Some format issues inherent in the e-media version may also appear in this print version.
# TABLE OF CONTENTS

**Volume 1**

<table>
<thead>
<tr>
<th>Page</th>
<th>Title</th>
<th>Authors</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>IPTC 16581 Fracture Optimization Applying a Novel Traceable Proppant and a Refined Mechanical Earth Model in the Congo Onshore</td>
<td>R. Perfetto, P. Saldungaray, F. Martocchia, R. L. Ceccearelli, R. Lorefice, F. Rinaldi, L. Tealde, P. Dalmaso</td>
</tr>
<tr>
<td>33</td>
<td>SPE/IADC 163537 Industry’s First Hydro-Mechanical Surface Controlled System for Multiple Reamer Activation/Deactivation Increases Drilling Efficiency</td>
<td>Bjoern Tore Torvestad, Hans Magnus Bjoerneli, Ketil Toerge, Lars Andreassen, Stein Haavardstein, Harald Blikra</td>
</tr>
<tr>
<td>43</td>
<td>SPE 164578 Accurate Prediction of Dissociation Pressures of Natural Gas Hydrates Containing Carbon Dioxide and Hydrogen Sulfide for Efficient Flow Assurance Phenomena</td>
<td>Prathyusha Mekala, Jitendra S. Sangwai</td>
</tr>
<tr>
<td>50</td>
<td>SPE 164580 Successful Field Implementation of a Novel Solids-Free System to Control Fluid Loss during Overbalanced Workover Operations in Southern Argentina</td>
<td>Julio Vasquez, Juan Bonapace, Javier Gonzalez, Rodrigo Quintavalla</td>
</tr>
<tr>
<td>60</td>
<td>SPE 164584 Detection of Bypassed Pay Zones and Water Production Control of Sandstone Reservoirs Using TDT and CHFR Logs</td>
<td>G. M. Hamada</td>
</tr>
<tr>
<td>74</td>
<td>SPE 164587 Development of a New Correlation of Gas Compressibility Factor (Z-Factor) for High Pressure Gas Reservoirs</td>
<td>M. A. Mahmoud</td>
</tr>
<tr>
<td>87</td>
<td>SPE 164589 Optimization of the “Fractured Triangle” to Determine Matrix/Fracture Permeability Ratio, Partitioning Coefficient and Intensity Index in Terms of Storativity Ratio from Pressure Transient Analysis</td>
<td>Tarek Ibrahim Elkewidy</td>
</tr>
<tr>
<td>93</td>
<td>SPE 164592 An Integration Between Geological and Reservoir Engineering Data to Design a Conceptual Waterflood Program</td>
<td>M. Abu El Ela, M. Samir, A. Abdel Moim, S. El Tayeb, Helmy Sayyouch</td>
</tr>
<tr>
<td>105</td>
<td>SPE 164593 Formation Testing and Sampling in Low Mobility Heavy Oil Formations of the Eastern Desert, Egypt</td>
<td>Jeff Edelman, Shabbir H. Shah, Peter Weinheber, Ramy Ahmed, Ezzat Roumani, Karim Maghrabia</td>
</tr>
<tr>
<td>114</td>
<td>SPE 164595 The Polymer Flooding Technique Applied at High Water Cut Stage in Daqing Oilfield</td>
<td>Yuming Wang, Yanming Pang, Zhenbo Shao, Peihui Han, Rong Li, Ruibo Cao, Xiaohua He</td>
</tr>
<tr>
<td>138</td>
<td>SPE 164597 New Approach for Pulse Test Analysis</td>
<td>Noaman El-Khatib</td>
</tr>
<tr>
<td>153</td>
<td>SPE 164599 Plunger Lift Applications: Challenges and Economics</td>
<td>Mohamed Hassouna</td>
</tr>
<tr>
<td>159</td>
<td>SPE 164602 On the Accuracy of Dimensionless Inflow Performance Relationships for Gas Wells</td>
<td>A. Kalantariasl, I. Farhadi, H. R. Nasriani</td>
</tr>
<tr>
<td>185</td>
<td>SPE 164605 Application of a Numerical Simulation Model for Workover Plans Assessment Prior Operations and Determination of Best Well Intervention Technique for Production Enhancement</td>
<td>Yosra Yousef Abugren, Sameer Joshi, Marie V. Steene, Enas Thabet</td>
</tr>
<tr>
<td>203</td>
<td>SPE 164608 Case Study in Upgrading Capability of a Crude Oil Pipeline for Maximum Transportation Capacity</td>
<td>Hesham A. M. Abdou</td>
</tr>
</tbody>
</table>
SPE 164609 Parallel Estimation of Surface Subsidence and Updated Reservoir Characteristics by Coupling of Geomechanical & Fluid Flow Modeling .................................................. 220
  Warthiq J. Al-Mudhafer
  B. T. H. Marban, A. M. I. Shidq
SPE 164612 A Practical Economic Optimization Approach with Reservoir Flow Simulation for Infill Drilling in a Mature Oil Field .................................................................................. 245
  Warthiq J. Al-Mudhafer
SPE 164614 Effective Analytical Approaches to Enhance Productivity of Low Producing Gas Wells ................................................................. 259
  Zillur Rahim, Dwi Waspada, Hamoud Al-Anazi, Adnan Al-Kanaan, Eduardo Pacheco
SPE 164615 High Quality Images While Drilling ................................................................. 267
