Environmental Toxicology
Arsenic in Foodchain and Community Health Risk: A Study in Gangetic West Bengal
Toxicity on Anabas Testudineus: A Case Study of Sanitary Landfill Leachate
S.H. Fauziah, M.N. Izzati, P. Agamuthi............................................................................................................ 14
Growth Behavior and Physiological Characteristics of Chlorella Vulgaris in the Presence of Deicing Salt
H. Li, L. Li.................................................................................................................................................... 18
Adsorption and Desorption Characteristics of Arsenic on Soils: Kinetics, Equilibrium, and Effect of Fe(OH)₃ Colloid, H₂SiO₃ Colloid and Phosphate
Q. Feng, Z. Zhang, Y. Chen, L. Liu, Z. Zhang, C. Chen..................................................................................... 26
DNA Methylation Changes in Response to Sulfur Dioxide Stress in Arabidopsis Plants
H. Yi, L. Li..................................................................................................................................................... 37
Effects of Sulfur Dioxide and its Derivatives on the Functions of Rat Hearts and their Mechanisms
Q. Zhang, J. Tian, Y. Bai, Z. Yang, H. Zhang, Z. Meng..................................................................................... 43
A Study on the Effects of Alexandrium Minutum and Gymnodinium on the Embryonic Development of Sparus Macrocephalus
L. Li, X. Shen, Y. Wang, H. Jiang, M. Jiang...................................................................................................... 51
Silicon Mediated the Detoxification of Cr on Pakchoi (Brassica Chinensis L.) in Cr-contaminated Soil
X. Ding, S. Zhang, S. Li, X. Liao, R. Wang....................................................................................................... 58
Spraying Silicon and/or Cerium SolS Favorably Mediated Enhancement of Cd/Pb Tolerance in Lettuce Grown in Combined Cd/Pb Contaminated Soil
S. Li, S. Zhang, X. Ding, X. Liao, R. Wang....................................................................................................... 68
Effects of the Combined Pollution of Lead and Cadmium on Soil Urease Activity and Nitrification
J. Yan, G. Quan, C. Ding.................................................................................................................................... 78
Effect of Chloride Salts and Bicarbonate on Solubility of CaSO₄ in Aqueous Solutions at 37°C
Y. Zhang, Z. Yang, D. Guo, H. Geng, C. Dong............................................................................................... 84
Effect of HCl on Spectral Properties of Sulfur Dioxide and its Derivatives Dissolved in Water
Z. Yang, Y. Zhang, Q. Zhang, T. Pei, Z. Meng............................................................................................... 92
Single and Combined Cytotoxicity Research of Propiconazole and Nano-zinc Oxide on the NIH/3T3 Cell
S. Li, W. Song, M. Gao.................................................................................................................................... 100

Environmental Chemistry
Adsorption Behavior of Perfluorochemicals (PFCs) on Boehmite: Influence of Solution Chemistry
K. Shih, F. Wang............................................................................................................................................. 106
Spectro-chemical Analysis of the Speciation of Cadmium on Montmorillonite in the Presence of Soil Microbial Biomass
A. Spence, C. Robinson.................................................................................................................................... 114
Adsorption and Removal of Acid Red 3R from Aqueous Solution Using Flocculent Humic Acid Isolated from Lignite
D. Xu, C. Gu, X. Chen..................................................................................................................................... 127
Effects of Flooding and Ferrhydrite on Copper Fractionation in Paddy Soil
B. Liu, D. Qu, X. Chen, Q. Li, L. Peng............................................................................................................ 135
Influence of Cosolvents on Low Water-solubility Chemicals to Photobacterium phosphoreum in Acute Toxicity Test
Y. Dong, J. Wang, L. Ding, Y. Liu.................................................................................................................. 143
Limitation and Challenge Faced to the Researches on Environmental Risk of Nanotechnology
D. Yao, Z. Chen, K. Zhao, Q. Yang, W. Zhang............................................................................................... 149

Environmental Monitoring and Assessment
Indoor Radon Levels and Lung Cancer Incidence on Guam
G.R.W. Denton, S. Namazi............................................................................................................................. 157
Dispersion and Remobilisation of Heavy Metals in the River Severn System, UK
Y. Zhao, S.B. Marriott..................................................................................................................................... 167
Acoustic Equipment and ROV Investigations of Mercury Diffusion in Minamata Bay, Yatsushiro Sea, Japan
Computation of Societal Risk Abatement Cost and Long Run Marginal Financial Cost with Regard to Dioxin and Furan Emission Standards for Common Hazardous Waste Incinerator of India
S.D. Gouda, S.P. Kumar.................................................................................................................................... 182
Laser Wavelength and Pressure Dependence of Laser Breakdown Time-of-flight Mass Spectrometry
Y. Deguchi, Z.Z. Wang, J.J. Yan, J.P. Liu........................................................................................................ 192
# Contents

Effects of Operation Conditions on the Performance of the ASBR Methane Fermentation of Syrup Wastewater .......................... 427

S.H. Kwon, K. Nakasaki

Anaerobic Acidogenesis Biodegradation of Palm Oil Mill Effluent Using Suspended Closed Anaerobic Bioreactor (SCABR) at Mesophilic Temperature .......................... 433

Y.-S. Wang, T.T. Teng, S.-A. Ong, M. Norhashimah, M. Rafatullah, H.-C. Lee

Start-up Operation of Anaerobic Degradation Process for Palm Oil Mill Effluent in Anaerobic Bench Scale Reactor (ABSR) .................. 442

