamandala Limestone) Carbonates of Java, Indonesia ................................................................................. 82  
  Rizky P. Sekti, Fikril Hakiki, Christian J. Strohmenger, Aram N. Derewetzky, Shawn M. Fullmer, Toni Simo, Benyamin Sapie, Dwiharso Nugoero

- Carbonate Fractured Reservoir Characterization Using Analogue Outcrop Study of the Rajamandala Carbonate Complex, West Java ......................................................................................... 97  
  Benyamin Sapie, Astyka Pamumpuni, Erij Sauhada Lanin, Isto Janata, Dwiharso Nugoero, Toni Simo

- Facies Architecture and Depositional Relationship of Baturaja Carbonates in Letang, Rawa, and Tengah fields, Corridor Block, South Sumatra ................................................................. 111  
  Vicki Amir, Rita Achdiat, Maria Meirita, Joel Guttormsen

### CARBONATES MARATHON 2

- A Dominant Autocyclic Signal on Supergreenhouse Carbonates .................................................................................. 125  
  Adam Zeiza, Ganqing Jiang, Jonathan Baker

- Sequence Stratigraphic Correlation and Sedimentological Implications, East Java Basin: Comparisons and Lessons Learned from Outcrop and Subsurface Studies ............................................... 138  
  Toni Simo, Michael Weidmer, Stefausal Van Simaey, Rizky Sekti, Han van Gorsel, Christian Strohmenger, Aram Derewetsky

- Fracture Characterization in Contrasting Platform Carbonate Facies, Muak Lek and Chumphae Areas, Central-Northeast Thailand ..................................................................................... 147  
  Rahmat Utomo, John Keith Warren, Winarno Susanto

- Early Carbonate Growth in the East Java Basin, Indonesia: A Case Study from the Jimbaran Field ................................................................. 168  
  Stefausal Van Simaey, Nathaniel Stephens, Allan Weidmer, Adam Zeiza, Frank Musgrove, Rizky Sekti, Aram Derewetsky, Toni Simo
CLASTIC RESERVOIRS UBRAVELLED

Reservoir Characterization of the Gabus-1 Reservoir in North Belut Field: An Integration of Core, Well Logs and Seismic, Natuna Sea Basin, Indonesia ................................................................. 181
  Yan Darmadi, Edo Hartadi, Bowo Fangarsro, Irene Sihombing, Retno Wijayanti

Sequence Stratigraphy and Facies Distribution Analyses to Define Reservoir Lateral Distribution in Merupai Field, Jambi ..................................................................................................................................... 200
  Dini Paramita, Rahardjo Santoso

Geocellular Modelling of Vorwata, Wirilagar Deep, Roabiba and Ofaweri fields, Tangguh Joint Venture ......................................................... 212
  Ana Widyantita, Ashati Purwati, Joaquim Naar, Wahyu Hidayat

COAL BED METHANE

The Origin and Significance of Gas Saturation in Coalbed Methane Plays: Implications for Indonesia ............................................................................. 226
  Tim A. Moore, Sadiq J. Zarrouk

Evaluation of Coal Bed Methane Reservoirs (CBM) using a Down-Hole Geo-Chemical Tool ......................................................................................... 236
  Haris Kurniawan Hidayat, Udit Kumar Guru

COMPLETION AND WO TECHNOLOGY

PLT-RST through Y-Tool/Block: A Unique Solution for Depleted Reservoirs in Indonesia .............................................................................................. 244
  M. Doddy Wiryawan, Noramansyah, Zahratu Aini, Andy Djulaini, M. Farid Amin, Riko Mudayana

Successful Application of Combined Impact Hammer and Hydraulic Shifting Tool Run on Coiled Tubing for SSD Manipulation in Highly Deviated Well, A Case History from Offshore North West Java ........................................................................................................................................... 254
  Hermawan Susanto, Barkah Widyantoro, Saifuddin Ismail, Kristianto Wibowo

High Energy Shape Charges: A Novel Technology to Improve Productivity in Stressed Rock ....................................................................................... 266
  Riko Mudayana, Andy Martin, M. Farid Amin

COMMUNITY-BASED DEVELOPMENT AND LAND RIGHTS

Disaster Awareness Education in the School as Model for Corporate Social Responsibility (CSR) around Geological Hazard Prone Area .................................................................................. 273
  Dicky Muslim, Evi Haerani, Motohiko Shibayama, Naoko Kagawa

Engaging Multi-Stakeholders to Undertake a Strategic Community Investment Program ............................................................................................................. 282
  Adis Noer Rachmi Prima Dewi, Aldi Muhammad Alizar, Rizal Kapita, Amelia Bruce