  Magdi Bazara, Mohamed Al Sharafi, Janine Maudolf, Zainab Al Kindi
SPE 164616 Thru-Tubing Inflatable Straddle Packer Assembly Enables Selective Treatment of Multiple Zones and Improves Productivity .............................................................. 276
  M. D. Kothival, A. Parasr, A. H. Qutob, R. J. Cooper, G. R. Forsyth
SPE 164617 Normal Stress Rheology of Drilling Fluids and Potential in Lost Circulation Control ................................................................. 281
  Sandeep D. Kulkarni, Sharath Savari, Shadaab Maghrabi, Dale E. Jamison, Arunesh Kumar
SPE 164618 A Comparison between Capillary and Electrical Properties of Rock Samples Obtained at Ambient Conditions and Reservoir Conditions ...................................................... 288
  Sami M. Aboujafar, Mohamed A. Amara
SPE 164621 Importance of Checking Quality Control of Data in Describing Oil and Gas Reservoirs and Its Effect in Calculating Important Reservoir Parameters and Thus, Oil and Gas Reserves ...................................................... 302
  Zahir M. Zaafran
SPE 164623 Uncertainty Analysis by Model Selection Technique and Its Application in Economic Valuation of a Large Field .................................................................................. 314
  Harpreet Singh, Sanjay Srinivasan
SPE 164626 Modeling of the Change of Rock Petrophysical Properties Due to Sulfur Deposition in Sour Gas Reservoirs .................................................................................. 326
  M. A. Mahmoud, M. A. Gadallah
SPE 164631 Overcoming Challenges while Acidizing Sandstone Formation Successfully in the Gulf of Cambay, Offshore India ................................................................. 375
  Sergey Stolyarov, Anwar Alam
SPE 164632 Experimental Investigations of CO₂ Solubility and Variations in Petrophysical Properties due to CO₂ Storage in Carbonate Reservoir Rocks .................................................. 382
  Sheldid A. Sheldid, Adel M. Salem
SPE 164634 New Insights into Evaluating the Damage due to Calcium Sulfate Scale Precipitation during Low and High Salinity Water Injection .......................................................... 392
  M. A. Mahmoud, D. M. A. Gadallah
SPE 164635 Gas Formation Testing in Exploration Phase .................................................. 411
  Rozlin Hassan, Sammy Haddad, Wee Wei Wa, Zailily Johan, Lee Chin Lim
SPE 164636 Low-Productivity Sand Characterization and Identification of Bypassed Oil and Water Source with Advanced Production and Pulsed Neutron Logging, A Unique Key for Improving Field Productivity ................................................................. 431
  Marie Van Steene, Yosra Abugren, Sameer Joshi, Enas Thabet, Mohamed Mostafa Ahmed
SPE 164638 Determination of Drainage Area and Shape Factor of Vertical Wells in Naturally Fracture Reservoir with Help Well Testing and Developed IPR Curve .................................................. 439
  Mohammad Sadeghi, Seyed Reza Shadizadeh, Mohamad Ali Ahmadi
SPE 164639 SPDC Delivers 1st Onshore Smartwell Through Constructive Engagement with Stakeholders (Partners/Regulators/Internal SPDC) ........................................................................ 457
SPE 164640 A Case Study of Evaluating Reservoirs in the Malay Basin .................................................. 466
  Siti Najmi Farhan Zulkipli, Ko Ko Kyi, Sammy Haddad, Zailily Johan, Wee Wei Wa, Suresh Sinnappu, Lee Chin Lim
SPE 164641 Developing Realistic Depletion Plan of Senoro Field using Coupled Reservoir - Surface Network Simulation .................................................................................. 478
  Sugiyanto Bin Sinwono, Rahmat Wijaya, Herahadi Masbudi, Muttaqin Muttaqin, Tomori Salavies, Hadi Prasetyo
SPE 164642 Reservoir Management Tool-Kits in Offshore Khafji Field: Successful Solutions for Field Case Studies on Water Conning Problems in Sandstone Reservoirs .................................................. 493
  Taha M. Moawad, Abdiall M. Al-Dhafferi, Tawakol I. Mohamed
SPE 164644 Dielectric Measurement Improves Formation Water Saturation Evaluation in Variable Water Salinity Conditions, Upper Bahariya Formation, Egypt

