TABLE OF CONTENTS

An Interference Aware Minimum Energy Routing Protocol for Wireless Networks Considering Transmission and Reception Power of Nodes.......................................................... 1
   Sanghita Bhattacharya, Subhansu Bandyopadhyay

Performance Analysis of a Ge-on-Si Resonant Cavity Enhanced Schottky Photodetector for Optical Communication at 1.55 µm................................................................. 9
   H. S. Dutta, N. R. Das

Watermarking in Transform Domains (WTD)........................................................................................................... 19
   J. K. Mandal

Finding Number of Clusters before Finding Clusters.................................................................................................. 27
   Malay K. Pakhira

Fuzzy-controlled Power-aware Multicast Routing (FPMR) for Mobile Ad Hoc Networks................................................................. 38
   Paramartha Dutta, Anuradha Banerjee

Differential Evolution Based Optimization of SVM Parameters for Meta Classifier Design................................. 50
   Tapas Bhadra, Sanghamitra Bandyopadhyay, Ujjwal Maulik

Variable Length Reduct Vs. Minimum Length Reduct-A Comparative Study....................................................... 58
   Jayanta Sil, Asit Kr. Das

A Tuneable Microstrip Antenna Design with Multifaceted Ability: Compactness, Wideband, and Multi-Frequency Operation.............................................................................. 69
   Sushanta Sarkar, Srijit De, Sushanta Biswas, Debasis Sarkar, Partha Pratim Sarkar

Compensator Design for Helicopter Stabilization......................................................................................................... 74
   Rajibupati Goswami, Sourish Sanyal, Amar Nath Sanyal

Real Time Implementation and Performance Evaluation of WCDMA System over AWGN Channel on TMS320C6713DSK ......................................................................................... 82
   H. N. Latha, M. V. Palachandra, Madhusudhan Rao

Design of Compact Printed Antenna for WiMAX & WLAN Applications................................................................. 87
   Barun Mazumdar, Ujjal Chakraborty, Aritra Bhownik, S. K. Chowdhury

Temperature Dependent Gain Analysis of a Cascaded C-Band EDFA DWDM Network..................................... 92
   Ricky Anthony, Samblu Shin Biswas

Transient Fault Tolerant Wireless Sensor Networks............................................................................................... 97
   Arunanshu Mahapatra, Pabitra Mohan Khilar

Inter Carrier Interference Analysis of SCFDMA System using Frequency Domain Equalization.................. 102
   Akla Kalra, Rajesh Khaona, Charu Garg

PAPR Reduction Scheme for OFDM .......................................................................................................................... 109
   Sandeep Bhardwaj, Pankaj Gulhane, A. S. Hivale

A Modified Hill Cipher Based on Circulant Matrices............................................................................................... 114
   K. Adinarayana Reddy, B. Vishnuvardhan, Madhaviswamitham, A. V. N. Krishna

Intrusion Detection using Naive Bayes Classifier with Feature Reduction.......................................................... 119
   Saurabh Mukherjee, Neelam Sharma

A ProActive Approach for Generating Random Passwords for Information Protection................................. 129
   Abhishek Bajana, Sandeep Kumar

A Survey on Single Sign-On Techniques .................................................................................................................. 134
   V. Radha, D. Hitha Reddy

An Efficient Constructive Approximation Approach to Design A K-Connected Network Topology.................. 140
   P. C. Saveren, Sangeeta Sabharwal, Maneesha

A Comparative Analysis of Queuing and Fuzzy Logic based Admission Control Schemes in CDMA Cellular Network .................................................................................................. 145
   Ravi Sindal, Sanjiv Tokekar

Multilayer Joining for Receiver Driven Multicast Congestion Control................................................................. 151
   Karan Singh, Rama Shankar Yadav

Power Consumption and Maximizing Network Lifetime During Communication of Sensor Node in WSN ...................................................................................................................... 158
   Raju Dutta, Shishir Gupta, Mukul K. Das