T.T. Teng, Y.-S. Wong, S.-A. Ong, M. Norhashimah, M. Rafatullah

Time Varying Toxicity of Effluents from the Electrochemical Oxidation of Phenol .......................... 451

G.L. Saylor, L. Chen, M.J. Kupferle

Influence on Sorption Property of Pb by Fractal and Site Energy Distribution of Sediment of Yellow River .......................... 464

H. Shi, Y. Sun, X. Zhao, B. Qu

Sorption of Perfluorooctane Sulfonate (PFOS) on Electropun Fiber Membranes .......................... 472

J. Xu, J. Niu, S. Zhang

Photocatalytic Degradation of Methyl Orange with Commercial Organic Pigment Sensitized TiO₂ .......................... 478

X. Shang, B. Li, T. Zhang, C. Li, X. Wang

Experimental Studies on Application of Potassium Ferrate for 3-methylphenol Removal from Solution in Laboratory .......................... 486

G. Wang, L. Feng

Ozonation and Carbon-assisted Ozonation of Methylene Blue as Model Compound: Effect of Solution pH .......................... 493

S. Zhang, D. Wang, S. Zhang, X. Zhang, P. Fan

Disinfection of E. coli Using Visible-light-driven Photocatalyst .......................... 503

Z. Fang, J. Yang, Y. Cao, L. Zhu, Q. Zhang, D. Shu, C. He

Photocatalysis and Rotating Dynamic Membrane Hybrid System with Fe-ZnIn₅S₄ Efficiently Removes 2,4,6-Trichlorophenol in Water: Effect of Dynamic Membrane .......................... 515

B. Gao, L. Liu, J. Liu, F. Yang

Degradation of Extracellular Polymeric Substances (EPS) in Anaerobic Digestion of Dewatered Sludge .......................... 522

X. Dai, F. Luo, L. Dai, B. Dong

A Study on the Reduction Behaviors of Cr(VI) on Fe₃O₄/PANI .......................... 528

R. Li, L. Liu, F. Yang

Oleophyl Polyurethane Foams for Oil Spill Cleanup .......................... 534

H. Li, L. Liu, F. Yang

Mineralization of 4-chlorophenol and Analysis of Bacterial Community in Microbial Fuel Cells .......................... 540

L. Huang, Y. Sun, Y. Liu, N. Wang

Effect of Different Plants on Azo-dye Wastewater Bio- Decolorization .......................... 547

X. Zhou, X. Xiang

Bi₂TiO₅₃ Synthesized by High Temperature Solid Phase Method and its Visible Catalytic Activity .......................... 554

L. Wang, W. Ma, Y. Fang, Y. Zhang, M. Jia, R. Li, Y. Huang

Variation of Dissolved Oxygen in the Experiments of Occurrence & Disappearance for Microcystis Bloom .......................... 559

Y. Huang, M. Chen

Effect of Deciling Salts on Ion Concentrations in Urban Stormwater Runoff .......................... 567

Y. Zhang, T. Sun, F. Li, J. Wang, K. Oh

Synthesis and Photocatalysis of AL Doped CdS Templated by Non-surfactant Hypocrellins .......................... 572

X. Yang, Z. Yan, L. Jiang, X. Wang, K. Zheng, Y. Wang, Q. Li, J. Wang

A Study of the Determination of Dimensionless Number and its Influence on the Performance of a Combination Wastewater Reactor .......................... 579

S. Ding, L. Liu, J. Xu

Influence of pH and Dissolved Organic Matter on Photolysis of Metsulfuron-Methyl .......................... 585

N. Song, D. Wang, Z. Shan, L. Shi

Removal Characteristics of Pollutants in Airlift Intermittent Circulation Membrane Bioreactor .......................... 592

J. Lin, H. Guo, J. Chen, Y. Li

Trichloromethane Formation Potential in Killing Algae with Chlorine Dioxide .......................... 597

S. Li, D. Zhao, S. Hu, Z. Wang, D. Li, X. Yuan, B. Xie

Removal of Red Tide Organism by a Novel Cationic Polymeric Flocculant .......................... 602

Y. Pang, Y. Ding, B. Sun

Carboxylesterase from Spodoptera litura: Immobilization and use for the Degradation of Pesticides .......................... 608

J. Diao, G. Zhao, Y. Li, J. Huang, Y. Sun

Enhancement of Catalytic Degradation of Rhodamine B Under Sunlight with Au Loading TiO₂ Nanotube Arrays .......................... 615

S. Sun, C. Chen, J. Sun, Q. Peng, K. Li, K. Deng

Effect of Additives on Photocatalysis of Cr(VI)-Methyl Orange .......................... 625

Y. Wang, L. Jiang, C. Feng

Status and Development of DDNP Wastewater Treatment .......................... 632

J. Zhai, Y. Wang

## Soil Pollution and Remediation

Microscopic and Macroscopic Properties of Soils Used as Means for the Interpretation of the Efficiency of Soil Remediation Technologies .......................... 638

C.D. Tsakiroglou, C.A. Aggelopoulos

Ex-Situ Soil Remediation by Cold Atmospheric Plasma Discharge .......................... 649

C.A. Aggelopoulos, C.D. Tsakiroglou, S. Ognier, S. Cavadias

Immobilization of Pb and Cd in Contaminated Soil Using Nano-Crystallite Hydroxyapatite .......................... 657

M. He, H. Shi, X. Zhao, Y. Yu, B. Qu

Health Risk Assessment on PAHs Contaminated Site–A Case Study in a Relocated Coke and Chemical Plant in Beijing .......................... 666

M. Zhong, L. Jiang, X. Jia, J. Liang, T. Xia, J. Yao