SPE 164645 Sand Management Methodologies for Sustained Facilities Operations

C. Hank Rawlins

SPE 164647 Proactive Tools to Enhance Drilling Safety Performance

Mustapha Naas-Eddine Bousif, Ahmed AlMutawa, Mohamed Al-Hosani

SPE 164648 Introducing a Producible Oil Water Contact (POWC) for Better Assessment of Moveable Oil in the Transition Zone

Robert Doerband

SPE 164649 Revitalizing Mature Gas Field Using Energized Fracturing Technology In South Italy

Luis E. Granado, Roberta Garrattiano, Raffaele Perfetto, Roberto LorefiCe, Roberto L. Ceccarelli

SPE 164650 Enhancing Oil Recovery in Gulf of Suez by Deep Conformance Control using a Thermally Activated Particle System

Martin Towns, Monica Lara Angarita, David Thrasher, Paul Denyer, Mohamed M. Nabil, Radi S. Bayoumi, Mahmoud M. Kinawy

SPE 164651 Flow Assurance for Subsea Gas Production Systems in the Deep Water of Mediterranean Sea with Lower Glycol Injection Rates

Wael Hamed A. Moati

SPE 164652 New 16" PDC Bit Design with Improved Cutter Technology Delivers High Rate of Success and Increased Rate of Penetration Drilling in Deep Gas Field in the Arabian Peninsula

P. Teasdale, M. Djouali, R. T. Aham, S. Holalkere Markandeya, T. Roberts

Spe 164655 Novel Technique to Increase Production from Tight Reservoirs Using Channel Fracturing Technique for the First Time in the Middle East and North Africa

M. Samir

SPE 164656 Novel Controlled-Release Breakers for High-Temperature Fracturing

Prajakta Patil, Ramesh Muthusamy, Nisha Pandya

SPE 164657 Advances on Partial Coupling in Reservoir Simulation: A New Scheme of Hydromechanical Coupling

Carlos Emmanuel Ribeiro Lautenschläger, Guilherme Lima Righetto, Nelson Inoue, Sergio Augusto Barreto Da Fontoura

