Sustainable Water Management Conference 2013

Nashville, Tennessee, USA
7-10 April 2013

Volume 1 of 2
# TABLE OF CONTENTS

## VOLUME 1

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Development of a Regional Drought Management Plan Using Collaborative Modeling</td>
<td>1</td>
</tr>
<tr>
<td>Casey Caldwell, Brian McCrodden, Thomas Dumm, Doug Murphy</td>
<td></td>
</tr>
<tr>
<td>Another Drought? How the City of Corpus Christi Responded to the Challenges of Climate Uncertainty and Frequent Droughts</td>
<td>15</td>
</tr>
<tr>
<td>Kristine Shaw, Gus Gonzalez</td>
<td></td>
</tr>
<tr>
<td>Overcoming Barriers to Anaerobic Digestion in WWTP: US and UK Views</td>
<td>28</td>
</tr>
<tr>
<td>Michael Ashford</td>
<td></td>
</tr>
<tr>
<td>Energy and Energy Demand Costs—Savings and Optimization Among Multiple Water Treatment Plants</td>
<td>44</td>
</tr>
<tr>
<td>Michael McDonald</td>
<td></td>
</tr>
<tr>
<td>A Case Study of Diligent Energy Management Toward a Sustainable Future</td>
<td>63</td>
</tr>
<tr>
<td>Xiaohong He, Ioan Chilarescu, Mehrdad Morabbi, Chris Chen, Jorge Loor, Bryan Barnett</td>
<td></td>
</tr>
<tr>
<td>Practical Guidance for Applying Climate Change Projections for Water Resource Evaluations</td>
<td>93</td>
</tr>
<tr>
<td>Benjamin Wright</td>
<td></td>
</tr>
<tr>
<td>Changing Mindsets to Promote Sustainable Water Operations Under Climate Change</td>
<td>106</td>
</tr>
<tr>
<td>Joanna Pratt</td>
<td></td>
</tr>
<tr>
<td>Assessing and Adapting to the Impact of Climate Change on Our Water Resources and Infrastructures</td>
<td>123</td>
</tr>
<tr>
<td>Anna Catafau</td>
<td></td>
</tr>
<tr>
<td>Sustainable Tennessee Waters</td>
<td>134</td>
</tr>
<tr>
<td>Paul Davis, Trisha Johnson, Laurel Creech, John Patrick</td>
<td></td>
</tr>
<tr>
<td>Preserving Tennessee's Unique Aquatic Systems - For Good</td>
<td>136</td>
</tr>
<tr>
<td>Trisha Johnson</td>
<td></td>
</tr>
<tr>
<td>Economic Time Series Modeling to Determine the Feasibility of Incorporating Drinking Water Treatment in Water Quality Trading</td>
<td>139</td>
</tr>
<tr>
<td>Christopher Nietch, Hale W. Thurston, Matthew T. Heberling</td>
<td></td>
</tr>
<tr>
<td>Trends in Water Use and Policy Considerations</td>
<td>152</td>
</tr>
<tr>
<td>Margaret Hunter</td>
<td></td>
</tr>
<tr>
<td>Understanding and Decreasing Future Uncertainties in Water Demand Forecasting</td>
<td>167</td>
</tr>
<tr>
<td>J. Alan Roberson</td>
<td></td>
</tr>
<tr>
<td>Are There Added Costs to the Utility for Sustainability?</td>
<td>183</td>
</tr>
<tr>
<td>William Davis</td>
<td></td>
</tr>
<tr>
<td>Economic Valuation and Scenarios for Water Sustainability</td>
<td>193</td>
</tr>
<tr>
<td>Homero Castanier Munoz</td>
<td></td>
</tr>
<tr>
<td>Using Ecosystem Service Valuation to Support Markets for Source Water Protection: Eugene Water and Electric Board Case Study</td>
<td>221</td>
</tr>
<tr>
<td>Nancy Toth, Karl Morgenstern, Rowan Schmidt</td>
<td></td>
</tr>
<tr>
<td>Insights on the Economics of Green Infrastructure: A Case Study Approach</td>
<td>244</td>
</tr>
<tr>
<td>Joanna Pratt, Janet Clements, Lisa Hair</td>
<td></td>
</tr>
<tr>
<td>Comprehensive Watershed Management in the Harpeth River Basin</td>
<td>255</td>
</tr>
<tr>
<td>Dorie Bolze, Sandy Ewing, Michelle Barbero</td>
<td></td>
</tr>
<tr>
<td>Practical Approach to Incorporate Uncertainty In Benefit-Cost Analysis of Water Resources Planning</td>
<td>293</td>
</tr>
<tr>
<td>Md. Mamunur Rashid, Bill Maddaus, Michelle Maddaus</td>
<td></td>
</tr>
<tr>
<td>Sustainable Yield: Assessing Water Supply Reliability</td>
<td>312</td>
</tr>
<tr>
<td>Pam Kenel, Scott Kudlas</td>
<td></td>
</tr>
<tr>
<td>Customer Values and Preferences for Enhancing Water Supply Reliability</td>
<td>330</td>
</tr>
<tr>
<td>Janet Clements, Jim Henderson, Robert S. Raucher</td>
<td></td>
</tr>
<tr>
<td>Georgia’s Regional Water Plans—Implementation Status</td>
<td>344</td>
</tr>
<tr>
<td>Bennett Weinstein, Doug Baughman</td>
<td></td>
</tr>
<tr>
<td>Apalachicola-Chattahoochee-Flint Stakeholders: Working Together to Share a Common Resource</td>
<td>346</td>
</tr>
<tr>
<td>Stephen Simpson, Billy Turner</td>
<td></td>
</tr>
<tr>
<td>GIS for Water System Analytics and Financial Planning</td>
<td>360</td>
</tr>
<tr>
<td>Grant Raudenbush</td>
<td></td>
</tr>
</tbody>
</table>
A Calling to Defense—A Mandate to Defend Progressive Engagement as the Implementation
Paradigm for Cross Boundary, Multi-Constituent Success for Communications on a Billion Dollar
Infrastructure Improvements Program................................................................. 361
Joshua Joseph, David Guillory, Marla Hill

