## TABLE OF CONTENTS

### VOLUME 1

- **Applicability of the Hazards and Effects Management Process (HEMP) in Research and Development**
  
  Ahmed J. Allawi
  
  Page: 1

- **Scale up of Stirred Batch and Semi-Batch Reactors - Gaps and Limitations of the Current Methodologies**
  
  Olga Juliana Reyen Valdes, Alba Pinedo-Solano, Victor H. Curreto, Sam Mannan
  
  Page: 12

- **Safety, ASAP and ALARP in Fast Track Process Development**
  
  Joseph B. Powell
  
  Page: 28

- **An Update On the Use of Process Safety Leading Indicators**
  
  Dan Sliva, Shukeel Kadri
  
  Page: 33

- **Role of Leading Indicators in Prevention of Major Accidents: CSB Learnings From BP Texas City and Deepwater Horizon**
  
  Kelly Wilson, Donald Holmstrom, Cheryl Mackenzie, Marybeth Mulcahy, Kara Kane, Jerad Denton, Chris Lyon, Bill Hoyle, Steve Cutchin
  
  Page: 53

- **Process Safety Leading Indicators – A Perspective From Europe**
  
  Piet Knijff, Lee Allford, Peter Schmelzer
  
  Page: 54

- **So We All Have Been Implementing Process Safety Metrics – What Next?**
  
  Shukeel Kadri, James Vanommeren, Glen Peters, Martin A. Dennenhy, Alvin Mateo, Kenneth Fegley
  
  Page: 67

- **Process Safety Leading Indicators: A 'Silver Bullet' or 'Bean Counting' for Enhanced Risk Management**
  
  David E. Cummings
  
  Page: 80

- **Using Metrics to Drive Process Safety Performance At Maersk FPSOs**
  
  William Bradshaw, Jeppe Guld
  
  Page: 96

- **Learning From High Potential Near Misses in the Refining Sector**
  
  V. M. Ramesh, R. Sakhithivel
  
  Page: 111

- **Felt Leadership: An Essential Ingredient in Successful PSM Implementations**
  
  Brian D. Rains
  
  Page: 112

- **Localization of Control Rooms Using a MINLP Approach, Based On Accidental Explosion Scenarios**
  
  Lina M. Sierra, Sergio E. Rodriguez, Jaime E. Cadena, Manuel A. Ramos, Jorge Mario Gomez, Felipe Munoz
  
  Page: 124

- **Risk Analysis for Overpressure From Pressure Vessel Burst**
  
  Seungho Jung, Elizabeth Latostansky, Joan M. Schork
  
  Page: 138

- **Comparison of the Peak Relief Rate Estimated by Dynamic Simulators Compared to Traditional Methods for Several Distillation Columns**
  
  John Wilkins, Dustin J. Smith
  
  Page: 147

- **A Hybrid Model for Characterizing the Source of Hazardous Material Release**
  
  Shahyar Khajehnejad, Anjana Meel
  
  Page: 157

- **Guidelines for Developing Site-Specific Human Error Rates and Human IPLs for LOPA Using a Safety Climate Approach**
  
  Farheen Khan, Sunil D. Lakhiani, Delmar Morrison
  
  Page: 175

- **Benchmarking – an Important Milestone in the Journey towards PSM Excellence**
  
  Prerna Jain, Ravi Ramaswamy, Cindie Pridy, Robert Cravens
  
  Page: 176

- **Process Safety Management - A Practical View**
  
  German Luna-Mejias Sr.
  
  Page: 190

- **Auditing the Process Hazard Analysis - Key Characteristics to Scrutinize in a Good-Quality HAZOP Study and Supporting Effective HAZOP Study Updates**
  
  Steven T. Maher, Michael A. Nour, Kristin D. Norton
  
  Page: 202

- **Vapor Cloud Explosion Test of Air-Inflated Fabric Structure**
  
  Matthew Edel, Brad Horn
  
  Page: 203

- **Revisiting the Conditions and Consequences of CO2 Tank Explosions**
  
  Yu Zhang, Joan M. Schork, Keith Ludwig
  
  Page: 218

- **New Ignition Source "Exploding Wire" for the Determination of Explosion Characteristics of Combustible Dusts in the 20-L-Sphere**
  
  Marc Scheid, Volkmar Schröder, Christian Kusche, Alexander Klippel, Rico Tschirschwitz, Stefan Zirker
  
  Page: 230

- **Operational Discipline and Beyond: An Interdisciplinary Approach to Improving Process Safety Management Implementation Through Behavior and Cultural Change**
  
  Charles A. Szczez
  
  Page: 242

- **Risk Analysis for Pressure Relief Devices – Managing Plant Safety and Reliability**
  
  Jose R. Aguilar-Otero Sr.
  
  Page: 249
Enterprise Risk Management—Adopting Risk-Based Decision Making in a Chemical Enterprise From the Board Room On Down Through All Functions and All Levels .......................................................... 251
Jerry L. Jones

The Chemical Safety Board and the Prevention of Combustible Dust Hazards .......................................................... 253
Manuel R. Gomez, Christina Morgan

Performing HAZOP of Startup/Shutdown Procedures .......................................................... 254
Fareed Elbrahim, German A. Luna Sr.