SPE 164658 Effect of Capillary Pressure on the Numerical Simulation of Conventional and Naturally Fractured Reservoirs

M. Shams, A. H. El-Banbi, M. Khairy

SPE 164659 Field Example of the Application of a Probabilistic Workflow to Forecast Future Development Potential in a Heterogeneous Fluvialite Reservoir

A. N. P. Dros, Z. Benhammadi, V. Vernain-Perriot

SPE 164661 Overcoming the Typical Operational Problems & Cost of Water Injection Using Dumpflooding

Rami Helaly, A. Bekheit, M. Farahaty, M. Tawfik

SPE 164663 Green Gas Field Development with Zero Flaring in Egypt

Adel Abo El Azm

SPE 164665 Downhole Testing Tools in Extreme Hostile Environments: HP/HT Offshore Well – Northeast Brazil

Fernando MarcançoLa, Thiago Pontes, Marcio Adriano

SPE 164666 Permanent Magnet Motor Application for ESP Artificial Lift

Ahmed Refai, Hesham A. M. Abdou, Ahmed Seleim, Giovanni Biasin, Walid Reda, Dmitriy Letunov

SPE 164668 Time Lapse PTA to Determine the Impact of Skin, Reservoir Compaction, and Water Movement on Well Productivity Loss: A Field Example from WDDM, Egypt

SPE 164669 Formation Silicate Scale Inhibition during Alkaline Flooding: Static Model

Ashraf E. A. Basbar, Khaleed A. ElRaies, Reza E. Osgouei

SPE 164670 Case Study on Handling Paraffinic and Viscous Crude of Mangala Oil Field of Rajasthan-India

Hardik Zalawadia, Chaitunya Pawale, Pandit Deendayal

SPE 164672 Moving Towards Innovative Waste Water Treatment and Disposal Technologies: Field Study for In Situ Waste Water Treatment and Evaporation Technology

Wael Hamed A. Moati, Shaban Ibrahim

SPE 164676 Carbonate Reservoir Characterization at Different Scales: Proving the Value of Integration

Jesus A. Cuitas, Elmar Jungr, David Essenfeld, Rubiel Ortiz
SPE 164680 Application of TRIZ Methodology in Research and Development of Oilfield Technologies.................. 751
Chanchal Dass, Kanan Gandhi

Volume 2

SPE 164681 Zonal Isolation Evaluation of Multiple Depleted Gas Bearing Sands under Challenging Offshore Mediterranean Environment: An Expansion of the Capabilities and Applications of Ultrasonic Tools in Egypt............................................................................................................................... 765

SPE 164682 Using Simple Analytical Approach in Estimating Remaining Resources and Evaluating a Long Shut-In Reservoir Compartment with Too Many Uncertainties ................................................................. 773
Darhim M. Noureddien, Ibrahim S. Nassar

SPE 164683 Enhancing The Overall Productivity of GASCO Integrated Plants Using Available Process Flexibility and Reliability .......................................................... 788
Tamer Hamdy Riad

SPE 164684 Integrating New Technology Utilizing Risk Management........................................................................ 800
Wael Abouamin

SPE 164685 The Sub-thrust And Sub-salt Exploration Potential In Tunisia, New Exploration Challenges ............................................................... 811
Mohamed Soua, Mohamed Ghanmi, Dalila Zaghib Turki, Mohamed Moncef Turki, Ali Jlaillia, Sonia Ben Alaya

SPE 164686 Challenges and Practical Aspects in Commingling Different Reservoirs: Theory and Case Study .......................................................................................... 830
Darhim M. Noureddien

SPE 164690 Unlocking Resource Plays in Egypt - Opportunities and Challenges ........................................................... 845
Andrew Carnell, Mourad Emam, Martijn Boering

