Launch & Recovery of Manned and Unmanned Vehicles from Surface Platforms 2012

“Global Perspectives on Technology, Operations and Programs”

Linthicum, Maryland, USA
14-15 November 2012

ISBN: 978-1-62748-831-0
Wednesday, November 14

**Keynote Address:**
RDML Bruce Baffer, USCG; PEO and Director of Acquisition Programs

**L&R Expert Panel:** "Human Factors"
*Moderator:* Mr. Jim Colwell, Fourth Wave Hydronautics
*Panelists:*

*Human factors Engineering (HFE) Considerations for Safe Launch and Recovery of Boats* .....1
Ms. Dawn M. Gray, Lead Human Factors Engineer for Surface Assets, USCG

Mr. David Kellmeyer, Human Factors Engineer, SPAWAR

**Lunch Speaker:**
"Industry Developments Related to Launch and Recovery" .....36
Mr. Jaap Gelling, Damen Shipyards

**Technical Sessions 1**

**Technical Track 1: Surface**

*Moderator:* Mr. Stephen Minnich, NSWC Carderock

*At Sea Personnel Transfer System Between Large Vessels and Small Watercrafts* .....55
David Hart, Eric Hui, Matt Edwards, Gib Lovell (ATR Corporation), Frank Leban (NSWC Carderock Division, Code2120)

*The In Situ Refueling System* .....62
Scott M. Petersen, Robert J. Galway, Lawrence J. Michelon (NSWC Carderock, C232, Systems Design and Integration Branch), Donald B. Harris (CDI Marine)

*Launch and Recovery of Small Unmanned Surface Vehicles at Sea* .....68
Donald B. Harris (CDI Marine), Robert J. Galway (NSWC Carderock, C232, Systems Design and Integration Branch)

**Technical Track 2: Subsurface**

*Moderator:* Mr. Thomas Sherman, Johns Hopkins Applied Physics Laboratory

*UUV Docking and Recharging Station: Demonstration Results and Next Steps* .....76
Brad Thomas, John Labosky, Rich Granger (Battelle), Steve Somlyody, Jeff Smith
(Bluefin Robotics)

*Active Automated UUV Docking with a Slowly Moving Submarine* .....86
George D. Watt (Defence Research and Development Canada)

*Development of Two Active Autonomous Dock Concept for UUV Recover with a Slowly Moving Submerged Submarine*.....97
Jason Currie, Colin Gillis (Department of Mechanical Engineering, University of New Brunswick)

**Technical Sessions 2**

**Technical Track 1: Surface**

**Moderator:** Mr. Peter van Terwisga, Damen Shipyards

*In Situ Launch and Recovery* .....109
William M. Teppig Jr. (AEPLOG, Inc)

*Certification of Launch and Recovery Systems: The Classification Society Perspective* .....116
Roy Thomas, John (Dave) Forsyth (ABS)

**Technical Track 2: Launch and Recovery of Small Boats and Mission Vehicles on U.S. Navy Surface Ships – Open Discussion**

**Moderator:** Mr. John Bednarek, NAVSEA

*US Navy’s Small Boat & Mission Vehicle Handling Systems*
Mr. John Bednarek, NAVSEA

**Thursday, November 15**

*Launch and Recovery DDG 1000 and More* .....159
**Speaker:** Mr. Andy Summers, former Ship Design Manger for Technology Development, DDG 1000

**Technical Sessions 3**

**Technical Track 1: Air**

**Moderator:** CAPT Murray R. Snyder, USN (Ret.); U.S. Naval Academy
Simulation Developments to Support Analytic Launch and Recovery Envelope Prediction .....168
Dr. Robert M. McKillip, Jr. (Continuum Dynamics, Inc)

Rotary Wing Aircraft UUV Launch and Recovery .....177
Paul T. Essig, Jr. (Concurrent Technologies Corporation)

Fire Scout Shipboard Launch and Recovery Innovation .....186
Dr. Bernard Ferrier (Hoffman Engineering Corp), Dr Robert Ernst (NAWC Patuxent River), David Eccles (NAVAIR PMA 266)

Freedom Class (LCS 1) Littoral Combat Ship launch and Recovery Handling System - Lessons Learned .....195
Jimmy Johnson (Lockheed Martin MS2)