Chasing the Protection of Intermediate Bulk Containers, Year 10 .......................................................... 263
John A. LeBlanc

Process Safety Challenges in the Hazardous Waste Industry .......................................................... 264
Hope Luebeck

A Novel Methodology for Maintaining Mechanical Integrity of High Pressure Relief Systems .......................................................... 274
Sandipan Laskar

A Framework for Managing near-Miss Incidents .......................................................... 284
Ghanshyam Shah

HAZOP Analysis and Debottleneck for Laboratory Operation in the Semiconductor Industry .......................................................... 292
Tianxing Cai, Qiang Xu

Best Practice Management of Change & Pssr Process .......................................................... 307
Mike Bearrow

Unifying Consequence Models for Natural Gas Pipelines in Petrobras Transpetro .......................................................... 321
Ana Bahiense, Maria Caputo

Automation Strategies: Avoiding Accidents During the Process of Draining Water From LPG Spheres .......................................................... 329
Carlos André Vaz Jr., Mauricio Bezerra Souza Jr., Diego Da Silva Lione, João Márcio Almeida Villaça, Leonardo Salim Damian Aguiar

Complex BMS Made Simple .......................................................... 344
Dave Sheppard, Nikki Bishop

Using ESD Valves As Safeguards, Myth or Reality? .......................................................... 345
German A. Luna-Mejias Sr.

Contours When Pipelines Meets Facilities .......................................................... 356
Karthick Deivasagayam

Ozone Flammability and Its Affect On the Lower Flammable Limit of Simple Hydrocarbons .......................................................... 357
Paul Osterberg, Thomas Johnson, Thomas Frawley

Evaluate the Plant-Wide Safety of Your Interlock Systems .......................................................... 358
Mohammad Naved Khan, James Brigman, Swapnil Pathak

Virtual Reality Applied to Training and Process Safety: A Semi-Industrial Boiler Case Study .......................................................... 372
Carlos André Vaz Jr, Mauricio Bezerra Souza Jr., Thiago Souza De Oliveira

Investigations On the Influence of Different Inert Gases On the Laminar Flame Propagation in Lycopodium/Air Mixtures .......................................................... 382
Hannes Kern, Bruno Wimmer, Harald Raupenstrauch

Fire Protection and Life Safety Issues in Semiconductor and Related Facilities .......................................................... 391
Jonathan Eisenberg

Lower Flammability Limits of Mixtures of Hydrogen and Methane At Atmospheric and Sub-Atmospheric Pressures .......................................................... 392
Hai Le, Yi Liu, M Sam Mannan

Informatics Rich Integrated Chemical Safety Risk Assessment (ICSRA) Platform .......................................................... 401
Mathukumarasamy Karthikeyan, Renu Vyas, Hv Prasad

IT Enablement for Effective Implementation and Monitoring of Process Safety Management .......................................................... 405
Pawan Mittal, Ajay Kumar

Sulphur Dust Explosions an Overview .......................................................... 409
Karthick Deivasagayam

Simplified Uncertainty Analysis of LOPA Results .......................................................... 410
Raymond "randy" Freeman

The Impact of Ozone On the Lower Flammable Limit of Hydrogen in Vessels Containing Savannah River Site High Level Waste .......................................................... 437
Paul Osterberg, Carol Sherburne, Thomas Johnson, Thomas Frawley

Process Safety Considerations for New DOE Depleted Uranium Hexafluoride Conversion Plants .......................................................... 452
Peter M. Burban

Minimum Ignition Energy Study of Flowing Heat Transfer Fluid Aerosols: Experimental and Theoretical Approach .......................................................... 459
Szu-Ying Huang, Xinrui Li, M. Sam Mannan
Operational Risk Management

Hydrogen Sulfide Exposure From Molten Sulfur- A Forgotten Hazard?
Lessons Learned From Fire in Air Supply Ducts
Catastrophic Process Safety Incidents
Blacks Swans, White Swans and Fifty Shades of Grey: Remembering the Lessons Learned from Keeping the Memory Alive, Preventing Memory Loss That Contributes to Process Safety Events
Using near Misses to Improve Risk Management Decisions
Critical P & ID Reviews Using HAZOP/LOPA Methodology – Overkill or Underrated?
Technical Risk – It’s Not a One-Size-Fits-All Proposition
Preventing Process Safety Problems of Tomorrow, Today!

Characterization of the Emissive Power of Hybrid Methane-Air-Dust Flames
Are You in Control of Process Safety?
Process Hazard Analysis, Layers of Protection Analysis and the Human Factor
Benchmarking Industry Practices for the Use of Alarms As Safeguards and Layers of Protection
The Impact of Human Factors On LOPA (And Other Risk Assessment Methods)
Take the Guess Work Out of Testing Your Safety Instrumented System
The Impact of Human Factors On LOPA (And Other Risk Assessment Methods)
Explosion Characteristics of Carbon Nano-Fibers

High-Fidelity Combined Dynamic Modeling of Depressurizing Vessels and Flare Networks:

An Engineering Method to Mitigate the Impact of Regulatory Focus On Relief System Installations by Prioritizing Risk
Making Relief Load Estimates Match Reality

Increasing the Agility of Process Safety Management Systems

Handling

Using New Technology to Ensure Corporate Standards Compliance and Improved Frontline Operational Risk Management

Conduct of Operations Best Practice Networks
Management of Change Indicators
Organizational Change Management

Increasing the Agility of Process Safety Management Systems

Technical Risk – It’s Not a One-Size-Fits-All Proposition

Preventing Process Safety Problems of Tomorrow, Today!

Critical P & ID Reviews Using HAZOP/LOPA Methodology – Overkill or Underrated?
Using near Misses to Improve Risk Management Decisions
Keeping the Memory Alive, Preventing Memory Loss That Contributes to Process Safety Events
Blacks Swans, White Swans and Fifty Shades of Grey: Remembering the Lessons Learned from Catastrophic Process Safety Incidents