SPE 164692 Improving Production Using a Unique Self-Positioning Tool to Deliver Four Types of Acid Stimulations in a Well: Matrix Penetration, Acid Washing, Many Micro/Mini Fractures, and Large Fractures .......................................................... 851
Jim B. Surjaatmadja, Abdulla M. Al Hamad, Arshad Waheed

SPE 164693 North Bahariya Concession Transaction-A Novel Strategy for Acquiring the Micro-Scale Producing Fields .................................................................................. 863
M. Abdel-Nabi, A. El-Behairy, Mahmoud Rizk, E. Abd-el-Moneim

SPE 164694 « Hot Shales » Facies Heterogeneity: Highlights from the Mineralogical and Geochemical Analyses of the Lower Silurian Source Rock of a Palaeozoic Basin (SW Algeria) .................................................................................. 877
Christophe Rigollet, Andreas Hofmann, Suzi Burns, Eric Portier, Andreas Paul, Michel Koolschijn

SPE 164695 Gas Shale Characterization – Results of the Mineralogical, Lithological and Geochemical Analysis of Cuttings Samples from Radioactive Silurian Shales of a Palaeozoic Basin, SW Algeria .............................................. 884
Andreas Hofmann, Christophe Rigollet, Eric Portier, Suzi Burns

SPE 164697 An Approach to Determine Sandstone/Clastic Reservoir Rock Distribution Pattern in Fluvio-Deltaic- Marginal Marine Environment - An Easy, Simple and Cost Effective Process .................................................................................. 890
Sasanka Sekhar Deb, J. K. Borghoain, S. K. Basha

SPE 164698 Pre-Messinian Extensional Tectonics and Exploration Potential of Related Structures; in Central Nile Delta Basin, Egypt .................................................................................. 896
J. Matresu, A. Talat, A. M. El Belaydy, M. El-Meadawy

SPE 164699 Maximizing Cost Efficiencies through Real-Time Well Testing .......................................................... 904
Abdalla Awar, Cidar Mansilla, Kevin Fink

SPE 164700 Rejuvenation of West Qarun Field ........................................................................................................ 910
A. El-Behairy, M. Abdel-Nabi, Mahmoud Rizk, E. Abd-el-Moneim

SPE 164701 Effect of Petrophysical Re-interpretation on Matured Fields’ Development Planning and Producing Reserves Boosting Up in Abu El Gharadig Basin, Western Desert, Egypt .................................................................................. 922
Mahmoud Rizk, M. Rafik, A. El-Behairy, M. Abdel-Nabi

SPE 164702 First Implementation of Distributed Temperature Survey in East Africa and East Mediterranean Region Utilizing New Coiled Tubing Technology .............................................................. 932
Tarek Shaheen, Tamer El Sherif, Wael Hassan, Salah Kamal, Emad Nabil

SPE 164705 Bridging the Gap between Oil and Gas Industry and Academia .................................................................. 940
Abdelaziz Khlaifat, Hani Qutob

SPE 164706 High Resolution Seismic Imaging and Fault Detection using Walkabove and Rig VSPs in Ras Budran and Ras Fanar Fields in The Gulf of Suez .................................................................................. 948
Mohamed S. El-Hateel, Parvez Ahmad, Ahmed H. Ismail, Ahmed Ashraf, Mohamed A. El-Fadeel