   V. Geetha, P. V. Kallapur, Sushma Tellajeera
Energy-aware Cluster Head Selection Using Particle Swarm Optimization and Analysis of Packet Retransmissions in WSN ................................................................. 171
Buddha Singh, D. K. Lobiyal

Genetic Algorithm Based Congestion Aware Routing Protocol (GA-CARP) for Mobile Ad Hoc Networks ......................................................................................... 177
S. Santhosh Baboo, B. Narasimhan

Centralized Rank Based Channel Assignment for Multi-Radio Multi-Channel Wireless Mesh Networks ................................................................................................. 182
V. Saraswatii, N. Ch. S. N. Iyengar

Optimal 2-Coverage by Heterogeneous Mobile Sensor Nodes Using Triangular Scheme ................................................................. 187
R. J. D’Souza, Santoshi Ganala

Finite Population Based Call Admission Control in Integrated Cellular Ad-hoc Relaying System ................................................................. 196
V. Goswami, P. K. Swain

Delay Prediction in Mobile Ad Hoc Network using Artificial Neural Network ................................................................................................. 201
Jyoti Prakash Singh, Paramartha Dutta, Arindrajit Pal

Performance Comparison of Two Different Energy Conservation Mac Protocols ................................................................................................. 207
G. S. Binu, K. P. Jacob

Segmentation and Classification of Raw Arecanuts Based on Three Sigma Control Limits ................................................................................................. 215
Ajit Danti, Sureshka

A Survey on Various Edge Detector Techniques ................................................................................................. 220
Saket Bhardwaj, Ajay Mittal

Spot Edge Detection in Microarray Images Using Bi-Dimensional Empirical Mode Decomposition ................................................................................................. 227
J. Harikiran, Y. Narasimharao, B. Sai Chandana, P. V. Lakshmi, R. Kiran Kumar

A Robust Multilingual Text Detection Approach Based on Transforms and Wavelet Entropy ................................................................................................. 232
V. N. Manjunath Aradhya, M. S. Pavithra, C. Naveena

Denosing of Medical Images Using Dual Tree Complex Wavelet Transform ................................................................................................. 238
V. Naga Prudhvi Raj, T. Venkateswarlu

A Novel Approach for Content Based Image Retrieval ................................................................................................. 245
Nidhi Singh, Kanchan Singh, Ashok K. Sinha

Digital Image Steganography using Dithering Technique ................................................................................................. 251

Hardware Based Analysis on Automated Early Detection of Diabetic-Retinopathy ................................................................................................. 256
N. S. Dutta, R. Banerjee, H. S. Dutta, S. Mukhopadhyay

A Novel Scheme for Graph Coloring ................................................................................................. 261
Vishal Donderia, Prasanta K. Jana

Parallel Processing Concept Based Road Traffic Model ................................................................................................. 267
Debasis Das, Rajiv Misra

Graph Coloring Approach for Hiding of Information ................................................................................................. 272
Sanjay Kumar Pal, Samar Sen Sarma

Algorithms for Ternary Number System ................................................................................................. 278
Subrata Das, Joy Prakash Sain, Parthasarathi Dasgupta, Samar Sen Sarma

Compiler with Auto-Debugger: an Intelligent Computing Approach Towards Self-Improvised Correction of Errors ................................................................................................. 286
Somsubhra Gupta, Biswajit Chatterjee

MZI Based Modified Trinary Number System ................................................................................................. 297
Goutam Kumar Maity, Santi P. Maity, J. N. Roy

Agent Based Diagnostic Model for Cancer in Selected Organs Using JADE ................................................................................................. 303
K. Lavanya, M. A. Saleem Durai, Avis. Suresh, N. Ch. S. N. Iyengar

Weather Forecasting Model using Artificial Neural Network ................................................................................................. 311
Kumar Abhishek, M. P. Singh, Saswata Ghosh, Abhishek Anand

Fast Convergence Particle Swarm Optimization for Functions Optimization ................................................................................................. 319
Amaresh Sahu, Sushanta Kumar Panigrahi, Sabyasachi Pattnaik

Extracting Collocations from Bengali Text Corpus ................................................................................................. 325
Bidyut Das

