123rd Annual Meeting of the Florida State Horticultural Society 2010

Crystal River, Florida, USA
6-8 June 2010

Editors:

Jan Narciso

ISBN: 978-1-62748-484-8
ISSN: 0886-7283
Proceedings of the Florida State Horticultural Society 2010

Table of Contents

Volume CXXIII Printed April 2011

Board of Directors for 2010 ...................................................... ii
Presidential Address: Jeffrey K. Brecht .................................... vi
Awards of the Society ........................................................ v
2010 FSBS Keynote Speaker: Michael Carlton ....................... xi
List of Presidents, Honorary Members: 1988 to Present ........... xv
Outstanding Growers or Commercial Horticulturists ............... xvi
Endowment Contributions ................................................... xvi
By-laws ............................................................................. 358
Minutes of the Board of Directors Meetings ......................... 363
Minutes, 2010 Annual Meeting ............................................. 370
Manuscript Preparation Guide for Authors ............................ 372
Conversion Table: U.S. & Metric Measures ............................ 376
Membership list ................................................................... 377
Index .................................................................................. 379

Published Papers

Krome Memorial Institute (Tropicals)

Preliminary Field Evaluation of Jatropha (Jatropha curcas L.) under South Florida Environmental Conditions ....................... 1
Jonathan H. Crane*, Wagner A. Vendrame, Wanda Montas, Ania Pinares, and Edward A. Evans

Results of the 2009 ASBVd Survey of Avocado Accessions of the National Germplasm Collection in Florida...................... 5
Cecile L. Tondo*, Raymond J. Schnell, and David N. Kahn

Performance of ‘Owari’ and ‘Brown Select’ Satsuma in North Florida on Standard and Flying Dragon Pomeria trifoliata Rootstock ...... 8
Peter C. Andersen* and Brent V. Brodbeck

The Role of Research and Extension in Establishment of a Florida Stone Fruit Industry ......................................................... 11
Mercy A. Olmstead*

Damage to Low-chill Peach and Plum Trees from Ice Accumulation during Severe Winter Freezes in North and North-central Florida ................................................................. 14
Jeffrey G. Williamson*, Paul Miller, Robert C. Hochmuth, and Linda Landrum*

Deciduous Fruit Crop Demonstration Area at Water Conserv II Project in Central Florida....................................................... 18
Gary K. England* and Ryan A. Artwood

Summer 2009 Blueberry Herbicide Evaluations ..................... 20

Blueberry Gall Midge: A Key Pest of Rabbiteye Blueberries ...... 23
Oscar E. Liburd* and Craig R. Roubos

Assessment of Genetic Diversity among Selected Raspberry Cultivars ............................................................................. 26
Gohar Umar, Hemanth Kn. Vasanthaiah*, Devalia Kambiranda, Sheikh M. Basha, Bobby R. Phills, and Wayne Hunter

Development of New Muscadine Wine Grapes .......................... 29
Zhongbo Ren, Jiang Lu*, Xia Xu, and Fitz Bradley

Genetic Variation in Sucrose Metabolizing Enzymes among Six Muscadine Varieties ..................................................... 32
Devalia Kambiranda*, Hemanth Kn. Vasanthaiah, and Sheikh M. Basha

Screening of Fruit Rot Diseases in Muscadine Grape
(Vitis rotundifolia Michx.) .................................................... 35
Xia Xu, Jiang Lu*, Barbara J. Smith, Zhongbo Ren, Fitz Bradley, and Melissa Cadet

Citrus Section

Modeling Loosening of Sweet Orange with CMNP: Variation in Fruit Detachment Force ....................................................... 39
Sanchari Sharma, Robert C. Ebel*, and Kelly T. Morgan

Induction of Autotetraploids in Pummelo (Citrus grandis L. Osbeck) through Colchicine Treatment of Meristematically Active Seeds In Vitro ................................................................. 44
Divya Kaith and Jude W. Grosser*

Spatial Variability of Leaf Wetness Duration in Citrus Canopies.... 49
Veronica N. Santillan, Clyde W. Fraisse*, Natalia A. Peres, James C. Colee, and Amy Cantrell

Variation in Florida Orange Yields Over a 37-Year Period:
A Standardized Evaluation ......................................................... 56
L. Gene Albrigo* and Marina Bururi-Arouca

Interaction of CMNP Application and Harvest Date of ‘Hamlin’ Sweet Orange ................................................................. 59
Robert C. Ebel*, Kelly T. Morgan, and Fritz M. Roka

Citrus Stumps Sprout Control ....................................................... 62
Stephen H. Futch* and Sharon Weingarten