SPE 164707 Oil Families in the Western Getic Depression, Romania .......................................................................... 957
S. Gheorghe, L. Burneiu, D. Diaconescu, V. D. Sindilar
SPE 164708 Gas Chimneys and Their Impact on Gas Migration, Accumulation and De-Risking of Prospects, Offshore Nile Delta - Central Sub Basin ................................................................. 977
  A. M. El Belasy, A. Talataz, J. Mattresu
SPE 164709 Production Enhancement in the Egyptian Western Desert using the Channel Fracturing Technique – A Field Case Study ................................................................. 988
SPE 164710 Modified Black Oil PVT Properties Correlations for Volatile Oil and Gas Condensate Reservoirs .................................................................................................................. 998
  S. Essam, A. El-Sayed, M. Benyamin, A. El-Batal
SPE 164711 Non-intrusive Corrosion Erosion Monitoring for Subsea Applications ......................................................................................................................... 1017
  G. Instanes, S. H. Kristiansen, A. O. Pedersen
SPE 164712 Best Practice to Design and Interpret Interference Tests Based on Features of the Line-Source Solution: Theory and Application ................................................................. 1023
  Pierre-David Matereez
SPE 164713 Applications of Nanotechnology in the Oil & Gas Industry: Latest Trends Worldwide & Future Challenges in Egypt ................................................................................................. 1036
  Mustafa Saleh, Prakash Nair
SPE 164714 A Road Map For Integrating a Giant Field: Case Study .................................................... 1049
  Syed Shujath Ali, M. Enamul Hossain, Md. Rafiul Hassan, Abdulazeez Abdulraheem
SPE 164715 A Road Map For Integrating a Giant Field: Case Study .................................................... 1049
  Vi Dinh Lu, Quy Minh Nguyen, Lan Cao Mai, Dao Xuan Tran
SPE 164716 High Resolution Saturation Analysis in Nile Delta Turbiditic Sands from Imaging Tool Resistivity and NMR in Oil-Based Mud ......................................................................................................................... 1066
  Mustafa Saleh, Prakash Nair
SPE 164717 Innovative Gas Lift in Heavy Oil Wells: Case Study in Block 6, Sudan ................................. 1074
  Darzajid Sun, Mahmood Sohbi, Mohamed Gamal, Mohammad Nabil
SPE 164718 High Resolution Saturation Analysis in Nile Delta Turbiditic Sands from Imaging Tool Resistivity and NMR in Oil-Based Mud ......................................................................................................................... 1066
  Xueqing Tang, Guocheng Li, Fahmi Abdalla Alawad, Keqiang Yu, Bo Cai, Tagwa Ahmed Musa
SPE 164719 The Use of Thermodynamic Reservoir Simulation to Investigate the Feasibility of Steam Flooding to Improve Oil Recovery in a Light Oil Reservoir ........................................................................... 1084
  Wathiq J. Al-Mahalhafer
SPE 164720 Production Logging and Flow Diagnosis in Heterogeneous Reservoirs ................................. 1094
  Ezinne Nnebocha, Ritu Esuru Okororofor, Kamaljeet Singh
SPE 164721 Dual ESP as a Solution for Cross-flow Challenges. Case Study, Well A-06, Muglad Basin, Sudan ......................................................................................................................... 1107
  Abdalla Tajeldin Abdalla Fadi, Ahmed Ehsafi Ahmed, Yousif Mohd Osman, Hatim Muhallab Abdelrahman
SPE 164722 Part I - Heavy Oil Development: Statistical Analysis and Optimization of Well Patterns ................................................................. 1113
  Ahmad Aladasani, Saeed Salehi, Runar Nygaard, Baojun Bai
SPE 164723 Effect of CO₂ Flooding During EOR Process on the Rock Petrophysical and Electrical Properties ......................................................................................................................... 1132
  K. Z. Abdelgwared, M. A. Mahmoud
SPE 164724 Pressure Transient Data from Wireline Formation Testers : When and How to Use It? ............. 1144
  S. Ramaswami, M. Hows, D. Frese, C. Dong, H. Elshahawi
SPE 164725 Cost-Effective Recovery of Bypassed Reserves Using Rigless Cement Packer Completion Technique: Case History from Offshore Egypt .................................................................................. 1156
  Amer Mahmod, Michele Maestrami, Christiano Paoli, Arshad Waheld, Stefano D’Angelo, Carmen Repetto
SPE 164726 Petrographic and Diagenetic History of Cretaceous/Paleozoic Reservoirs and Their Impact on The Permeability Distribution Obaibed Field, Western Desert, Egypt ........................................ 1169
  Maamoun Wahdan, Hassan Abdel Rahman, Taher El Zefzaf
SPE 164727 An Effective Knowledge Sharing Framework in Oil Sector: A Case Study from Sudapet ................ 1177
  Arif Abdelwhab Ali, Elfaher Wadidi
SPE 164728 A Sedimentological & Integrated Case Study Towards More Understanding of the Depositional Regimes in Complex Structures .................................................................................. 1183
  M. Essam, A. El-Sayed, M. Benyamin, A. El-Batal
SPE 164729 Establishing Higher Oil Production Capabilities: Engineered Approach Achieves Longest Lateral Hole Section in Kuwait ........................................................................................................ 1197
  Hadi Al-Ajmi, Nasir Al-Barazi, Abdul Aziz Al-Rashoud, Ranjan Trivedi, Harish Maliekkal, Ossama Ghoneim, Mustafa Saleh, Prakash Nair
SPE 164730 Production Enhancement in the Egyptian Western Desert using the Channel Fracturing Technique – A Field Case Study ................................................................. 988
  Vi Dinh Lu, Quy Minh Nguyen, Lan Cao Mai, Dao Xuan Tran
SPE 164731 Optimization of Horizontal Well Length: A Case Study in the Fractured Basement Reservoir of the South-east Dragon Oil Field In Vietnam ........................................................................... 1207
  Syed Shujath Ali, M. Enamul Hossain, Md. Rajiul Hassan, Abdullahzeh Abdurahem
SPE 164748 Engineered LCM Design Yields Novel Activating Material for Potential Application in Severe Lost Circulation Scenarios .......................................................... 1226
Sharanth Savari, Arunesh Kumar, Donald L. Whitfill, Matthew Miller, Robert J. Murphy, Dale E. Jamison