How to Develop “A Sustainable Program” that Links to Millennium Development Goals (MDGs - UNDP) & “Proper Rating” – Case Study: SSE Block ............................................................................... 291
  Yusuf Suharso, Firsta Jusra Iskandar

DRILLING OPTIMIZATION

Real-Time Pore Pressure Monitoring Optimizes Drilling 4 Deep Water Wells in Kutei and Tarakan Basin - Offshore East Kalimantan ........................................................................................................... 300
  Graziano Capone, Giovanni Bucari, Somesh Bahuguna, Ngurah Beni Setiawan

Drilling Optimization using Geomechanics Aides in Successful Drilling Campaign in HPHT Field in South Sumatra, Indonesia: A Case Study ............................................................................. 313
  Gustioro Purwagautama, Idi Yusuf Afandi, Nova Kristianawatie, Dino Akbar Ngurah Beni Setiawan, Somesh Bahuguna, Leo Anis

Drilling Optimization using Mechanical Earth Model in an Over-Pressedur field in East Java, Indonesia: A Case Study ......................................................................................................................... 327
  M. Khawadja Kamaludin, Andi M. Adiwarta, Somesh Bahuguna, Cicik Sukma Setya Wahyu

FROM SEISMIC ACQUISITION TO FACIES ANALYSIS

Case Study - Advanced Seismic Acquisitions and Processing Results in Indonesia .............................................................................................................. 339
  Michele Buia, Bakhrudin Mansyur, Herastya Iman Priyono

SEISMIC MIXED BAG 1

A Deep-Water VSP Borehole Seismic Case History with Lessons Learned, Problems Solved and Values Demonstrated ................................................................. 764
William L. Soroka, Vincent Favreu, Ericska Kariman, Aldrin Muchtar

Enhancing Seismic Interpretation Using Crosswell Seismic- Case Study from Indonesia ................................................................. 781
Tri Handayani, Zeppe Irwanzah, M. Taslim, Sanjeev Dogra, Ajay Nalonnil, Bruce Marion, Pedro Carrillo Reyes

Filling the Inversion “Gap” without Well Data: Multi level Sources and Streamers Help Improve Inversion ................................................................. 791
Martin Bayly, Dominic Lowden, Bruce Webb, Edward Krog

SEISMIC MIXED BAG 2

Seismic Attributes Correlate with Drilling Difficulties in Tertiary Carbonate, Abadi Field, Eastern Indonesia ................................................................. 795
Wataru Sekiguchi, Koji Matsui, Tatang Juhatta, Dewi Rahmalia

Low Frequency Passive Seismic Study in Brantas Block, East Java, Indonesia ................................................................. 811
Muhammad Alwi, Sunu Hadi Praptono, Andri Muradlio

Statistical Mitigation of Depth Structure Uncertainty Using Multiple Realizations for the Ujung Pangkah Field ................................................................. 824
Donald Easley, Ferry Yustiana, Willy Brianno

SEISMIC PROCESSING

Seismic Processing Strategies in the Deep Water Kutai Basin – Gendalo Hub Pre-Stack Depth Migration ................................................................. 833
Xiuyuan Li, Harmit Singh, Joe Zhou, Graham Hodgkiss, Neil Young, Helmut Hsiao

Qualitative and Quantitative Monitoring of Seismic Quality During Data-Processing for Future Seismic Reservoir Characterization Studies (SISI-Nubi Field, Indonesia) ................................................................. 844
R. Brahmantio, M. Baturin, F. Bertini, J. M. Jourdan

VOLUME 2

Anisotropic Multi-Azimuthal Velocity Model Building and Depth Imaging on Tulip 3D Coil Shooting Survey ................................................................. 857
Michele Buia, Suyang Chen, Olga Zdraveva, Swee Leng Ng, Martin Bayly, Michelle Tham

Combined Diving-Wave Refraction Tomography and Reflection Tomography for PSDM Velocity Model Building (Bekapai Field, Indonesia) ................................................................. 865
A. Kasuma, F. Bertini, J. Bonnafe, A. Sazykin, Swee Leng Ng

SEISMIC RESERVOIR CHARACTERIZATION 1

Comparison of EMD and S-Transform Spectral Decomposition for Characterizing Hydrocarbon Reservoir; Case Study of East Java Basin ................................................................. 883
Abdul Haris, A. M. Ustad, Didik Ardiyanto, Gadang G. Wihardy, Budiyono, Tri Bowo, Murti Widyawan

4D Seismic Reservoir Characterization of a CO2 Flood - A New Technology ................................................................. 891
Sony R. Mohammad, Thomas L. Davis