Alion 200 SC: A Promising New Herbicide for Weed Management in Florida Citrus ................................................................ 65
Stephen H. Futch*, Mike Edenfield, and John Curtis

Estimating Relative Nutrient Uptake by Mature Citrus Trees
in Field Conditions .................................................................. 67
Kirandeep K. Mann*, Laura J. Waldo, Kevin Hostler, Rajinder S. Mann, and Arnold W. Schumann

Phosphite Is Not a Good Source of Phosphorus Nutrition for Citrus Rootstock Seedlings ....................................................... 74
Fernando C.B. Zambrosi, D. Mattos Jr, and J.P. Syvertsen*

‘Parson Brown’ Sweet Orange Performance in a Rootstock Planting ................................................................................. 78
William S. Castle* and James C. Baldwin

An Economic Analysis of the U.S. Orange Juice Tariff and the
Competitiveness of Florida Growers and Processors .................. 82
Robert A. Morris* and Ronald P. Murano

Effect of Salicylic Acid on Oxidative Metabolism during
Xanthomonas citri subs. citri Infection of Grapefruit .................. 87
Naveen Kumar, Robert C. Ebel*, and Pamela D. Roberts

Streptomycin and Copper Formulations for Control of Citrus Canker on Grapefruit ............................................................... 92
James H. Graham*, Megan M. Dewdney, and Monty E. Myers

Effect of Stimplex® Crop Biostimulant on Drought Tolerance of ‘Hamlin’ Sweet Orange ............................................................... 100

Timothy M. Spann* and Holly A. Little

A Comparison of Common and Different Volatiles in “White” Guava and ‘Valencia’ Orange Leaves ............................................. 105

Ebenezer Onagbola, John Smoot, Łukasz Stelniski, and Russell Rossell *

Ground Application of Foliar Insecticides to ‘Valencia’ Oranges for Control of Diasporia citri Kuwayama (Hemiptera: Psyllidae) ................................................................. 109

Jawwad A. Qureshi*, Barry C. Kostyk, and Phillip A. Stansly

Possible Tolerance to Huanglongbing in Sweet Orange ............... 113

R.H. Bralinsky*, W.S. Castle, and S.B. Garrett

Evaluation of Candidatus Liberibacter asiaticus Titer in Field-infected Trifoliate Cultivars: Preliminary Evidence for HLB Resistance ................................................................. 115

Ed Stover*, Robert Shatters, Jr., Greg McCollum, David G. Hall, and Yongping Duan

Monitoring Trees Infected with Huanglongbing in a Commercial Grove Receiving Nutritional/SAR Foliar Sprays in Southwest Florida ................................................................... 118

Bob Rouse*, Pam Roberts, Mike Irey, Maury Boyd, and Tim Willis

Spectral Evaluations for Developing Optical Methods of Huanglongbing (HLB) Detection in Citrus Orchards ............................... 121

Sindhuja Sankaran and Reza Ehsani*

VEGETABLE SECTION

Growing and Marketing Pole Beans at Local Green Markets in Southeast Florida ................................................................. 124

Kenneth D. Shuler* and Pei-Ann N. Shuler

A Survey of the Effectiveness of Current Methods Used for the Freeze Protection of Vegetables in South Florida .......................... 128

M. Ozores-Hampton*, G. McAvoy, M. Lambert, and D. Sui

Estimating Financial Losses to Vegetable Producers and Farmworkers from a Freeze Event ...................................................... 134

Fritz M. Roka*, Monica Ozores-Hampton, and Gene McAvoy

Performance of Specialty Muskmelon Cultivars in High Tunnels and Open Fields .................................................................... 138

Teresa P. Salame*, Bielinski M. Santos, and Daniel J. Cantliffe

Postharvest Qualities and Nutrient Content of Vegetable Crops Grown with or without Compost .............................................. 141

Nancy E. Roe* and Mark A. Ritenour

Growing and Marketing Eggplant at Local Green Markets in Southeast Florida ................................................................. 147

Kenneth D. Shuler*, Pei-Ann N. Shuler, and Stephen J. Nie

Organically Approved and Reduced Risk Pest Control Options for Fruiting Vegetable Production .................................................. 151

Henry Brett Highland*

Incidence and Spread of Strawberry necrotic shock virus (SNSV) on Strawberries in Florida ................................................................. 156

Catalina Moyer, Vance M. Whitaker, and Natalia A. Peres*

Bacterial Spot Resistant Pepper Trials in Florida .............................. 160

Gene McAvoy*, David Sui, Richard Raid, and Monica Ozores-Hampton

Evaluation of Herbicides for Management of Weeds in Sweet Basil (Ocimum basilicum) ................................................................. 165

