SPE Western Regional / Pacific Section AAPG Joint Technical Conference 2013

Energy & the Environment Working Together for the Future

Monterey, California, USA
19-25 April 2013

ISBN: 978-1-62748-286-8
**TABLE OF CONTENTS**

SPE 165313 Effect of Heterogeneity on Formation Damage in Long Horizontal Wells: An Experimental Study ................................................................. 1
   Habib Menouar

SPE 165315 Production Decline and Numerical Simulation Model Analysis of the Eagle Ford Shale Oil Play .......................................................... 11
   Dieudonne K. Agbodiou, M. Ahmadi

SPE 165317 Acid Stimulation Learnings from an Unconventional Reservoir ................................................................. 41
   Andrei Popa, Kailash Srivastumar, Minshen Hao, Steve Cassidy

SPE 165318 All You Need is Darcy’s Equation to Determine EOR Success or Failure ................................................................. 55
   S.M. Farouq Ali

SPE 165319 Environmentally Acceptable Corrosion Inhibitor for Filter-Cake Removal System ................................................................. 61
   Garima Misra, Arunesh Kumar

SPE 165320 Simulation of Waterflooding with Coarse-Scale Dual-Porosity Representation of Highly Heterogeneous Reservoirs ................................................................. 68
   Mohammad Ezbzi Yadegari, Kristian Jessen

SPE 165321 Orcutt Oil Field Thermal Diatomite Case Study: Cyclic Steam Injection in the Careaga Lease, Santa Barbara County, California ................................................................. 79
   Ramon Elias, Mason Medizade

SPE 165322 Integration of Pressure Transient Data in Modeling Tengiz Field, Kazakhstan - A New Way to Characterize Fractured Reservoirs................................. 95
   Yan Pan, Mun-Hong Hui, Wayne Narr, Gregory King, Terrell H. Tankersley, Steve D. Jenkins, Eric A. Flodin, Philip W. Bateman, Chris Laidlaw, Hai Xuan Vo

SPE 165323 History and Application of Resistance Electrical Heaters in Downhole Oil Field Applications ................................................................. 108
   Chet Sandberg, Arthur Hale, A. R. Kovscek

SPE 165324 A New Approach to Model Hysteresis and Its Impact on CO₂-EOR Processes with Mobility Control Strategies ................................................................. 118
   Mohammad R. Beygi, Mojdeh Delshad, Venkat S. Padugramam, Gary A. Pope, Mary F. Wheeler

SPE 165325 A Successful Optimization Case of Drilling and Completion Operations Through Management Tools and Strategies ................................................................. 134
   Oscar R. Silva, Guden O. Silva, Luis I. Valderrama

SPE 165327 Application of Solvent Alternating SAGD Process to Improve SAGD Performance in Athabasca Bitumen Reservoir ................................................................. 143
   Y. Souraki, M. Ashrafi, A. Jahanbani Ghahfarokhi, O. Torsaeter

SPE 165328 Hydraulic Fracture Design Flaws- Proppant Selection ................................................................. 159
   Mei Yang, Cadre Proppants, Xicai Liu, Di Jiao, Michael J. Economides

SPE 165329 Solar-Generated Steam for Heavy-Oil Recovery: A Coupled Geomechanical and Reservoir Modeling Analysis ................................................................. 178
   Anshul Agarwal, A. R. Kovscek

SPE 165330 Extracting IF-THEN Rules from Numerical Data using Wang-Mendel Methods ................................................................. 197
   Minshen Hao, Jerry M. Mendel

SPE 165331 Application of Toyota’s Principles & Lean Processes to Reservoir Management: More Tools to Overload the Toolbox or a Step Change in Our Business? ................................................................. 207
   Malcolm E. Allan, David K. Gold, Dyke W. Reese

SPE 165333 A New and Practical Oil Characterization Method for Thermal Projects: Application to Belridge Diatomite Steam Flood ................................................................. 225
   L. Zhang, R. Pietersen, B. Dindoruk, P. Staffels, Y. Fan

SPE 165334 Effects of Wetting Behaviour on Residual Trapping in CO₂-Brine Systems ................................................................. 240
   M. Sorouash, J. Kleppe

SPE 165335 A Novel Mud Formulation for Drilling Operations in the Permafrost ................................................................. 252
   Ahmed H. Kamel

SPE 165337 An Experimental Investigation of the In-Situ Combustion Behavior of Karamay Crude Oil ................................................................. 262
   R. B. Zhao, Y.X. Chen, R. P. Huang, L. M. Castanier, A. R. Kovscek

SPE 165338 Drilling Challenge of Unstable Hole Condition in Kilo Field: A Case Study in Southeast Asia ................................................................. 278
   Jerry Tobing, Erwindo Tanjung
SPE 165339 Mechanisms Behind Low Salinity Water Flooding in Carbonate Reservoirs ......................................................... 288
Emad W. Al-Shalabi, Kamy Sepehrnoori, Mojdeh Delshad