Gene Expression Data Classification by VVRKFA ................................................................................................. 330
Sanatru Ghorai, Anirban Mukherjee, Pranab K. Dutta

Access Control on Grid Resources Using Radial Basis Function Neural Network ................................................................................................. 336
Panum Bedi, Bhavna Gupta, Harmeet Kaur

A Robust Fuzzy Sliding Mode Control Design for Current Source Inverter based STATCOM Application ................................................................................................. 342
Sangram Keshari Routray, Niranjan Nayak, Pravat Kumar Rout
Identity Anonymization and Secure Data Storage using Group Signature in Private Cloud ........................................ 495
K. Govinda, E. Sathiyamoorthy

Enhanced Query based Layered Approach Towards Detection and Prevention of Web Attacks ................................. 500
Gaurav Kumar Tak, Gaurav Ohja

Intrusion Detection System using Bayesian Network and Hidden Markov Model .................................................. 506
Nagaraju Devakonda, Srivivasulu Pumidi, V. Valli Kumari, A. Govardhan

Dynamic Security Scheme for Multicast Source Authentication ................................................................. 515
Karan Singh, Rama Shankar Yadav

ECC Based IKE Protocol Design for Internet Applications ........................................................................ 522
Sangram Ray, Bichitra Nandan, G. P. Biswas

Predictability in Viral Computing .............................................................................................................. 530
Somsabitra Gupta, Sanjib Das, Prasenjit Kanti Pal

Analyzability Quantification Model of Object Oriented Design ................................................................. 536
Suhel Ahmad Khan, Raees Ahmad Khan

Extraction of State Transition Diagrams from Legacy C++ Application .................................................. 543
Salman Abdul Moiz, N. Md. Jabir Basha

Object Oriented Design Complexity Quantification Model ........................................................................ 548
Suhel Ahmad Khan, Raees Ahmad Khan

A Multiobjective Go based Approach to Protein Complex Detection ......................................................... 555
Sumanta Ray, Moumita De, Anirban Mukhopadhyay

Customized 3-tier Service Suite Conceptualization in Cloud Computing ............................................. 561
Chandran Banerjee, Anirban Kundu, Rama Dattagupta

A Reputation Based Detection Technique to Cloaked Web Spam .......................................................... 566
A. Naga Venkata Sunil, Anjali Sardana

An Adaptive Scheduling Mechanism for Computational Desktop Grid Using GridGain ............................. 573
K. Hemant K. Reddy, Manas Ranjan Patra, Dipendra Sinha Roy, B. Pradhan

Proposed Conceptual Model for Semantically Enabled Web Services Based On QoS .............................. 579
Anjan Bandyopadhyay, Tapas Si, Partha Protim Mondal, Saurav Malik

A Novel Approach of SAR Image Processing based on Hue, Saturation and Brightness (HSB) ...................... 584
Debabrata Samanta, Goutam Sanyal

Windowed Huffman Coding with Limited Distinct Symbols ......................................................................... 589
Utpal Nandi, Jyotsna Kumar Mandal

Real Time Gesture Recognition System for Interaction in Dynamic Environment .................................... 595
Siddharth S. Rautaray, Anupam Agrawal

Application of Color-Based Segmentation Approach to Detect Berlin's Edema ......................................... 600
Sarbani Dutta, Monisha Chakraborty

Minutiae Based Thermal Human Face Recognition using Label Connected Component Algorithm .......... 604
Ayan Seal, Saranjan Ganguly, Debotosh Bhattacharjee, Mita Nasipuri, Dipak Kumar Baru

Multimodal Biometric Authentication using PSO based Watermarking .................................................. 612
Punam Bedi, Roli Bansal, Priti Sehgal

A Novel (2,n) Secret Image Sharing Scheme ........................................................................................... 619
Tapasi Bhattacharjee, Jyoti Prakash Singh, Amitava Nag

LoPP: Locality Preserving Projections for Moving Object Detection .................................................... 624
M. T. Gopala Krishna, V. N. Manjunath Aradhya, M. Ravishankar, D. R. Ramesh Babu