SEISMIC RESERVOIR CHARACTERIZATION 2

Rock Physics and Reservoir Characterization of a Calcitic-Dolomitic Sandstone Reservoir ................................................................. 901
H. Morris, B. Hardy, E. Efthyimiou, T. Kearney

Seismic Lineament Analysis of a Fractured Limestone Reservoir in the Ujung Pangkah Field ................................................................. 915
Donald Easley, Ferry Yustiana, Azalea Hidayat

Reservoir Quality and Porosity Prediction in Carbonate Using Seismic Inversion and Attributes – Case Study: “S”Field, South Sumatra Basin ................................................................. 924
Yudi Yanto, Tri Iswachyono, M. Arief, J. Wood
Predicting Reservoir Property Uncertainty through AVA Monte Carlo Modeling at Kerisi-Hiu Fields, West Natuna Sea ................................................................. 932
Riki Tasrianto, Yasril Kahar, John Hughes

STUDENT SESSION ENGINEERING

Synthesis of Polymer with High Salinity and Mechanical Stability Based On Cellulosic Polymer ........................................................... 947
Agus Saifil Arifin, Aditya Kurniawan, Ryantri Surya Yanuarta, Cynthia Linja Yuda Pankasman, Septoria Tio Siregar
Research Development of Resin Epoxy to Control the Sand Production Problems .......................................................... 961
Imani Faithoni Rasyid, Taufan Marhaendra, Ecep Muhammad Mjiib
Geothermal Drilling – An Overview ................................................................. 968
Bonar Tua Halomoan Marbun, Samuel Zulkhiifly, Irfan Hariz, Dita Khairena Irwandi

STUDENT SESSION GEOSCIENCES

Onshore Seismic Attribute Analysis for Reservoir Characterization with A Focus on the Acoustic Impedance Inversion and Multi-Attribute Neural-Net Technologies .................................................................. 983
Elok Gahdi Karuniawati, Bagus Jaya, William L. Soroka
3D Modeling of Kerek Turbidite Sand Bodies Based on Outcrop Study in Kedungjati Area, Central Java: An Analog for Miocene Sandy Facies in Western Kendeng Zone ..................................................... 996
Fery Andika Cahyo, Iqbal Fardiansyah, Octaviya Malda, Carolus Prasetyadi
Provenance of the Kantu Formation Sandstones, Nanga Kantu Area, Ketungau Basin, West Kalimantan ................................................................. 1009
Eros S. Erriyanto, Nurcahyo I. Basuki, R. Heryanto, Lauti D. Santy
Geological Observation of Soe, Kuanfatu, Kualin Area and Its Implications for Petroleum System of West Timor .................................................................. 1020

TECHNICAL AND LEGAL ISSUES IN LAND RIGHTS AND LAND ACQUISITION

Central-Tunu 3D Transition Zone Acquisition-Technical and Planning Coordination Challenges in Populated Areas, and on a Field under Intensive Development (Tunu Field, Indonesia) .............................................. 1036
M. Erbeta, F. Bertini, J. Bonnafie, M. Saleh, O. de Pellegras, P. Faure, H. Lancien
Undertakings Land Census to Support Land Acquisition and Resettlement Action Plans ......................................................... 1055
Amelia Bruce, Adis Noer Rachmi Prima Dewi, Aldi Muhammad Alizar, Riaz Kapita
Managing Overlapping Land Usages ................................................................. 1068
Surya Safari, Parluhutan Sihuea, Rudi H. Marbun, Agus Suryono, Bahari Abbas

WELLBORE DATA AND INTERPRETATION

Dip Data Estimation from a Multi Depth Investigation Array Induction Tool for Improved Structural Analysis ................................................................. 1077
Ade Setiawan, Samira Ahmad, Udit Kumara Guru
Permeability Log Calculation by Integrating Lithology, Well Logs and DST Data -An Application to Sandstone Reservoir in Abadi Field Eastern Indonesia .................................................................. 1086
Takahiro Zushi, Masato Okano, Koichi Kihara, Tatsuya Konishi, Toru Ito
Applications of Wireline Mobilities in Estimating Gas Well Deliverability Potential ................................................................. 1094
Mursal Nuru, Darwis Kurniawan

WELL STIMULATION AND PRODUCTION

Achieving Effective Stimulation of High Temperature Carbonate Formations in South Sumatra through the Combination of Emulsified and Viscoelastic Self-Diverting Acids ................................................................. 1106
Bambang Iriyanto, Tri Nugroho, Muthama Madanaya, Rizka Hezmela, Cesar Guimaraes, Pedro Artola
Interpretation of DST Data through Layered Reservoir Analysis Combined with MDT Data in a Depleted Gas Reservoir ................................................................. 1113
Hiroshi Uematsu, Masahiko Nomura