SPE 165340 California Department of Conservation’s Division of Oil, Gas, And Geothermal Resources: Orphan Well Program .......................................................... 306
Bruce H. Hesson

SPE 165341 Uncertainty Assessment in Geologic Modeling and Sensitivity Analysis of Static and Dynamic Models in Uinta: A Frozen Shallow Oil Accumulation in National Petroleum Reserve of Alaska ......................................................... 312
I. O. Kokshour, M. Ahmadi, C. Hank

SPE 165343 An Efficient Reservoir Simulation Approach to Design and Optimize Unconventional Gas Production ......................................................... 349
Wei Yu, Kamy Sepehrnoori

SPE 165345 A Comparative Thermal IOR Simulation Study with Experimental Design for Optimal Future Performance of a Heterogeneous Light Oil Reservoir ......................................... 366
Wathiq Al-Mudhaifer

SPE 165346 Interpreting Pressure and Flow Rate Data from Permanent Downhole Gauges Using Convolution-Kernel-Based Data Mining Approaches ........................................ 386
Yang Liu, Roland N. Horne

SPE 165347 Impact of Staggered Fracture Placement on Field Development of Unconventional Gas Reservoirs: a Critical Evaluation of Overlapping SRV’s ........................................ 408
Vivek Sahai, Greg Jackson, Rakesh Rai, Farshad Lalehrokh

SPE 165348 Weakly Emulsifying Surfactant Reduces Formation Damage and Enhances Well Productivity in Acid Stimulation ........................................ 425
Liang Xu

SPE 165349 Optimal Voidage Replacement Ratio for Viscous and Heavy Oil Reservoirs ......................................................... 431
D. E. Delgado, E. Vittoratos, A. R. Kovscek

SPE 165350 Potential for Non-thermal Chemical Augmented Waterflood for Producing Viscous Oils ......................................................... 446
Haomin Xu, Do Hoon Kim, Mojdeh Delshad

SPE 165351 Discussion on Carbon Dioxide Minimum Miscibility Pressure Estimation: An Experimental Investigation ......................................................... 462
Habib Menounar

SPE 165352 Natural Convection in CO₂-Based VAPEX ......................................................... 472
Mohammad Javaheri, Jalal Abedi

SPE 165353 Portable Technology Puts Real-time Automated Mineralogy On The Well Site ......................................................... 484
Tom Ashton, Chi Vinh Ly, Graham Spence, Guy Oliver

SPE 165354 Improved Oil Reservoir Characterization: Offshore Malaysia Field ......................................................... 495
Rozlin Hassan, Lundin Malaysia, Sammy Haddad, Wee Wei Wu, Zailily Johan, Lee Chin Lim

SPE 165355 Injection Scheduling Design for Reduced Order Waterflood Modeling ......................................................... 515
Tom Ashton, Chi Vinh Ly, Graham Spence, Guy Oliver

SPE 165356 Water Management in Mature Oil Fields using Preformed Particle Gels ......................................................... 524
Ali Goudarzi, Hao Zhang, Abdoljali Varavei, Yunpeng Hu, Mojdeh Delshad, Baojin Bai, Kamy Sepehrnoori

SPE 165358 A Comprehensive Review of Alkaline-Surfactant-Polymer (ASP) Flooding ......................................................... 536
James J. Sheng

SPE 165359 A Stochastic Model To Develop Braided Stream Reservoirs: Montalvo Field, Ventura Basin ......................................................... 556
Robert Zahner, Peter Morris, Chet Ozgen

SPE 165360 Flow Units: From Conventional to Tight Gas to Shale Gas to Tight Oil to Shale Oil Reservoirs ......................................................... 565
Roberto Aguilera

SPE 165361 Group Testing: A Novel Approach To Increase The Effective Frequency Or Accuracy Of Well-tests Without Increasing Infrastructure Costs ......................................................... 596
Yenting Lin, Antonio Ortega

SPE 165362 Modified Inversion Technique for Determining the In-situ Stress Field ......................................................... 607
Mojtaba P. Shahri, Stefan Z. Miska, Mengjiao Yu, Mehmet E. Ozbayoglu, Jiaguo Zhang, Reza Majidi

SPE 165364 Quantitative Time-Lapse Seismic Integrated History Match in Delhi Field ......................................................... 617
Q. Cui, B. Todd Hoffman, T. L. Davis

SPE 165366 Effect of Dynamic Surface Activity of Surfactant on Performance of Foam for Gas Well Deliquification ......................................................... 631
Jiang Yang, Xiaolong Wang, Yongjun Lu, Baoshan Guan, Guanke Yang

SPE 165367 Effect of Liquid Crystal on Gel Formation Rate of Viscoelastic Surfactant for Hydraulic Fracturing ......................................................... 636
Jiang Yang, Yongjun Lu, Baoshan Guan, Weixiang Cui, Xiaohui Qiu, Zhen Yang, Junbin Chen, Guanke Yang