Error Propagation and Uncertainty Evaluation for Automatic Control-A Neglected Part of Engineering Education .................................................. 629
Soumi Ray

Variational Analysis and Sequential Quadratic Programming Approach for Robotics ............................. 636
Ankit R. Patel, Mahesh A. Patel, Dhaval R. Vyas

Nonlinear Effects and Multisolitons in Metamaterials ........................................................................... 641
B. Mandal, A Biswas, K. Choudhury, S. J. Mandal, A. K. Bandyopadhyay, A. K. Bhattacharjee, D. Mandal

Detection of Induction Motor Broken Bar Fault Through Envelope Analysis Using Start-Up Current ........ 646
Syed Kamruddin Ahamed, Arghya Sarkar, Madhuchanda Mitra, Samarjit Sengupta

State Feedback Robust H∞ Controller for Transient Stability Enhancement of VSC-HVDC Transmission Systems .................................................. 652
Niranjan Nayak, Sangram Keshari Routray, Pravat Kumar Rout

Towards Constant Load Voltage in Indian Grid Connected PV System using dsPIC Controlled Power Conditioning Unit ....................................................................................... 661
A. Dutta, G. Bhattacharya, D. Mukherjee, H. Saha

Simulation Modeling of BLDC Motor Drive and Harmonic Analysis of Stator Current, Rotor Speed and Acceleration using Discrete Wavelet Transform Technique .................................................. 666
Madhurima Chattopadhyay, Priyanka Roy, Sharmi Dutta

Towards Constant Load Voltage in Indian Grid Connected PV System using dsPIC Controlled Power Conditioning Unit ....................................................................................... 661
A. Dutta, G. Bhattacharya, D. Mukherjee, H. Saha

Simulation Modeling of BLDC Motor Drive and Harmonic Analysis of Stator Current, Rotor Speed and Acceleration using Discrete Wavelet Transform Technique .................................................. 666
Madhurima Chattopadhyay, Priyanka Roy, Sharmi Dutta
Design of Context Based Adaptive Variable Length Coding And Deblocking Filter for H.264 .................................. 671

H. N. Latha, M. Vasanthi Lakshmi, S. Ramachandran

Data Transmission Cost Evaluation of MLFFA – A Novel Multi-Level Federated Filter Architecture .............. 677

Boudhayan Bhattacharya, Sharmistha Bhattacharjee, Dwijesh Dutta Majumder

Green Communication- A Stipulation to Reduce Electromagnetic Hypersensitivity from Cellular Phone .................................................. 682

Neeraj Kumar, Raees A. Khan, Mohammad Y. Khan

Performance Analysis of Linear and Non-Linear Equalizer in Rician Channel .................................................. 687

Amit Agarwal, S. N. Sur, Arun Kumar Singh, Hemanth Gurung, Abhishek Kumar Gupta, R. Bera

Effective Load Distribution Algorithm Considering Power and Interference Mitigation in a Dense Femtocell Based Network ........................................... 692

Debasish De, Biplob Mahata, Satyasandar Jana

Performance Modeling of Energy Saving Mechanism Using Batch Operation in IEEE 802.16e .................. 698

V. Goswami, C. Misra

Energy Efficient With Secured Reliable Routing Protocol (EESRRP) For Mobile Ad-Hoc Networks ................... 703

R. Vadivel, V. Murali Bhaskaran

Design and Implementation of A New Location Management Scheme in Mobile Ad Hoc Network ......................... 708

Kuber Datt Gautam, Upen德拉 Verma, Vijay Prakash

Estimation of Software Development Effort from Requirements Based Complexity ........................................ 716

Ashish Sharma, Dharmender Singh Kashwaha

Performance Measures Modeling (PMM) in MANET ..................................................................................... 723

Pankaj Sharma, Ashok Kumar Sinha

Effects of Velocity on Performance of DYMO, AODV and DSR Routing Protocols in Mobile Ad-hoc Networks .......................................................... 727

Lakhan Dev Sharma, Nirmal Roberts

Relay Node Placement for Multi-Path Connectivity in Heterogeneous Wireless Sensor Networks ...................... 732