SPE 164749 Comparative Study of Miscible Flooding in Compositional Graded Reservoir System .............................................................. 1236
Mohammad Sohrab Hossain

SPE 164751 New Material Balance Equation Allows for Separator Conditions Changes during Production History .......................................................... 1245
Mohamed Ibrahim, Mohamed Fathy, Hatim Salah, Mohamed El-Sayed Badr, Ahmed H. El-Banbi

SPE 164752 Real Accident Cost .......................................................................................................................... 1257
Ashraf Ibrahim

SPE 164753 Field Development Study: Channel Fracturing Technique Combined with Rod-shaped Proppant Improves Production, Eliminates Proppant Flowback Issues and Screen-outs in the Western Desert, Egypt .................................................................................................................. 1260
Mohamed S. A. Abdelhamid, M. Maroof, Y. Kamal, A. Shaaban, A. Mathar, M. Yosry, C. Kraemer

SPE 164755 Application of Relative Permeability Modifier for Sealant Diversion ............................................................................................................ 1271
Prasun Das, Prajakta Patil, Snehalata Agashe

SPE 164757 Multiphase Boosting in Oil and Gas Production – Recent Applications and Developments ................................................................. 1281
Dietrich Müller-Link

SPE 164758 Characterizing Coal Bed Methane Using Pressure Buildup and Falloff Data Acquired with W ireline Formation Testers: Case Studies .......................................................................................................................... 1289
Jack Harfoushian, Magdy Samir Osman, Cesar Zerba

SPE 164759 Importance of Surveillance for Evaluating a New Reservoir Technology .................................................................................................. 1299
Mahmoud H. Gobran, Mahmoud M. Kinawy, Rady S. Bayouni, Eman S. Shahin

SPE 16460 Integrated Reservoir Study of Mature Oil Field Resulted in Rejuvenation of an Abandoned Oil Reservoir to Add New Reserves and Production, GoS-Egypt .................................................................................................................. 1310
M. Gamal, M. Raafat, M. Thabh, F. Allam, H. Farouk

SPE 16461 Enhancing Oil Recovery Through High Level Data Mining Technology ............................................................................................................ 1327
B. J. Adeyemi, V. I. Ajilo, O. A. Falode, E. O. Falobi