Technical Track 2: Operations

Moderator: CAPT George Lesher, USCG

The Unmanned Little Bird (ULB) Decking Risk Reduction Test Approach .....202
Dino Cerchie, Mark Hardesty, Roger Hehr, Jason Graham (The Boeing Company)

Comparative Stern Launch and Recovery Performance for Patrol Boats and Frigate-Size Ships .....209
Frank DeBord, William Thomas, Eric Schmid (USCG Surface Forces Logistics Center, Engineering Services Division)

NSWC Panama City Division (PCD) Launch and Recovery Systems .....219
Amanda Mackintosh, Robert P. Gibson (NSWC Panama City)

U.S. Coast Guard Cutter Boat Acquisitions Launch and Recovery Requirements and Lessons Learned .....235
Diane Burton, LCDR Eric Matthies, USCG, Hemant Bhayde

Technical Track 3: Surface Design

Moderator: Mr. Rubin Sheinberg, (Ret.); U.S. Coast Guard

Real Time Modeling and Dynamic Simulation of a Folding Crane .....242
James Diaz-Gonzalez, Baldwin Britton, Edward Jones (BMT Designers & Planners Inc.)

Design and Assessment of a Stern L&R System on a Frigate .....278
Francesco Conti, Luca Mana (Fincantieri Naval Vessel Business Unit), Danilo Ruscelli (Cetena, Italian Ship research Centre)
Systematic Model Tests for the Development of a Standardized Launch and Recovery System .....297
Nicholas Carette (MARIN), Andy Peters (QinetiQ)

An Operational Perspective of Launch & Recovery for USCG Patrol Craft .....318
Malcom Willis P. E., Allen Harker, March Schwender, LCDR Brook Sherman USCG

L&R Capstone Panel: "Operations"
Moderator: Mr. Chris Cleary, U.S. Coast Guard
Panelists:

An Operational Perspective of Launch & Recovery for USCG Patrol Craft .....326
Mr. Malcolm Willis, Naval Architect, Surface Forces Logistics Center, USCG

Technical Sessions 4

Technical Track 1: Air Wakes and Weather

Moderator: Dr. Bernard Ferrier, Hoffman Engineering

Validation of Ship Air Wake Simulations and Investigation of Ship Air Wake Impact on Rotary Wing Aircraft .....333
CAPT Murray R. Snyder, USN (Ret.), PhD (Aerospace Engineering Department, U.S. Naval Academy)

Study of Passive Flow Control for Ship Air Wakes .....361
MIDN Nicholas R. LaSalle, USN (U.S. Naval Academy)

Small UAV Ship Airwake Analysis – A Case Study .....371
Susan Polsky, Dave Hine (NAVAIR)

Extending UAV Operating Envelopes .....383
James McCallum, P.E. (INDAL Technologies)

Technical Track 2: Subsurface and Surface

Moderator: Dr. Roy Samras, The McHenry Management Group

Unmanned Systems (UMS) Integration Study for Joint Support Ship (JSS) .....392
LCDR Robert D’Eon (Royal Canadian Navy), Amir Abdelsalam, Ryan Mortimer (NSWC Carderock)
Reducing Operational Risk – Our Brand Vision is to Reduce Risk .....444
Henrich Henriksen (H.Henriksen)

Design of an Unconventional Autonomous Surface Vessel for Underwater Vehicle Recovery .....464
Stefano Brizzolara (Massachusetts Institute of Technology)

Technical Track 3: Surface Forecasting

Moderator: Mr. William Thomas, US Coast Guard

Defense and Maritime Solutions .....472
Daniel Liut, Dr. Sheguang Zhang, Kenneth Weems (SAIC)

Mitigation of USV Motions via Wave Sensing and Prediction .....488
Robert Morvillo, Edmund Roessler (Vector Controls Inc.)

A Comparative Analysis of Personal Electronic Devices as Data Acquisition Systems .....498
Dr. Leigh McCue (Virginia Tech)

Simulation of Small Boat Launch and Recovery from a Ship With a Crane .....507
Kevin McTaggart (Defence Research and Development Canada), André Roy, Dean Steinke, Ryan Nicoll (Dynamic Systems Analysis), Doug Perrault (Defence Research and Development Canada)