Integrated Blue and Green Roof System: Case Study of a 100-Year Old Structure.................................................. 369
Laura Veronica Bendenang, Sandeep Mehrotra, Carolina Dyer, Nitin Pendharkar, Jennifer Cass, Dahlia
Thompson

Performance of Green Infrastructure Source Controls in New York City................................................................. 370
John McLaughlin, Julie Stein, Sandeep Mehrotra, William Leo, Matthew Jones

Protection of Native Fish—As Important as the Dam Wall ................................................................................. 371
Chris Webb

Success to Abundant Water Supply in Kathmandu Valley, Nepal.......................................................................... 372
Indira Manandhar

Water Conservation and Pollution Mitigation at the Source: On-site Biological Greywater Treatment
System Suitable for a Small Business.................................................................................................................. 373
Bobbie Swinson, Jennifer Johnson, Michael Hambourger, James House

Implementing a Regional Reclaimed Water Project for Research Triangle Park, North Carolina ......................... 396
Leila Goodwin, Rick Jordan, Joe Pearce, John Roberson

Addressing CSOs via Watershed Planning - Sustainable Approach to Manage Watershed Hydrology,
Improve Water Quality, and Reduce CSO ........................................................................................................ 397
Charles Postas, Sharon Jean-Baptiste

Transitioning From Construction to Permanent Stormwater Management...Successfully!.............................................. 417
Beth Chesson

Energy Efficiency Improvement Strategies for Drinking Water Pump Stations.......................................................... 425
Mohammad Badruzzaman, Constantino Senon, Steve Hinman, Mark Allen, Joseph Jacangelo

Toolbox for Water Utility Energy and Greenhouse Gas Emission Management......................................................... 443
Robyn McGuckin, Mohammad Badruzzaman, Joan Oppenheimer, Joseph G. Jacangelo

Smart Irrigation Controller Demonstration and Evaluation in Orange County.......................................................... 459
Jacqueline Torbert, Stacia L. Davis, Michael D. Dukes, Camille Reynolds

Investigation of the Application of Water Footprinting as a Sustainability Planning Tool for Water
Utilities........................................................................................................................................ 470
Mohammad Badruzzaman, Joseph G. Jacangelo, Tim Hess, Heather Smith, Meg Postle

“Once We Know Daily Use for Every Meter, We’ll...”—Cary, North Carolina’s Aquastar (AMI)
Experience................................................................................................................................ 484
Leila Goodwin, Sydney Miller, Marie Cefalo

Water Smart Grid—The Puzzle Pieces Are Now Available; Here Is How to Put Them Together and
Why You Want to ................................................................................................................................. 505
Brian Skeens, Ken Thompson

2012 USEPA Guidelines for Water Reuse Promotes Reclaimed Water as an Integrated Water
Resource Management Tool ......................................................................................................................... 522
W. Don Vandertulip, Allegra Kyria Da Silva, Katherine Bell

VOLUME 2

Expanding Recycled Water Delivery in Ventura, California.................................................................................. 536
Lydia Holmes