David D. Sui, William M. Stall, Richard N. Raid*, and Eugene McAvoy

Searching for an Ideal Soil Extractant for Determining Sulfur in Sandy Soils ............................................................................. 169

C.E. Esmel*, B.M. Santos, J.E. Recherigl, G. Toor, E.H. Simonne, and J.W. Noling

Movement of the Wetted Front under Drip-irrigated Tomatoes Grown on a Sandy Soil ................................................................. 175

Bee Ling Poh*, Aparna Gazula, Eric H. Simonne, Robert C. Hochmuth, and Michael R. Alligood

Novaluron for Control of Larval Sap Beetles in Strawberries .......... 179

James F. Price* and Curtis A. Nagele

Effect of Added Elemental Sulfur on Soil pH and Phosphorus Availability in Sandy Soils ................................................................. 183

Kelly T. Morgan*, Shinjiro Sato, and Eugene McAvoy

Improving Irrigation Management for Strawberry Establishment in West-central Florida ................................................................. 187

Bielinski M. Santos*, Teresa P. Salame-Donoso, Alicia J. Whidden, and Maricruz Ramirez-Sanchez

Evaluation of Methodologies to Estimate Reference Evapotranspiration in Florida ................................................................. 189

E.M. Geeler, C.W. Fraisse*, and P.C. Sentelhas

Nutrient Management Programs for Fresh Market Tomatoes Grown with Plasticulture: Economic Insights ................................. 196

Aparna Gazula*, Eric H. Simonne, and Fritz Roka

HANDLING & PROCESSING SECTION

A Comparison of Processed and Fresh Squeezed ‘Hamlin’ Orange Juice—Flavor Quality ................................................................. 199

Jinhe Bai, Elizabeth Baldwin*, Anne Plotto, Randall Cameron, Bryan L. Ford, Gary Luzio, John Manthey, Jan Narciso, and Sharon Dea

A Comparison of Processed and Fresh Squeezed ‘Hamlin’ Orange Juice—Nutrients and Phytonutrients ......................................... 207

Jinhe Bai, Bryan L. Ford, John A. Manthey, and Elizabeth A. Baldwin*

Contactless Conductivity: An HPLC Method to Analyze Degree of Methylation of Pectin ................................................................. 213

Gary A. Luzio* and Randall Cameron

Salmonella Does Not Penetrate Citrus Peel through Natural Light Labels ......................................................................................... 217

Michelle D. Danyluk*, Preeti Sood, Lisseth Prouso, Loretta M. Friedrich, and Ed Etxeberria

Improved Removal of Ascorbate Interference in the Folin-Ciocalteu Assay of “Total Phenolic Content” .............................................. 220

Bryan L. Ford, Jinhe Bai, John Manthey, and Elizabeth A. Baldwin*

Anthocyanin Identification, Vitamin C Content, and Antioxidant Capacity of Acerola (Malpighia emarginata DC) Juices .................. 223

Lemâne Delva* and Renée M. Goodrich

Daily Intake of Pasteurized Orange Juice Decreases Serum Cholesterol, Fasting Glucose, and Diastolic Blood Pressure in Adults ......................................................................................... 228

Livia G. Basile, Cláudia G. Lima, and Thais B. César*

Effects of Growing Location, Storage Temperature, and Fruit Coating on Postharvest Quality and Quality Retention of ‘Sugar Belle’™ Mandarin .................................................................. 234

Sambhay, Mark A. Ritenour*, Caijing Hu, Fred G. Gmitter, William S. Castle, and Jude W. Grosser
Polygalacturonase Activity Does Not Fully Explain Textural Differences of Melting Flesh versus Non-melting Flesh Peaches.......................................................... 238