Deepak R. Dandekar, P. R. Deshmukh

An Efficient Forward Error Correction Scheme for Wireless Sensor Network ................................................ 737

M. P. Singh, Prabhat Kumar

The Effect of Speed Variation on Different Traffic Patterns in Mobile Ad Hoc Network .................................. 743

Arindra Pal, Jyoti Prakash Singh, Paramarth Dutta

Priority Based Call Admission Control Protocol for Videoconference Traffic in Wireless/Cellular Networks ................... 749

Kalpana Saha (Roy), Iiti Saha Misra

Development of Encapsulated Class Complexity Metric ................................................................................. 754

A. Yadav, R. A. Khan

Story Points Based Effort Estimation Model for Software Maintenance .......................................................... 761

Jitender Choudhari, Ugreasen Suman

New Database Architecture for Smart Query Handler of Spatial Database ...................................................... 766

Parbasarathi Boyal, Rituparna Chaki

An Empirical Validation of Understandability Quantification Model ............................................................... 772

Mohd Nazir, Raees A. Khan

Pair-wise Testing Using Simulated Annealing .................................................................................................. 778

Manishpati Patt, P. J. Nikumbh

Brototi Mondal, Kousik Dasgupta, Paramarth Dutta

Generation of Sql-injection Free Secure Algorithm to Detect and Prevent SQL-Injection Attacks .................. 790

Kanchana Natkarajan, Sarala Subramani

Fuzzy Frequent Pattern Mining from Gene Expression Data using Dynamic Multi-Swarm Particle Swarm Optimization .................................................... 797

Shruti Mishra, Debahuti Mishra, Sandeep Ku Satapathy

A New Meta-heuristic Bat Inspired Classification Approach for Microarray Data ........................................... 802

Sashikala Mishra, Kailash Shaw, Debahuti Mishra

CLPSO - Fuzzy Frequent Pattern Mining from Gene Expression Data ............................................................. 807

Shruti Mishra, Sandeep Ku. Satapathy, Debahuti Mishra

An Efficient Method of Vehicle License Plate Recognition Based on Sliding Concentric Windows and Artificial Neural Network ........................................................................ 812

Kausik Deb, Ibrahim Khan, Anik Saha, Kang-Hyun Jo

An Improved Canny Edge Detection Algorithm Based on Type-2 Fuzzy Sets ............................................. 820

Ranita Biswas, Jaya Sil

Optimization of Floor-Planning using Genetic Algorithm .................................................. 825

T. Singha, H. S. Dutta, M. De
Determination of Signal to Noise Ratio of Electrocardiograms Filtered by Band Pass and Savitzky-Golay Filters

Monisha Chakraborty, Shreya Das

Optimized Use of Solar Tracking System and Wind Energy

Paritosh Bhattacharya, Sabyasachi Mukhopadhyay, B. B. Ghosh, P. K. Bose

Real Time P and T Wave Detection from ECG using FPGA

H. K. Chatterjee, R. Gupta, M. Mitra

Imc Tuned Pid Governor Controller for Hydro Power Plant with Water Hammer Effect

K. Asit Naik, P. Srivasath, Pankaj Negi

A Smart Displacement Measuring Technique Using Linear Variable Displacement Transducer

K. V. Santhosh, B. K. Roy

Application of Framelet Transform in Filtering Baseline Drift from ECG Signals

Alarka Sanyal, Arijit Baral, Abhijit Lahiri

Mathematical Model Based Control System for Silicon Steel Mill of Rourkela Steel Plant

Ayan Goswami, Rajeev Kumar Singh, Ashit Prasad, Subhasis Chowdhuri

R-Peak Detection Algorithm for ECG using Double Difference And RR Interval Processing

Deboleena Sadhukhan, Madhuchhanda Mitra

Discrete Domain Analysis of Dexterous Hand Model by Simulation Aspect

Swati Banerjee, Soumyendu Bhattacharjee, Avishek Nag, Sreya Bhattacharyya, Biswarup Neogi