SPE 16462 Polymer-Locked, Crush-Free Wireline Composite Cables Reduce Tool Sticking and HSE Risk in Emerging Deepwater Reservoirs .................................................................................................................. 1339
Serko Sarian, Joseph Varkey, Vadim Protasov, Jennifer Turner

SPE 16463 An Integrated Approach to Managing Risks and Uncertainties: Combining Technical and Commercial Analysis .......................................................................................................................... 1348
Ramin Lakani, Daniel Brown

SPE 16464 Conduits Mapping for Naturally Fractured Reservoirs Using 3D Template Matching Model for Sub Seismic Faults Convergence .......................................................................................................................... 1365
Adel El Fouly

SPE 16466 New Analytical Equations of Recovery Factor for Radial Flow Systems ........................................................................................................ 1373
He Zhang, Kegang Ling, Herman Acura

SPE 16468 Experimental Investigation of Low Salinity Hot Water Injection to Enhance the Recovery of Heavy Oil Reservoirs .................................................................................................................. 1388
Elrady Abass, A. Fuhmi

SPE 16473 Radial Drilling Technique for Improving Well Productivity in Petrobel-Egypt .......................................................................................... 1398
Adel M. Salem Ragab, Amr M. Kamel

SPE 16474 Potential of Nitrogen Gas Miscible Injection in South East Assets, Abu Dhabi .......................................................................................... 1410
Hadi Belhaj, Hadi Abu Khalifeh, Khalid Javid

SPE 16475 Hydraulic Pumping Units Proving Very Successful in Deliquifying Gas Wells in East Texas .......................................................................................................................... 1421
David Beard

SPE 16477 What Can Tell, What’s Uncertain? In Depth Decline Curve Analysis ........................................................................................................ 1432
Khulud Rahuma, Hadi Belhaj

SPE 16478 A New Strategy to Explore Tight Oil/Gas Reservoirs “Fit for Purpose Acid Fracturing” ............................................................................ 1439
G. M. Hegazy, Adel M. Salem, Shedid A. Shedid, Shouhdi E. Shalaby, J. Abbott

SPE 16479 “Mastering the Risk based Integrity Management Technique” .................................................................................................................. 1456
Wael M. Hegazy

SPE 16480 Low H₂S Concentration Sampling Using Wireline Formation Tester and Well Testing: Case Studies .......................................................................................................................... 1460
Magdy Samir, Jesus Cañas, Artur Stankiewicz, Cosan Ayan, Richard Ferguson, Santiago Esteban Colacelli

SPE 16481 Fishing for Talent: Strategies and Techniques for its Effective Management in Hydrocarbon Industry .................................................................................. 1473
V. K. Baskaran, K. C. Dani, S. Varyani, K. Kumar, S. K. Pokhriyal, G. J. Fernandez
SPE 164783 Petroleum Prospectivity of the Jurassic Strata of the Jeffara Basin, Tunisia .............................. 1484
S. Haddad, O. Echihi, H. Ben Jemia

SPE 164785 Arresting Unexpected Oil Production Decline in a Joint-Venture Environment .............................. 1496
J. Samuel Armacanqui-Tipacti

SPE 164786 Guiding Drilling by Look Ahead Using Seismic and LWD Data ........................................... 1506
Oosypov, S. Yang, Y. Liu, C. Shih, A. Hawthorn, C. Cunnell, E. Shady, A. Zarkhidze, A. Shabrawi, M. Nessim

SPE 164787 Life Cycle Concept (LCC) in the Waste Management in the O&G Offshore Exploration ............... 1514
Patricia Soares Burlini, José Tavares Araruna Júnior

SPE 165382 Novel Examples of the Use of Surface Jet Pumps (SJPs) To Enhance Production & Processing, Case Studies & Lessons Learnt .............................................................. 1519
Syed M Peeran, N. Beg, S. Sarshar