Ming-Wei S. Kao*, Jeffrey K. Brecht, and Donald J. Huber
Evaluation of Roma Tomato (Solanum lycopersicum) Peeling Methods: Conventional vs. Power Ultrasound.............................. 241
Cheryl Rock*, Wade Yang, Jyotsna Nooji, Arthur Teixeira, and Hao Feng
Survival of Salmonella spp. on Lime Slices .................................. 246
Rachel McEgan and Michelle D. Danyluk*
Fractionation of Secondary Metabolites of Orange (Citrus sinensis L.) Leaves by Fast Centrifugal Partition Chromatography .................................................. 248
John A. Manthey*
Preharvest Measures for Postharvest Improvement in Marketable Fresh Citrus.......................................................... 252
J. Narciso*, C. Ference, and W. Peeples
Commercial Postharvest Practices Used to Handle Fresh Citrus Fruit with Canker Symptoms ........................................... 255
Mark A. Ritenour*, Lucimeire Pilon, Ron Muraro, Jan Narciso, and Thomas F. Burks
Electronic Nose for Detecting Strawberry Fruit Maturity ............. 259
Xiaofen Du, Jinhe Bai, Anne Plotto, Elizabeth Baldwin, Vance Whitaker, and Russell Rouseff*
Effect of Postharvest Application of 1-MCP on Basil Shoot Quality during Storage at Chilling Temperature.......................... 264
Adrian D. Berry, Steven A. Sargent*, and Donald J. Huber
Potential of 1-Methycyclopentene to Delay Ripening and Extend Quality of Avocado Fruit during Refrigerated Storage ........... 269
Steven A. Sargent*, Adrian D. Berry, Marcio E. C. Pereira, and Donald J. Huber
Maturity and Postharvest Performance of ‘US Early Pride’ Seedless Mandarins..................................................................... 274
T. Gregory McCollum*, C.J. Hearn, and Mark Ritenour
Modified Atmosphere Packaging for Fresh-cut ‘Kent’ Mango under Common Retail Display Conditions................................. 278
Sharon Des*, Jeffrey K. Brecht, Cecilia do Nascimento Nunes, and Jean-Pierre Émond
Eating Quality of Old and New University of Florida Strawberry Cultivars............................................................................. 290
Anne Plotto*, Vance Whitaker, and Craig Chandler

ORNAMENTAL, GARDEN & LANDSCAPE SECTION
Rose Nursery Banker Plants ......................................................... 296
Juanita Poppenoe* and Lance Osborne
Effects of Solarization against Weeds and Root-knot Nematodes Limited by Weather.......................................................... 298
Robert McSorley* and Harisunran K. Gill
Efficacy of Fungicides for the Control of Myrothecium roridum on Dieffenbachia picta ‘Compacta’ ............................................. 302
Robert T. McMillan, Jr.*
Control of Royal Palm Bug (Xylastoridios lateolorus) Populations with Soil Applied Neonicotinoid Insecticides.......................... 304
Douglas L. Caldwell* and A.D. Ali
Integrated Impact of Soil Solarization and Organic Mulching on Weeds, Insects, Nematodes, and Plant Performance............... 308
Harisunran K. Gill* and Robert McSorley
Performance of Low-maintenance Roses in Central Florida............. 312
Joseph Antonio Mangandi* and Sydney Park Brown
Water Quality Issues Facing Florida Growers............................... 315
Brian J. Boman* and Thomas A. Obreza
Considerations for Reclaimed Water Use in the Nursery................ 322
Thomas H. Yeager*
The Importance of Water Quality for Food Safety ......................... 324
Alicia Whidden*
Installation of a Bioretention/Rain Garden to Mitigate Agricultural Irrigation Runoff from a Container Plant Nursery..................... 326
Alex Bolques*, Jennifer Cherrier, Michael Abaczing, and Gendal Matungwa
Description and Performance of Four Eucalyptus grandis Cultivars Released by IFAS/UF in 2009.......................................... 330
Donald L. Rockwood* and Bijay Tamang
Brining Master Gardening to Costa Rica........................................ 333
Communicating Landscape Freeze Damage to the Public in Charlotte County................................................................. 339
Ralph E. Mitchell*
A Methodology for Building Community Leader Support for Good Tree Care............................................................... 341
Michael S. Orfanedes*
Evaluating How Accurately Lawn Fertilizers Are Applied Using Homeowner Equipment..................................................... 344
Steven Arthurs* and Karen Stauderman
An Educational Model to Facilitate Mandated Environmental Behavior Change............................................................... 348
Michael S. Orfanedes* and Angelina C. Toomey

POSTER PAPERS AND EXTENDED ABSTRACTS SECTION
Assay of Citrus Seed for Viable Xanthomonas citri pv. citri (Xcc) after Extraction from Fruit Affected by Citrus Canker..................... 350
James Graham*, Mike Irey, and Chuck Reed
Using Strawberry Variety Taste Testing to Promote Agricultural Education and Determine Consumer Preferences....................... 351
James DeValerio*, Aparna Gazula, Eric H. Simonne, and Amaarit Simonne
Alicia R. Lamborn*
Magazine and Online CEU Articles as Possible Models of Educational Opportunities for Pesticide Applicators and ASHS Certified Horticulturists............................................. 354
Mary Lamberts*, Edward A. Skvarka, and Gary K. England
Vegetable Water Quality and Quantity BMP Collaboration in West-central Florida.......................................................... 356
Crystal Snodgrass*, Alicia Whidden, and Jenny West Hinton