Boyette Road Reclaimed Water Reservoir—Reuse Strategy to Provide Flexible Operations and Long-
Term System Sustainability .......................................................................................................................... 550
Randall Bushey, Sarah Rodriguez, Kerstin Kenty

Meeting Multiple Recycled Water Quality Challenges From a Limited Site......................................................... 566
Michael Price, Barbara Palacios

Pigeon Forge Water Management Planning: From Rain to River ........................................................................... 584
Samuel Harrison

Supply-Enhancing Water Reuse: A Quantitative and Spatial Assessment of Opportunities In
Maricopa County, Arizona ................................................................................................................................. 600
Jessica Fox

Implementation of Ultra-Urban Green Infrastructure Stormwater Controls in New York City.............................. 610
Matthew Jones, John McLaughlin, Julie Stein, Sandeep Mehrotra, William Leo

The International Stormwater BMP Database: A Green Infrastructure Resource................................................. 626
Jane Clary, Jonathan Jones
Just Ask—Customer Surveys and What They Will Tell You ................................................................. 641
  Wendy Nero, Susan Butler
Mining Water Billing Data to Inform Policy and Communication Strategies .................................... 656
  Mary Wyatt Tiger, Amy Vickers
Implementing Green Infrastructure Examples from Music City ....................................................... 667
  Andrew Reese
Metro Water Services and Low Impact Development ........................................................................ 677
  Roger Lindsey
Encouraging a Water-Literate Generation in Canberra ..................................................................... 691
  Chris Webb
10 Years of Water Conservation - A Look Back at Water Conservation in the Metropolitan North .... 700
  Neela Ram, Kimberly Shorter
Embracing Water Efficiency Practices Mandate, BMP, or Education ............................................ 716
  Will Jernigan
Leveraging New Technology for Conservation Tablets/Software to Streamline CII, Residential and... 731
  Michelle Maddaus, Lisa Maddaus, William Maddaus, Chris Matyas
An Authority’s Development of a Public/Private Partnership in the Planning and Implementation of a New Water Supply Program ............................................................................................. 747
  Mark Peterson
Yakima River Basin Integrated Water Resource Management Plan .................................................. 754
  Andrew Graham, Steve Thurin
The Elmendorf Lake Evaluation: An Integrated Approach to Sustainable Water Management .......... 773
  Fred Blumberg, Rudy Farias
Stormwater’s Role in the Franklin Integrated Water Resources Plan ............................................... 789
  David Mason
The Sustainability Planning Journey for a Small Water Utility .......................................................... 803
  Matthew Reynolds, Robert Mackinnon
Development of the Duck River Reservoir Project—A Sustainable Water Supply Solution ............... 815
  Steve Newton, Thomas Harwell, Tim Scott, Michael Stickley, Dale Greer, Susan Eller, Doug Baughman
Water Reuse in the Poultry Processing Industry .............................................................................. 827
  Gary Engstrom
High Efficiency Pretreatment Softening for Cooling Tower Management ........................................ 834
  Dan Duke
Analysis of Technical & Organizational Issues in the Development & Implementation of Industrial Reuse Projects ........................................................................................................................................ 843
  Joel Bowden, Richard A. Layton
  Behnaz H. Zaribaf, Qiong Zhang, Nan Bennett
Yorkshire Water - Carbon Project: Supports Sustainable Life-cycle Designs ................................... 863
  Pamela Kenel
Operational and Economic Impacts of Hurricane Irene on Drinking Water Systems .......................... 876
  Chi Ho Sham, Rebecca Weidman, Jaime Rooke
Modeling Innovative Water Conservation Measures ........................................................................ 890
  Michelle Maddaus, Bill Maddaus
Developing Strategies to Improve Non-Residential Water Efficiency For Australian Water Utilities .... 905
  Karl Johnson
Assessing the Economic and Environmental Benefits of Industrial Water Use Efficiency Within the Great Lakes Region .................................................................................................................. 913
  Mary Ann Dickinson, Kenneth Mirvis, Thomas Pape
Metrics of Source Water Protection ................................................................................................... 941
  John Peckenham
Engaging the McKenzie Watershed Agricultural Community ............................................................ 954
  Nancy Toth, Karl Morgenstern
Out of Sight, Out of Mind—The Challenge of Source Water Protection for Groundwater ................ 979
  Carrie Meek Gallagher
Sustainable Water Management Envision™ - Sustainable Infrastructure for Water’s Future ............... 991
  D. Wayne Klotz
Guidance for the Evaluation of Produced Water as an Alternative Water Supply ............................ 1032
  Katharine Dahm, Katie Guerra
